MATERIALS

Stabilizer

- OESD AquaMesh WashAway
- OESD StabilStick CutAway
- Expert Embroidery Tape

Supplies

- Embroidery thread
 - Total thread for all 3 angels
 - 0731 - 2 spools
 - 0105 - 2 spools
 - 0017 - 2 spools
- Fabric for applique
 - Angel Back 6" x 10"
 - Angel Front 7" x 9"
 - Wing 12816-03 and 04 3" x 5"
 - Wing 12816-08 and 09 5" x 7"
 - Base 12816-05,10 and 15 5" x 5"

Isacord Thread Colors

0017 Paper White
0105 Ash Mist
0731 Applesauce

SUMMARY

Half Applique Angel

Requires 1	12816-01	10" x 6" Piece of Fabric	(White Fabric)
Requires 1	12816-02	9" x 7" Pieces of Fabric (2)	(White Fabric)
Requires 1	12816-03	5" x 3" Piece of Fabric	(Gold Fabric)
Requires 1	12816-04	5" x 3" Piece of Fabric	(Gold Fabric)
Requires 1	12816-05	5" x 5" Piece of Fabric	(White Fabric)

Final Height: Approx. 8"

SUMMARY

Full Applique Angel

Requires 1	12816-06	10" x 6" Piece of Fabric	(Gold Fabric)
Requires 1	12816-07	9" x 7" Piece of Fabric	(Gold Fabric)
Requires 1	12816-08	5" x 7" Piece of Fabric	(White Fabric)
Requires 1	12816-09	5" x 7" Piece of Fabric	(White Fabric)
Requires 1	12816-10	5" x 5" Piece of Fabric	(White Fabric)

Final Height: Approx. 8"

SUMMARY

Lace Angel

- Requires 1 12816-11
- Requires 1 12816-12
- Requires 1 12816-13
- Requires 1 12816-14
- Requires 1 12816-15

Final Height: Approx. 8"

EMBROIDERY

NOTE

- Double-Sided Applique Instructions for Designs
 - 12816-01 Angel 1 Back
 - 12816-03 Angel 1 Left Wing
 - 12816-04 Angel 1 Right Wing
 - 12816-06 Angel 2 Back
 - 12816-08 Angel 2 Left Wing
 - 12816-09 Angel 2 Right Wing
 - 12816-11 Angel 3 Back
 - 12816-13 Angel 3 Left Wing
 - 12816-14 Angel 3 Right Wing

STEP 1

- Prep fabric by applying StabilStick CutAway to the wrong side of the back fabric.

STEP 2

- Hoop 2 layers of AquaMesh and sew color #1 Placement Stitch.

EMBROIDERY

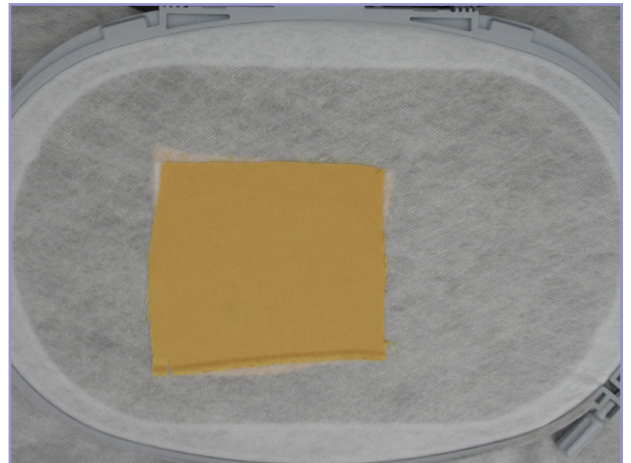

STEP 3

- Lightly spray temporary adhesive on the wrong side of fabric pieces and place one directly over the placement stitch face up, covering it entirely.

