- 2. White Lace 0010

PROJECT SUPPLIES

Stabilizer

- OESD AquaMesh Plus
- Fiber Form 1 package (18" x 22")

Supplies

- Light Red Fabric 4 pieces 7" x 8" (¼ yd)
- Dark Red Fabric 4 pieces 7" x 8" (¼ yd)
- Light Green Fabric 4 pieces 7" x 8" (¼ yd)
- Dark Green Fabric 4 pieces 7" x 8" (¼ yd)
- Isacord/Yenmet thread in the color used for the the freestanding applique and lace designs
- Bobbin with matching Isacord/Yenmet thread
- OESD Expert Embroidery Tape WashAway (optional)
- OESD Perfect Embroidery Press Cloth or Ironing Board Cover
- Monofilament Thread

Project Summary

This wreath can be sewn in any variation of 8 sections. The wreath shown requires the following designs sewn.

- Requires 1 FSA Holiday Wreath 1 Section- 12829-01
- Requires 1 FSA Holiday Wreath 2 Section- 12829-02
- Requires 1 FSA Holiday Wreath 3 Section- 12829-03
- Requires 1 FSA Holiday Wreath 4 Section- 12829-04
- Requires 1 FSA Holiday Wreath 5 Section- 12829-05
- Requires 1 FSA Holiday Wreath 6 Section- 12829-06
- Requires 1 FSA Holiday Wreath 7 Section- 12829-07
- Requires 1 FSA Holiday Wreath 8 Section- 12829-08
- Requires 2 FSL Mini Holiday Lace 1- 12829-09
- Requires 2 FSL Mini Holiday Lace 2- 12829-10
- Requires 2 FSL Mini Holiday Lace 3- 12829-11
- Requires 2 FSL Mini Holiday Lace 4- 12829-12

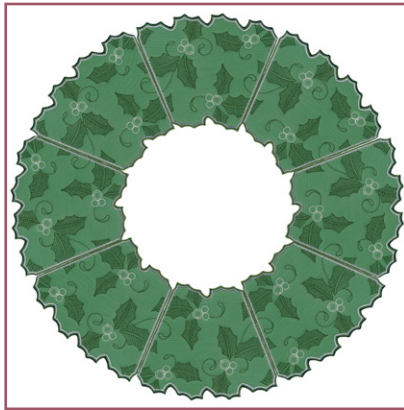

Final Dimensions: Approx. 17 ¾" x 17 ¾"

EMBROIDERY

STEP 1

- Using the template provided, cut out the 8 Fiber Form pieces needed to create the wreath.

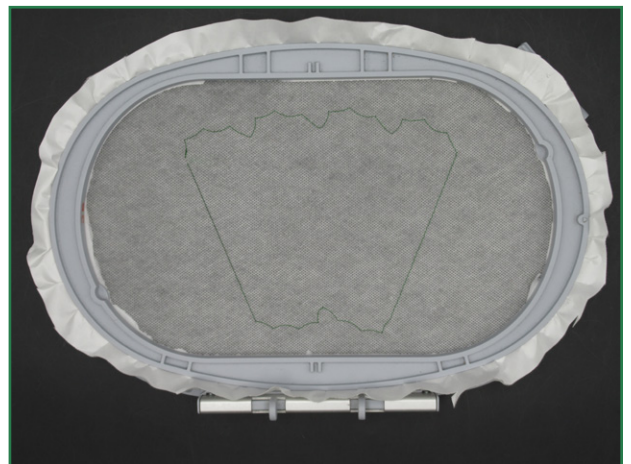

STEP 2

- Hoop 1 layer of AquaMesh Plus with the paper side up. Score and remove the paper from the hoop.

STEP 3

- Sew Color 1 Fiber Form/Front and Back Fabric Placement Stitch.

