General Instructions

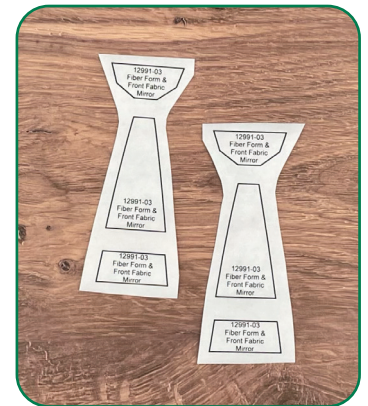

The freestanding applique instructions, included in the collection, are general instructions. For demonstration purposes, a sample design that best demonstrates the technique is shown. Design 12991-03 is shown here. Fabric and thread requirements will vary by design, but the general technique is the same.

All designs are stitched with Isacord 0842, Toffee, thread in the bobbin.

NOTE: Some thread colors in the instructions have been changed or digitally enhanced for better visibility.

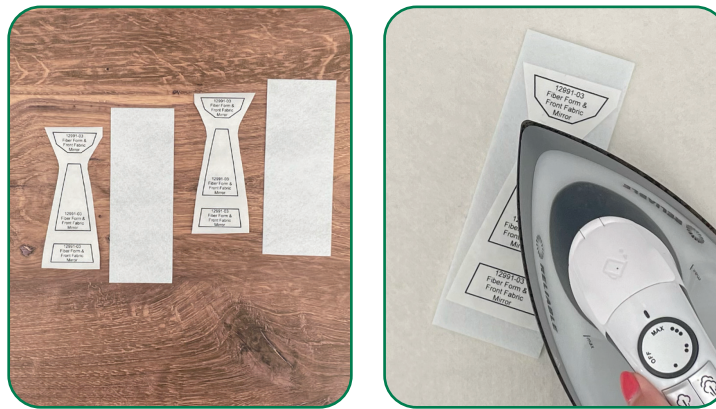

Step 1

- Print the mirrored version of the templates (at 100% scale or 1:1 ratio) onto the paper side of Applique Fuse and Fix.
- Cut approximately 1/4" - 1/2" outside the printed applique templates.

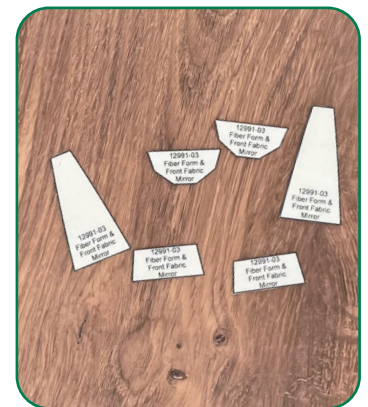

Step 2

- Cut the Fiber Form 1/4" - 1/2" larger than the applique templates.
- Fuse the trimmed templates to the back of the Fiber Form with the paper side of the printed templates up. Hold the iron on the template for 10-15 seconds for a secure fuse.

Step 3

- Trim the Fiber Form on the outer edges of the black outline.
- Set aside.

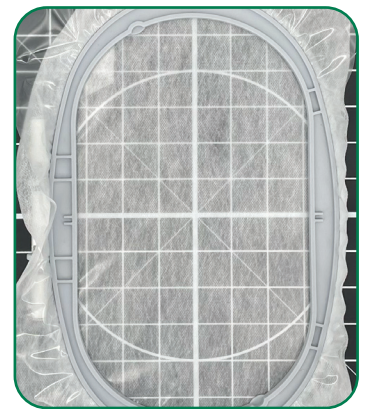

□ Step 4

- Cut the applique felt and fabric 1/4" - 1/2" larger than the templates that are included at the end of the instructions.
- Adhere one layer of StabilStick CutAway to the wrong side of all applique felt and fabrics to provide stiffness to the finished structure.

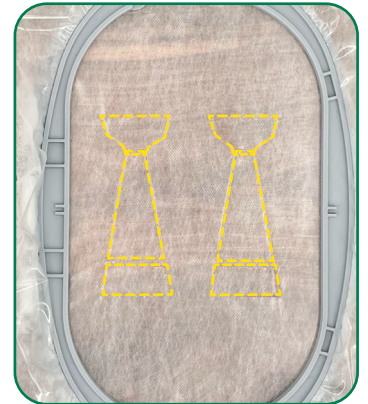

□ Step 5

- Using OESD Grippy Grid, hoop one layer of Aquamesh and one layer of BadgeMaster for all designs.