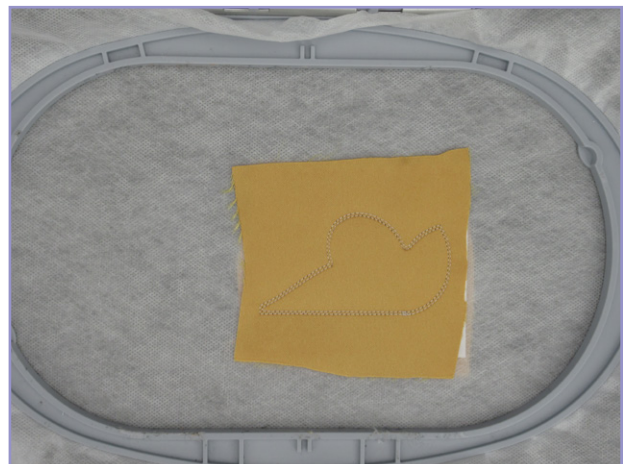

STEP 4

- Flip the hoop over and place the second piece directly over the placement stitch.
- Tape in place. Return hoop to the machine.

STEP 5

- Sew color #2 Cut Line and Tackdown.

EMBROIDERY

STEP 6

- Remove the hoop from the machine, but do not remove project from the hoop. Trim the fabric along the cut line. Flip the hoop over and repeat the process.

STEP 7

- After sewing is completed, remove the design from the hoop and trim stabilizer to about 1/2" around the design. Wash away the remaining stabilizer and lay flat face down to dry.