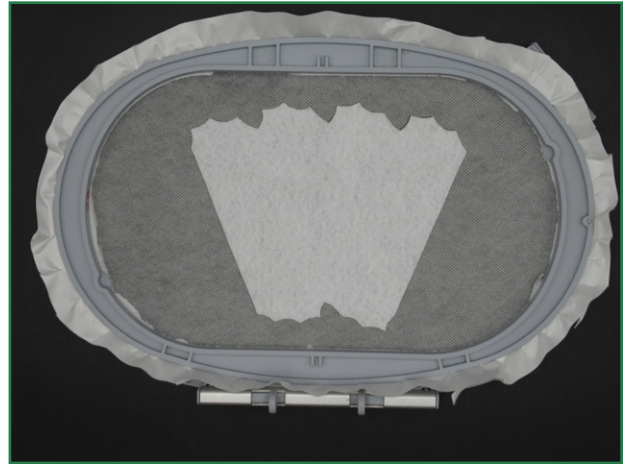

EMBROIDERY

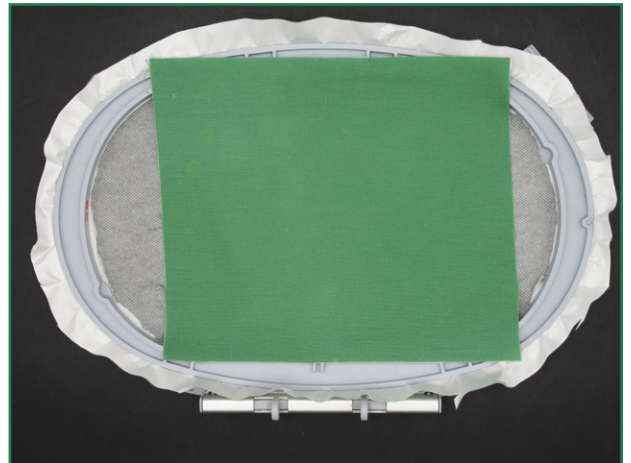

STEP 4

- Place the Fiber Form over the placement stitch.

STEP 5

- Place the Front fabric on top of the Fiber Form covering it completely.

STEP 6

- Remove the hoop from the machine and turn it over.
- Place the back fabric, right side up, over the placement stitch, covering it entirely.
- Hold in place with either temporary spray adhesive or with OESD Expert Embroidery WashAway Tape.

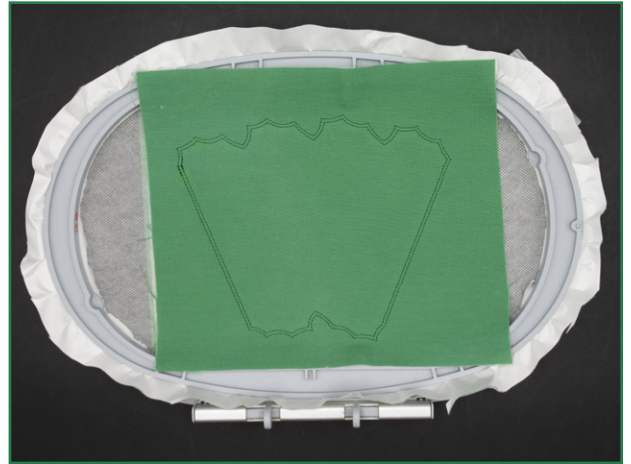

EMBROIDERY

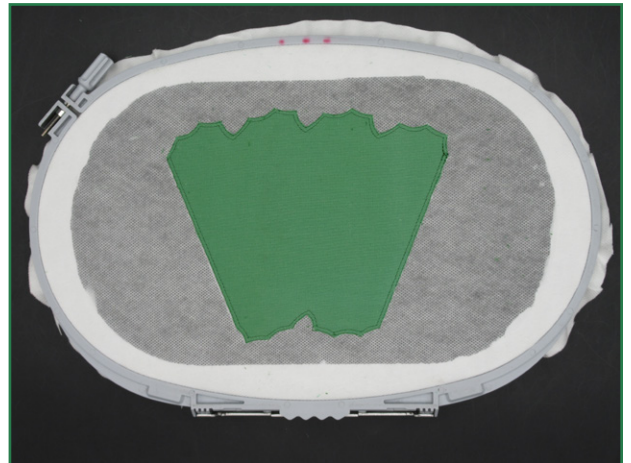

STEP 7

- Return the hoop to the machine and stitch Color 2 Cut Line and Tackdown.

