EMBROIDERY

Notes

The freestanding applique instructions, included in the collection, are general instructions. For demonstration purposes, a sample design that best demonstrates the technique is shown. Fabric and thread requirements will vary by design, but the general technique is the same.

All designs are stitched with matching thread in the top and bobbin.

For other designs in the collection, use the applique templates as a guide to the dimensions of the various applique pieces.

Note: Some thread colors in instructions have been changed or digitally enhanced for better visibility.

STEP 1

Hoop one layer of AquaMesh and one layer of BadgeMaster for all designs.

- Adhere two layers of StabilStick CutAway to the wrong side of all applique fabrics, to provide stiffness to the finished structure.
- Cut the prepared applique fabrics 1/4"-1/2" larger than the applique templates.

EMBROIDERY

STEP 3

- Load selected design into the machine.
- Example design is 12423-05.
- Thread the machine per the thread chart.
- Place hoop on the machine.
- Stitch Machine Step 1, Placement Stitch.

STEP 4

- Remove the hoop from the machine, but NOT the project from the hoop.
- Place the hoop on a flat surface.
- Place the prepared applique fabric, right side up, completely covering the placement stitch.
- Tape in place to secure.

STEP 5

- Return the hoop to the machine.
- Stitch Machine Step 2, Cut Line and Tackdown.

EMBROIDERY

STEP 6

- Remove the hoop from the machine, but NOT the project from the hoop.
- Trim the excess fabric as close to the cut line stitching as possible.
- Note: If the outermost stitches (cut line) are cut, the inner stitches (tackdown) will hold the applique in place.
- Tip: If the AquaMesh is cut or a hole is created while trimming the fabric, use OESD Expert Embroidery Tape WashAway as a patch.

STEP 7

- Return the hoop to the machine.
- Stitch Machine Step 3, Lace.
- Stitch the remaining machine steps, per thread chart.
- Match the bobbin thread to the upper thread.
- Note: Stitch all required designs. Some designs are freestanding lace only, fabric is not required. A general Freestanding Lace Guide is included for your reference.
- When the design is complete, remove the project from the hoop and trim the stabilizer 1/4"- 1/2" outside the design.

GENERAL FREESTANDING LACE GUIDE

Stabilizer

- OESD AquaMesh
- OESD BadgeMaster

Votions/Tools

- 80/12 Embroidery Ballpoint Titanium needle for extended needle life
- OESD Alligator Clamps
- OESD Button Clips
- OESD Perfect Point and Press Tool

Isacord Thread Colors

 All OESD designs are digitized with Isacord 40 wt. polyester thread as the top thread and in the bobbin.

ТΜ

- Refer to the thread chart for color specifications.
- Match bobbin thread color to the top thread.

Instructions

Step 1 - Hoop

For FSL structures, hoop one layer of OESD AquaMesh and one layer of OESD BadgeMaster. BadgeMaster contains more starch so, combined with the AquaMesh, the lace is more rigid. For other FSL, where a softer lace is desired, hoop two layers of AquaMesh.

Step 2 - Embroider

Stitch the design per the thread chart with matching thread in the bobbin at each color change.

When complete, remove from the hoop and trim away excess stabilizer about 1/4"-1/2" from the stitching.

Step 3 - Rinse

Rinse remaining stabilizer out in warm running water.

For stiffer lace and FSL structures, DO NOT rinse away all of the stabilizer. The lace should be just slightly tacky. For softer lace, rinse until all traces of the stabilizer are removed.

Step 4 - Dry

Lay right side down flat on a nonstick surface, such as a cooling rack, parchment paper or Teflon sheet. This minimizes the tendency for the lace to curl.

Let the pieces dry completely before proceeding with any assembly.

Step 5 - Press

Once completely dry, press right side down on a OESD Perfect Embroidery Press Cloth.

Step 6 – Assemble Structure

Note: Specific assembly instructions for a design/collection may be found in the thread chart pdf following the individual design color charts.

Lace must be COMPLETELY DRY before assembly. Wetting the buttonettes or eyelets to assemble is not recommended and may result in them stretching and coming "unbuttoned" when dry.

Use a pair of OESD Alligator Clamps to insert the buttonettes into the eyelets. Insert the tip of the OESD Alligator Clamps into the eyelet, grasp the buttonette and pull through the eyelet. Alternatively, use a stiletto or tweezers to push the buttonette through the eyelet.

Helpful Tips

Limp Lace

If the design is not stiff enough, press the lace pieces on the wrong side while applying spray starch. After ironing, spray again with starch and allow to dry completely. This will stiffen the lace pieces nicely and aid in construction. Or easily restiffen by diluting some stabilizer scraps in water (or use liquid starch) and dipping the item in the solution. Lay flat to dry.

Eyelets Too Small

If any of the eyelets appear closed or too small to penetrate with Alligator Clamps, they may be stretched by inserting the small end of the OESD Perfect Point and Press Tool into the eyelet opening and stretching it open wide enough to accommodate the OESD Alligator Clamps.

Button Clips

During the assembly process, some structures pull on buttonettes that have already been inserted and could pull them out altogether. Putting a Button Clip on the assembled buttonette will keep it in position during the assembly process. Remove the Button Clips when the assembly is complete.

Alternative Construction Option

In some cases, the buttonettes may be pulled to the inside of a project, instead of being visible on the outside. Insert the OESD Alligator Clamps through the eyelet from the wrong, or inside, of the lace and grasp the corresponding buttonette. Pull the buttonette to the wrong side of the lace.

Pulling the buttonettes to the inside may cause stress on the ones already done. Button clips may be placed on the completed buttonette(s) to prevent them from pulling out of the eyelet during construction.

PRINTING INSTRUCTIONS

ATTENTION

When printing this document, any page scaling or page fitting options in your print dialog box must be turned OFF or set to NONE so that your files will print out at their actual size. Images not printed at actual size will not function as intended.

SUMMARY

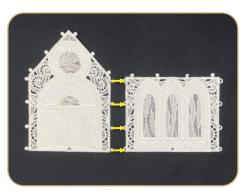

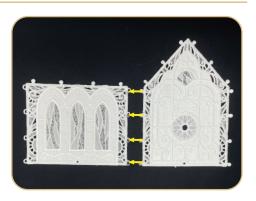

STEP 1

• Using alligator clamps, attach the Front FSA (0C03801) to Side FSA (0C03802) together in a row by pulling the buttonettes through the corresponding eyelets. Use button clips to temporarily hold them in place.

STEP 2

• Attach sections Rear FSA (0C03803) to Side FSA (0C03802) together in a row by pulling the buttonettes through the corresponding eyelets.

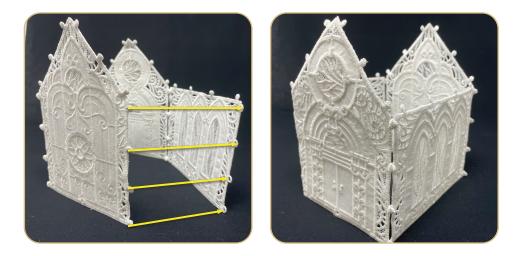

STEP 3

 Attach the right side of the Front FSA (0C03801) and the Side FSA (0C03802) to the Rear FSA (0C03803) and the Side FSA (0C03802).

STEP 4

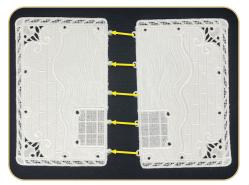

Stand joined pieces up and attach the right side of the Rear FSA (0C03803) and Side FSA (0C03802) to the left side of Front FSA (0C03801) and Side FSA (0C03802) making basic church structure. Set aside.

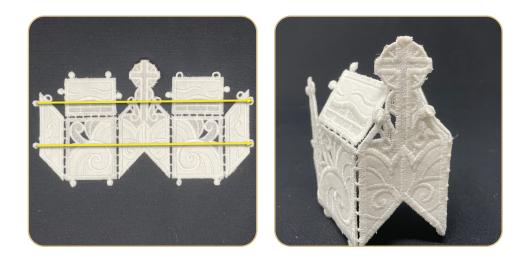

STEP 5

- Roof Construction.
- Using alligator clamps, attach sections Roof Left Side FSA (0C03804) to the Roof Right Side FSA (0C03805) together. Set aside

STEP 6

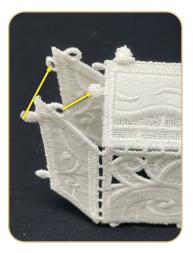

• Fold the steeple into a box or square shape. Attach the two buttonettes to create the box.

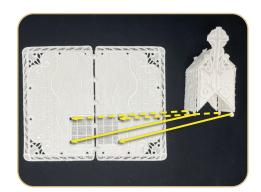

STEP 7

- Using alligator clamp, attach the two buttonettes into the loop at the base of the cross. This will fold the roof into an angle.
- Attach the two corresponding buttonettes on the tip of the roof and to the back of the steeple.

STEP 8

• Attach the steeple to the roof by attaching the four buttonettes into the roof unit.

STEP 9

• Attach the roof/steeple to the building using the buttonettes as shown.

STEP 10

- Attach structure to the Bottom Base FSA (0C03807).
- Use alligator clamps connect the bottom buttonettes to the side walls.

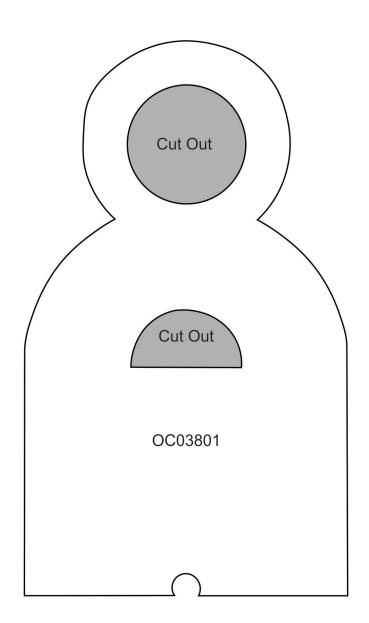

FINISHING TOUCHES

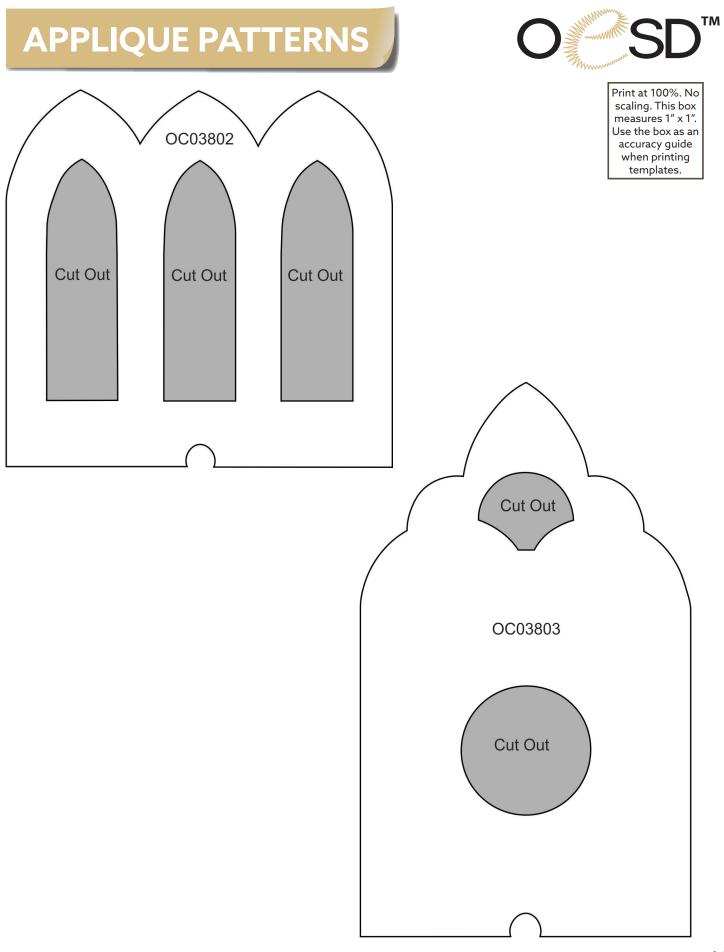

- •
- The church is complete. Enjoy. Add tea lights or pixie lights to create a glow. •

SUMMARY

Completed Size: 6 $\frac{1}{2}$ " H x 6 $\frac{1}{4}$ " W x 5" D

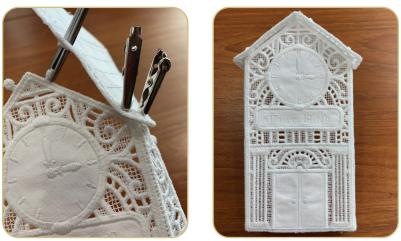

STEP 1

- Rinse each piece in warm running water until the design is only slightly sticky.
- Lay face down on a non-stick surface to dry. Parchment paper or a cooling rack work well. This prevents the piece from curling.
- Press each piece, right side down, on a Perfect Embroidery Press Cloth.

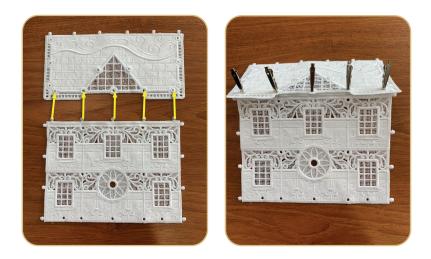

- Using alligator clamps, attach Clock Front FSA (OC08905) to the Roof Extension FSA (OC08906) by pulling the buttonettes through the corresponding eyelets.
- Fold the side flap toward the back and attach to the upper inner buttonhole.
- Set the clock and roof unit aside.

STEP 3

 Attach the Front Wall/Back Wall FSA (OC08901) to Front Roof FSA (OC08903) by pulling the five buttonettes along the top edge of the front wall into the five eyelets along bottom edge of the front roof.

- Attach the Clock Front FSA (OC08905) to the Front Wall/Back Wall FSA (OC08901) by pulling the six buttonettes of the clock front into the six eyelets of the front wall.
- Apply button clips as needed when assembling.
- The clock and front wall section is complete.
- Set aside.

STEP 5

• Attach the Roof Extension FSA (OC08906) to the Front Roof FSA (OC08903) by pulling the two buttonettes on the roof extension into the two eyelets on the front roof.

STEP 6

•

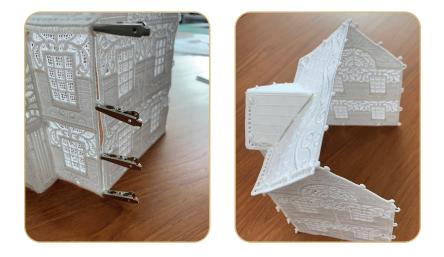

Attach one of the Side Wall FSA (OC08902) to the Front Roof FSA (OC08903) by pulling the three buttonettes along the angled edge of the side wall into the three eyelets along the side edges of the front roof.

STEP 7

- Attach the same Side Wall FSA (OC08902) to the Front Wall/Back Wall FSA (OC08901) by
 pulling the four buttonettes along the side of front wall into the eyelets along the front side of
 the wall.
- Attach the other side.

STEP 8

• Attach the Front Wall/Back Wall FSA (OC08901) to the Back Roof FSA (OC08904) by pulling the 5 buttonettes of the back wall into the five eyelets along the bottom edge of the back roof.

STEP 9

 Attach the Back Roof FSA (OC08904) to one Side Wall FSA (OC08902) by pulling the three buttonettes along the angled edge of the side wall into the three eyelets along the side edge of the back roof.

- Attach the same Side Wall FSA (OC08902) to the Front Wall/Back Wall FSA by pulling the four buttonettes along the side of the back wall in the four eyelets along the side wall. Start with the top buttonettes and work your way to the bottom.
- Repeat for opposite side.

STEP 11

 Attach the Front Roof FSA (OC08903) to Back Roof FSA (OC08904) by pulling the six buttonettes along the edge of the front roof into the six eyelets along the edge of the back roof.

- Attach Foundation FSA (OC08907) to Front Wall/Back Wall FSA (OC08901), going under Clock Front FSA (OC08905) first by pulling the center buttonette through the center of front wall.
- Continue pulling the buttonettes of the Foundation FSA (OC08907) into the eyelets of the front, sides and back.