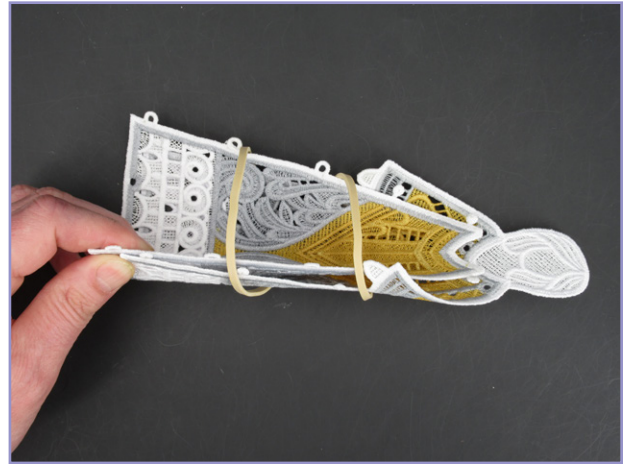

ASSEMBLY

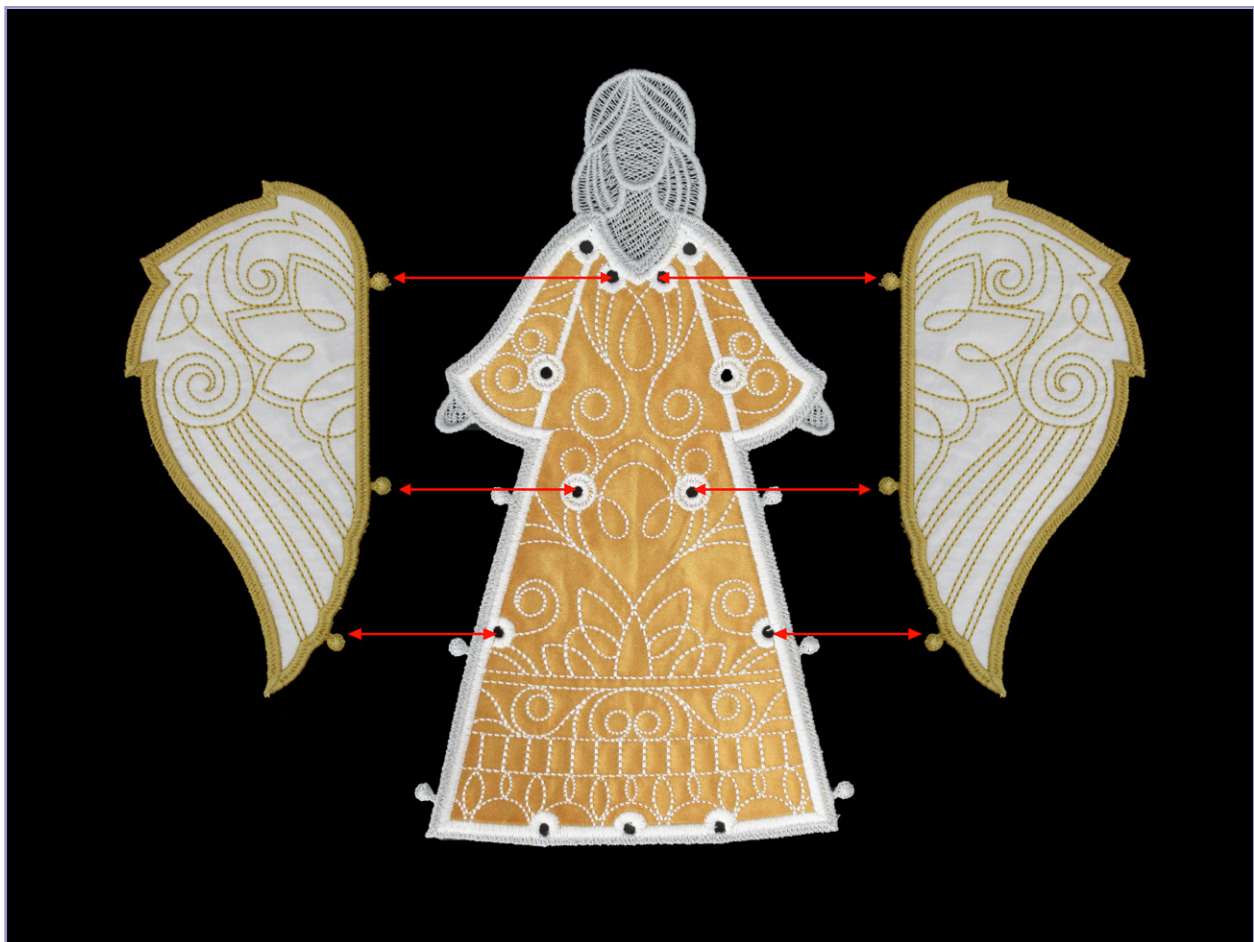

TIP 1

- After sewing out and washing Angel Front and Angel Back, you can tie a string loosely around the bottom and middle of the angel to create a rounded shape as it dries. Or you could let it dry and spray it with a bottle sprayer and tie a string loosely around the front and middle to create the rounded affect.

