## General Instructions

The freestanding applique instructions, included in the collection, are general instructions. For demonstration purposes, a sample design that best demonstrates the technique is shown. Fabric and thread requirements will vary by design, but the general technique is the same.

All designs are stitched with matching thread, top and bobbin.

Note: Some thread colors in instructions have been changed or digitally enhanced for better visibility.

### Step 1

- Hoop one layer of AquaMesh and one layer of BadgeMaster for all designs.

### Step 2

- Cut the prepared applique fabrics 1/4" -1/2" larger than the templates that are included at the end of the instructions.
- Adhere one layer of StabilStick CutAway to the wrong side of all applique fabrics, to provide stiffness to the finished structure.

Note: Since this is a double-sided applique only 1 layer per fabric is needed to provide stiffness to the structure.
