Stitch 'N' Turn Instructions

- Lightly spray together two layers of OESD Polymesh Cut Away stabilizer.
- Hoop two layers of OESD Polymesh Cut Away stabilizer. **PHOTO 1**
- Stitch the first color called *Pumpkin Placement Stitch*. Use thread color that blends with your fabric choice. **PHOTO 2**
- Place pumpkin fabric (8" x 9") right side up onto the stabilizer, being sure to cover the Placement Stitch. Stitch the second color called *Pumpkin Tackdown Stitch*. **PHOTO 3**
- Stitch the next few colors. **PHOTOS 4 - 7**
- Stitch the next color called *Ribbon Placement Stitch*. **PHOTO 8**
- Fold brown grosgrain ribbon in half and glue. Tuck 1/4" brown grosgrain ribbon in between 7/8" brown grosgrain ribbon.
- Place cut edge of ribbon towards the top of the hoop with the folded edge of ribbon towards center of hoop. Make sure the ribbon edge is past the placement line and will be stitched into the seam. Tape to hold. Tape 1/4" ribbon to center of pumpkin front in order for it NOT to be caught in the final seam stitch. **PHOTO 9**
- Place the Back of Pumpkin fabric (8" x 9") right side down directly over the first piece. **PHOTO 10**
- Stitch the final color called *Seam*. **PHOTO 11**
- Remove the hoop from the machine and the fabric from the hoop.
- Using pinking shears, carefully cut out the stitch 'n' turn project close to the stitching line. Cut around the stitches at the opening to create a tab. **PHOTO 12**
- Clip corners as needed.
- Turn the project right side out. Use a point turner or chopstick to turn out corners and curves. Stuff with polyester fiberfill.

NOTE: For a smooth project, use small amounts of fiberfill instead of large pieces. The larger pieces appear lumpier.

- Fold tabs in and slip stitch the slit closed with hand needle and small stitches. **PHOTO 13**

Your Stitch 'N' Turn Pumpkin is complete. Curl ¼" brown grosgrain ribbon if desired.
Enjoy!