STEP 1

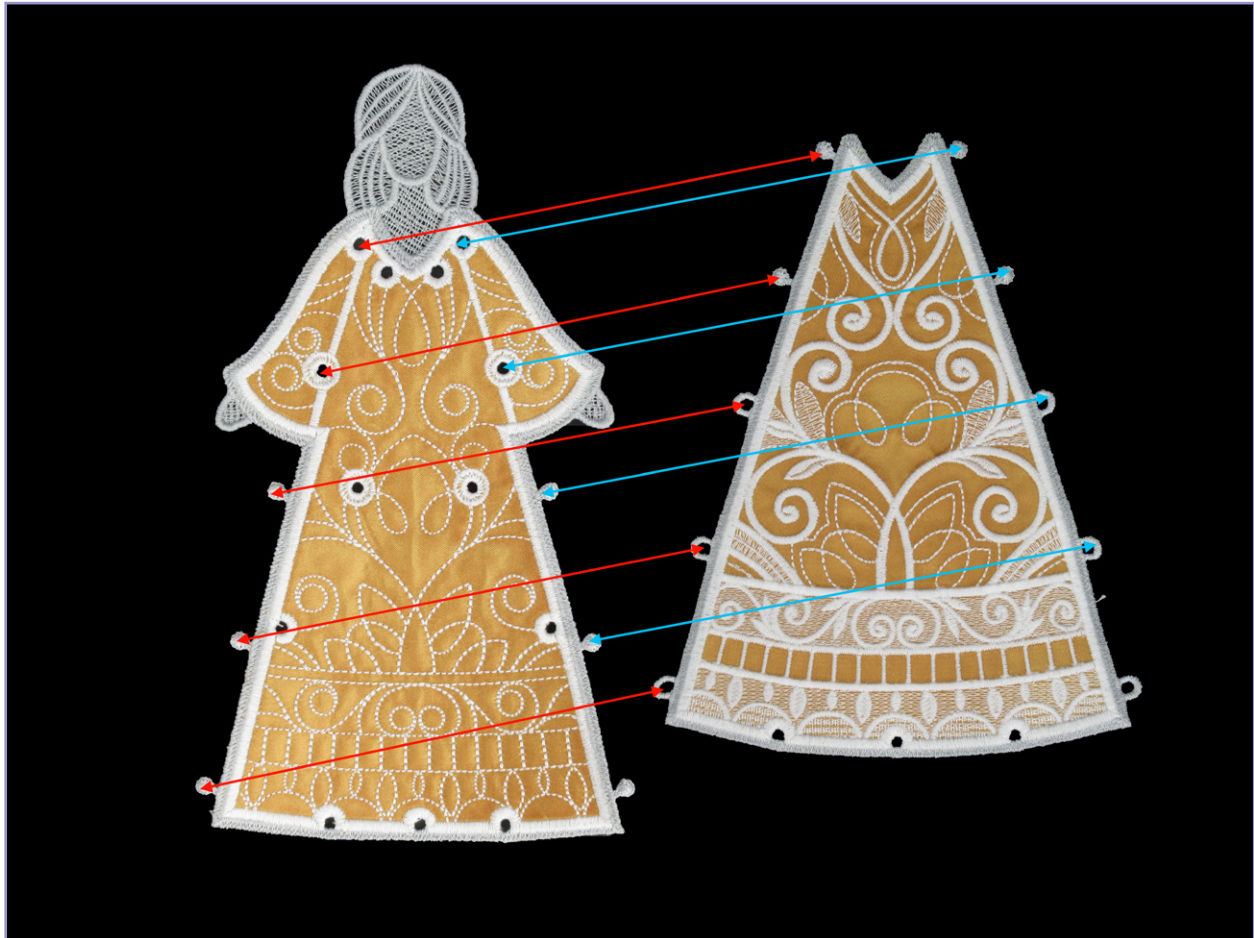

- To attach the Wings to the back of Angel Back, with the shown pieces faced down, insert the buttonette to its corresponding eyelet, as pictured.

ASSEMBLY

STEP 2

- To attach the Angel Front to the Angel Back, with the shown pieces facing up, insert the buttonette to its corresponding eyelet, as pictured.
- **Note** - Start from the bottom by inserting the 3 buttonettes of the Angel Back to the eyelets of the Angel Front. Then insert the remaining 2 buttonettes of the Angel Front to the eyelets of the Angel Back.

