

FREESTANDING LACE CHRISTMAS TEA LIGHT HOLDERS

6

Designs

Fits hoop sizes 6" x 10" and larger

THREAD LIST

Isacord Thread Colors

- 0015 White
- 0020 Black
- 2211 Pomegranate
- 2723 Peony
- 2732 Frosted Orchid
- 3045 Cachet
- 4174 Charcoal
- 4421 Light Mallard
- 4430 Island Waters
- 5610 Bright Mint
- 5722 Green Grass

***Project instructions included after design list**

DESIGNS

Note: Some designs in this collection may have been created using unique special stitches and/or techniques. To preserve design integrity when rescaling or rotating designs in your software, always rescale or rotate designs using the handles directly on-screen.

12654-01 Tree Tea Light Holder FSL

Size Inches: Size mm: Stitch Count:
8.26 X 4.17 in. 209.8 X 105.92 mm 77,403 St.

-  1. Maroon Lace Fills2211
-  2. White Lace Fills 0015
-  3. Purple Satin Lace 2723
-  4. Dark Green Lace Fills..... 5722
-  5. Light Green Satin Lace and Fills 5610

Note: Some designs in this collection may have been created using unique special stitches and/or techniques. To preserve design integrity when rescaling or rotating designs in your software, always rescale or rotate designs using the handles directly on-screen.

12654-02 Angel Tea Light Holder FSL

Size Inches: Size mm: Stitch Count:
8.27 X 4.22 in. 210.06 X 107.19 mm 79,440 St.

- 1. Light Purple Lace Fills 3045
- 2. White Satin Lace and Fills 0015
- 3. Purple Satin Lace 2732

12654-03 Snowflake Tea Light Holder FSL

Size Inches: Size mm: Stitch Count:
8.26 X 3.31 in. 209.8 X 84.07 mm 77,180 St.

- 1. Blue Green Lace Fills 4421
- 2. Sea Green Satin Lace and Fills 4430
- 3. White Satin Lace and Fills 0015

Note: Some designs in this collection may have been created using unique special stitches and/or techniques. To preserve design integrity when rescaling or rotating designs in your software, always rescale or rotate designs using the handles directly on-screen.

12654-04 Holly Tea Light Holder FSL

Size Inches: Size mm: Stitch Count:
8.25 X 3.38 in. 209.55 X 85.85 mm 64,780 St.

- 1. Bright Mint Lace Fills 5610
- 2. White Satin Lace and Fills 0015
- 3. Maroon Lace Fills 2211
- 4. Dark Green Satin Lace and Fills 5722
- 5. Bright Mint Satin Lace 5610

12654-05 Gift Tea Light Holder FSL

Size Inches: Size mm: Stitch Count:
8.27 X 2.96 in. 210.06 X 75.18 mm 57,404 St.

- 1. Sea Green Lace Fills 4430
- 2. White Satin Lace and Fills 0015
- 3. Bright Mint Lace Fills 5610
- 4. Blue Green Satin Lace 4421

Note: Some designs in this collection may have been created using unique special stitches and/or techniques. To preserve design integrity when rescaling or rotating designs in your software, always rescale or rotate designs using the handles directly on-screen.

12654-06 Star Tea Light Holder FSL

Size Inches: Size mm: Stitch Count:
8.23 X 2.62 in. 209.04 X 66.55 mm 52,962 St.

- 1. Dark Purple Lace Fills 2723
- 2. Light Purple Lace Fills 3045
- 3. White Lace Fills 0015
- 4. Light Purple Satin Lace and Fills 3045
- 5. White Satin Lace and Fills 0015

12654-07 Tea Light Holder Base FSL

Size Inches: Size mm: Stitch Count:
2.96 X 2.94 in. 75.18 X 74.68 mm 8,448 St.

