**Note:** Colors listed above are for 40 weight Isacord polyester thread. However, this design collection is created for use with a 30 weight cotton embroidery thread. Cotton thread will give you the most authentic look, and will best showcase the unique stitch types in this collection. Polyester thread may be used, but the results will vary from those pictured.

### Whitework Throw Pillow

#### Supplies

OESD Embroidery Collection #12428 Whitework

1 yard solid fabric for pillow front and back

Two 200m cones Mettler 100% cotton embroidery thread No. 30, color 0512

Water soluble marker or tailor's chalk

One 12" pillow form

#### Cut and Embroider

- Cut two 13" x 14" pieces of fabric for the back, set aside.
- Cut a 15" piece of fabric which will ultimately become the center of the pillow. Using a water soluble marker or tailor's chalk, draw a 9" square in the center of this 15" piece of fabric. Embroider desired designs within this drawn 9" square. Refer to **Diagram A** for design placement of our sample.
- Cut four pieces of fabric to 16" x 8" and embroider two connected borders (design 12428-32). Make sure that the scalloped edge of each border has 4"- 5" of excess fabric. **Photo 01**

#### Construction

##### Step 1: Piece the Top.

- Draw a line along the top of your completed center embroidery to define the top edge.
- Draw a second line 9" below the first drawn line to define the bottom edge. **Photo 02**
- Lastly, draw vertical lines along each side, 9" apart to define the side edges.
- With right sides together, pin the embroidered top edge to the center section. Stitch in place, stitching just under the embroidered edge. Use your drawn lines to aid in lining up properly.
- Cut off excess fabric to form a 1/2" seam allowance. Flip top edge over and press seam open. **Photo 03**

- With right sides together, pin the embroidered bottom edge to the center sections. Stitch in place, stitching just under the embroidered edge. Use your drawn lines to aid in lining up properly.
- Cut off excess fabric to form a 1/2" seam allowance. Flip bottom edge over and press seam open. **Photo 04**
- Repeat this process and attach both the right and left side borders. Make sure to line up corners.
- Trim 2" from seam lines all the way around to create a finished 13" pillow top. Set aside. **Photo 05**

### Step 2: Create the Pillow Back.

- Fold each 13" x 14" piece of back fabric in half to create two 13" x 7" folded pieces. Iron fold.
- Stitch down each folded side 1" from fold. **Photo 06**
- Attach a closure to each back side piece. You can use either 2" of hook and loop tape (do not use hook and loop tape with adhesive on it as the adhesive is very tacky and will quickly gum your needle) or a button and buttonhole as we have used. **Photo 07**

### Step 3: Sew the Pillow Front & Back together.

- To create perfect corners;
  - Turn pillow inside out.
  - On wrong side of front piece, mark  $\frac{1}{2}$ " from each corner, intersecting the lines from each side. **Photo 08**
  - Measure the side of the pillow (13" in this case) and divide by 4. 13" divided by 4 equals  $3\frac{1}{4}$ ". Mark  $3\frac{1}{4}$ " from each corner.
  - Draw a line from where the  $\frac{1}{2}$ " marks intersect to  $3\frac{1}{4}$ " mark on each corner. **Photo 09**
- Pin pillow front to pillow back with right sides together.
- Using a  $\frac{1}{2}$ " seam allowance, stitch the pillow front to the pillow back, stitching  $\frac{1}{2}$ " from the edge, and the drawn lines in each corner. Stitching in this shape will prevent floppy, empty corners after inserting pillow form.
- Trim corners along drawn lines and turn right side out.
- Insert pillow form.