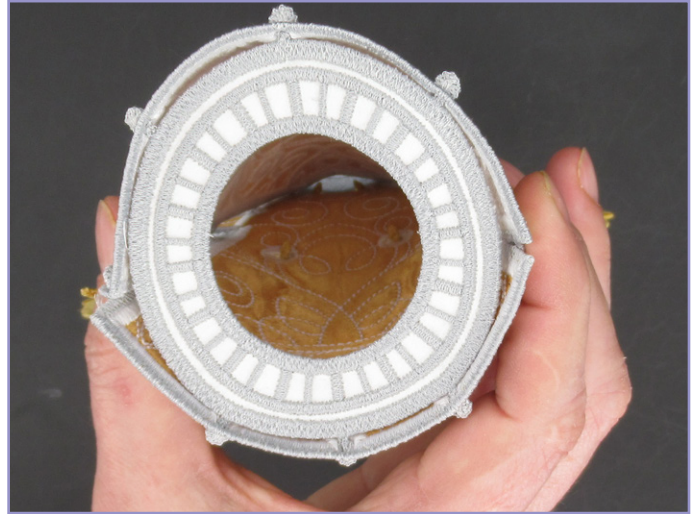

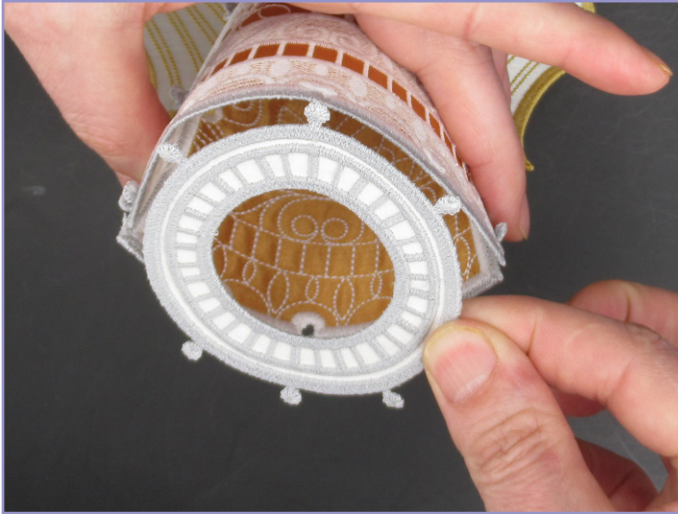

ASSEMBLY

STEP 3

- The base contains three buttonettes spaced farther apart which are inserted to the Angel Front.

General Freestanding Lace Guidelines

Supplies:

Embroidery Thread:

- Use the same embroidery thread in the bobbin as the needle.

Needles:

- Use an Organ 80/12 Titanium needle for extended needle life.

Stabilizer:

- Use OESD AquaMesh stabilizer.

Handy Hints:

For Stiffer Lace:

- DO NOT rinse away all of the stabilizer for a “stiffer” lace. Note that the thread may appear a shade darker if stabilizer is not removed completely.
- If you happen to wash too much out, easily re-stiffen by diluting some stabilizer scraps in water and dipping the item in the solution.

For Very Soft Lace:

- Cut away excess stabilizer. Remove remaining stabilizer by rinsing under warm running water until all traces of the stabilizer are gone. **NOTE:** If lace should become too limp to work with, dissolve stabilizer scraps in warm water and apply to the lace.

Drying Lace:

- The lace looks best when left to dry completely. Lay lace piece with right side down to dry. This will minimize the tendency for the lace to curl. Be sure to flatten the piece out entirely and allow ample time to dry.

General Instructions

1. Hoop two layers of OESD AquaMesh Stabilizer.
2. Attach the hoop to the machine and select the design of your choice.
3. Stitch the design.
4. Remove the hoop from the machine and the design from the hoop. Trim excess stabilizer from the design.
5. Rinse away remaining stabilizer and allow it to dry.

Handy Hints:

For 3D Lace Projects:

- If item becomes too limp to work with, iron the lace pieces on the wrong side while applying spray starch. After ironing, spray again with starch and allow to dry completely. This will stiffen the lace pieces nicely and aid in construction.
- A pair of tweezers, hemostats, stiletto or a tiny crochet hook can be extremely helpful when inserting the buttonettes into the eyelets. (Please see **Diagram 1** for explanation of “buttonette” and “eyelet”.)
- Insert the tip of the alligator clamps, tweezers, hemostats or crochet hook into the eyelet, grasp the buttonette and pull through the eyelet. Or a stiletto could be used to push the buttonette through the eyelet.
