Supplies for One Block:

- 14" square of background fabric (will be trimmed to 10.5" square when complete)
- Scraps for applique
- 14" square of batting
- 14" square of cut-away mesh (fusible, or used with temporary adhesive spray)
- Temporary adhesive spray
- Temporary marking pen

Photo 1

Photo 2

Instructions:

1. Print the template for the block you want to create. **(Photo 1)**.
 2. Lightly spray your batting with temporary adhesive spray. Center fabric over your batting.
 3. Lightly spray your mesh cut-away stabilizer with temporary adhesive spray and add to the back of your batting. You now have a quilt "sandwich".
 4. Mark the center of your 14" square with a temporary marking pen. **(Photo 2)**.
 5. Print your template for the desired block. Cut or punch a small hole at each design centerpoint.
 6. Align the "center" mark on the template with your marked center on your 14" square. Pin in place if needed. **(Photo 3)**.
 7. Mark the center of each design onto your fabric. **(Photos 4-6)**
- **NOTE:** You may find it helpful to mark the design numbers and orientation of each design.

Photo 3

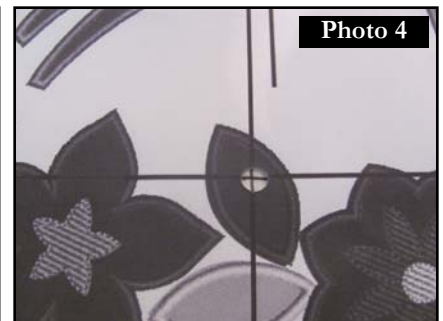

Photo 4

Photo 5

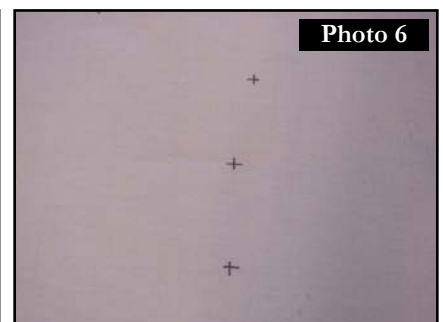

Photo 6

8. Hoop your fabric, batting, and stabilizer together as one, centering the marked centerpoint of your first design in the center of your embroidery hoop. **(Photo 7)**.
9. Place the hoop onto the machine and select the appropriate design. Check your design position, using your machine's functions to adjust the design's position in the hoop as needed. **(Photos 8 and 9)**
10. Stitch the design, following included instructions for machine appliqué. You may choose to pre-cut your appliqué pieces, or trim them in place. **(Photo 10)**
11. When the design is complete, remove hoop from machine. **(Photo 11)**
12. Remove the fabric from hoop. Re-hoop your square, centering your next marked centerpoint in the center of your embroidery hoop. Be sure to orient the fabric correctly according to the orientation of the design noted on the centerpoint sheet. **(Photo 12)**
13. Place hoop on the machine and select the appropriate design. Check your design position, using your machine's functions to adjust the design's position in the hoop as needed. **(Photos 13 and 14)**.
14. Remove your fabric from your hoop and trim any jump stitches. **(Photo 15)**
15. Remove any markings. Press your block from the backside. Trim your block to 10.5" square, making sure the finished appliqué remains in the center of the block as you trim.

Suggested Layout:

1. Print out the necessary pages from the PDF of the appliqué pattern(s).
2. Mark the right side of the pattern pieces so you'll know which direction to lay the pattern on the fabric.
3. Lightly spray the wrong side of the pattern pieces with temporary adhesive spray and allow it to set for a few minutes.
4. Place the pattern pieces on the right side of the fabric and carefully cut them out. **PHOTO 1**
5. Sew the placement stitch on your hooped fabric. **PHOTO 2**
6. With the paper still stuck to the right side of the appliqué fabric, spray the wrong side of the fabric with temporary spray adhesive.
7. Place the fabric inside the sewing placement stitch so that it matches the stitching line, and then remove the paper pattern. **PHOTO 3**
8. Sew the tackdown. **PHOTO 4**
9. Sew the remainder of the design and repeat for any remaining pieces. **PHOTO 5**

