Note

- The freestanding applique instructions, included in the collection, are general instructions. For demonstration purposes, a sample design that best demonstrates the technique is shown. Fabric and thread requirements will vary by design, but the general technique is the same.
- All designs are stitched with matching thread in the top and bobbin.
- Note: Some thread colors in instructions have been changed or digitally enhanced for better visibility.

STEP 1

- Hoop one layer of AquaMesh and one layer of BadgeMaster for all designs.

STEP 2

- Adhere two layers of StabilStick CutAway to the wrong side of all applique fabrics to provide stiffness to the finished structure.

EMBROIDERY

STEP 3

- Load selected design into the machine.
- Example design is 12888-03.
- Thread the machine per the thread chart.
- Place hoop on the machine.
- Stitch Machine Step 1, Front Fabric Placement Stitch.

STEP 4

- Remove the hoop from the machine, but NOT the project from the hoop.
- Place the hoop on a flat surface.
- Cut the prepared applique fabrics 1/4" -1/2" larger than the applique templates.
- Cover the placement line completely with the prepared fabric.
- Tape in place to secure.
- NOTE: A separate Machine Step has been added to allow design work to be placed on the outside of the box if desired. Stitch the design between Steps 6 and 7 in the instructions. If no design is added to the box, add the back fabric now (see Step 7) and skip Machine Step 3, Back Fabric Cut Line and Tackdown.

EMBROIDERY

STEP 5

- Return the hoop to the machine.
- Stitch Machine Step 2, Front Fabric Cut Line and Tackdown.

STEP 6

- Remove the hoop from the machine, but NOT the project from the hoop.
- Trim the excess fabric as close to the cut line stitching as possible. If the outermost stitches (cut line) are cut, the inner stitches (tackdown) will still hold the applique in place.
- Tip: If the AquaMesh is cut or a hole is created while trimming the fabric, use Expert Embroidery Tape WashAway.
- Note: Design work for the box may be added here, before proceeding to Step 7.

STEP 7

- Turn the hoop over and place the back applique fabric right side up covering the placement stitch.
- Carefully tape to secure. Avoid pushing too hard on the stabilizer to prevent it from dislodging from the hoop.

EMBROIDERY

STEP 8

- Return the hoop to the machine.
- Stitch Machine Step 3, Back Fabric Cut Line and Tackdown.

STEP 9

- Remove the hoop from the machine, but NOT the project from the hoop.
- Trim the excess fabric as close to the cut line stitching as possible.

STEP 10

- Return the hoop to the machine and stitch the remaining colors according to the thread chart.
- Remember to thread the sewing machine with matching thread in the top and bobbin.

EMBROIDERY

STEP 11

- When design is complete, remove the project from the hoop and trim the stabilizer 1/4" - 1/2" outside the design.

ASSEMBLY

STEP 12

- Rinse each piece in warm running water until the design is only slightly tacky.
- Place right side down on a non-stick surface to dry. Parchment paper or a cooling rack will prevent curling. Dry completely.

STEP 13

- Once dry, press right side down on a Perfect Embroidery Press Cloth.

STEP 14

- Line up the pieces to connect as shown. Thread the sewing machine with matching thread in the top and bobbin.
- Stitch together using a multi-step zigzag stitch (also known as a serpentine stitch). Back stitch at the beginning and end to secure. Trim thread tails.
- Tip: An open toe or edge stitch foot is helpful.

STEP 15

- Match the eyelets and buttonettes as shown. Pull each buttonette through the corresponding eyelet, using button clips to temporarily hold them in place, as needed.

STEP 16

- Fold the three lid pieces interlocking at the grooves.
