0922 Ashley Gold	3730 Something Blue	7032 (AN6) Pearlescence
1115 Copper	5220 Silver Sage	Green
1200 Sunset Orange		

# EMBROIDERY

## STEP 1

- Hoop two sheets of Aquamesh.
- Sew placement stitch.

## STEP 2

- Lightly spray wrong side of fabric with 505 Temporary Spray Adhesive.
- Place fabric over placement stitch and make sure to cover stitches completely.
- Stitch cut line and tackdown.

## STEP 3

- Trim along cutline and tackdown

# EMBROIDERY

## STEP 4

- Stitch design colors
- **Note** - Match bobbin thread to the cover stitch in each design.

## STEP 5

- Remove from hoop, trim Aquamesh  $\frac{1}{4}$ "- $\frac{1}{2}$ " away from fabric, be careful not to cut design.
- Wash away stabilizer and let dry.
- **Note** - for instructions and tips, see last page.

## General Freestanding Applique Guidelines

### Supplies:

#### Embroidery Thread:

- Use the same embroidery thread in the bobbin as the needle.

#### Needles:

- Use an Organ 80/12 Titanium needle for extended needle life.

#### Stabilizer:

- Use OESD AquaMesh stabilizer.

### General Applique Instructions

1. Hoop two layers of OESD AquaMesh stabilizer.
2. Attach the hoop to the machine and select the design of your choice.
3. Stitch the Placement Stitch. **Photo 1**
4. Place a piece of applique fabric over the Placement Stitch so that it is completely covered.
5. Stitch the Cut Line & Tackdown stitch.
6. Carefully cut away the excess applique fabric. **Photo 2**
7. Stitch the remainder of the design and repeat for any remaining pieces. **Photo 3**
8. Remove the hoop from the machine and the design from the hoop.
9. Trim excess stabilizer from the design.
10. Rinse away remaining stabilizer and allow it to dry face down to prevent curling.

### Handy Hints

#### Drying:

- Freestanding pieces look best when left to dry with right side down. This will minimize the tendency for a piece to curl. Be sure to flatten the piece out entirely and allow ample time to dry.

#### For 3D Applique Projects:

- To prevent puckering and give the fabric more body and stiffness, adhere a piece of StabilStick Tearaway to the back of the fabric by removing the paper from the adhesive side before tacking down the fabric. Alternatively, press Fusible Woven to the back of the applique fabric.
- A pair of alligator clamps, tweezers, hemostats, stiletto or a tiny crochet hook can be extremely helpful when inserting the buttonettes into the eyelets. (See **Diagram 1** for explanation of “buttonette” and “eyelet”.)
- Insert the tip of the tweezers, hemostats or crochet hook into the eyelet, grasp the buttonette and pull through the eyelet, or a stiletto could be used to push the buttonette through the eyelet.