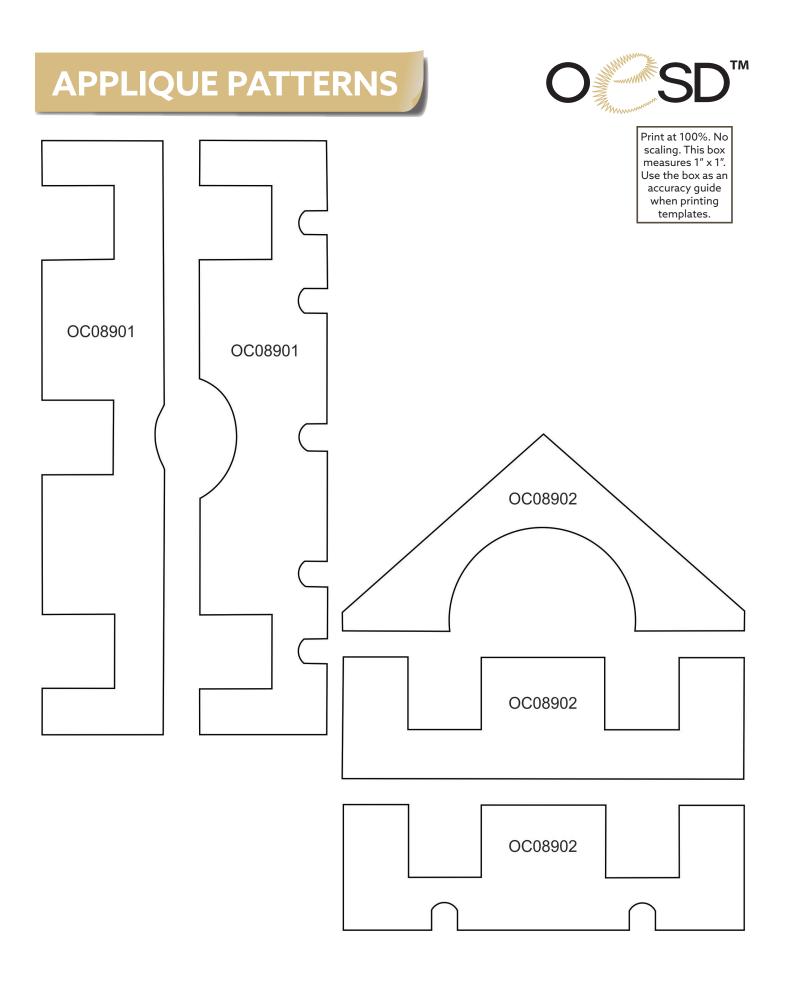

FINISHING TOUCHES

- The town hall is complete. Enjoy.
- Add tea lights or pixie lights to create a glow.

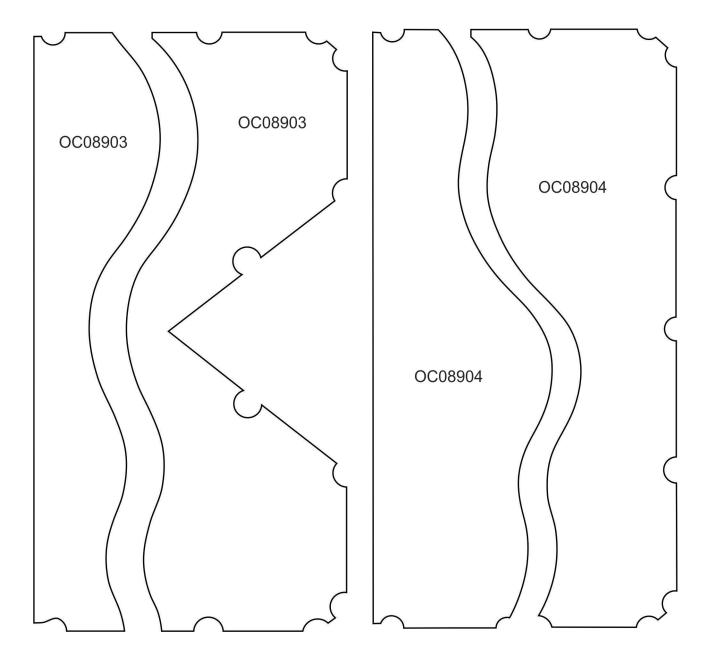

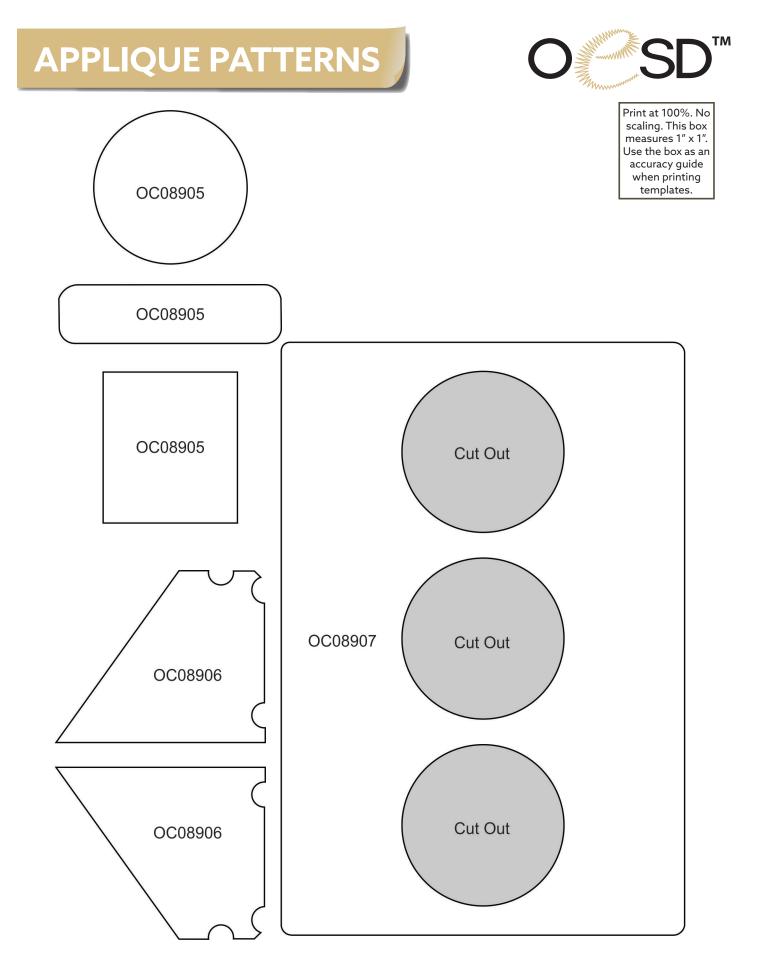

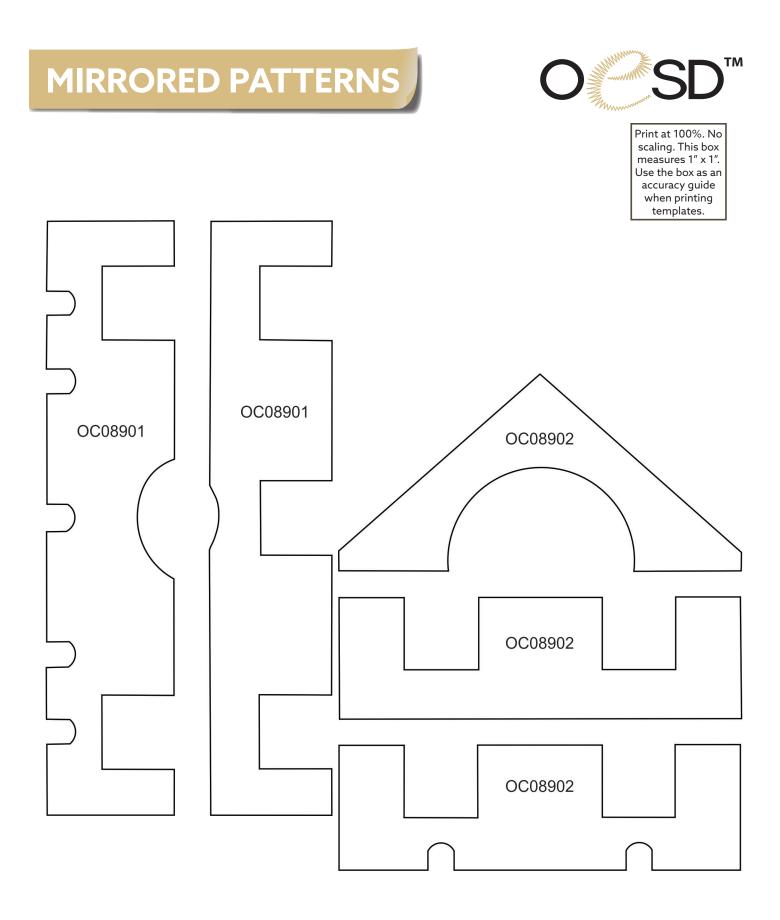

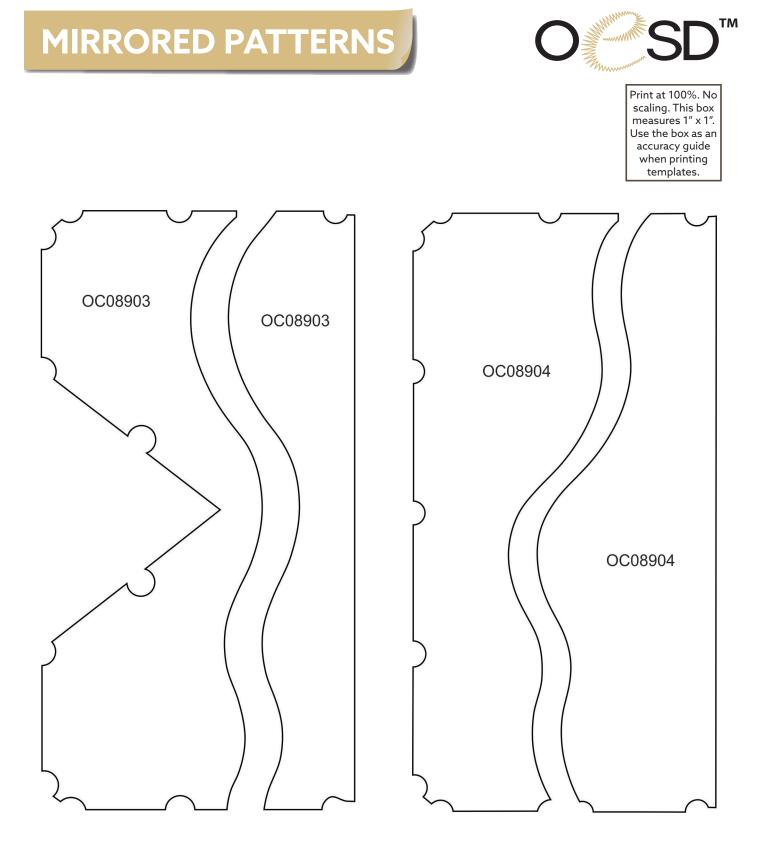

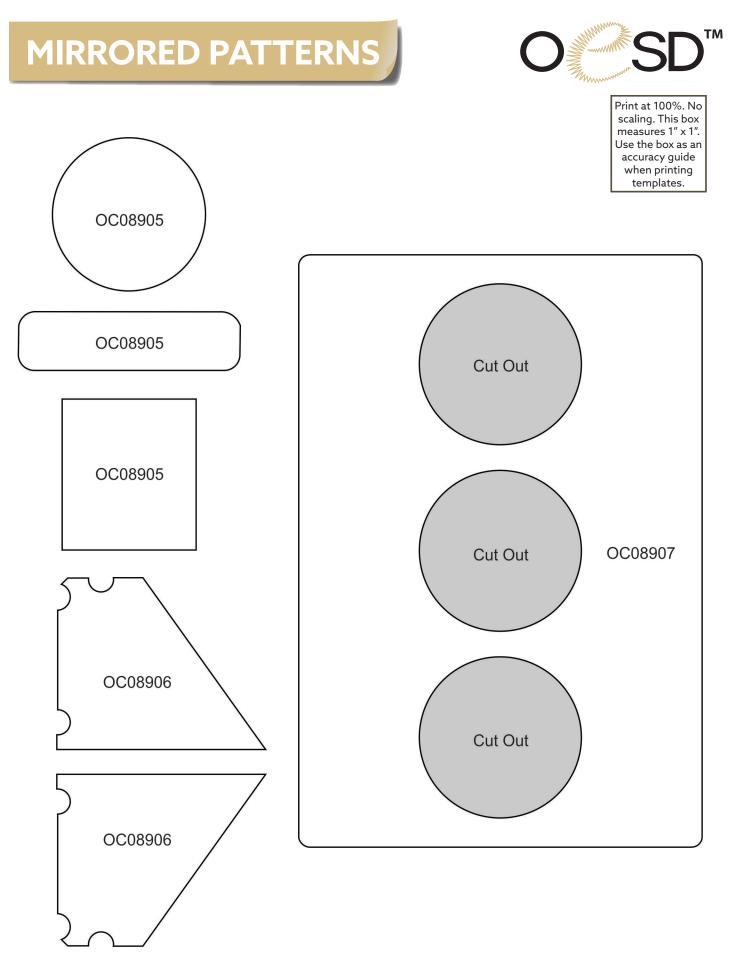

Print at 100%. No scaling. This box measures 1" x 1". Use the box as an accuracy guide when printing templates.

1. Lace		0015

COLLECTION SUPPLIES

Stabilizers

- OESD AquaMesh WashAway
- OESD BadgeMaster WashAway
- OESD StabilStick CutAway

Fabrics/Textiles

- White cotton fabric 1/4 yard
- Note: Fabric sizes are estimates and may result in overage.

Notions & Tools

- OESD Alligator Clamps
- OESD Button Clips
- OESD Expert Embroidery Tape WashAway
- Embroidery Needle Sharp 75/11

Isacord Thread Colors

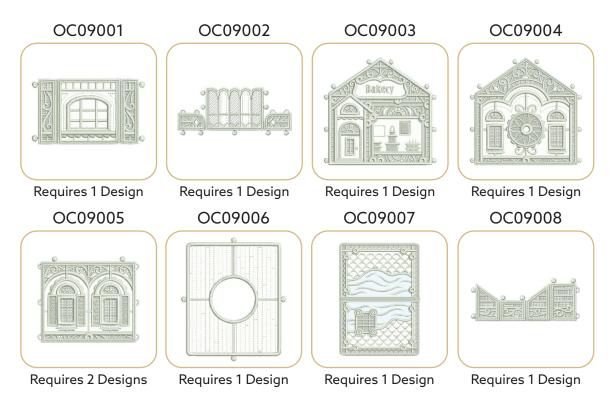

- Per thread chart
- Match bobbin thread to top thread
- 0015 White (2 spools)

SUMMARY

Completed Size: 5" H x 4.25" W x 4.25" D

STEP 1

- Rinse each piece in warm running water until the design is only slightly tacky.
- Place right side down on a non-stick surface to dry. Parchment paper or a cooling rack will prevent curling. Dry completely.
- Once dry, press right side down on a Perfect Embroidery Press Cloth.

STEP 2

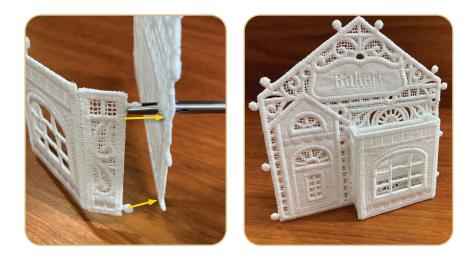

• Fold the flaps of the Window FSA (OC09001) toward the back, finger press the edge.

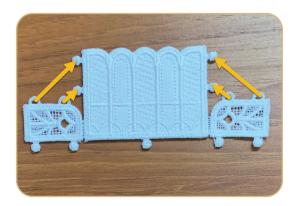

STEP 3

• Using alligator clamps, attach Window FSA (OC09001) to the Front Wall FSA (OC09003) by pulling the four buttonettes on the window flaps into the four eyelets on the front wall.

- Form the Awning FSA (OC09003) by folding the side flaps of the awning down and pulling the two buttonettes on each side of the awning into the 2 eyelets located on each side flap.
- Insert the Alligator Clamps through the loops from the back side of the design.
- Grasp the buttonettes and pull through to inside the awning where they will not show when the assembly is complete.

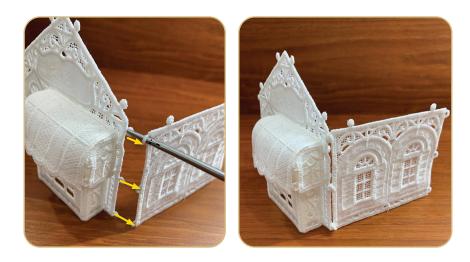

STEP 5

 Attach the Awning FSA (OC09002) to the Front Wall FSA (OC09003) by pulling the five buttonettes on the awning into the five remaining eyelets surrounding the top half of the window.

STEP 6

• Attach one of the Side Walls FSA (OC09005) to the Front Wall FSA (OC09003) by pulling the three buttonettes along the side of the front wall into the three eyelets along the edge of the side wall.

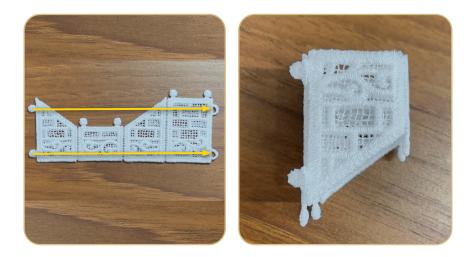

STEP 7

• Repeat for other side.

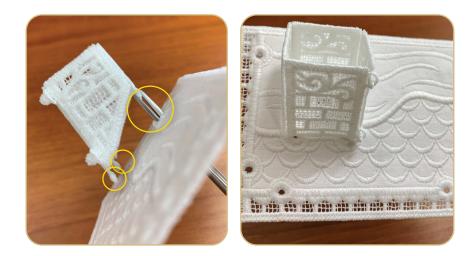

- Form the Chimney (OC09008) by folding it into a square and pressing each corner for defined fold.
- Pull the two buttonettes on one end into the two eyelets into the opposite end.

STEP 9

• Attach the formed Chimney (OC09008) to the Roof FSA (OC09007) by pulling the four buttonettes on the corners of the chimney through the four eyelets in the roof.

