Stabilizers

- OESD Fusible Woven 20"
- OESD Medium Weight TearAway 20" (1 roll)

Fabrics/Textiles

- ¼ yard Purple quilter's cotton
- ½ yard Light Yellow quilter's cotton
- ½ yard Light Purple quilter's cotton
- ½ yard Light Green quilter's cotton
- Backing ½ yard
- Binding ¼ yard, cut 3 strips width of fabric x 2 ½" strips, stitch together at 45° angle to create one long strip.

Note: Fabric sizes are estimates and may result in overage.

Notions & Tools

- OESD Expert Point and Press Tool
- OESD Perfect Embroidery Press Cloth
- 505 Temporary Spray Adhesive
- Ruler, rotary cutter, mat
- Contrasting bobbin thread (seam stitch only, may be different colors)
- Fabric marking pen
- Embroidery Needle Sharp 75/11
- Walking foot
- Dual feed foot

Isacord Thread Colors

- Per thread chart

SUMMARY

Completed Size: 12 x 30 in.

Notes

The applique instructions, included in the collection, are general instructions. For demonstration purposes, a sample design that best demonstrates the technique is shown.

Fabric and thread requirements will vary by design, but the general technique is the same.

Note: Some thread colors in instructions have been changed or digitally enhanced for better visibility.

STEP 1

- Embroider one of each design file 12912-01 through 12912-17.
- For each hooping, cut the following 10" x 15", or large enough to hoop:
 - 1 layer of Fusible Woven
 - 2 layers of Medium Weight TearAway
 - 1 layer of background fabric

Note: To economize on fabric, cut the fabric 20" wide (or the height of the hoop + 2") x width of the fabric. Apply the stabilizers. Move the hoop down the length of the fabric as each block is stitched. Leave a minimum of 1.5" between the blocks.

STEP 2

- Apply one layer of Fusible Woven to the wrong side of the applique fabric.

STEP 3

- Load selected design into the machine.
- Example design is 12912-04.
- Thread the machine per the thread chart.
- Place hoop on the machine.
- Stitch Machine Step 1, Yellow Fabric Placement Stitch.

STEP 4

- Remove the hoop from the machine, but NOT the project from the hoop.
- Completely cover the placement stitch with the prepared fabric.
- Tape in place to secure.
- Return the hoop to the machine.

STEP 5

- Stitch Machine Step 2, Cut Line and Tackdown.

STEP 6

- Remove the hoop from the machine, but NOT the project from the hoop.
- Place on a flat surface.
- Trim the excess fabric as close to the cut line as possible.
- Note: If the outermost stitches (cut line) are cut, the inner stitches (tackdown) will hold the applique in place.
- Return the hoop to the machine.

STEP 7

- Stitch Machine Step 3, Purple Fabric Placement Stitch.

STEP 8

- Remove the hoop from the machine, but NOT the project from the hoop.
- Completely cover the placement stitch with the prepared fabric.
- Tape in place to secure.
- Return the hoop to the machine.

STEP 9

- Stitch Machine Step 4, Cut Line and Tackdown.

STEP 10

- Remove the hoop from the machine, but NOT the project from the hoop.
- Place on a flat surface.
- Trim the excess fabric as close to the cut line as possible.

STEP 11

- Return the hoop to the machine and stitch the remaining steps per the thread chart.

EMBROIDERY

STEP 12

- For each tile, stitch the colors per the thread chart.
- The last color change in each block is called "Seam". This line is the guide when trimming and stitching the tiles together and needs to be highly visible on the back side of the tile.
- Stitch the top color in a thread that blends with the fabric or invisible thread.
- Use a color in the bobbin that contrasts sharply with the wrong side of the tile.

Note: Since the bobbin color does not have to be the same on each tile, this is a great time to use up partially wound bobbins.

STEP 13

- After the embroidery is complete, press each block right side down on a Perfect Embroidery Press Cloth.
- Write the number of the block on the back so it is easily identified during construction.

Tip: Use a pen or pencil that will not bleed through to the front side.

STEP 14

- At the cutting mat, place the block right side down. Identify the "seam" stitch line. Trim 1/2" inch out from the seam stitch line on all four sides to create the seam allowance.

Note: Accuracy will significantly facilitate the construction of the scene.

ASSEMBLY

STEP 15

- Arrange the tiles in the layout for the scene.

STEP 16

- Stitch two adjacent tiles, right sides together; the side of one tile to the side of the one next to it.
- Align the matching edges and stitch just inside of the seam line.
- Repeat until all the blocks have been paired.

