0138 Heavy Storm	4174 Charcoal
0904 Spanish Gold	

FSA - Freestanding Appliqué

FSL - Freestanding Lace

## General Freestanding Appliqué Guidelines

### Supplies:

#### Embroidery Thread:

- Use the same embroidery thread in the bobbin as the needle.

#### Needles:

- Use an Organ 80/12 Titanium needle for extended needle life.

#### Stabilizer:

- Use water-soluble stabilizer or film water-soluble stabilizer.

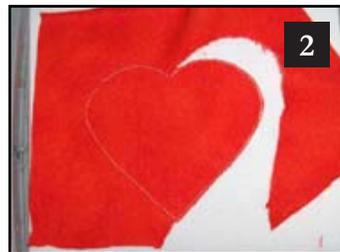

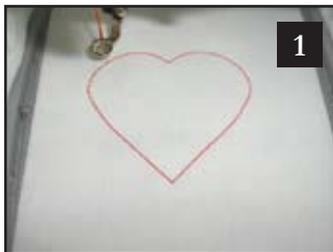

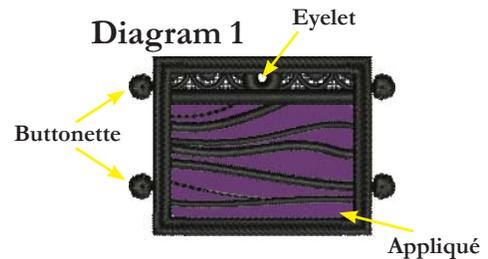

### General Appliqué Instructions

1. Hoop two layers of water-soluble stabilizer.
2. Attach the hoop to the machine and select the design of your choice.
3. Stitch the Placement Stitch. **Photo 1**
4. Place a piece of appliqué fabric over the Placement Stitch so that it is completely covered.
5. Stitch the Cut Line & Tackdown Stitch.
6. Carefully cut away the excess appliqué fabric. **Photo 2**
7. Stitch the remainder of the design and repeat for any remaining pieces. **Photo 3**
8. Remove the hoop from the machine and the design from the hoop.
9. Trim excess stabilizer from the design.
10. Rinse away remaining stabilizer and allow it to dry.

### Handy Hints

#### For 3D Appliqué Projects:

- Adhere 2 layers of heavy weight stabilizer to the back of fabrics with temporary adhesive spray **BEFORE** hooping or placing down for tackdown and cut in place. This gives fabric a more rigid structure.
- A pair of tweezers, hemostats, stiletto or a tiny crochet hook can be extremely helpful when inserting the buttonettes into the eyelets. (See **Diagram 1** for explanation of “buttonette” and “eyelet”.)
- Insert the tip of the tweezers, hemostats or crochet hook into the eyelet, grasp the buttonette and pull through the eyelet. Or a stiletto could be used to push the buttonette through the eyelet.

### General Freestanding Lace Guidelines

#### Supplies:

##### Embroidery Thread:

- Use the same embroidery thread in the bobbin as the needle.

##### Needles:

- Use an Organ 80/12 Titanium needle for extended needle life.

##### Stabilizer:

- Use water-soluble stabilizer or film water-soluble stabilizer.

#### Handy Hints:

##### For Stiffer Lace:

- DO NOT rinse away all of the stabilizer for a “stiffer” lace. Note that the thread may appear a shade darker if stabilizer is not removed completely.
- If you happen to wash too much out, easily re-stiffen by diluting some stabilizer scraps in water and dipping the item in the solution.

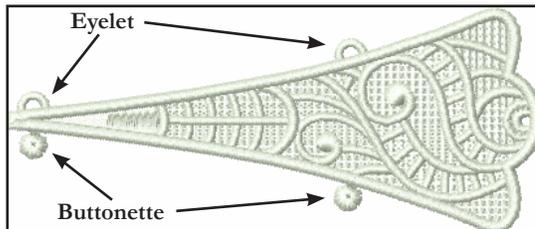

##### For Very Soft Lace:

- Cut away excess stabilizer. Remove remaining stabilizer by rinsing under warm running water until all traces of the stabilizer are gone. **Note:** If lace should become too limp to work with, dissolve stabilizer scraps in warm water and apply to the lace.