- Attach Roof FSA (OC09007) to the Front Wall FSA (OC09003) by slightly folding the roof into a V shape. Position the roof over the building with the chimney on the left side of the roof and toward the back half of the building.
- Attach Roof FSA (OC09007) to the Side Walls FSA (OC09005).
- Attach the Back Wall FSA (OC09004) to the Side Walls FSA (OC09005).
- Attach Roof FSA (OC09007) to Back Wall FSA (OC09004.

STEP 11

 Attach Foundation FSA (OC09006) to Front Wall FSA (OC09003) and to both Side Walls FSA (OC09005) and to Back Wall FSA (OC09004).

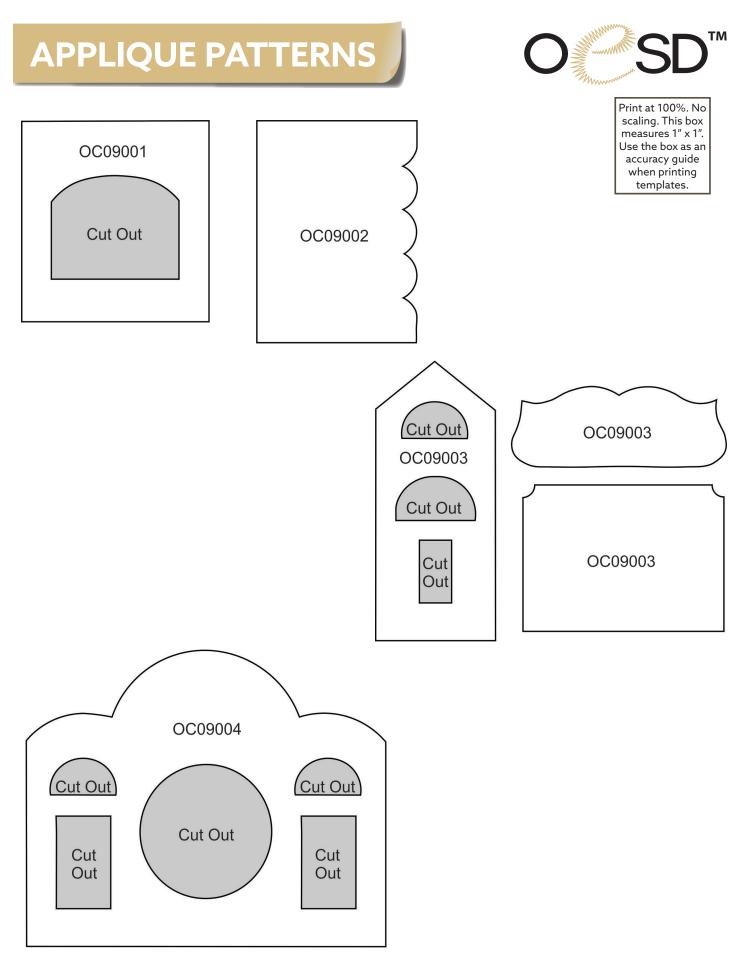

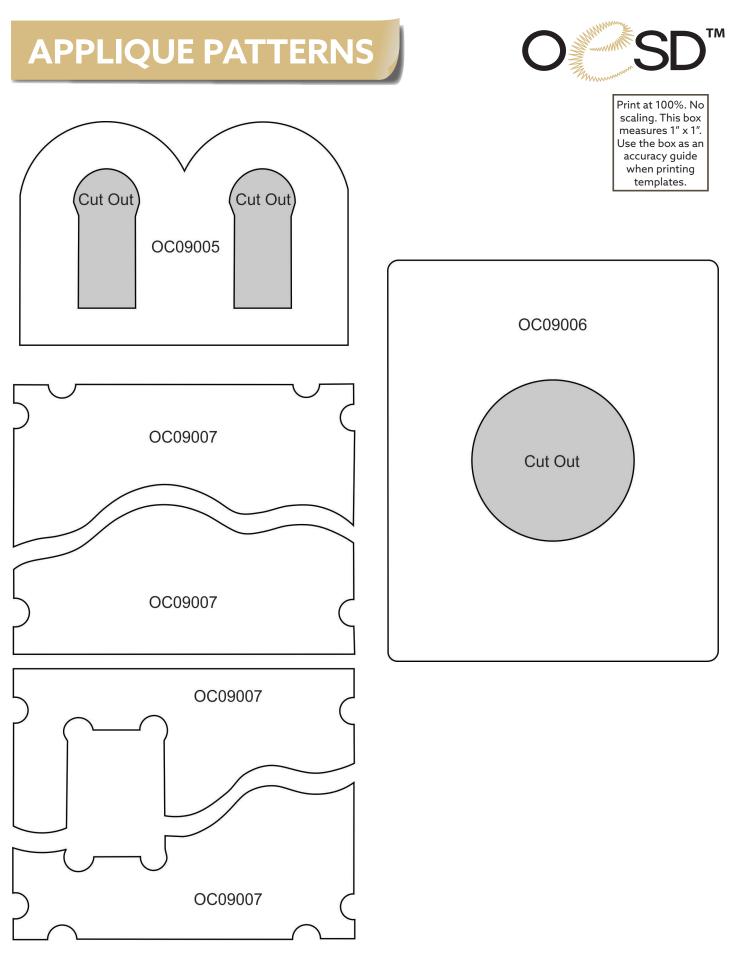

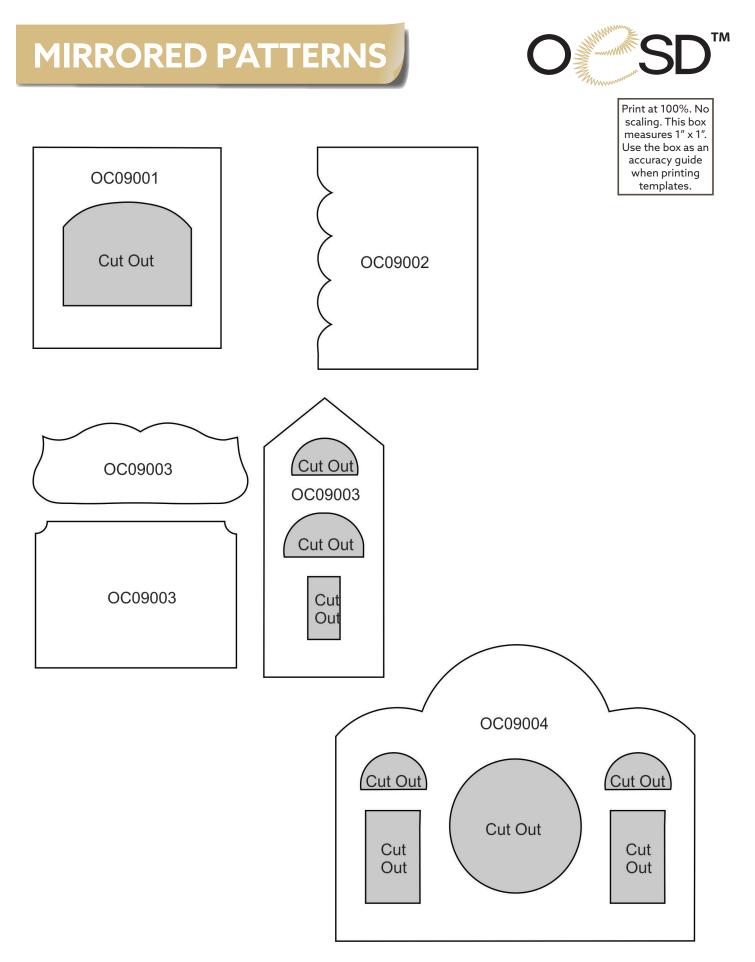

FINISHING TOUCHES

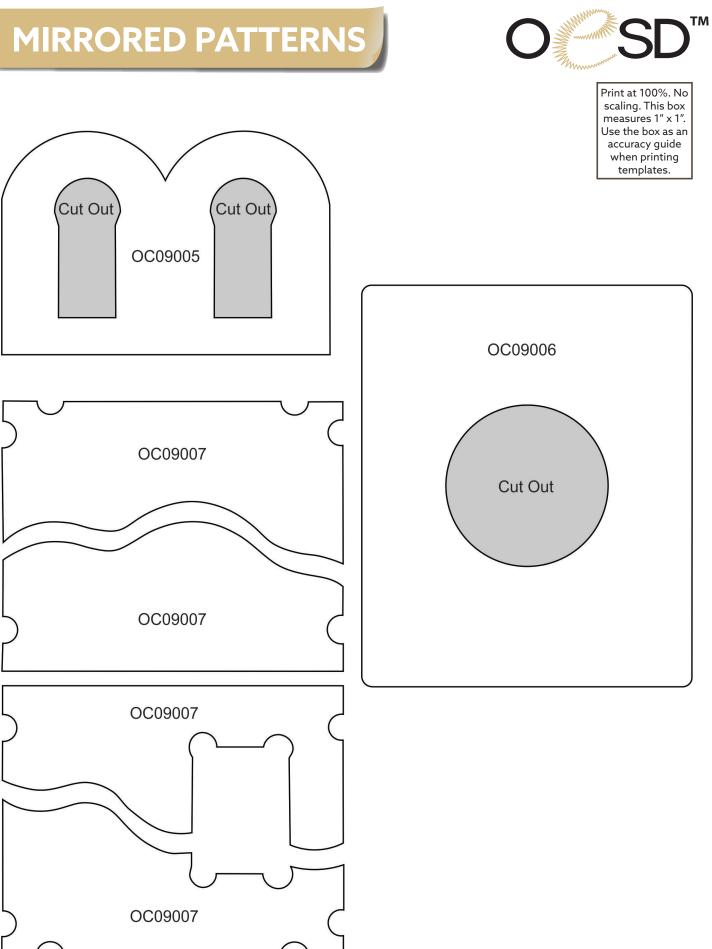

- The bakery is complete. Enjoy.
- Add tea lights or pixie lights to create a glow.

Isacord Thread Colors

- Per thread chart
- Match bobbin thread to top thread
- 0015 White (1 spool)

SUMMARY

Completed Size: 7 1/2" Tall, 5" Round

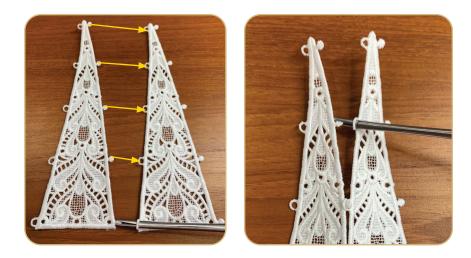

STEP 1

- Rinse each piece in warm running water until the design is only slightly sticky.
- Lay right side down on a non-stick surface to dry. Parchment paper or a cooling rack work well. This prevents the piece from curling.
- Press each piece, right side down, on a Perfect Embroidery Press Cloth.

STEP 2 -Assembling the Tree

• Using alligator clamps, attach all six sections of the Tree Body FSL (OC09101) by pulling the five buttonettes along the side of one section through the five eyelets along the side of a second section.

STEP 3

• Continue connecting sections until all six are buttoned together and lying flat in a fan pattern.

STEP 4

• Slightly bend branches before attaching them.

STEP 5

• Attach the six Tree Bottom Branch FSA (OC09102) to the six sections of the Tree Body (OC09101) by pulling the three buttonettes on each branch into the three corresponding eyelets on each section of the tree body.

STEP 6

• Complete all the bottom branches.

STEP 7

• Attach the six Tree Center Branch FSA (OC09103) to the six sections of the Tree Body (OC09101) by pulling the three buttonettes on each branch into the three corresponding eyelets on each section of the tree body.

STEP 8

• Complete for center branches.

STEP 9

• Attach the six Tree Top Branch FSA (OC09104) to the six sections of the Tree Body FSL (OC09101) by pulling the three buttonettes on each branch into the three corresponding eyelets on each section of the tree body.

STEP 10

• Complete the top branches.

STEP 11

• Once the branches are attached, form the tree into a cone shape by connecting the final five buttonettes along one edge with the eyelets along the opposite edge.

STEP 12

- Fold the tab below the Tree Star in half lengthwise and insert tab into open top of the tree.
- Note: The star has a loop at the bottom end. This is so you can hang a mirror or crystal inside the tree to reflect light. When the tree is positioned over a battery-operated tea light candle, the reflections can be quite stunning.

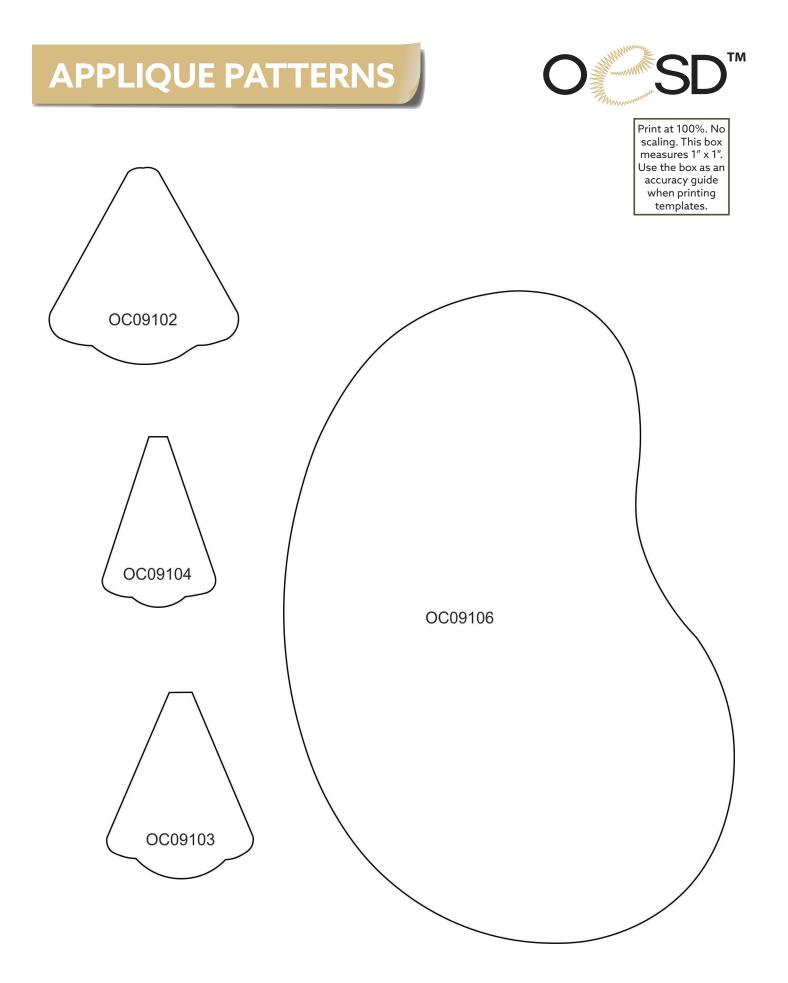

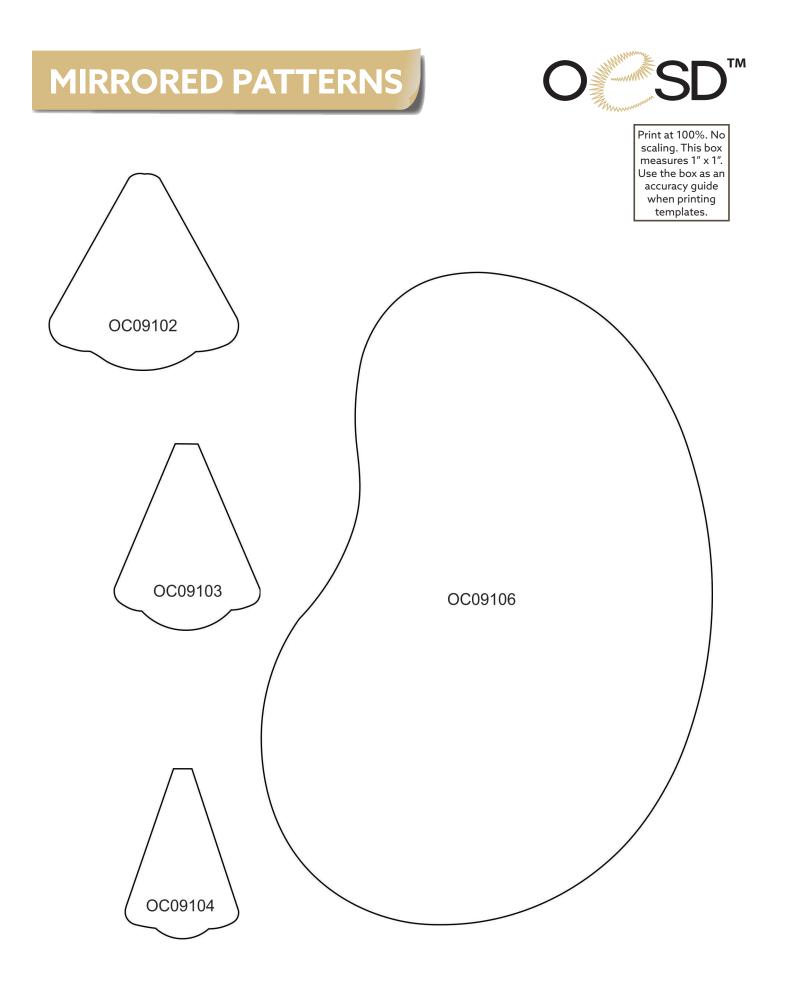

Finishing Touches

- •
- The tree and pond are complete. Enjoy. Add tea lights or pixie lights to create a glow.