- 1. Light Lace Fills 4174
- 2. Dark Satin Lace 0020

COLLECTION SUPPLIES

Stabilizers

- OESD AquaMesh
- OESD BadgeMaster

Notions & Tools

- 80/12 Embroidery Ballpoint Titanium needle for extended needle life
- OESD Alligator Clamps (recommended)
- OESD Button Clips (recommended)
- OESD Perfect Point and Press Tool (optional)

Isacord Thread Colors

- As desired
- Match bobbin thread to top thread

Stitch Outs

- 12654-03 Snowflake Tea Light Holder FSL
- 12654-07 Tea Light Holder Base (in thread color to coordinate with the design)

General Freestanding Lace Guide

Stabilizer

- OESD AquaMesh
- OESD BadgeMaster

Notions/Tools

- 80/12 Embroidery Ballpoint Titanium needle for extended needle life
- OESD Alligator Clamps
- OESD Button Clips
- OESD Perfect Point and Press Tool

Isacord Thread Colors

- All OESD designs are digitized with Isacord 40 wt. polyester thread as the top thread and in the bobbin.
- Refer to the thread chart for color specifications.
- Match bobbin thread color to the top thread

Instructions

Step 1 - Hoop

For FSL structures, hoop one layer of OESD AquaMesh and one layer of OESD BadgeMaster. BadgeMaster contains more starch so, combined with the AquaMesh, the lace more rigid. For other FSL, where a softer lace is desired, hoop two layers of AquaMesh.

Step 2 - Embroider

Stitch the design per the thread chart with matching thread in the bobbin at each color change. When complete, remove from the hoop and trim away excess stabilizer about 1/4"-1/2" from the stitching.

Step 3 - Rinse

Rinse remaining stabilizer out in warm running water. For stiffer lace and FSL structures, DO NOT rinse away all of the stabilizer. The lace should be just slightly tacky. For softer lace, rinse until all traces of the stabilizer is removed.

Step 4 - Dry

Lay right side down flat on a non-stick surface, such as a cookie rack, parchment paper or Teflon sheet. This minimizes the tendency for the lace to curl. Let the pieces dry completely before proceeding with any assembly.

Step 5 - Press

Once completely dry, press right side down on a OESD Perfect Embroidery Press Cloth.

Step 6 - Assemble Structure

Note: Specific assembly instructions for a design/collection may be found in the thread chart pdf following the individual design color charts.

Lace must be COMPLETELY DRY before assembly. Wetting the buttonettes or eyelets to assemble is not recommended and may result in them stretching and coming "unbuttoned" when dry.

Use a pair of OESD Alligator Clamps to insert the buttonettes into the eyelets. Insert the tip of the OESD Alligator Clamps into the eyelet, grasp the buttonette and pull through the eyelet. Alternatively, use a stiletto or tweezers to push the buttonette through the eyelet.

Helpful Tips

Limp Lace

If the design is not stiff enough, press the lace pieces on the wrong side while applying spray starch. After ironing, spray again with starch and allow to dry completely. This will stiffen the lace pieces nicely and aid in construction. Or easily re-stiffen by diluting some stabilizer scraps in water (or use liquid starch) and dipping the item in the solution. Lay flat to dry.

Eyelets Too Small

If any of the eyelets appear closed or too small to penetrate with Alligator Clamps, they may be stretched by inserting the small end of the OESD Perfect Point and Press Tool into the eyelet opening and stretching it open wide enough to accommodate the OESD Alligator Clamps.

Button Clips

During the assembly process, some structures pull on buttonettes that have already been inserted and could pull them out altogether. Putting a Button Clip on the assembled buttonette will keep it in position during the assembly process. Remove the Button Clips when the assembly is complete.

Alternative Construction Option

In some cases, the buttonettes may be pulled to the inside of a project, instead of being visible on the outside. Insert the OESD Alligator Clamps through the eyelet from the wrong, or inside, of the lace and grasp the corresponding buttonette. Pull the buttonette to the wrong side of the lace.