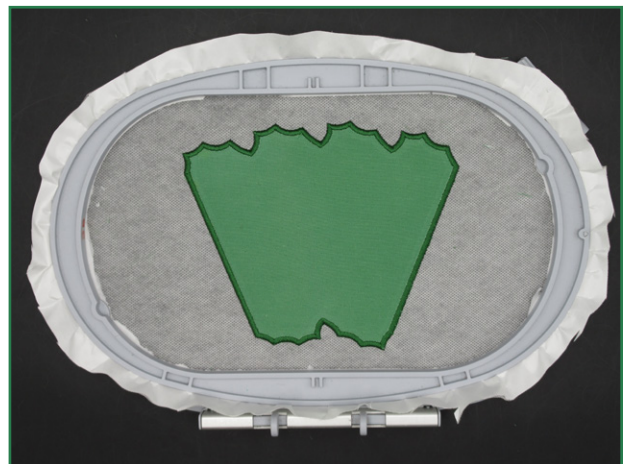

STEP 8

- Trim fabric along the Cut Line on the front side of the hoop, flip the hoop over and repeat for the back side of the hoop.

STEP 9

- **Note:** Match bobbin to top thread.
- Return the hoop to the machine and stitch Color 3, Outer Cover Stitch.

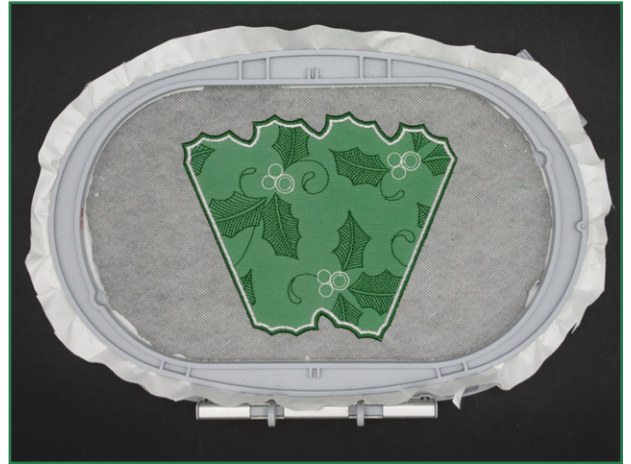

EMBROIDERY

STEP 10

- Sew Colors 4 and 5 which is the interior detail, changing colors as indicated. Finishing with color 6, Inner Cover Stitch.

STEP 11

- Once the design is finished sewing, remove the design from the hoop and trim away the extra AquaMesh Plus ¼" from the design. Wash away the remaining stabilizer and let dry.

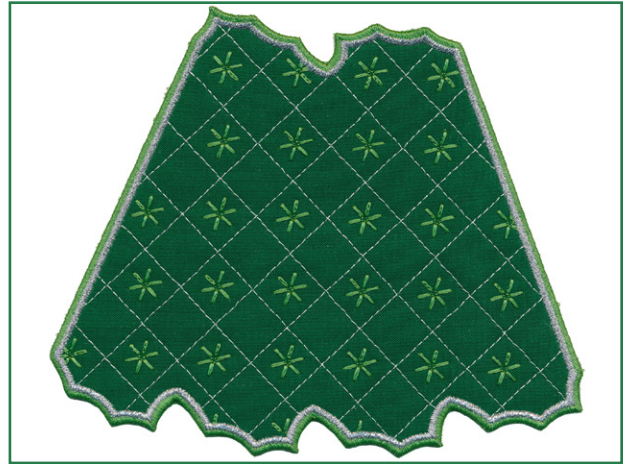

ASSEMBLY

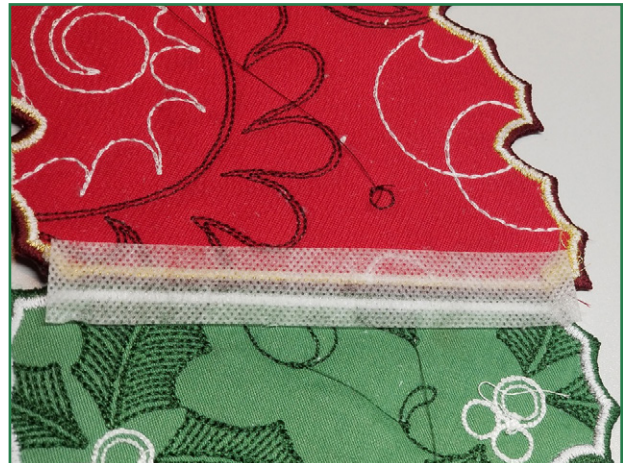

STEP 1

- Determine the right and wrong side of the freestanding applique. Arrange pieces in the desired order.
- Place a piece of WashAway tape under the edge of the connecting part of the design. Finger press to secure.

