### Foxy Front (#12546-02) Instructions

- Hoop tear away stabilizer.
- Stitch the first stitch which is the Head Placement Stitch.  
**PHOTO 7**
- Place the fox face fabric over the Head Placement Stitch right side up. **PHOTO 8**
- Stitch the next color change called White Face and Ears Placement Stitch. It will stitch the placement line for placing the white fabric for the face and ears. **PHOTO 9**
- Place the white fabric over the placement stitch right side up. Stitch the next color called White Face and Ears Cut Line and Tackdown. **PHOTO 10**
- Carefully cut away the excess appliqué fabric.
- Continue stitching out the design, stopping before the last color change.
- For the ring tab, fold ribbon in half with the metal key ring placed in the center of the fold. **TIP:** Spray temporary spray adhesive to the ends of the ribbon for it to stay in place.
- Place the ring tab, in the center of the ears with raw edges of ribbon about 1/4" from the top edge of the face fabric. **PHOTO 11**
- Right sides together, place back zippered section over face section. Stitch the final stitch called Seam Stitch and make sure the tab is stitched. This will stitch the sections together. **NOTE:** Make sure the zipper is open halfway so the embroidery foot has plenty of room. Recommend slowing down the embroidery machine when stitching. May want to also spray temporary spray adhesive on the corners of the back so that it doesn't shift when stitching the Seam Stitch. **PHOTO 12**
- Remove the pouch from the hoop and trim excess stabilizer and fabric about 1/4" from Seam Stitch. Trim the stabilizer from the zipper before turning right side out. **PHOTO 13**
- Turn right side out. Press. **PHOTO 14**
- Have fun with your completed Foxy Zipper Pouch!
