Pre-Cut Appliqué Instructions

1. Print out the necessary pages from the PDF of the appliqué pattern(s).
2. Mark the right side of the pattern pieces so you'll know which direction to lay the pattern on the fabric.
3. Lightly spray the wrong side of the pattern pieces with temporary adhesive spray and allow it to set for a few minutes.
4. Place the pattern pieces on the right side of the fabric and carefully cut them out. **PHOTO 1**
5. Sew the placement stitch on your hooped fabric. **PHOTO 2**
6. With the paper still stuck to the right side of the appliqué fabric, spray the wrong side of the fabric with temporary spray adhesive.
7. Place the fabric inside the sewing placement stitch so that it matches the stitching line, and then remove the paper pattern. **PHOTO 3**
8. Sew the tackdown. **PHOTO 4**
9. Sew the remainder of the design and repeat for any remaining pieces. **PHOTO 5**

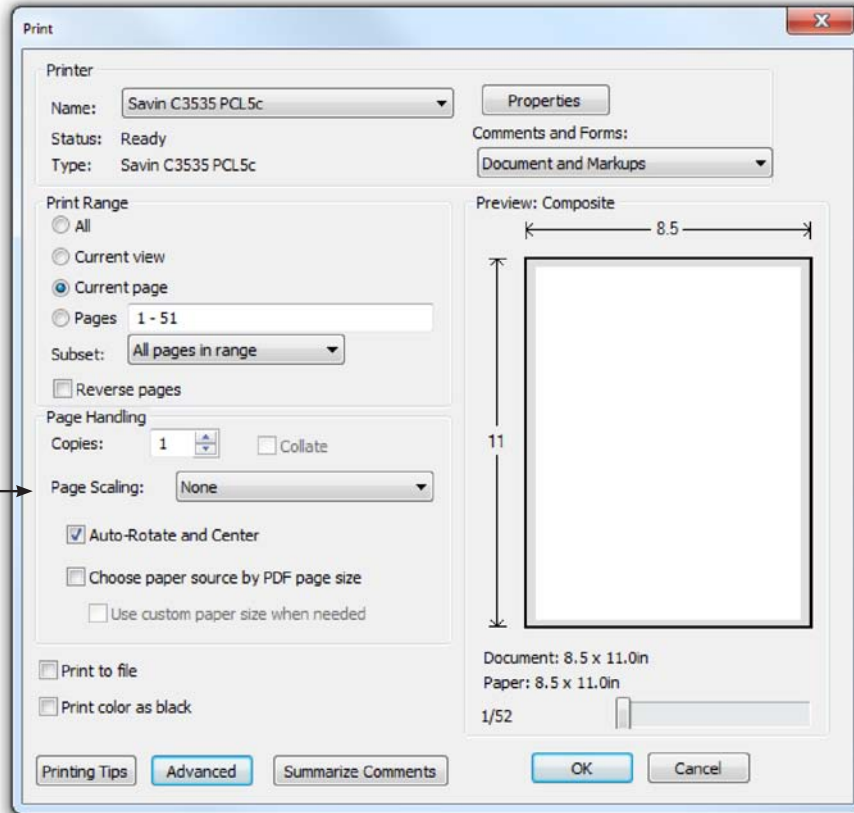

NOTE: The patterns are sized for the designs as they were made. If you resize the design, you will need to resize the pattern the same amount. You can print out the pattern at the normal size then copy it on a copy machine at the changed size. For example, resize the designs to 80%, resize the printed pattern to 80%.

TIP: When Printing the patterns, make sure that the “Fit to page” option is **UNCHECKED** in the Print Dialog Box. If this option is checked the printed patterns will not be actual size.

ATTENTION

When printing this document, any page scaling or page fitting options in your print dialog box must be turned OFF or set to NONE so that your files will print out at their actual size. Images not printed at actual size will not function as intended.

TO SAVE PAPER

Only print the desired image by navigating to the image's page, go to File > Print and select "Current page" in the print dialog box. Repeat for each desired image.

12463-01
Front Cover

12463-12
Back Label

SUPPLIES:

- OESD Non-Licensed Collection #12463 “Ladybug Love 3-D Book”
- Ten 10" x 12" pieces of black fabric for pages
- Two 12" x 12" pieces of fabric for the front and back cover
- One 14" x 3.25" piece of fabric for the pocket on the back cover
- One 2.5" x 10" piece of fabric for handle
- Two 3.5" x 8.5" pieces of fabric for book spine
- Temporary spray adhesive
- Medium weight tear-away stabilizer
- Twelve 7.5" x 7.5" squares of fusible lightweight fleece

MARK & EMBROIDER THE FABRIC

- Find and mark the center of all of the hoop-sized pieces of fabric for the pages and covers.
- Lightly spray one layer of medium weight tear-away stabilizer with temporary spray adhesive and adhere to wrong side of fabric.
- Hoop the fabric and stabilizer as one and attach the hoop to the machine.
- Select and embroider one of the designs from the collection.
- Remove the hoop from the machine and the fabric from the hoop.
- Carefully tear away excess stabilizer from the back.
- Repeat the above instructions until there are ten book pages, a front cover and back cover.
- Use your machine’s lettering feature or embroidery software to personalize design number 12463-12, which is the back cover.