STEP 17

- Press each seam open.
- Note: If the seams do not come apart easily, press both seam allowances to one side using steam and a cotton or linen setting.
- While warm, open the seam allowance with the large ball of the Expert Point and Press Tool.
- Press again and allow to cool.
- Once cool, remove the excess stabilizer in the seam allowance.
- Do not remove excess stabilizer from inside the seam line.

ASSEMBLY

STEP 18

- Lay out the pressed tiles.
- Pair the connected tiles with the connected tiles to the right.

STEP 19

- Align the center seams.
- Stitch just inside the seam line connecting all four blocks.
- Press seams open.
- Note: If the seams or major points of matching do not match up, try stitching that part first. Check for accuracy. Then stitch across the tiles.

ASSEMBLY

STEP 20

- Finish connecting the block of tiles to the ones below. Press and remove stabilizer. Then continue the stitching and pressing process until the scene is completed.

STEP 21

- Cut batting and backing at least 2" larger than the tiling scene.
- Layer the backing (right side down), batting, and tiling scene (right side up).
- Center the tiling scene over the batting and backing.
- Spray baste all layers with temporary spray adhesive.

ASSEMBLY

STEP 22

- Thread the sewing machine with a thread color that blends with the scene or invisible thread.
- Where the tiles connect, stitch in the ditch to attach the batting and backing to the top.
- Tip: For best results use a walking foot or dual feed foot.

STEP 24

- Trim 1/4" from the edge, through all three layers, to square up the finished scene.

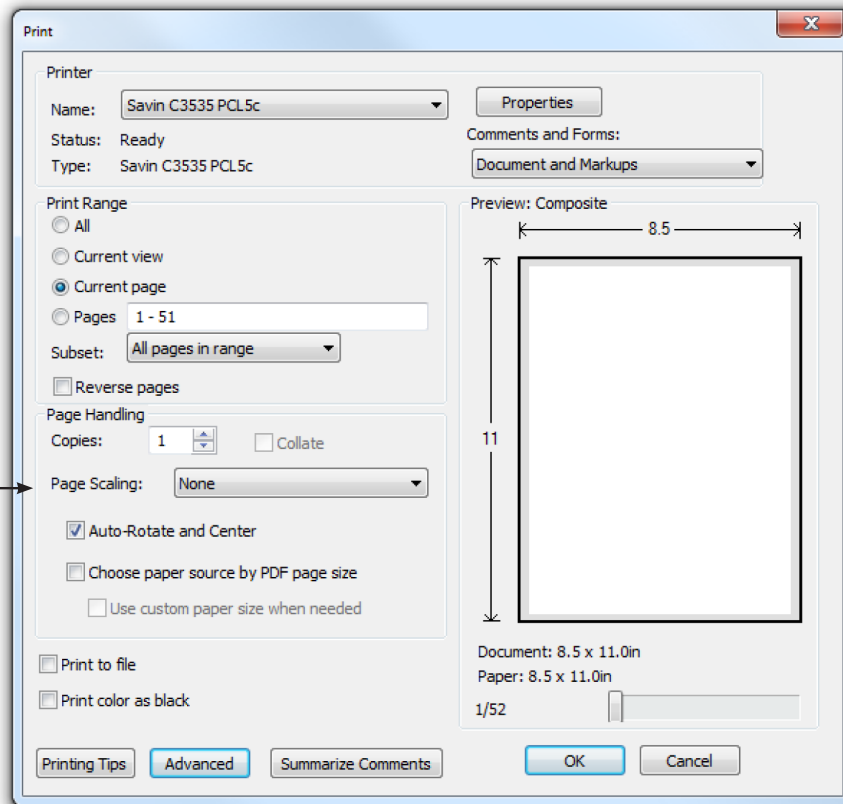

STEP 25

- Zigzag over the raw edges to join the edges together.
- Bind as desired.

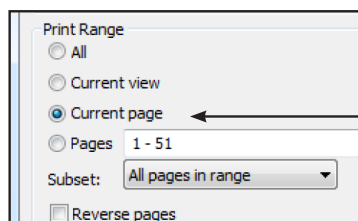

ATTENTION

When printing this document, any page scaling or page fitting options in your print dialog box must be turned OFF or set to NONE so that your files will print out at their actual size. Images not printed at actual size will not function as intended.

TO SAVE PAPER

Only print the desired image by navigating to the image's page, go to File > Print and select "Current page" in the print dialog box. Repeat for each desired image.
