INSTRUCTIONS

OESD™

STEP 1

Print out the necessary Fiber Form pattern(s) from the PDF. Follow printing instructions on page 14.

Lightly spray the wrong side of the pattern piece(s) with temporary adhesive spray and allow it to set for a few minutes. Or, pin pattern to Fiber Form in lieu of spraying.

Place pattern piece(s) on the Fiber Form and carefully cut out. Remove paper pattern. Or, use the included .SVG file(s) to cut out the Fiber Form on a digital cutting machine.

STEP 2

If you choose to add a name to the luggage tags, use your embroidery design software to insert the name before transferring the file to the machine.

If your embroidery machine is capable of adding lettering, refer to your machine's manual. (Ideally the name should be inserted before the back fabric is added to give a finished look.)

STEP 3

Hoop two layers of OESD AquaMesh stabilizer.

Stitch the placement stitch on your hooped fabric.