Isacord Thread Colors

- Per thread chart
- Match bobbin thread to top thread
- 0015 White (2 spools)

SUMMARY

Completed Size: 5 ¼" Tall, 4 ¼" x 5 ¾"

STEP 1

- Rinse each piece in warm running water until the design is only slightly tacky.
- Place right side down on a non-stick surface to dry. Parchment paper or a cooling rack work well to prevent curling. Dry completely.
- Once dry, press right side down on a Perfect Embroidery Press Cloth.

STEP 2

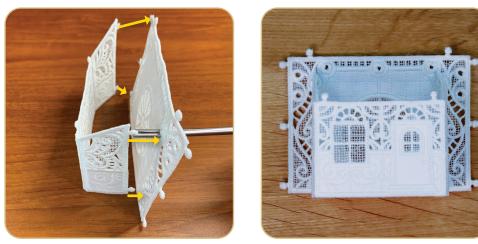

• Fold the flaps of the Entry Front Wall FSA (12423-01) toward the back to create a shallow U shape.

STEP 3

To create an extended entry, attach Entry Front Wall FSA (12423-01) to Front Wall FSA (12423-04) by pulling the four buttonettes on the front entry flaps into the four corresponding eyelets.

STEP 4

• Attach Front Roof FSA (12423-03) by pulling the three buttonettes on the roof into three eyelets on Front Wall FSA (12423-04) above the attached front entry.

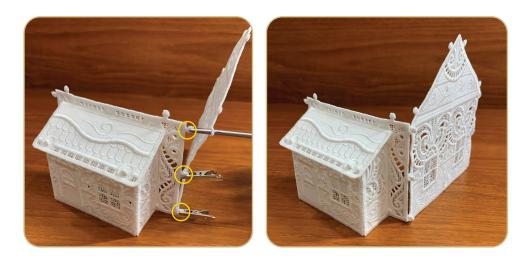

STEP 5

• Complete the entry roof by pulling the two buttonettes on Front Wall FSA (12423-01) into the two eyelets at the front of Front Roof FSA (12423-03).

STEP 6

• Attach one Side Wall FSA (12423-05) to one side Front Wall FSA (12423-04) with extended entry by pulling the three buttonettes of the front wall into the three eyelets on the side wall.

STEP 7

• Repeat the above for the other side wall to the front wall.

STEP 8

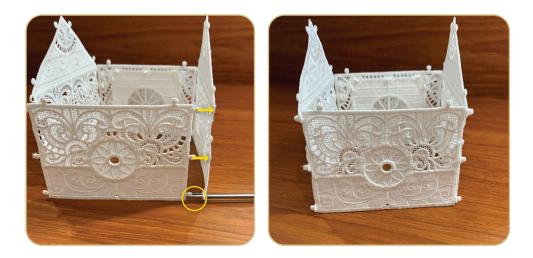

- Attach American Flag FSL (12423-02) to Front Wall FSA with extended entry (12423-04) by pulling the two buttonettes on the flag into the two eyelets.
- Note: The flag can be placed on either side.

STEP 9

• Attach Back Wall FSA (12423-06) to each Side Wall FSA (12423-05) by pulling the three buttonettes of each side of the back wall into the three eyelets of each side wall.

STEP 10

• Fold the flaps of Sign FSA (12423-07) toward the back to create a U shape.

STEP 11

• Attach Sign FSA (12423-07) to Roof FSA (12423-08) by pulling the five buttonettes along the sign into the five eyelets located around the square of lace in the roof.

STEP 12

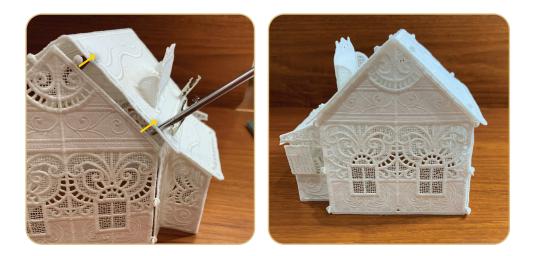

- Attach Roof FSA (12423-08) to Front Wall FSA (12423-04) by pulling the two buttonettes from the front wall into the two eyelets along the front edge of the roof.
- Note: The sign will face the same direction as the extended entry.

STEP 13

• Attach Roof FSA (12423-08) to each Side Wall FSA (12423-05) by pulling the four buttonettes into the corresponding eyelets along the side edges of the roof.

STEP 14

• Attach Back Wall FSA (12423-06) to Roof FSA (12423-08) by pulling the two buttonettes along the top of the back wall into the two eyelets on the edge of the roof.

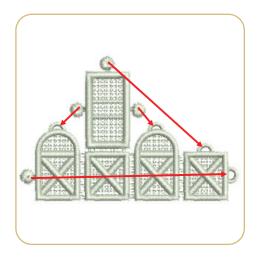

STEP 15

• Attach Floor FSA (12423-09) to the structure by pulling the four buttonettes on floor into each eyelet by pulling the four buttonettes from the floor to the corresponding wall eyelets.

STEP 16

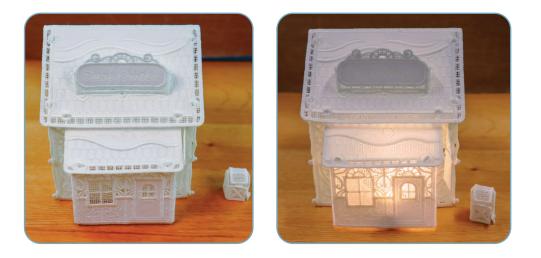

- To assemble the Mailbox FSL (12423-10) attach the 4 buttonettes to the corresponding eyelets as shown.
- Note: You will achieve the best look if you pull the buttonettes into the eyelets so that the buttonettes end up inside the mailbox.

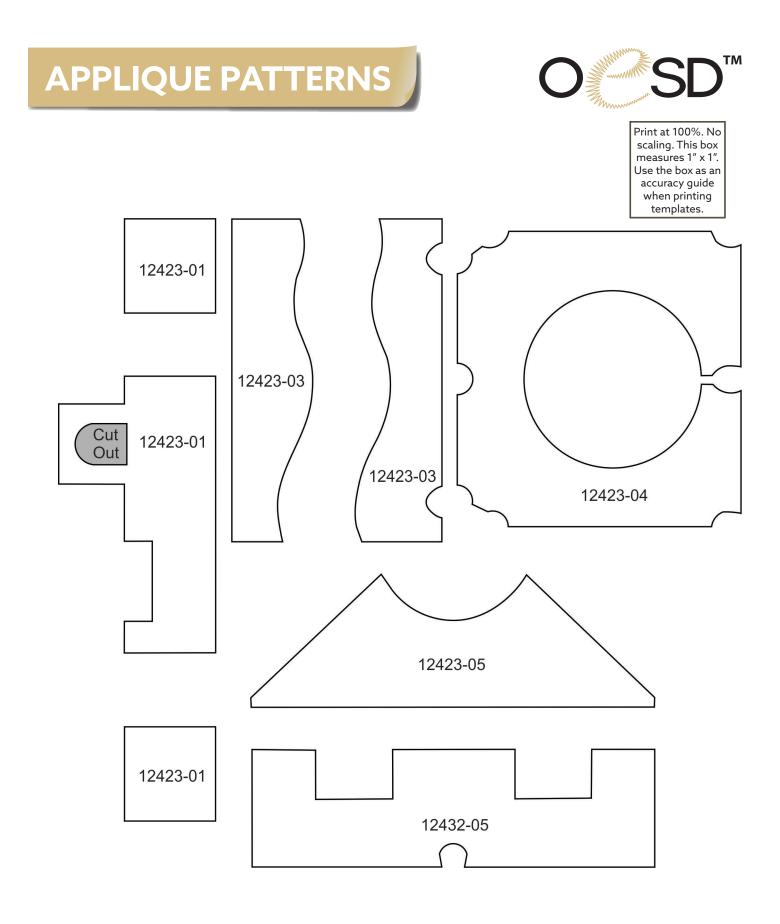

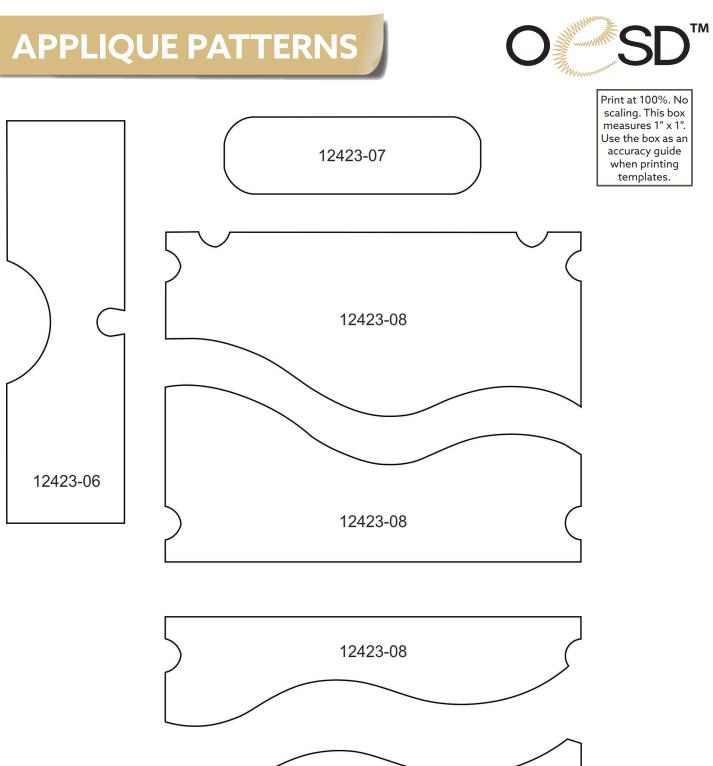

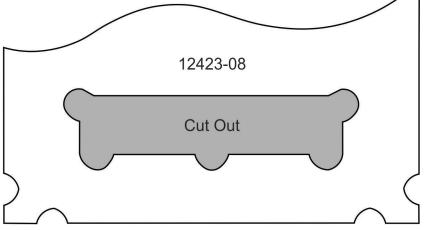

FINISHING TOUCHES

- The post office and mailbox are complete. Enjoy.
- Add tea lights or pixie lights to create a glow.

SUMMARY

Completed Size: 6 ³⁄₄" Tall, 6" x 4 ³⁄₄"

It is a violation of Copyright law to make and distribute copies of electronic designs or artwork. Electronic designs are licensed to the original purchaser for use at one location. ©2023 OESD, LLC. All rights reserved.

STEP 1

- Rinse each piece in warm running water until the design is only slightly sticky.
- Lay face down on a non-stick surface to dry. Parchment paper or a cooling rack work well. This prevents the piece from curling.
- Press each piece, right side down, on a Perfect Embroidery Press Cloth.

STEP 2

 Using alligator clamps, attach the Victorian House Inner Wall (12424-02) to Victorian House Front Wall (12424-01) by pulling the three buttonettes along the right side of the front wall into the three eyelets along the edge of the inside wall.

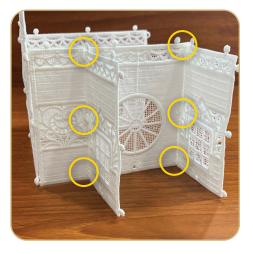

Attach the Victorian House Left Wall (12424-04) to the Victorian House Front Wall (12424-01) by pulling the three buttonettes along the left side of the front wall into the three eyelets along the edge of the inside wall.

STEP 4

 Attach the Victorian House Front & Back Wing Wall (12424-09) to the Victorian House Inner Wall (12424-02) by pulling the three buttonettes from the front & back wing wall into the corresponding eyelets located on the inner wall.

STEP 5

•

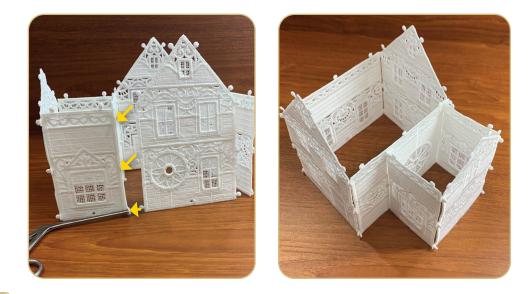

Attach the Victorian House Right Wall (12424-10) to Victorian House Front & Back Wing Wall (12424-09) by pulling the three buttonettes along both the front and back wing walls into the three eyelets along both sides of the right wall.

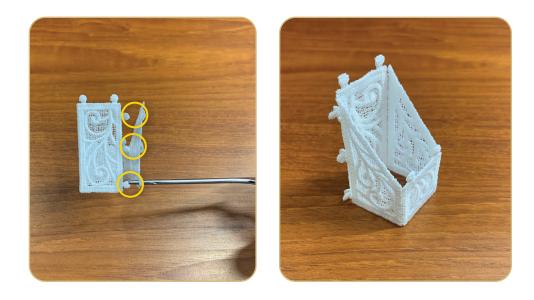

STEP 6

• Finish the house by attaching the Victorian House Back Wall 12424-03 to both Victorian House Inner Wall (12424-02) and Victorian House Left Wall (12424-04) by pulling the three buttonettes along each side of the back wall into the three eyelets along both the inner and left wall edges.

STEP 7

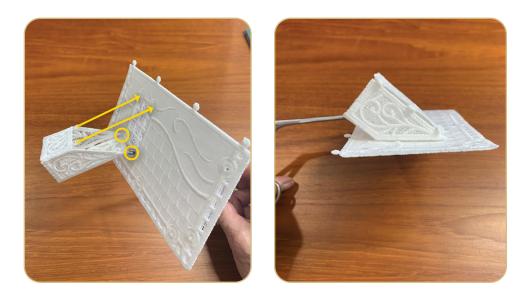

• Construct the Victorian House Chimney (12424-08) by folding it into a square and pulling the three buttonettes from one side into the three eyelets along the opposite edge.

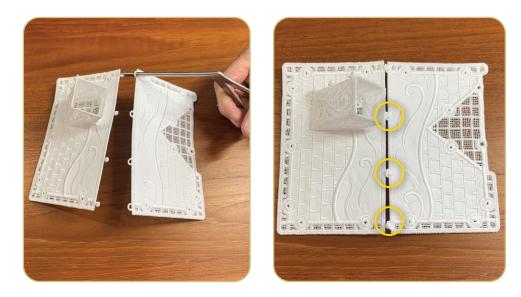

STEP 8

 Attach the Victorian House Chimney (12424-08) to the Victorian House Left Roof (12424-07) by pulling the four buttonettes of the chimney into the eyelets located at each corner of the small rectangular area located on the left roof.

STEP 9

• Attach the Victorian House Right Roof (12424-06) to the Victorian House Left Roof (12424-07) by pulling the buttonettes into the four eyelets located along the edge of the right roof.

STEP 10

 Attach the Victorian House Right Roof (12424-06) to the Victorian House Inner Wall (12424-02) by pulling the three buttonettes along the upper edge of the inner wall into the three eyelets along the bottom edge of the right roof. Start with the center buttonette followed by the two end buttonettes.

STEP 11

• Fold Victorian House Wing Roof (12424-11) into a V shape.

STEP 12

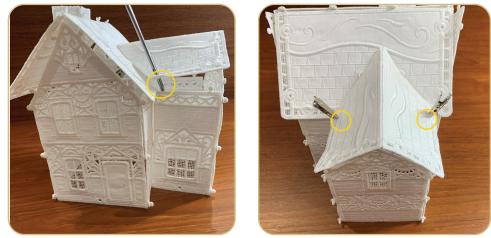

• Attach the Victorian House Wing Roof (12424-11) to Victorian House Right Roof (12424-06) by pulling the two buttonettes of the wing roof into the two eyelets on either side of the triangular area located on the right roof.

STEP 13

• Attach the Victorian House Wing Roof (12424-11) to Victorian House Right Roof (12424-06) by pulling the two buttonettes closest to the main building into the two eyelets of the wing roof.

STEP 14

• Then pull the two outermost buttonettes of the front and back wings into the two eyelets on the wing roof.

It is a violation of Copyright law to make and distribute copies of electronic designs or artwork. Electronic designs are licensed to the original purchaser for use at one location. ©2023 OESD, LLC. All rights reserved.

STEP 15

• Attach the Victorian House Wing Roof (12424-11) to Victorian House Right Wall (12424-10) by pulling the four buttonettes lining the upper edge of the right wall into the four eyelets located along the outer edge of the wing roof.

STEP 16

• Continue attaching the main roof to the main building by pulling the remaining eleven buttonettes of the main building into the eleven eyelets located along the edges of the main roof.

It is a violation of Copyright law to make and distribute copies of electronic designs or artwork. Electronic designs are licensed to the original purchaser for use at one location. ©2023 OESD, LLC. All rights reserved.

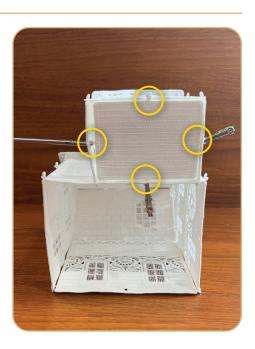

STEP 17

 Attach Victorian House Foundation 2 (12424-12) to the Victorian House Inner Wall (12424-02) by pulling the buttonette of foundation 2 into the one eyelet of the inner wall.