Step 6

- Load the selected design into the machine.
- Example design is 12991-03.
- Thread the machine per the thread chart.
- Thread the bobbin with Isacord 0842, Toffee, thread color.
- Place the hoop on the machine.
- Stitch Machine Step 1, Fiber Form Placement Stitch.

Step 7

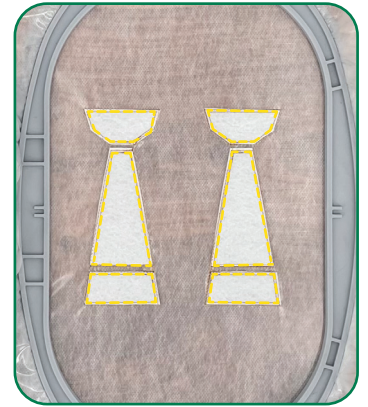

- Remove the hoop from the machine, but NOT the project from the hoop.
 - Place the hoop on a flat surface.
 - On the back of the Fiber Form, use the OESD Perfect Scoring Tool to score and remove the paper backing to reveal the adhesive surface.
 - Place the Fiber Form within the placement stitching.
 - Finger press to secure.
- Tip: Applique Fuse and Fix is repositionable.

EMBROIDERY

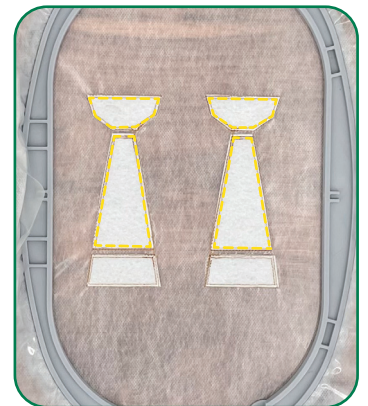

Step 8

- Return the hoop to the machine.
- Stitch Machine Step 2, Cut Line and Tackdown.

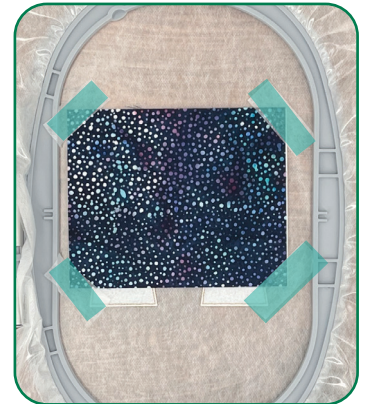

Step 9

- Stitch Machine Step 3, Front Fabric/Back Brown Felt Placement Stitch.

□ Step 10

- Remove the hoop from the machine, but NOT the project from the hoop.
- Place the hoop on a flat surface.
- Completely cover the placement stitch with the prepared novelty applique fabric.
- Tape in place with OESD Expert Embroidery Tape TearAway to secure.

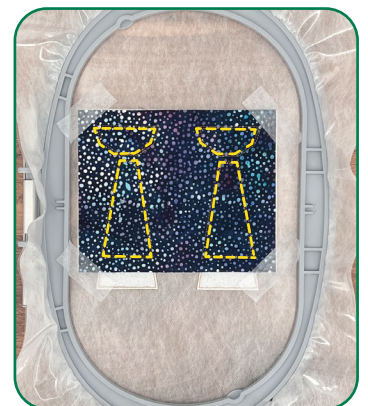

□ Step 11

- Turn the hoop over and place the prepared brown applique felt, right side up, completely covering the placement stitch.
- Carefully tape to secure.
- Tip: Avoid pushing too hard on the stabilizer to prevent it from dislodging from the hoop.

□ Step 12

- Return the hoop to the machine.
- Stitch Machine Step 4, Cut Line and Tackdown.

□ Step 13

- Remove the hoop from the machine, but NOT the project from the hoop.
- Trim the excess fabric as close to the cut line as possible. If the outermost stitches (cut line) are cut, the inner stitches (tackdown) will hold the applique in place. Tip: If the stabilizer is cut or a hole is created while trimming the fabric, use OESD Expert Embroidery Tape WashAway as a patch.

