General Instructions

The freestanding applique instructions, included in the collection, are general instructions. For demonstration purposes, a sample design that best demonstrates the technique is shown. Fabric and thread requirements will vary by design, but the general technique is the same.

All designs are stitched with matching thread, top and bobbin.

Note: Some thread colors in instructions have been changed or digitally enhanced for better visibility.

□ Step 1

- Hoop one layer of AquaMesh and one layer of BadgeMaster for all designs.

□ Step 2

- Adhere one layer of StabilStick CutAway to the wrong side of all applique fabrics, to provide stiffness to the finished structure.
- Note: Since this is a double-sided applique only 1 layer per fabric is needed to provide stiffness to the structure.

EMBROIDERY

□ Step 3

- Load selected design into the machine.
- Example design is 31278-02.
- Thread the machine per the thread chart.
- Stitch Machine Step 1, Front/Back Fabric Placement Stitch.

□ Step 4

- Remove the hoop from the machine, but NOT the project from the hoop.
- Place the hoop on a flat surface.
- Completely cover the placement stitch with the prepared fabric.
- Tape in place to secure.

□ Step 5

- Turn the hoop over and place the fabric, right side up, completely covering the placement stitch.
- Carefully tape to secure. Avoid pushing too hard on the stabilizer to prevent it from dislodging from the hoop.

EMBROIDERY

□ Step 6

- Return the hoop to the machine.
- Stitch Machine Step 2, Cut Line and Tackdown.

□ Step 7

- Remove the hoop from the machine, but NOT the project from the hoop.
- Trim the excess fabric as close to the cut line as possible. If the outermost stitches (cut line) are cut, the inner stitches (tackdown) will hold the applique in place.
- Tip: If the AquaMesh is cut or a hole is created while trimming the fabric, use OESD Expert Embroidery Tape WashAway as a patch.

□ Step 8

- Turn the hoop over and trim the excess fabric as close to the cut line as possible.

EMBROIDERY

□ Step 9

- Return the hoop to the machine and stitch the remaining machine steps, according to the thread chart.
- Match the bobbin thread to the upper thread throughout.

□ Step 10

- When the design is complete, remove the project from the hoop and trim the stabilizer 1/4" - 1/2" outside the design.

ASSEMBLY

□ Step 11

- Rinse each piece in warm running water until the design is only slightly tacky.
- Place right side down on a non-stick surface to dry. Parchment paper or a cooling rack work well to prevent curling. Dry completely.
- Note: While wet, shape vine and let dry.

□ Step 12

- Once dry, press right side down on a Perfect Embroidery Press Cloth.

□ Step 13

- Using the OESD Perfect Punch Tool fitted with the 3mm tip, punch out the designated eyelets on the Soil FSA 32178-03.

EMBROIDERY

□ Step 14

- Match the two center eyelets of 32178-03 Soil to the two buttonettes on one of the 32178-01 Pumpkin Section 1 piece as shown. Pull each buttonette through the corresponding eyelet.

□ Step 15

- Match the two eyelets of 32178-03 Soil to the two buttonettes on one of the 32178-01 Pumpkin Section 1 as shown. Pull each buttonette through the corresponding eyelet.

Step 16

- Match the two eyelets of 32178-03 Soil to the two buttonettes on one of the 32178-01 Pumpkin Section 1 as shown. Pull each buttonette through the corresponding eyelet.

Step 17

- Bring the three 32178-01 Pumpkin Section 1 pieces together to the middle and align the tips to create a gap. Slide 32178-02 Pumpkin Section 2 down the gap and pull each buttonette through the remaining corresponding eyelets.
