Modern Athletic Appliqué Technique for Go Team Go!

1. Hoop your base fabric or project with the appropriate stabilizer. (If using a fleece or jersey fabric, use a layer of cut-away stabilizer.)
2. Cut two pieces of jersey knit fabric or fleece fabric in your team colors. (Old t-shirts and sweatshirts are a great source for these scraps.)
 - a. Cut fabric 5.5 by 7.5 if sewing a team name.
 - b. Cut fabric 3.5" square if sewing a sports ball.
3. Lightly spray the back of each of your pieces of fabric with temporary adhesive spray. Layer your fabrics onto the area to be embroidered, centering them over where the center of your design will be. See **Photo 1**.

4. Stitch your design.
5. Trim the appliqué fabrics around the embroidery design. Trim the top layer first (about 1/4" away from the stitching), then trim the bottom layer, making the bottom layer slightly larger than the top layer. See **Photo 2**.

You can also choose to leave the bottom layer larger and cut a “fringe” around it. See **Photo 3**.

You can choose whether to trim away fabrics within the lettering (such as inside an “o”) or leave them intact. Just be careful not to accidentally cut your base fabric!