CUT DOWN PAGES

- Create a template by taking a piece of vellum, tracing paper or thin tear-away stabilizer and cutting it to 9" x 8".
- Draw a line 1.25" from the left side; this will be your spine.
- Draw a line 5" from the left side; this will be the vertical center of your embroidery.
- Draw a line 4" from the top; this will be the horizontal center of your embroidery.
- Finally, draw a line 1/4" from the bottom, right side and top. These will be your seam allowances. **See Photo 1**
- Lightly spray one side of your template with temporary spray adhesive and lay over the front cover with the spine to your left. Center the embroidery within the marked center and cut embroidered cover to size of template. You can cut using a rotary cutter and ruler or use a chalk pencil to trace the template then cut with scissors. **See Photo 2**

Hint: If your template material is difficult to see through, simply cut a 1" slit in the vertical and horizontal center of your template and cut out a triangle on opposite corners. This will allow you to easily see your embroidery, ensuring accuracy when centering the template on the embroidery.

Photo 1

Photo 2

- Repeat for 12463-03 And Smiles on Bugs, 12463-05 And Walks So Slow, 12463-07 And Helping the Ants, 12463-09 And Butterflies and 12463-11 Goodnight Ladybug Goodnight.

Hint: If needed, lightly re-spray your template with temporary spray adhesive before cutting each page to keep it in place.

- Set these cut pieces aside.
- **Have the spine of the template facing to the right** and repeat for the remaining pages 12463-02 Ladybug Loves Hugs, 12463-04 Colors That Grow, 12463-06 She Loves the Plants, 12463-08 She Loves the Sky and 12463-10 Ladybug Love is Good and Right.
- Do not cut the back cover down at this time.

CREATE AND ATTACH THE POCKET TO THE BACK COVER

- Fold the two short ends of the 14" x 3.25" piece of pocket fabric in 1/2" and press.
- Fold the piece of fabric in half with right sides together and turned under edges matching, creating a 6.5" x 3.25" rectangle. **See Photo 3**
- Stitch down both long edges using a 1/4" seam.
- Clip corners, turn right side out and press.
- Position rectangle under the embroidery of the back cover and pin in place. The short end with a folded edge should be on your right.
- Stitch in place by edge stitching close to the edge of the pocket on the top, left side and bottom. Leave the right side open to act as a pocket to store your 3-D glasses. **See Photo 4**
- Finally, use the template from previous steps to cut down the back cover keeping the spine of the template to the right.

Photo 3

CONSTRUCT THE BOOK

- Lay a 7.5" x 7.5" square of fusible lightweight fleece over the wrong side of each page with the fusible side of the fleece facing the wrong side of the fabric. Center this piece over the embroidery, staying out of the seam allowances and the spine. **Photo 5**
- Iron to permanently fuse.
- Place the pages in sets in the following order with right sides together and pin along top, bottom and non-spine side.
 - o Front Cover / Ladybug Loves Hugs
 - o And Smiles on Bugs / Colors That Grow
 - o And Walks So Slow / She Loves the Plants
 - o And Helping the Ants / She Loves the Sky
 - o And Butterflies / Ladybug Love is Good and Right
 - o Goodnight Ladybug Goodnight / Back Cover with Pocket
- Stitch each set together along the top, bottom and non-spine side using a 1/4" seam allowance. Leave the spine unstitched.
- Clip corners and turn right side out and press under a pressing cloth (It's never a good idea to place iron directly on your embroidery stitches).
- Put the pages in order and line up edges nicely. Baste all pages together along the unstitched spine edge.

Photo 4

Photo 5

CREATE AND ATTACH THE HANDLE AND SPINE

- To create the handle, fold the 2.5" x 10" piece of fabric in half with right sides together to create a 1.25" x 10" rectangle and stitch along the raw, long side using a 1/4" seam. Press the seam open making sure to keep it centered. See **Photo 6**
- Turn to the right side and press.
- Fold both of the 3.5" x 8.5" pieces of spine fabric in half with wrong sides together to create two rectangles measuring 1.75" x 8.5". Press.
- Align the ends of the handle on raw, long side of one 1.75" x 8.5" piece of fabric for the spine. Place 1" from each end and slightly up from the raw, bottom edge. (Be sure handle is not twisted) Baste in place. See **Photo 7**
- Place remaining 1.75" x 8.5" piece of spine fabric on top of first piece of fabric (handle will be sandwiched between the two pieces). Raw edges of spine fabric will be together, folds of spine fabric will be together with the handle sticking out between them.
- Pin along long, raw edge and both short sides.
- Stitch a 1/4" seam allowance along the three raw, pinned edges.
- Clip corners, turn right side out and press.
- Insert the raw edges (spine side) of the book pages into the open side of the spine/handle combination.
- Stitch through all layers along the folded edge making sure to catch the back edge as well. A wide zig-zag stitch using a jeans needle is recommended. See **Photo 8** (zig-zag in photo is digitally enhanced to make it more visible).