STEP 18

 Attach Victorian House Foundation 2 (12424-12) to Victorian House Front & Back Wall (12424-09) by pulling the buttonettes on each end of the foundation 2 into the one eyelet at the bottom center of the front and back wing walls.

STEP 19

• Attach the Victorian House Foundation (12424-05) to Victorian House Inner Wall (12424-02) by pulling the buttonette on the foundation into the one eyelet remaining on the inner wall.

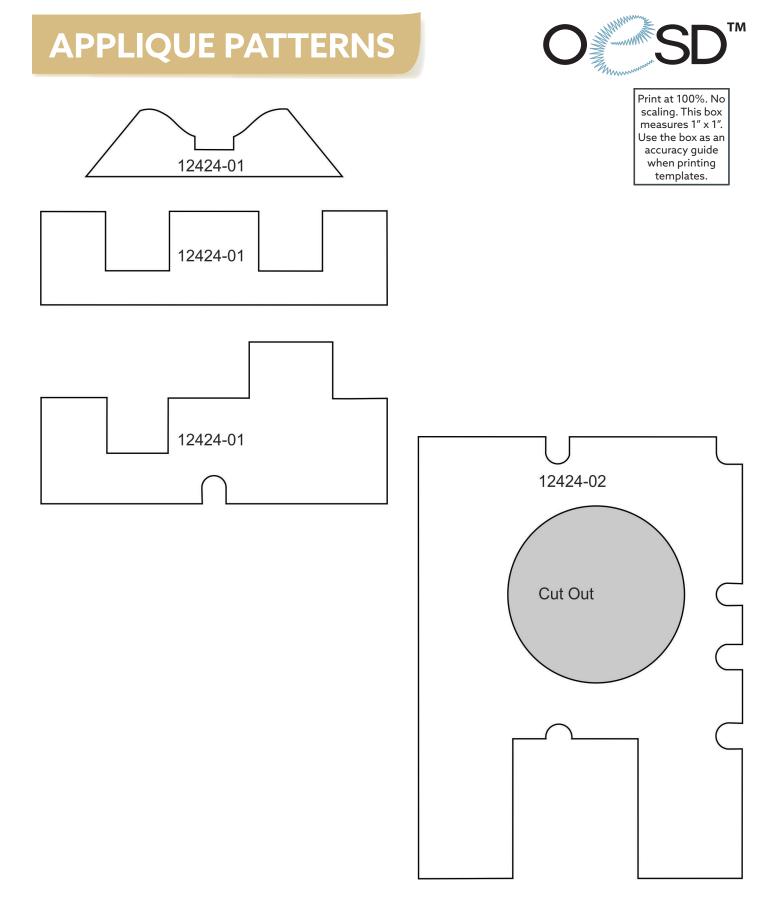

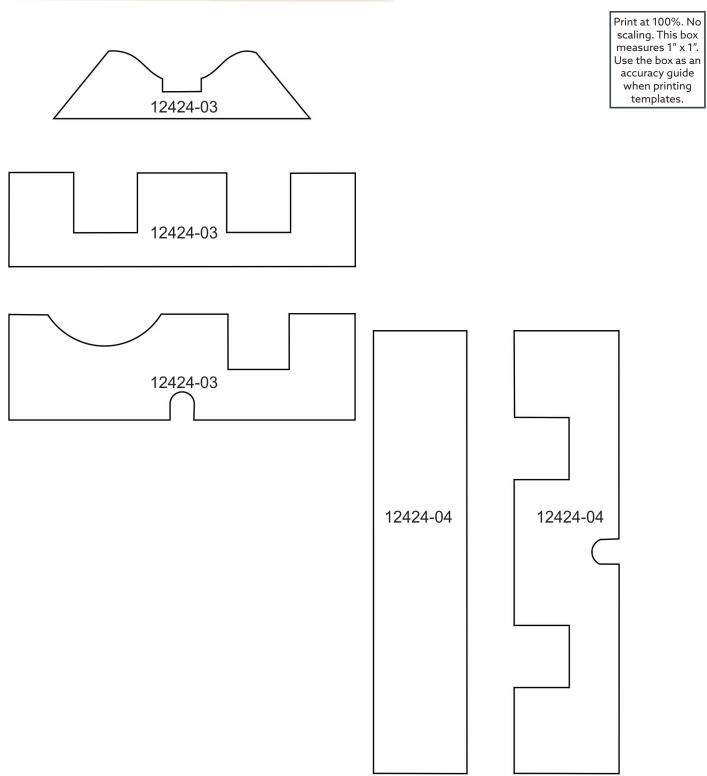

FINISHING TOUCHES

- The Victorian house is complete. Enjoy.
- Add tea lights or pixie lights to create a glow.

SUMMARY

Completed Size: 4 ¼" Tall, 4" round

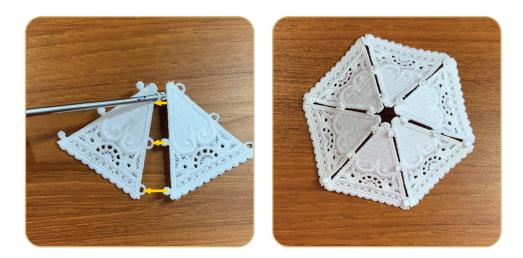

STEP 8

- Rinse each piece in warm running water until the design is only slightly tacky.
- Place right side down on a non-stick surface to dry. Parchment paper or a cooling rack work well to prevent curling. Dry completely.
- Once dry, press right side down on a Perfect Embroidery Press Cloth.

STEP 9

• Using alligator clamps attach all six Gazebo Roof Piece FSA (12425-02) by pulling the buttonettes from the left side of one roof piece into the eyelets from the right side of another roof piece.

STEP 10

• Attach the two Gazebo Walls FSL (12425-01) to each other by pulling the four buttonettes on each wall into the four corresponding eyelets.

STEP 11

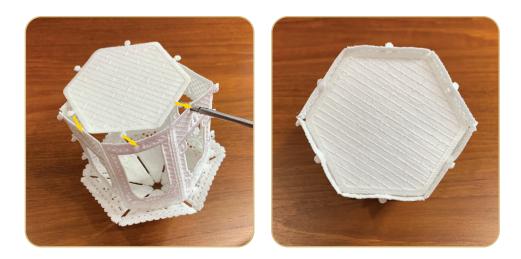

• Attach the roof assembly to the wall assembly by pulling the two buttonettes along the top of each wall section into the two eyelets located toward the bottom of each roof piece.

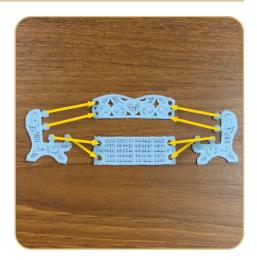

STEP 12

• Attach the Gazebo Foundation FSA (12425-03) to the wall assembly by pulling the buttonettes along each edge of the foundation into the corresponding eyelets.

STEP 13

• To assemble the Park Bench FSL (12425-04) attach the four buttonettes to the corresponding eyelets as shown.

FINISHING TOUCHES

- The gazebo and bench are complete. Enjoy.
- Add tea lights or pixie lights to create a glow.

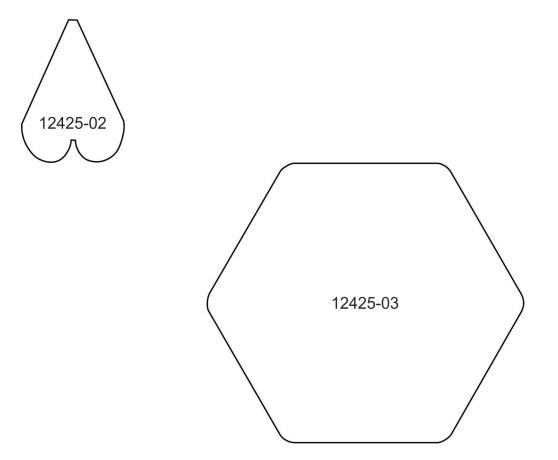

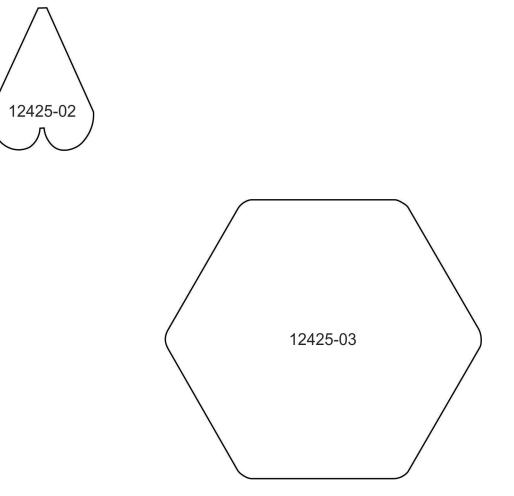

Print at 100%. No scaling. This box measures 1" x 1". Use the box as an accuracy guide when printing templates.

SUMMARY

Completed Size: 6" x 4" x 6"

It is a violation of Copyright law to make and distribute copies of electronic designs or artwork. Electronic designs are licensed to the original purchaser for use at one location. ©2023 OESD, LLC. All rights reserved.

STEP 1

- Rinse each piece in warm running water until the design is only slightly tacky.
- Lay face down on a non-stick surface to dry.
- Tip: Parchment paper or a cooling rack work well. This prevents the piece from curling.
- Press each piece, right side down, on a Perfect Embroidery Press Cloth.

STEP 2

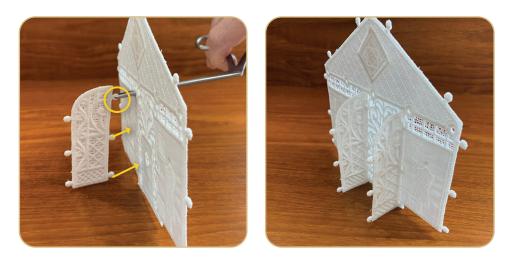

Using alligator clamps attach Back Wall FSA (12466-03) to the Left Side Wall FSA (12466-04) and to the Right Side Wall FSA (12466-05) by pulling the three buttonettes into the corresponding eyelets.

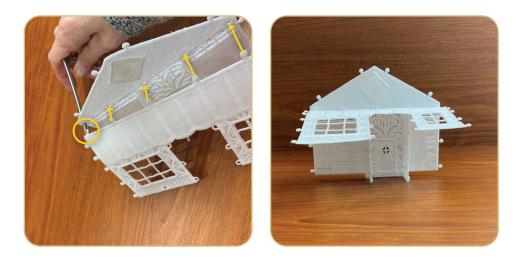

STEP 3

• Attach the Inner Wall Applique FSA (12466-01) to Entryway Left Side Wall FSL (12466-09) and to Entryway Right Side Wall FSL (12466-10) by pulling the three buttonettes on the entryway walls into the three eyelets on either side of the shop door on the inner wall.

STEP 4

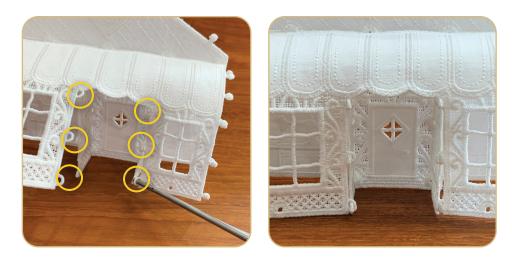

• Attach Windows Front FSA (12466-02) to Inner Wall FSA (12466-01) by pulling the five buttonettes on the windows front into the corresponding inner wall eyelets.

STEP 5

 Attach Windows Front FSA (12466-02) to Entryway Left Side Wall FSL (12466-09) and to Entryway Right Side Wall FSL (12466-10) by pulling the three buttonettes into the corresponding eyelets.

STEP 6

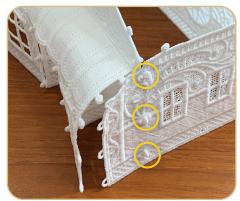

• Attach the front wall unit to the rest of the structure by pulling the three buttonettes of Inner Wall FSA (12466-01) into the three eyelets of Left Side Wall FSA (12466-04).

STEP 7

•

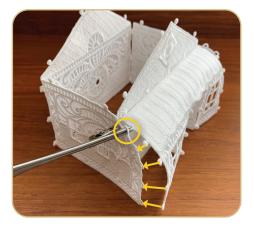

Repeat this process with the right side.

STEP 8

 Attach Windows Front FSA (12466-02) to Left Side Wall FSA (12466-04) and to Right Side Wall FSA (12466-05) by pulling the five buttonettes remaining on each side of the windows front into the corresponding eyelets.

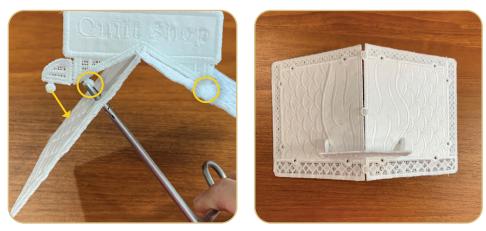

STEP 9

• Attach the Left Roof FSA (12466-07) to Right Roof FSA (12466-08) by pulling the three buttonettes on the left roof into the three eyelets on the right roof.

STEP 10

- Attach Sign FSA (12466-11) to the left and right roof panels by pulling the four buttonettes of the sign into the coordinating roof panel eyelets.
- When sign is attached, it will force the roof into an angle.

It is a violation of Copyright law to make and distribute copies of electronic designs or artwork. Electronic designs are licensed to the original purchaser for use at one location. ©2023 OESD, LLC. All rights reserved.

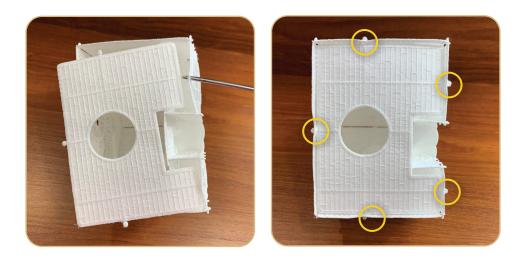

STEP 11

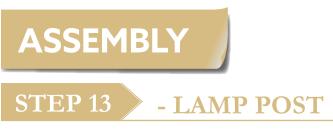

- Attach the roof unit to the structure by pulling the upper buttonettes of the front and back walls into the eyelets of the roof panels. Continue down the slope of the roof, alternating sides for stability.
- Finish by pulling the buttonettes of the left and right walls into the eyelets of the roof panels.

STEP 12

• Attach Foundation FSA (12466-06) to the structure by pulling the buttonettes into the corresponding eyelets.

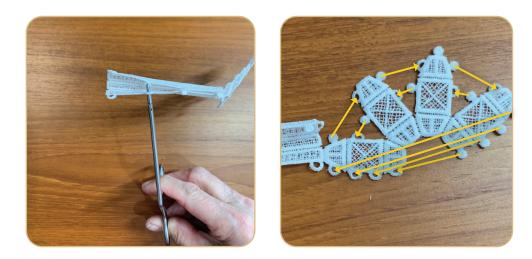

• Tip: It is helpful to shape the Lamp Post FSL (12466-12) around a pencil.

STEP 14

- Attach the post along the side by pulling the four buttonettes into the four eyelets.
- Attach the 10 buttonettes on the lamp fixture to their corresponding eyelets as shown.

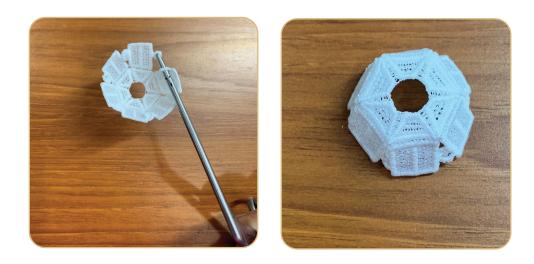

STEP 15

• Secure the lamp fixture to the lamp post by pulling the buttonette along the bottom of the lamp fixture into the eyelet at the top of the post.

STEP 16

• Assemble the Lamp Post Base (12466-13) by pulling the buttonettes of each panel into the eyelet of the very next panel.

STEP 17

- Insert the lamp post into the lamp post base with alligator clamps.
- Use the Expert Point and Press Tool to shape the lamp fixture if needed.