##### Drying Lace:

- The lace looks best when left to dry completely. Lay lace piece with right side down to dry. This will minimize the tendency for the lace to curl. Be sure to flatten the piece out entirely and allow ample time to dry.

Diagram 1

#### General Instructions

1. Hoop two layers of water-soluble stabilizer.
2. Attach the hoop to the machine and select the design of your choice.
3. Stitch the design.
4. Remove the hoop from the machine and the design from the hoop. Trim excess stabilizer from the design.
5. Rinse away remaining stabilizer and allow it to dry.

#### Handy Hints:

##### For 3D Lace Projects:

- Adhere 2 layers of heavy weight stabilizer to back of fabrics with temporary adhesive spray **before** hooping or placing down for tackdown and cut in place. This gives fabric a more rigid structure.
- Rinsing out lace with very hot water can cause wrinkles in some fabrics after it has been embroidered. To prevent this, pre-shrink cotton fabric by washing it in warm water and drying it in a dryer.
- If item becomes too limp to work with, iron the appliqué pieces on the wrong side while applying spray starch. After ironing, spray again with starch and allow to dry completely. This will stiffen the lace pieces nicely and aid in construction.
- A pair of tweezers, hemostats, stiletto or a tiny crochet hook can be extremely helpful when inserting the buttonettes into the eyelets. (Please see **Diagram 1** for explanation of “buttonette” and “eyelet”.)
- Insert the tip of the tweezers, hemostats or crochet hook into the eyelet, grasp the buttonette and pull through the eyelet. Or a stiletto could be used to push the buttonette through the eyelet.

The pumpkin patch is growing! This elegant sequel to the memorable collection, Freestanding Pumpkin Patch #12516, offers a whole new set of rich autumn treasures. This time we added modern patterns, one beautiful “Give Thanks” - perfect for everyone’s turkey day celebration, and a spider web version for Halloween. Four of the six designs are to scale with some of the pumpkins from the original series – offering you interchangeable parts between collections. Two of the designs are new sizes to help diversify your display. There is unlimited potential for your own thread color variations and fabric styles. Sew ALL of the pumpkins out and display them together for your own personal pumpkin patch. Be creative!

Requires 2 Swirls Pumpkin Stem FSL – 12597-27

Requires 1 Swirls Pumpkin Base FSA – 12597-28

Requires 1 Swirls Pumpkin Leaf FSL – 12597-29

Follow the *General Freestanding Lace Guidelines* and *General Freestanding Applique Guidelines* to stitch the required pieces as listed in the summary above.

*Optional:* Shape the leaves during the drying process. The vine is spiral and will curl mostly on its own.

### Basic Instructions for Building a Pumpkin

- Assemble the pumpkin by inserting the two buttonettes of each stem piece into the two top eyelets with the stem on top of the pumpkin piece. Pull the buttonettes from the back of the pumpkin piece. **PHOTOS 1 & 2**
- Repeat this process for the remaining pumpkin pieces and stems.
- Attach the pumpkin base to one section of pumpkin and stem by inserting the buttonettes from the pumpkin into the eyelets of the pumpkin base. **PHOTO 3**
- Assemble the pumpkin by inserting the buttonettes of each pumpkin/ stem section into the corresponding eyelets of the opposite side. Continue until the pumpkin is finished. **PHOTO 4**
- Attach the leaf by inserting the buttonette into one of the holes in the middle of a stem. Attach the vine by inserting the buttonette into one of the holes closer to the bottom of a stem just under the leaf. **PHOTO 5**
- Your Freestanding Lace Pumpkin is complete!

### Supplies

- Embroidery thread
- Fabric for applique
- Embroidery machine
- Heavy weight cut away stabilizer or sticky back cut away stabilizer
- Wash away stabilizer
- *Optional* – alligator clamps, tweezers, hemostats, stiletto or a tiny crochet hook

Follow the *Basic Instructions for Building a Pumpkin* to create the Polka Dot Pumpkin, Quatrefoil Pumpkin, Give Thanks Pumpkin, Spider Web Pumpkin, Checkered Pumpkin, and Swirls Pumpkin.