□ Step 14

- Turn the hoop over. Trim the excess felt as close to the cut line as possible.

□ Step 15

- Return the hoop to the machine.
- Stitch Machine Step 5, Endzone Felt/Back Brown Felt Placement Stitch.

□ Step 22

- Remove the hoop from the machine, but NOT the project from the hoop.
- Place the hoop on a flat surface.
- Completely cover the end zones with white OESD Top Cover Permanent Topping.
- Tape in place.
Note: Top Cover helps prevent the felt showing through the white stitching.

□ Step 23

- Return the hoop to the machine.
- Stitch Machine Step 8, Cover Stitch.

□ Step 24

- When the design is complete, tear away the excess Top Cover from the white stitching.
- Remove the project from the hoop.
- Trim the stabilizer 1/4" - 1/2" outside the design.

ASSEMBLY

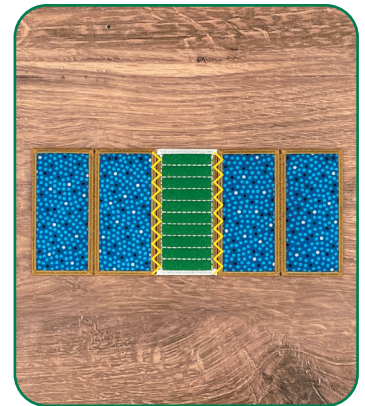

□ Step 25

- Rinse each piece in warm running water until the design is only slightly tacky.
- Place right side down on a non-stick surface to dry. Parchment paper or a cooling rack work well. Dry completely.
- Once dry, press right side down on an OESD Perfect Embroidery Press Cloth.

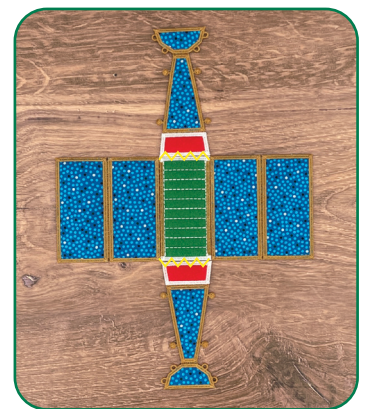

□ Step 26

- Line up the Bowl Sides FSA (12991-02) on either side of the Bowl Base FSA (12991-01), brown felt side down.
- Thread the sewing machine with matching thread on the top and bobbin.
- Stitch together, on each long side, using a multi-step zigzag stitch.
- Back stitch at the beginning and end to secure.
- Trim thread tails.

□ Step 27

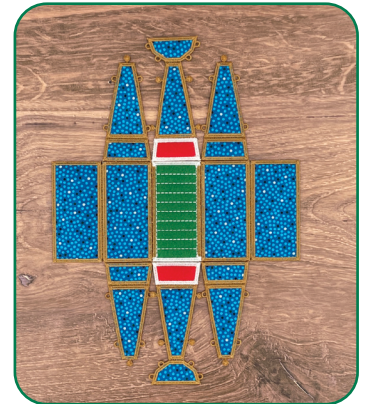

- Line up the Bowl Ends 1 FSA (12991-03) with the Bowl Base.
- Stitch together, on the short sides, using a multi-step zigzag stitch as above.

ASSEMBLY

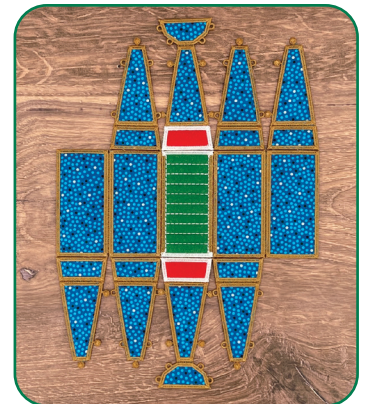

□ Step 28

- Line up the Bowl Ends 2 FSA (12991-04) with the inner rectangles of the Bowl Sides.