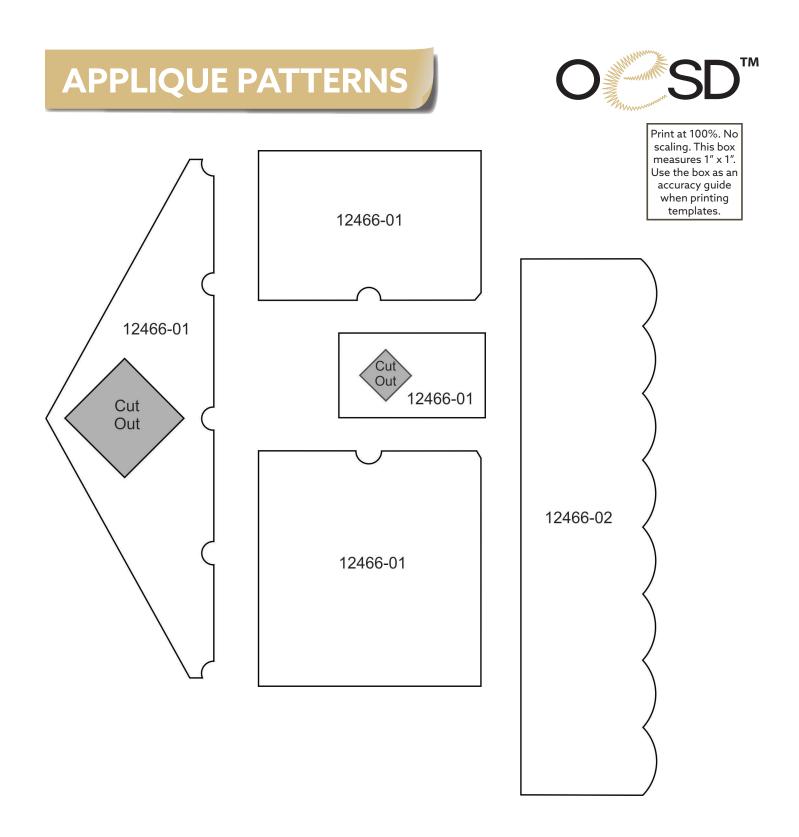

FINISHING TOUCHES

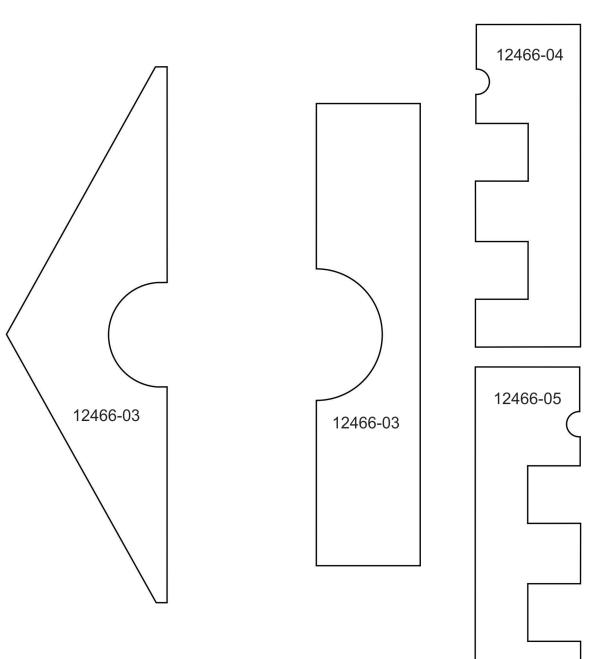

- The firehouse is complete. Enjoy.
- Add tea lights or pixie lights to create a glow.

### **STEP 1**

- Rinse each piece in warm running water until the design is only slightly sticky.
- Lay face down on a non-stick surface to dry.
- Tip: Parchment paper or a cooling rack work well. This prevents the piece from curling.
- Press each piece, right side down, on a Perfect Embroidery Press Cloth.

### STEP 2

• Use alligator clamps to attach the Front Wall FSA (12467-01) to the Chimney Wall FSA (12467-04) by pulling the three buttonettes along the right side of the front wall into the three eyelets of the chimney wall.

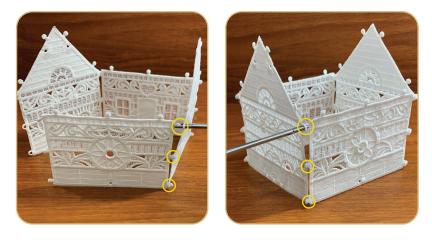

### STEP 3

• Repeat this process to attach the Front Wall FSA (12467-01) to the Side Wall FSA (12467-03).

### STEP 4

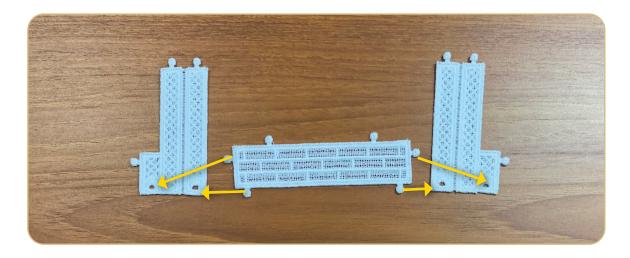

• Attach the Back Wall FSA (12467-02) to both Side Wall FSA (12467-03) and Chimney Wall FSA (12467-04) by pulling the three buttonettes on back wall into the three eyelets on both the side wall and chimney wall.

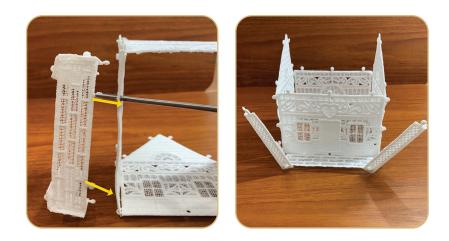

## STEP 5

• Attach Porch Floor FSL (12467-09) to Pillars FSL (12467-10) by pulling the two buttonettes on each end of the floor into the two eyelets on each of the pillars.

### STEP 6

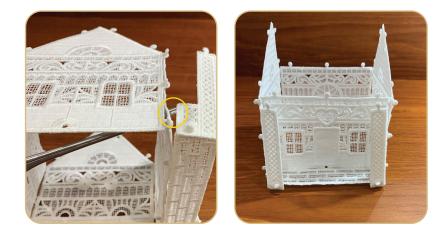

• Attach the porch unit to the Front Wall FSA (2467-01) by pulling the two buttonettes of the porch into the two eyelets along the bottom of the front wall.

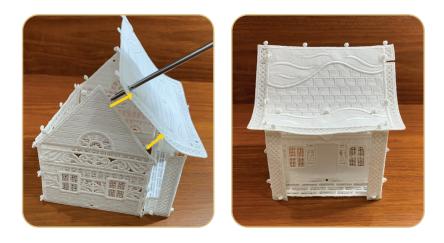

### **STEP 7**

• Pull the single buttonette on the short edge of each pillar into the single eyelet on each edge of the front wall.

## STEP 8

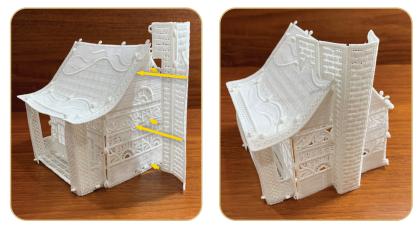

• Attach Front Roof FSA (12467-07). Starting at the top, pull the two buttonettes on the Side Wall FSA (12467-03) into the two eyelets on the left side of the front roof.

### STEP 9

• Attach the Chimney FSL (12467-05) to Chimney Wall FSA (12467-04) by pulling the six buttonettes of the chimney into the six eyelets on the chimney wall. Leave the chimney top unbuttoned.

## STEP 10

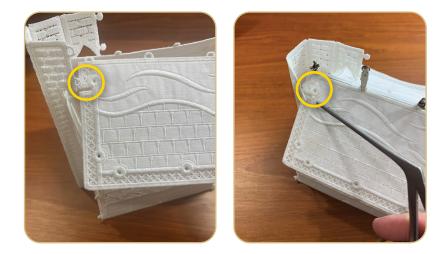

• Attach Back Roof FSA (12467-08) to Front Roof FSA (12467-07) by pulling the four buttonettes on the top of the front roof into the coordinating eyelets.

## **STEP 11**

• Slide chimney into the slots on both roofs.

## **STEP 12**

• Attach the one buttonette inside the chimney area on chimney wall into the one eyelet on back roof.

## **STEP 13**

• Continue pulling buttonettes along chimney wall, across the back wall and up the side wall into the corresponding eyelets.

## **STEP 14**

• Complete chimney by pulling the two buttonettes at the top into the two eyelets at the top.

## **STEP 15**

• Attach the 4 foundation buttonettes to the corresponding eyelets on each wall.

## **STEP 16**

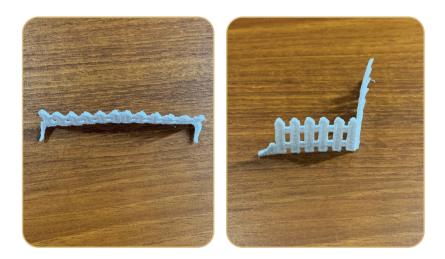

- Note: The Arch FSL (12467-12) is formed with the "wrong side" outward. This is done this way, so the stone foot path is presented with the "right side" up and so that the trellis archway stands upright correctly.
- Attach the two buttonettes to the corresponding eyelets.

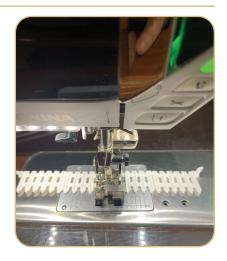

## **STEP 17**

• Fence FSL (12467-11) should be dried as flat as possible. Bend the tabs at a 90-degree angle to create supports. Bend fence panels at the hinge line to create corner pieces.

### **STEP 18**

- Tip: If desired, sew the fence panels together for increased stability, or leave them as individual panels for more versatility.
- Line up the pieces to connect.
- Thread the sewing machine with matching thread in the top and bobbin.
- Tip: An open toe or edge stitch foot is helpful.
- Stitch together using a multi-step zigzag stitch (also known as a serpentine stitch).
- Back stitch at the beginning and end to secure.
- Trim thread tails.
- Fold and press to shape.

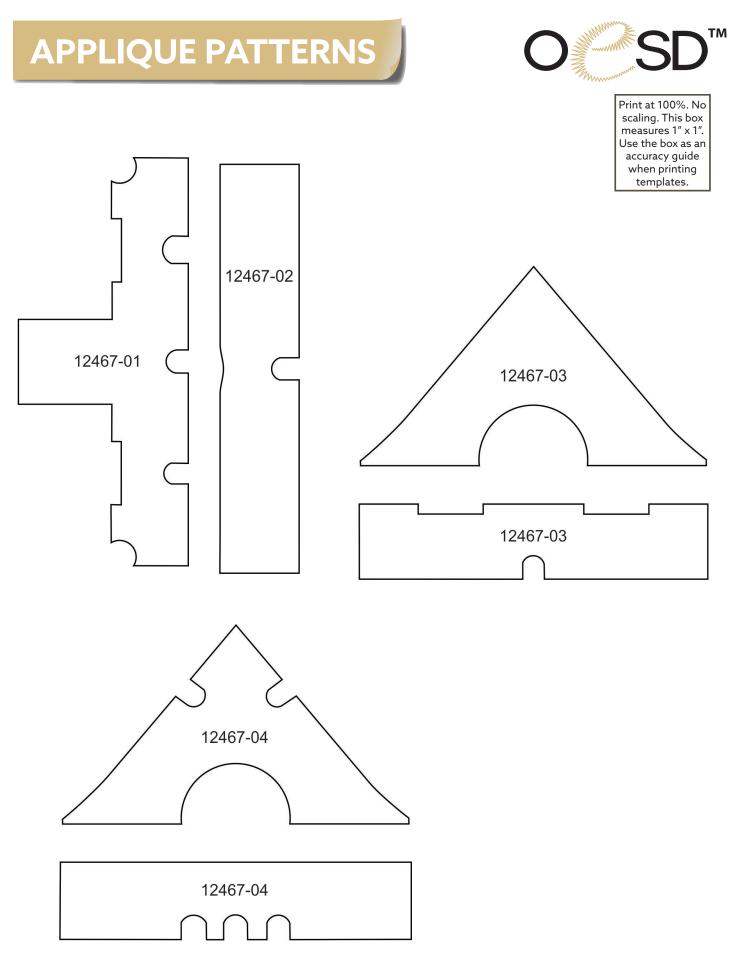

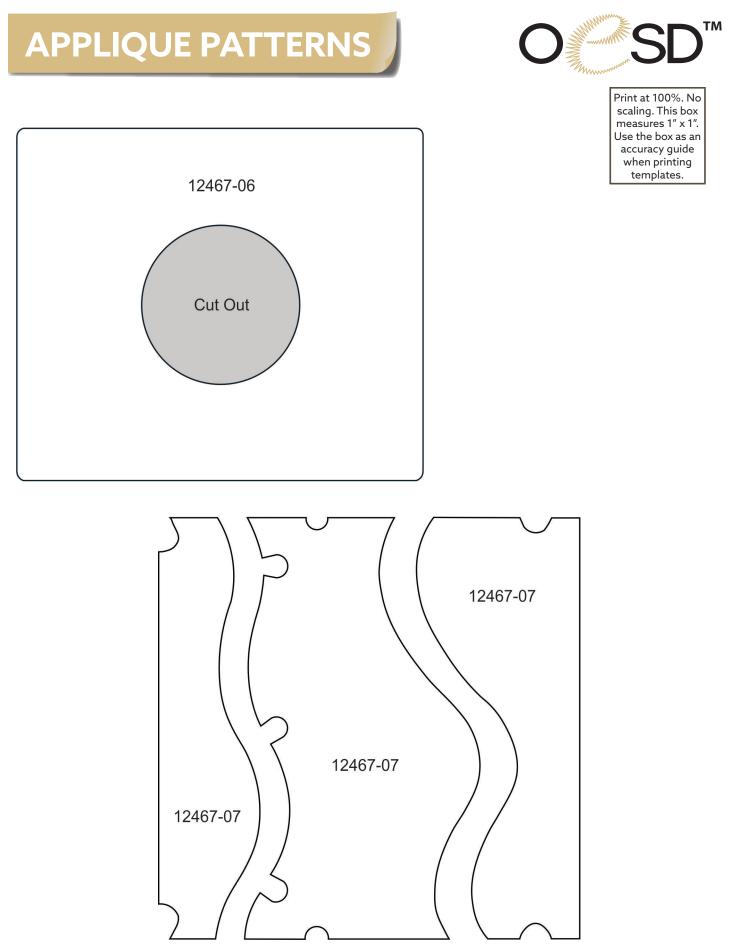

## **FINISHING TOUCHES**

- The cottage with fence is complete. Enjoy.
- Add tea lights or pixie lights to create a glow.

## SUMMARY

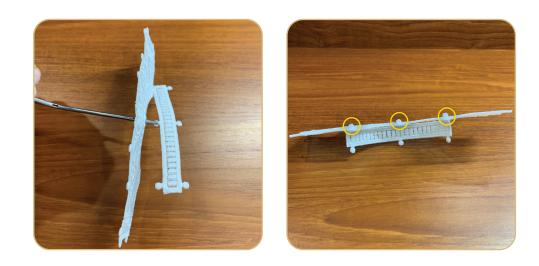

Completed Size: Tree 5" tall, Bridge 6" long x 3" wide

### **STEP 1**

 Using alligator clamps attach the Arch Support FSL (12468-04) to Outer Wall FSL (12468-01) by pulling the three buttonettes along the arch support into the three eyelets of the outer wall.

## STEP 2

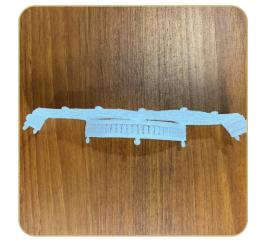

• Repeat this process for the second side of the bridge.

### STEP 3

• Bend both ends of the Outer Wall FSL (12468-01).

#### STEP 4

• Attach Wall Topper FSL (12468-03) to Outer Wall FSL (12468-01) by pulling the seven buttonettes on the outer wall into the corresponding eyelets of the topper.

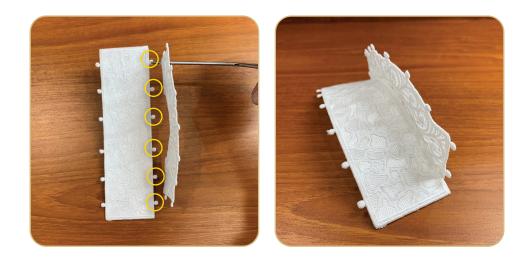

• Repeat this process for the second side of the bridge.

### STEP 6

- Attach Walkway FSA (12468-05) to Inner Wall FSL (12468-02) by pulling the six buttonettes of the walkway into the corresponding six eyelets on the inner wall.
- Note: Buttonettes need to be pulled through from the wrong side or bobbin side of the inner wall.

## STEP 7

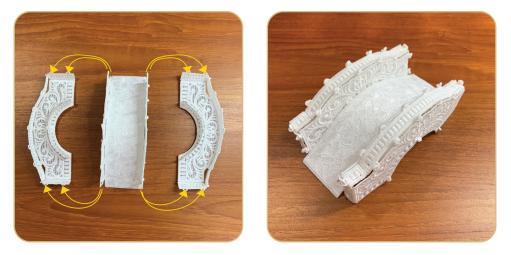

• Repeat this process for the second side of the walkway

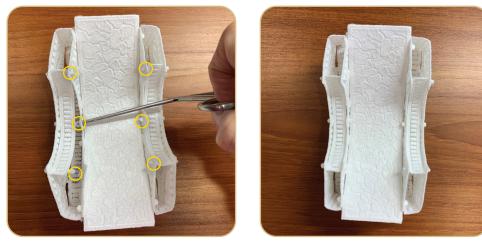

#### STEP 8

- Attach one corner of the outer wall assembly to the inner wall by pulling the two buttonettes along one edge of the inner wall assembly to the two eyelets of the outer wall assembly.
- Starting from the same corner, attach the topper to the inner wall by pulling the five buttonettes of the inner wall into the five eyelets of the topper on the outer wall.
- Finish edge on opposite side by pulling the two remaining buttonettes through the corresponding eyelets.
- Repeat process for the other side of bridge walkway.

