NOTE: Images shown with cardstock in appliqué areas. Cardstock not included.

Pre-Cut Appliqué Instructions

1. Print out the necessary pages from the PDF of the appliqué pattern(s).
2. Mark the right side of the pattern pieces so you'll know which direction to lay the pattern on the fabric.
3. Lightly spray the wrong side of the pattern pieces with temporary adhesive spray and allow it to set for a few minutes.
4. Place the pattern pieces on the right side of the fabric and carefully cut them out. **PHOTO 1**
5. Sew the placement stitch on your hooped fabric. **PHOTO 2**
6. With the paper still stuck to the right side of the appliqué fabric, spray the wrong side of the fabric with temporary spray adhesive.
7. Place the fabric inside the sewing placement stitch so that it matches the stitching line then remove the paper pattern. **PHOTO 3**
8. Sew the tackdown. **PHOTO 4**
9. Sew the remainder of the design and repeat for any remaining pieces. **PHOTO 5**

NOTE: The patterns are sized for the designs as they were made. If you resize the design, you will need to resize the pattern the same amount. You can print out the pattern at the normal size then copy it on a copy machine at the changed size, i.e. resize the designs to 80%, resize the printed pattern to 80%.

TIP: When Printing the patterns, make sure that the "Fit to page" option is UNCHECKED in the Print Dialog Box. If this option is checked the printed patterns will not be actual size.

This collection may be stitched on paper or fabric. Below are some handy tips for stitching on paper or cardstock.

Guidelines for Stitching on Paper

Paper Choice

- There are many types of cardstock and scrapbooking paper available. ALWAYS test your paper choice.
- The more “fabric-like” the paper, the easier it will be to embroider.
- Mulberry paper is an easily found and versatile paper that has the distinction of having feathering edges when wet and torn. It is one of the best papers to embroider on as it has a high fiber content. It is available in many colors and is also available as a double sided paper featuring 2 coordinating colors. Mulberry papers are widely found on websites as well as at many national arts and crafts stores.
- Cardstock is another paper that can be embroidered on. The textured ones are fun and add variety to the project. Plain colored cardstock works well also for a simpler look. Cardstock is readily available in many colors and styles.
- Handmade papers are another excellent choice for embroidery. Some of these papers have extra texture created by threads, leaves or seeds and can be embroidered on as long as these fibers are not too thick or stiff. Handmade papers are available through different venues, such as craft stores, scrapbooking stores and websites. Many websites specialize in handmade papers.
- Experiment with the many different types of papers that are available and enjoy making your own embroidered cards!

Needle Choice

- Use a fine sharp embroidery needle. Size 65/9 is recommended for best results.

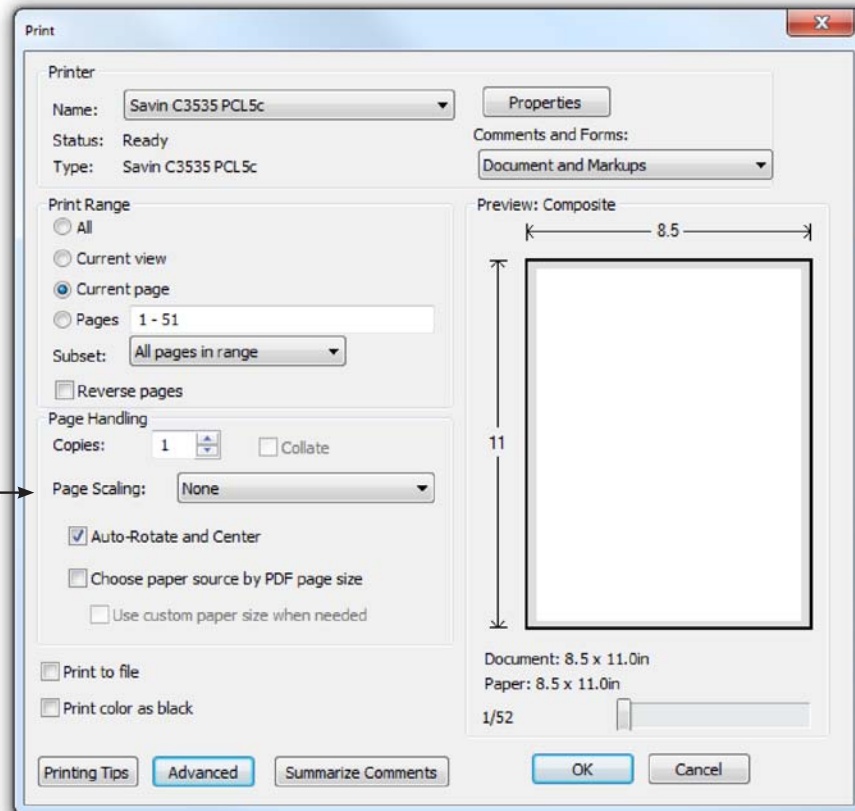

Thread Choice

- Polyester Embroidery Thread is ideal for embroidering on paper.
- Try using Multi-Color Thread to add interest.

Note: If your embroidery machine has an automatic thread cutter, it is best to turn this feature off when stitching on paper.

ATTENTION

When printing this document, any page scaling or page fitting options in your print dialog box must be turned OFF or set to NONE so that your files will print out at their actual size. Images not printed at actual size will not function as intended.

TO SAVE PAPER

Only print the desired image by navigating to the image's page, go to File > Print and select "Current page" in the print dialog box. Repeat for each desired image.