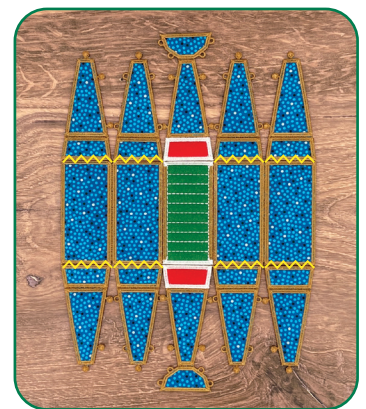

□ Step 29

- Line up the Bowl Ends 3 FSA (12991-05) with the upper right and lower left outer rectangles of the Bowl Sides. **The buttonettes will face inwards.**

□ Step 30

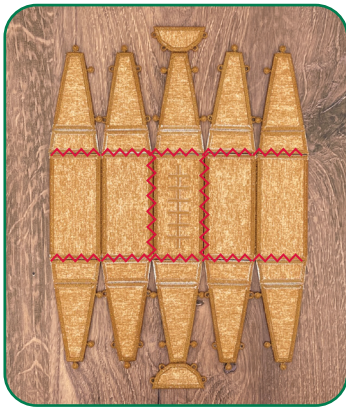

- Line up the Bowl Ends 4 FSA (12991-06) with the upper left and lower right outer rectangles of the Bowl Sides. **The buttonettes will face inwards.**
- Stitch together, on each short side, using a multi-step zigzag stitch as above.

ASSEMBLY

□ Step 34

- Repeat assembly for Lid pieces (12991-07 through 12991-12). When sewing the pieces together, match the bobbin thread and top thread to the cover stitch colors.

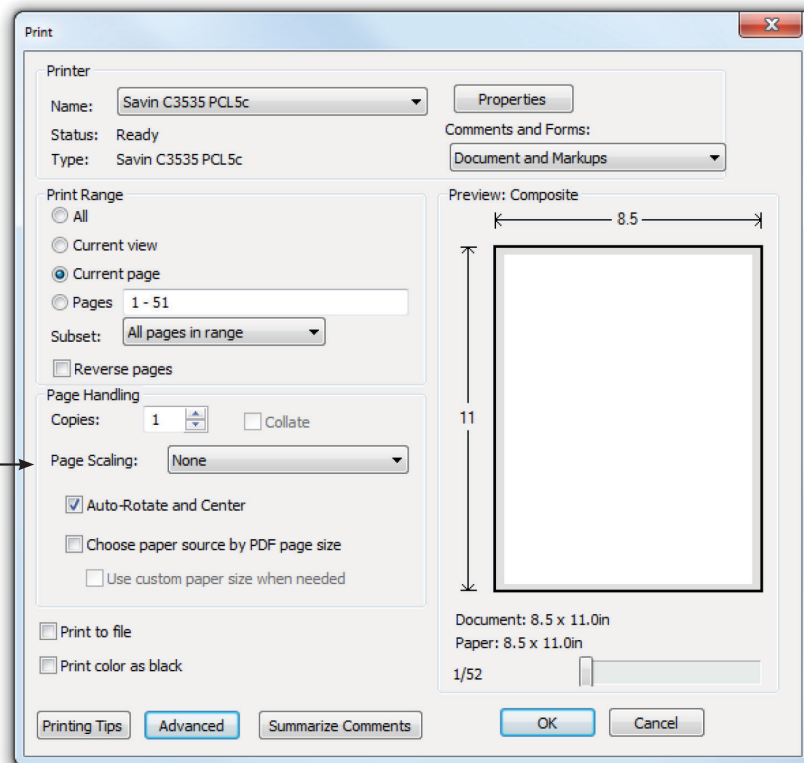

□ Step 35

- The project is complete. Enjoy!

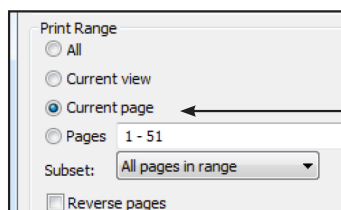

ATTENTION

When printing this document, any page scaling or page fitting options in your print dialog box must be turned OFF or set to NONE so that your files will print out at their actual size. Images not printed at actual size will not function as intended.

TO SAVE PAPER

Only print the desired image by navigating to the image's page, go to File > Print and select "Current page" in the print dialog box. Repeat for each desired image.