### STEP 9

• Attach Inner Wall FSL (12468-02) to Arch Support FSL (12468-04) by pulling the three buttonettes of the arch support into the three eyelets of the inner wall under the walkway on one side.

## STEP 10

• The bridge is complete.

## STEP 11 -SMALL TREE

- Assemble the Tree Tier 4 FSL (12468-09) by pulling the upper and lower buttonettes of a single tree tier into the eyelets of the neighboring tree tier.
- Continue constructing until a fan of six tree tiers is complete.
- Note: Pull buttonettes through to the wrong side or bobbin side of the tree tiers.

### **STEP 12**

• Repeat this for Tree Tier 3 (12468-08).

## **STEP 13**

- Attach the upper and lower buttonettes into the upper and lower eyelets for both Tier 3 and Tier 4.
- Note: Pull the buttonette so the buttons are concealed inside the tree.

### **STEP 14**

• Attach the assembled Tree Tier 4 FSL (12468-09) to Tree Support FSL (12468-10) by pulling the six buttonettes into the six corresponding eyelets on the lower part of the tree tier 4.

## **STEP 15**

- Assemble Tree Tier 2 FSL (12468-07) by pulling the buttonettes into the corresponding eyelet of the next panel.
- Note: Pull the buttonettes so the buttons are concealed inside the tree.

## **STEP 16**

• Repeat this process for Tree Tier 1 FSL (12468-06).

## **STEP 17**

 Assemble the tree by stacking tier 3 on tier 4; tier 2 on tier 3; tier 1 on tier 2 to create a tall tree.

### **FINISHING TOUCHES**

- The bridge and small tree are complete. Enjoy.
- Add tea lights or pixie lights to create a glow.

# SUMMARY

Completed Size: 7" tall, 4 <sup>3</sup>⁄<sub>4</sub>" x 5 <sup>1</sup>⁄<sub>2</sub>"

It is a violation of Copyright law to make and distribute copies of electronic designs or artwork. Electronic designs are licensed to the original purchaser for use at one location. ©2023 OESD, LLC. All rights reserved.

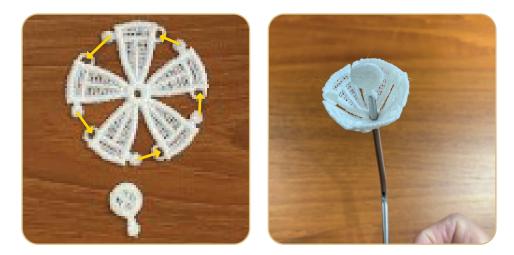

#### STEP 1

- Rinse each piece in warm running water until the design is only slightly tacky.
- Place right side down on a non-stick surface to dry. Parchment paper or a cooling rack work well to prevent curling. Dry completely.
- Once dry, press right side down on a Perfect Embroidery Press Cloth.

#### STEP 2

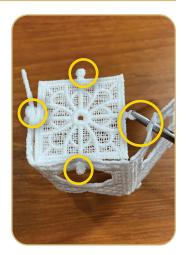

- Using alligator clamps assemble School Bell FSL (12518-09) by pulling the buttonettes into the corresponding eyelets to make a circle. Pull the buttonettes inside the bell.
- Insert the separate clapper into the center of the bell by pulling the buttonette into the eyelet on the inside of the bell so the buttonette is on the top of the bell.

### STEP 3

• Attach Bell Tower Ceiling FSL (12518-08) to Bell Tower Walls FSL (12518-06) by pulling the three buttonettes of the bell tower ceiling into the three eyelets of the bell tower walls.

#### STEP 4

• Insert the assembled school bell into the center of the bell tower ceiling.

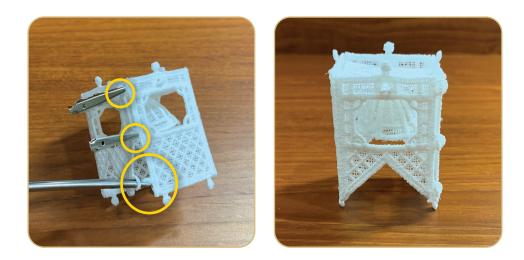

### STEP 5

• Pull the last buttonette of bell tower ceiling into the last eyelets of the bell tower walls.

#### STEP 6

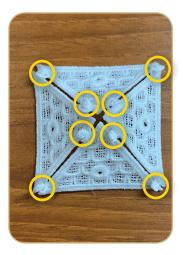

• Attach bell tower walls by pulling the three buttonettes into the three eyelets of the opposite side of the bell tower wall to form a square.

### **STEP 7**

• Attach Bell Tower Roof FSL (12518-07) by pulling the two buttonettes of one roof into the two eyelets of another roof piece. Continue assembling roof until complete.

#### STEP 8

• Assemble the bell tower roof to the bell tower walls by pulling the four buttonettes of the wall into the four eyelets of the roof.

### STEP 9

• The bell tower is complete. Set aside.

#### **STEP 10**

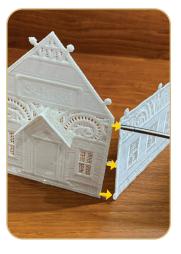

• Attach Front Wall Eave FSL (12518-10) to Front Wall FSL (12518-01) by pulling the four buttonettes of eave into the four eyelets of wall located above the door.

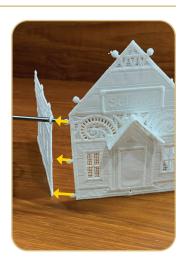

#### STEP 11

• Attach Front Wall FSA (12518-01) to Left & Right Walls FSA (12518-03) by pulling the three buttonettes on side of front wall into the three eyelets of the right wall.

• Repeat this process for the left side wall.

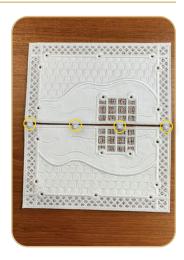

### **STEP 13**

• Attach Back Wall FSA (12518-02) to Left & Right Walls FSA (12518-03) by pulling the three buttonettes of the back wall into the three eyelets of the left and right walls.

### **STEP 14**

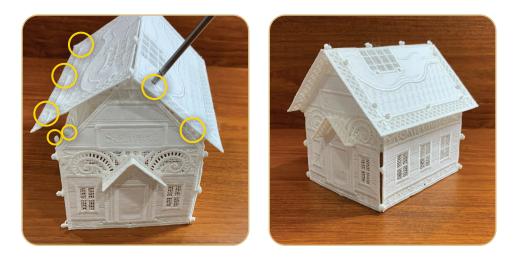

• Attach Right Roof FSA (12518-04) to Left Roof FSA (12518-05) by pulling the four buttonettes of the right roof into the four eyelets of the left roof.

### **STEP 15**

• Attach the assembled roof top to assembled walls by pulling the buttonettes on top of the wall into the eyelets of the roof tops. Placement of the bell tower will be in front.

## **STEP 16**

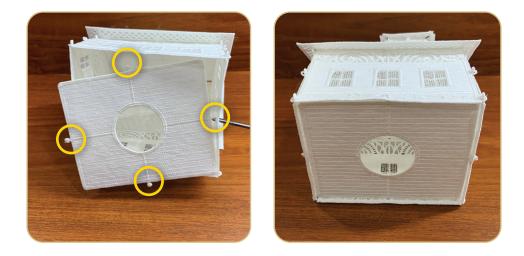

• Attach the assembled bell tower by pulling the four buttonettes on bottom of the bell tower into the four eyelets on the roof tops.

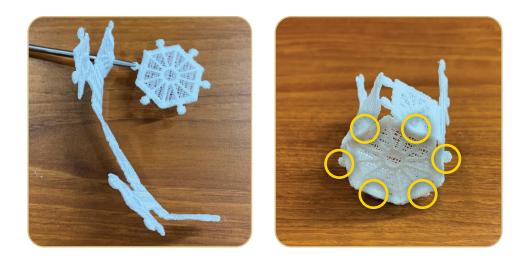

### **STEP 17**

• Attach Floor FSA (12518-11) by pulling the four buttonettes of the floor into the four corresponding eyelets of the walls.

### **STEP 18**

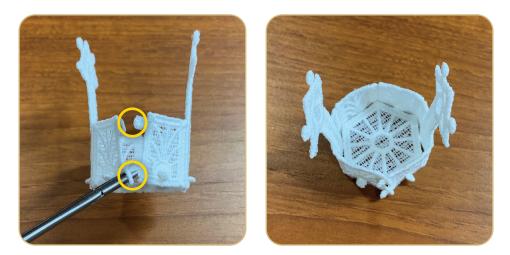

• Attach Well Floor FSA (12518-14) to Well Walls FSL (12518-12) by pulling the six buttonettes of the floor into the six eyelets of the well walls to create a circle.

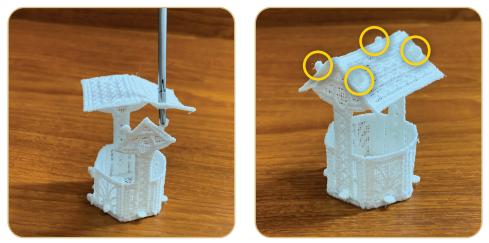

### **STEP 19**

• Attach the two buttonettes of the well into the two eyelets of the other side of the well.

### **STEP 20**

• Attach Well Roof FSL (12518-13) to the well wall by pulling the four buttonettes of the wall into the four eyelets of the well roof.

## **FINISHING TOUCHES**

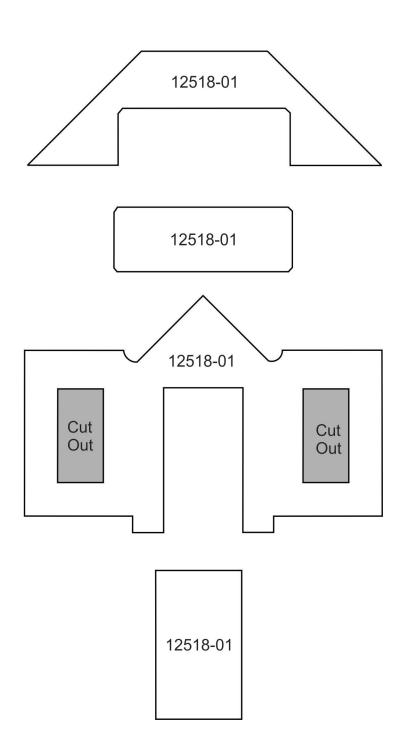

- The School House and Well are complete. Enjoy.
- Add tea lights or pixie lights to create a glow.

### 12598-11 Rocking Horse FSL

## **COLLECTION SUPPLIES**

### Stabilizers

- OESD AquaMesh WashAway
- OESD BadgeMaster WashAway
- OESD StabilStick CutAway

Fabrics/Textiles

- White cotton fabric 1/4 yard
- Note: Fabric sizes are estimates and may result in overage.

Notions & Tools

- OESD Alligator Clamps
- OESD Button Clips
- OESD Expert Embroidery Tape WashAway
- OESD Perfect Embroidery Press Cloth
- Embroidery Needle Sharp 75/11

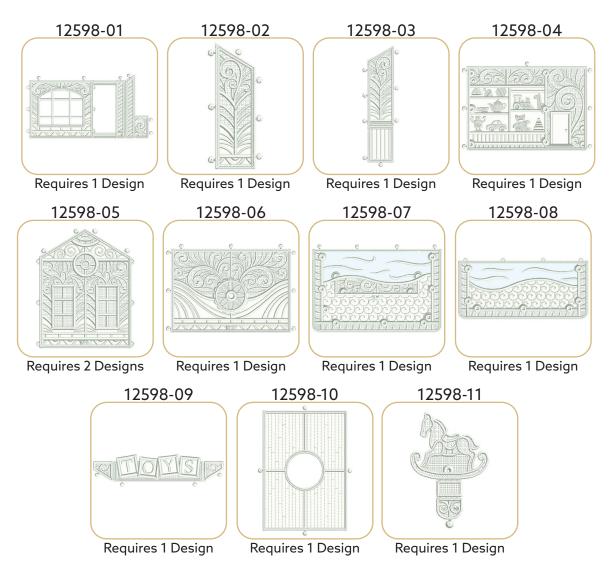

### Isacord Thread Colors

- Per thread chart
- Match bobbin thread to top thread
- 0015 White (2 spools)

# SUMMARY

It is a violation of Copyright law to make and distribute copies of electronic designs or artwork. Electronic designs are licensed to the original purchaser for use at one location. ©2023 OESD, LLC. All rights reserved.

### **STEP 1**

- Rinse each piece in warm running water until the design is only slightly sticky.
- Lay face down on a non-stick surface to dry. Parchment paper or a cooling rack work well. This prevents the piece from curling.
- Press each piece, right side down, on a Perfect Embroidery Press Cloth.

### STEP 2

• Using alligator clamps attach Door & Inner Wall FSA (12598-04) to both Side Wall FSA (12598-05) pieces by pulling the three buttonettes along each side of inner wall to the three eyelets along each side wall.

### STEP 3

• Attach Back Wall FSA (12598-06) to each side wall by pulling the three buttonettes along each side of the back wall to the three eyelets along each side wall.

### **STEP 4**

• Attach Front Window Outer Wall FSA (12598-02) to Front Window Wall FSA (12598-01) by pulling the three buttonettes along the right side of outer wall into the three eyelets along the left side of the front window.

### STEP 5

 Attach Front Window Inner Wall FSA (12598-03) to Front Window Wall FSA (12598-01) by pulling the three buttonettes along the right side of the inner wall into the three eyelets on the front window wall behind the door opening.

### STEP 6

 Continue to attach the inner wall to front wall by pulling the remaining two buttonettes of the Front Window Inner Wall FSA (12598-03) into the two remaining eyelets on bottom of Front Window Wall FSA (12598-01).

### **STEP 7**

• Attach the assembled front wall to the door & inner wall by pulling the eight buttonettes into the corresponding eight eyelets.

### **STEP 8**

 Attach Front Roof FSA (12598-07) to Back Roof FSA (12598-08) by pulling the four buttonettes along the top edge of the front roof into the four eyelets along the top edge of the back roof.

### STEP 9

• Attach TOYS Sign FSA (12598-09) to assembled roof by pulling the four buttonettes into the four eyelets on the roof.

### **STEP 10**

- Attach assembled roof to walls by pulling the fifteen buttonettes of the walls into the corresponding fifteen eyelets of the roof.
- Note: Start with the inner wall.

### **STEP 11**

• Attach Floor FS (12598-10) to walls by pulling the four buttonettes of floor into the four corresponding eyelets on the walls.

### **STEP 12**

•

Fold the hinge of Rocking Horse FSL (12598-11) up and pull the one buttonette into the one eyelet to the front of the rocking horse. Work with the folded hinge and rocking horse to stand up.

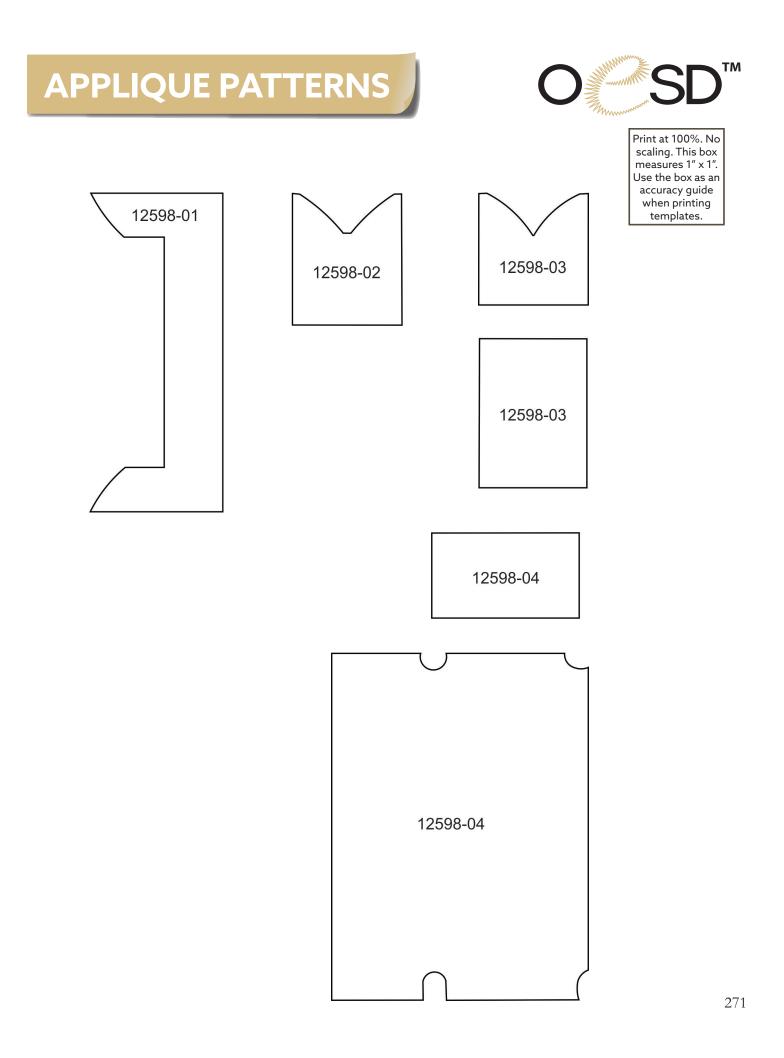

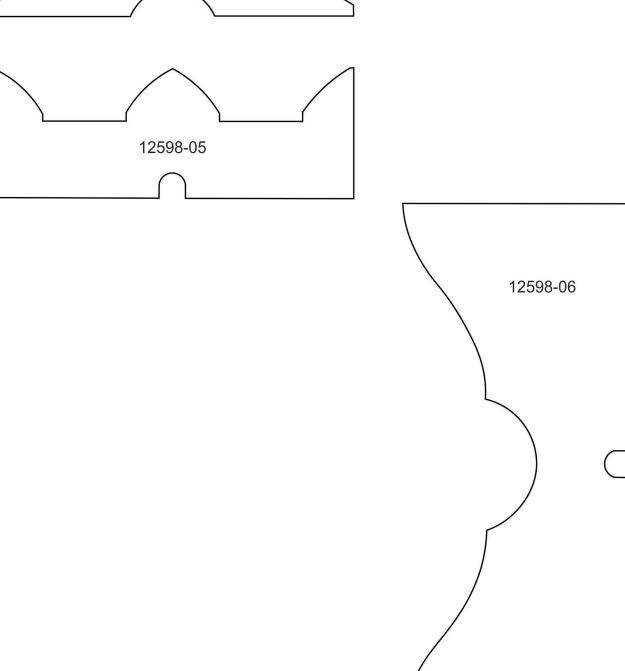

### **FINISHING TOUCHES**

- •
- The toy store is complete. Enjoy. Add tea lights or pixie lights to create a glow.