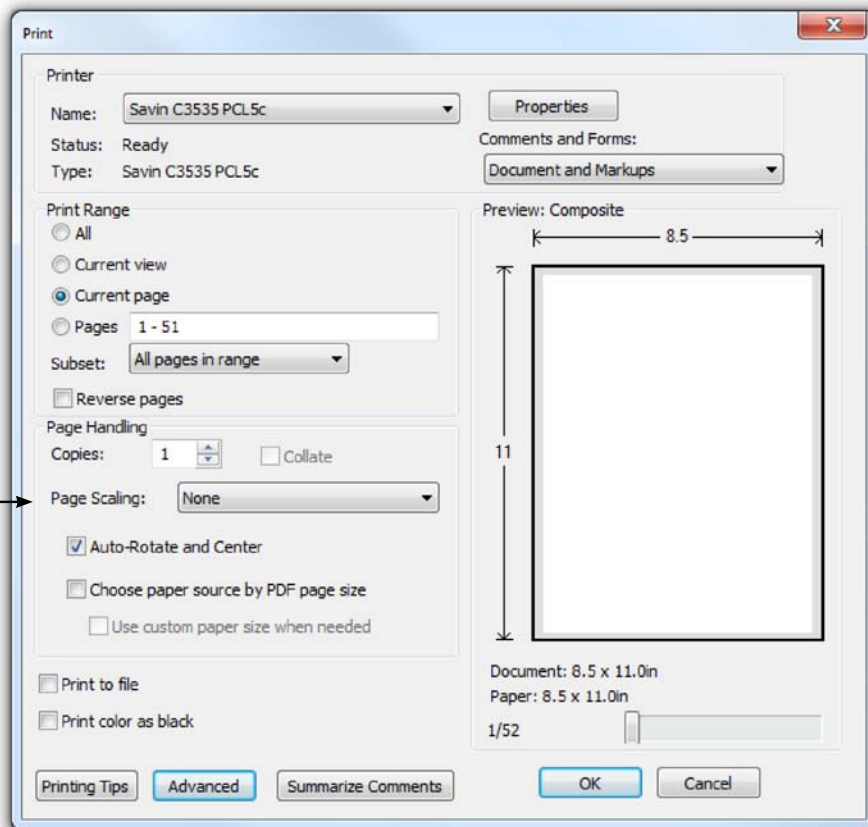

NOTE: The patterns are sized for the designs as they were made. If you resize the design, you will need to resize the pattern the same amount. You can print out the pattern at the normal size then copy it on a copy machine at the changed size. For example, resize the designs to 80%, resize the printed pattern to 80%.

TIP: When Printing the patterns, make sure that the “Fit to page” option is **UNCHECKED** in the Print Dialog Box. If this option is checked the printed patterns will not be actual size.

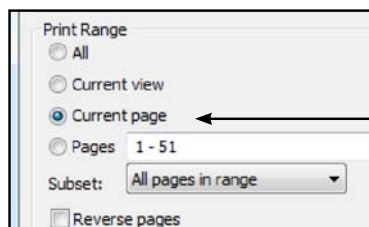

ATTENTION

When printing this document, any page scaling or page fitting options in your print dialog box must be turned OFF or set to NONE so that your files will print out at their actual size. Images not printed at actual size will not function as intended.

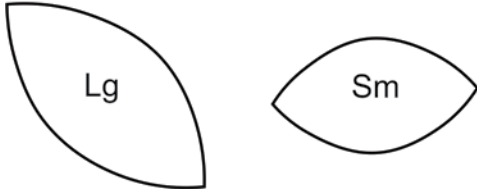

TO SAVE PAPER

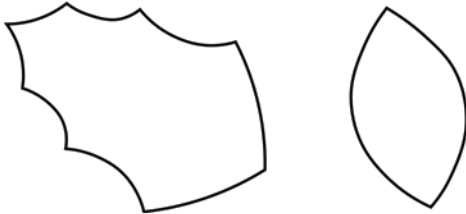

Only print the desired image by navigating to the image's page, go to File > Print and select "Current page" in the print dialog box. Repeat for each desired image.