STEP 2

- Connect an adjacent piece by lining up the sides of the connecting parts of the design. Finger press to secure to the tape.

STEP 3

- Continue assembling with tape until all pieces are placed or stitch the pieces together in small assemblies before joining all together.

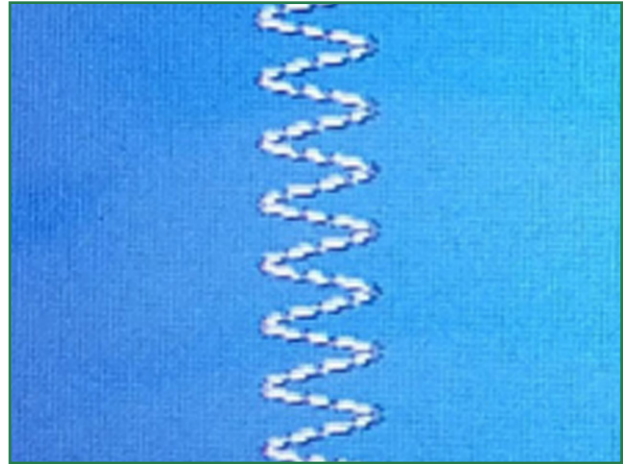

ASSEMBLY

STEP 4

- Set the machine to a multi-step zig-zag stitch. This is often called a serpentine stitch, where the needle drops into the fabric multiple times while traveling from side to side. Set the stitch width to 3.5 mm. Set the stitch length to 2.5 mm.
- Install an open toe or clear foot to be able to see the stitches as they are sewn.

STEP 5

- Thread your machine with monofilament (invisible) thread in the needle and embroidery bobbin thread in the bobbin.
- Stitch the parts together right side up.

STEP 6

- Once the connections have been sewn, trim excess threads on top and bottom.
- For quick removal of the tape, dip a cotton swab in water and apply to the back of the stitches. Simply lift the tape away from the design parts. There is no need to rinse the entire wreath.
- Lay flat to allow any damp parts to dry.

ASSEMBLY

STEP 7

- Use a bartack stitch on your sewing machine to attach the Mini Lace Designs.

General Freestanding Lace Guidelines

Supplies:

Embroidery Thread:

- Use the same embroidery thread in the bobbin as the needle.

Needles:

- Use an Organ 80/12 Titanium needle for extended needle life.

Stabilizer:

- Use OESD AquaMesh stabilizer.

Handy Hints:

For Stiffer Lace:

- DO NOT rinse away all of the stabilizer for a “stiffer” lace. Note that the thread may appear a shade darker if stabilizer is not removed completely.
- If you happen to wash too much out, easily re-stiffen by diluting some stabilizer scraps in water and dipping the item in the solution.

For Very Soft Lace:

- Cut away excess stabilizer. Remove remaining stabilizer by rinsing under warm running water until all traces of the stabilizer are gone. **NOTE:** If lace should become too limp to work with, dissolve stabilizer scraps in warm water and apply to the lace.

Drying Lace:

- The lace looks best when left to dry completely. Lay lace piece with right side down to dry. This will minimize the tendency for the lace to curl. Be sure to flatten the piece out entirely and allow ample time to dry.

General Instructions

1. Hoop two layers of OESD AquaMesh Stabilizer.
2. Attach the hoop to the machine and select the design of your choice.
3. Stitch the design.
4. Remove the hoop from the machine and the design from the hoop. Trim excess stabilizer from the design.
5. Rinse away remaining stabilizer and allow it to dry.

Handy Hints:

For 3D Lace Projects:

- If item becomes too limp to work with, iron the lace pieces on the wrong side while applying spray starch. After ironing, spray again with starch and allow to dry completely. This will stiffen the lace pieces nicely and aid in construction.
- A pair of tweezers, hemostats, stiletto or a tiny crochet hook can be extremely helpful when inserting the buttonettes into the eyelets. (Please see **Diagram 1** for explanation of “buttonette” and “eyelet”.)
- Insert the tip of the alligator clamps, tweezers, hemostats or crochet hook into the eyelet, grasp the buttonette and pull through the eyelet. Or a stiletto could be used to push the buttonette through the eyelet.