Pulling the buttonettes to the inside may cause stress on the ones already done. Button clips may be place on the completed buttonette(s) to prevent them from pulling out of the eyelet.

EMBROIDERY

STEP 1

- Hoop one layer of OESD AquaMesh and one layer of OESD BadgeMaster.
- Attach the hoop to the machine.
- Load the tea light holder design.
- Design used for demonstration purpose is 12654-03 Snowflake Tea Light Holder FSL but directions are applicable to all freestanding lace tea light holders.

STEP 2

- Stitch the design per the thread chart with matching thread in the bobbin at each color change.

STEP 3

- Remove the hoop from the machine and the design from the hoop.
- Trim excess stabilizer 1/4"-1/2" from the design.

EMBROIDERY

STEP 4

- Load the tea light holder base design.
- Design used for demonstration purpose is 12654-07 Tea Light Holder Base FSL but directions are applicable to all freestanding lace tea light holders.
- Select a coordinating thread color and match the bobbin color.
- Repeat Steps 1 through 3.

STEP 5

- Rinse remaining stabilizer out in warm running water.
- DO NOT rinse away all of the stabilizer for a "stiffer" lace. The lace should be just slightly tacky.
- Lay right side down flat on a non-stick surface, such as a cookie rack, parchment paper or Teflon sheet. This minimizes the tendency for the lace to curl.
- Let the pieces dry completely before proceeding.

STEP 6

- Once completely dry, press right side down on a Perfect Embroidery Press Cloth.

NOTES

- If item is not stiff enough to work with, press the lace pieces on the wrong side while applying spray starch. After ironing, spray again with starch and allow to dry completely. This will stiffen the lace pieces nicely and aid in construction. Or easily re-stiffen by diluting some stabilizer scraps in water (or liquid starch) and dipping the item in the solution. Lay flat to dry.
- Lace must be COMPLETELY DRY before assembly. Wetting the buttonettes or eyelets to assemble is not recommended and may result in them stretching and coming “unbuttoned” when dry.
- Use a pair of OESD Alligator Clamps to insert the buttonettes into the eyelets.
- Insert the tip of the OESD Alligator Clamps into the eyelet, grasp the buttonette and pull through the eyelet. Alternatively, use a stiletto or tweezers to push the buttonette through the eyelet.

ASSEMBLY

STEP 1

- If any of the eyelets appear closed or too small to penetrate with the Alligator Clamps, they may be stretched slightly by inserting the small ball of the Perfect Point and Press Tool, or a stiletto, into the eyelet opening and stretching it open wide enough to accommodate the OESD Alligator Clamps.

STEP 2

- Curve the tea light holder so that the eyelet side and the buttonette side are adjacent.
- From the right side, Insert the OESD Alligator Clamps into one of the eyelets up to where the tip can open.
- Grasp the corresponding buttonette and pull through the eyelet opening.

STEP 3

- Repeat for the other two buttonettes.

ASSEMBLY

STEP 4

- Attach the base buttonettes in the same manner. The two buttonettes closest to each other go on either side of the opening on the back of the tea light.

STEP 5

- Pull the remainder of the tea light base buttonettes through the corresponding holes on the tea light holder.

STEP 6

- Insert tea light or pixie lights to illuminate.

ALTERNATE ASSEMBLY

NOTES

- In some cases, the buttonettes may be pulled to the inside of a project, instead of being visible on the outside. This method also helps to maintain a rounded shape.
- This option replaces Assembly Step 2 in the instructions above.

STEP 1

- Insert the OESD Alligator Clamps through the eyelet from the wrong or inside of the tea light holder and grasp the corresponding buttonette. Pull the buttonette into the inside of the cylinder as shown.

STEP 2

- Pulling the buttonettes to the inside may cause stress on the ones already done. Button clips may be placed on the completed buttonette(s) to prevent them from pulling out of the eyelet.

ALTERNATE ASSEMBLY

STEP 3

- Repeat for all three buttonettes.
- Continue with Assembly Step 3.
