Notes

The freestanding applique instructions, included in the collection, are general instructions. For demonstration purposes, a sample design that best demonstrates the technique is shown. Fabric and thread requirements will vary by design, but the general technique is the same.

All designs are stitched with matching thread, top and bobbin.

Note: Some thread colors in instructions have been changed or digitally enhanced for better visibility.

STEP 1

- Hoop one layer of AquaMesh and one layer of BadgeMaster for all designs.

STEP 2

- Adhere one layer of StabilStick CutAway to the wrong side of all applique fabrics, to provide stiffness to the finished structure.
- Cut the prepared applique fabrics 1/4"-1/2" larger than the templates that are included at the end of the instructions.
- **Note:** When using OESD Luxe Sparkle Vinyl applique, only 1 layer of StabilStick CutAway is needed to provide stiffness to the structure. If using other fabric, 2 layers will be needed.

STEP 3

- Load selected design into the machine.
- Example design is 12609-01.
- Thread the machine per the thread chart.
- Stitch Machine Step 1, Pink Fabric Placement Stitch.

STEP 4

- Remove the hoop from the machine, but NOT the project from the hoop.
- Lay the hoop on a flat surface.
- Completely cover the placement stitch with the prepared vinyl.
- Tape in place to secure.

STEP 5

- Return the hoop to the machine.
- Stitch Machine Step 2, Pink Fabric Cut Line and Tackdown.

TIARA EMBROIDERY

STEP 6

- Remove the hoop from the machine, but NOT the project from the hoop.
- Trim the excess vinyl as close to the cut line as possible. If the outermost stitches (cut line) are cut, the inner stitches (tackdown) will still hold the applique in place.
- **Tip:** If the AquaMesh is cut or a hole is created while trimming the fabric, use OESD Expert Embroidery Tape WashAway as a patch.

STEP 7

- Return the hoop to the machine.
- Stitch Machine Step 3, White Fabric Placement Stitch.

STEP 8

- Remove the hoop from the machine, but NOT the project from the hoop.
- Lay the hoop on a flat surface.
- Completely cover the placement stitch with the prepared vinyl.
- Tape in place to secure.

STEP 9

- Return the hoop to the machine.
- Stitch Machine Step 4, White Fabric Cut Line and Tackdown.

STEP 10

- Remove the hoop from the machine, but NOT the project from the hoop.
- Trim the excess vinyl as close to the cut line as possible.

STEP 11

- Return the hoop to the machine.
- Stitch the remaining machine steps, per thread chart.

TIARA ASSEMBLY

STEP 12

- When the design is complete, remove the project from the hoop and trim the stabilizer 1/4" - 1/2" outside the design.

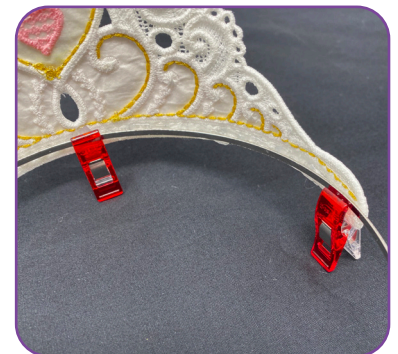

STEP 13

- Rinse each piece in warm running water until the design is only slightly tacky.
- Lay right side down on a non-stick surface to dry. Parchment paper or a cooling rack work well to prevent curling. Let dry completely.
- Once dry, press right side down on a Perfect Embroidery Press Cloth.

STEP 14

- Add strong bond fabric glue to the wrong side of the tiara and center onto a headband.
 - Clip with binding clips.
 - Allow to dry completely.
- OR**
- Use bobby pins to secure the tiara onto the head at either end of the tiara. May need more than one on either end.

TIARA ASSEMBLY

STEP 15

Tiara is complete. Enjoy!