## **COLLECTION SUPPLIES**

### Stabilizers

- OESD AquaMesh WashAway
- OESD BadgeMaster WashAway
- OESD StabilStick CutAway

Fabrics/Textiles

- White cotton 1/4 yard
- Note: Fabric sizes are estimates and may result in overage.

Notions & Tools

- OESD Alligator Clamps
- OESD Button Clips
- OESD Expert Embroidery Tape WashAway
- OESD Perfect Embroidery Press Cloth
- Utility knife
- Embroidery Needle Sharp 75/11

## Isacord Thread Colors

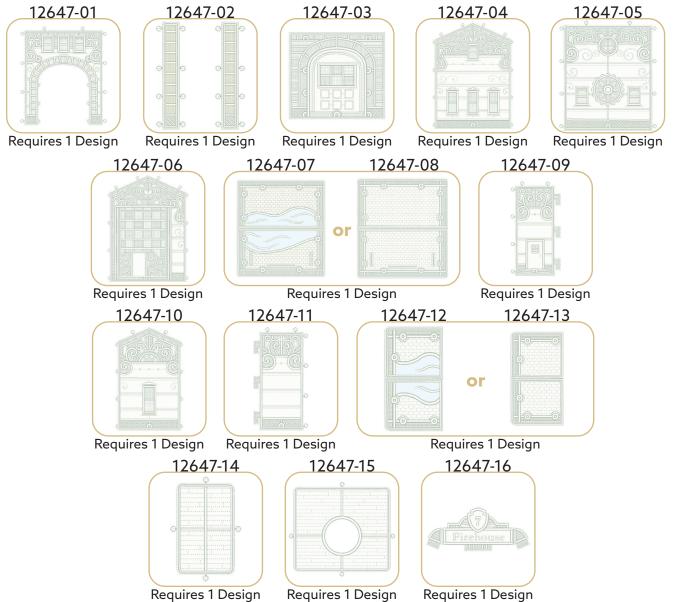

- Per thread chart
- Match bobbin thread to top thread
- 0015 White (2 spools)

## SUMMARY

It is a violation of Copyright law to make and distribute copies of electronic designs or artwork. Electronic designs are licensed to the original purchaser for use at one location. ©2023 OESD, LLC. All rights reserved.

## **STEP 1**

- Rinse each piece in warm running water until the design is only slightly sticky.
- Lay face down on a non-stick surface to dry. Parchment paper or a cooling rack work well. This prevents the piece from curling.
- Press each piece, right side down, on a Perfect Embroidery Press Cloth.

## STEP 2

- Before assembly, take a utility knife and cut through all the layers of the tab entry to 12647-06 and the chosen roof (12647-07 or 12647-08.)
- Take care to not cut the satin stitching.

## STEP 3

- Using alligator clamps attach Front Door FSA (12647-09) to Side Wall 2 FSA (12647-10) by pulling the four buttonettes along the left side of front door into the four eyelets along the right side of the Side Wall 2.
- Repeat process on left side of Side Wall 2.
- Attach Back Wall 2 FSA (12647-11) to Side Wall 2 FSA (12647-10) by pulling the four buttonettes along the right side of the Back Wall 2 into the four eyelets along the left side of the Side Wall 2.

### STEP 4

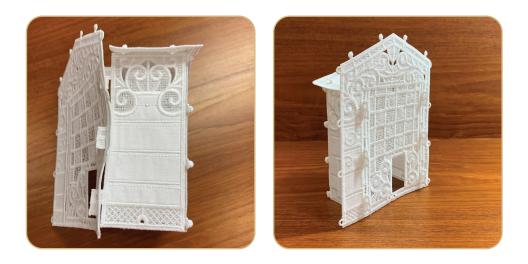

• Attach Roof 2 with Snow FSA (12647-12) OR Roof 2 FSA (12647-13) to assembled side structure by pulling the six buttonettes of the side structure into the six eyelets on roof 2.

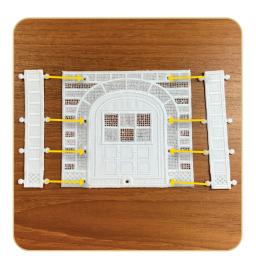

## STEP 5

• Attach the side wall assembly by sliding the tabs into the openings of Inner Wall FSA (12647-06).

## STEP 6

- Attach Garage Walls FSA (12647-02) to Garage Door FSA (12647-03) by pulling the four buttonettes of one wall into the four eyelets located on the left side of the garage door.
- Repeat this process for the second garage wall to the right side of the garage door.
- Note: Brick portion of the walls is located at the bottom.

## STEP 7

• Attach Garage Front FSA (12647-01) to the garage assembly by pulling the eight buttonettes on the short walls to their corresponding eyelets as shown.

## **STEP 8**

• Attach the inner wall structure to the garage front structure by pulling the four buttonettes along the left side of the garage front into the four eyelets along the right side of the inner wall.

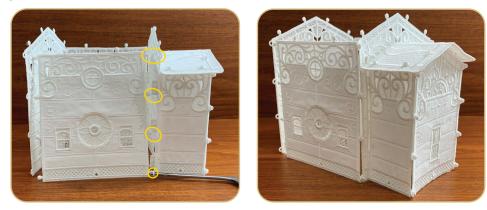

### STEP 9

 Attach Side Wall 1 FSA (12647-04) to garage front structure by pulling the four buttonettes along the right side of the garage front into the four eyelets along the left side of the side wall.

## STEP 10

Attach Back Wall 1 FSA (12647-05) to the inner wall by pulling the four buttonettes of the back wall on the right into the four eyelets of the inner wall.

## **STEP 11**

•

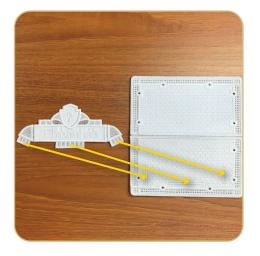

Attach the remaining four buttonettes of the back wall into the four eyelets of the side wall 1.

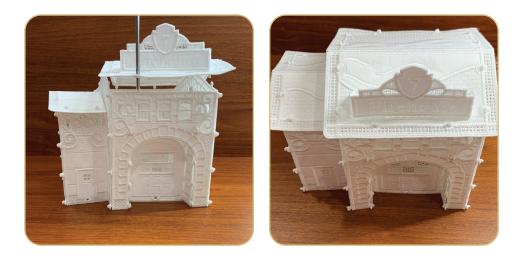

## **STEP 12**

• Attach Firehouse Sign FSA (12647-16) to Roof 1 with Snow FSA (12647-07) OR Roof 1 FSA (12647-08) by sliding the tabs of the firehouse sign into the openings on roof 1 with snow or roof 1.

## **STEP 13**

 Attach the Roof 1 with Snow FSA (12647-07) OR Roof 1 FSA (12647-08) to the garage structure by pulling the twelve buttonettes of the garage structure into the twelve eyelets of the roof.

## **STEP 14**

- Attach Side Foundation FSA (12647-14) to the side structure by pulling the four buttonettes of the side foundation into the four corresponding eyelets of the side structure.
- Attach Foundation FSA (12647-15) to the garage structure by pulling the four buttonettes of the foundation into the corresponding four eyelets of the garage structure.

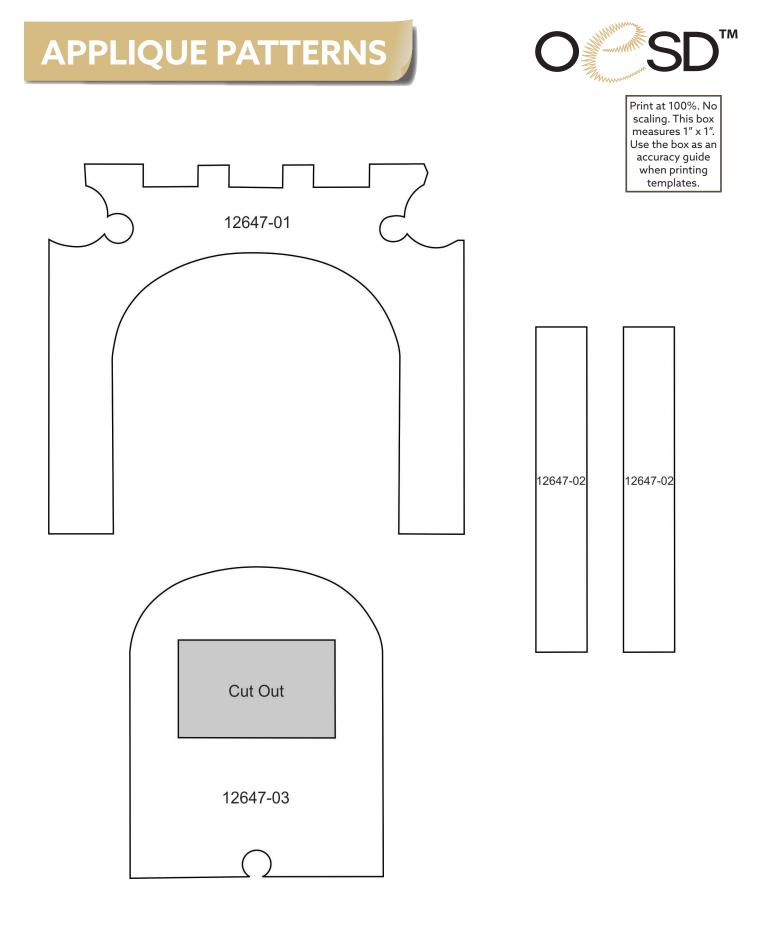

## **FINISHING TOUCHES**

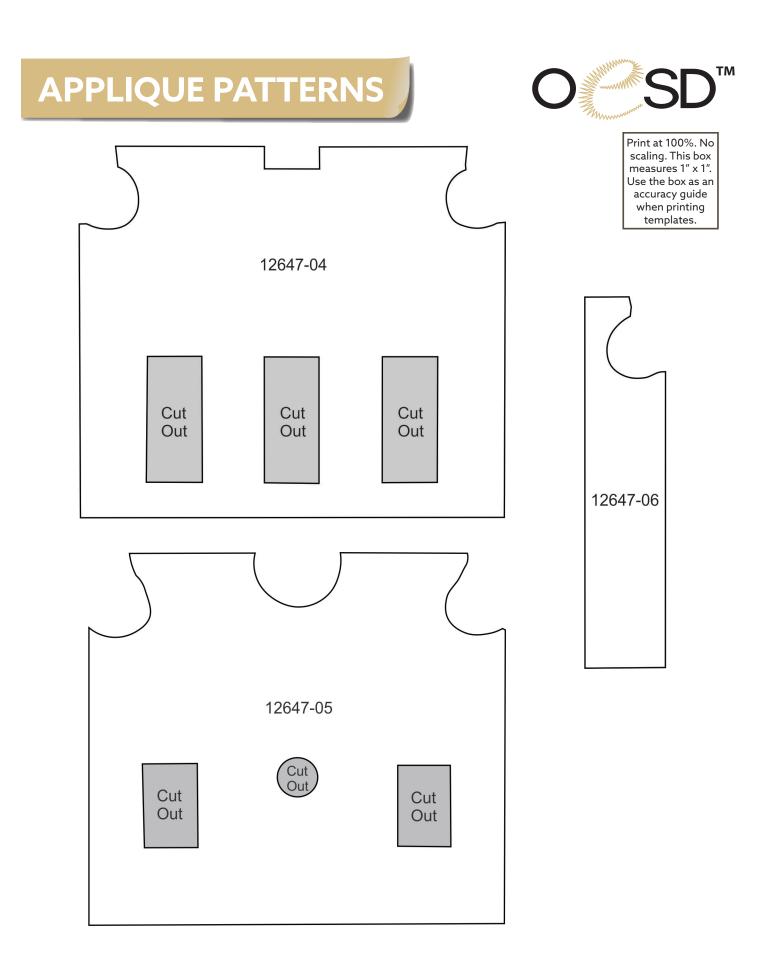

- The firehouse is complete. Enjoy.
- Add tea lights or pixie lights to create a glow.

## **COLLECTION SUPPLIES**

### Stabilizers

- OESD AquaMesh WashAway
- OESD BadgeMaster WashAway
- OESD StabilStick CutAway

Fabrics/Textiles

- White cotton fabric 1/4 yard
- Note: Fabric sizes are estimates and may result in overage.

Notions & Tools

- OESD Alligator Clamps
- OESD Button Clips
- OESD Expert Embroidery Tape WashAway
- OESD Perfect Embroidery Press Cloth
- Embroidery Needle Sharp 75/11

## Isacord Thread Colors

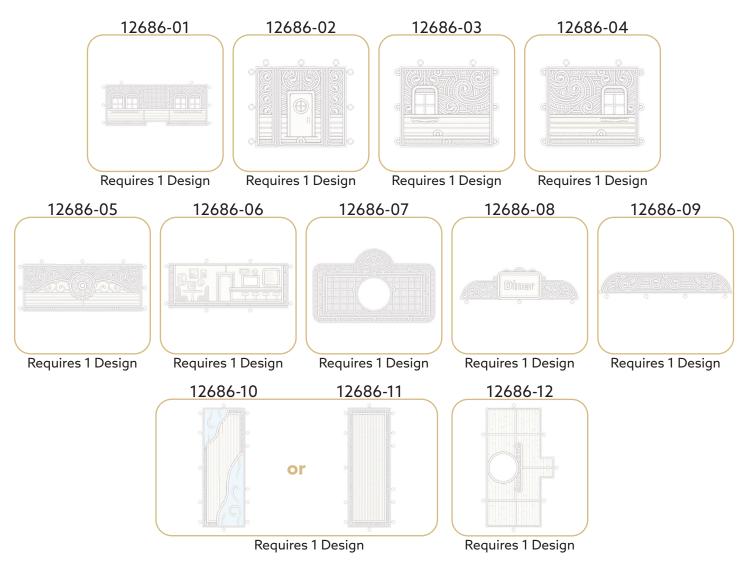

- Per thread chart
- Match bobbin thread to top thread
- 0015 White (2 spools)

## SUMMARY

Completed Size: 5  $\frac{3}{4}$ " H x 7  $\frac{3}{4}$ " W x 4" D

It is a violation of Copyright law to make and distribute copies of electronic designs or artwork. Electronic designs are licensed to the original purchaser for use at one location. ©2023 OESD, LLC. All rights reserved.

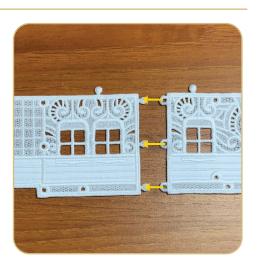

## **STEP 1**

- Rinse each piece in warm running water until the design is only slightly sticky.
- Lay face down on a non-stick surface to dry. Parchment paper or a cooling rack work well. This prevents the piece from curling.
- Press each piece, right side down, on a Perfect Embroidery Press Cloth.

## STEP 2

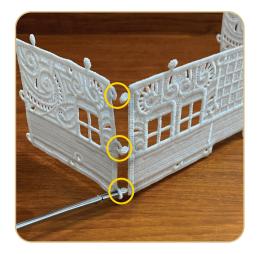

• Attach Front Wall FSA (12686-01) to Side Wall 1 FSA (12686-03) by pulling the three buttonettes along the right side of the Front Wall into the three eyelets along the left side of the Side Wall 1.

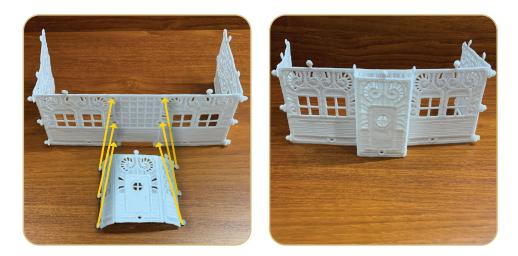

## STEP 3

• Attach Side Wall 2 FSA (12686-04) to the front wall by pulling the three buttonettes along the left side of the front wall into the three eyelets along the left side of Side Wall 2.

## **STEP 4**

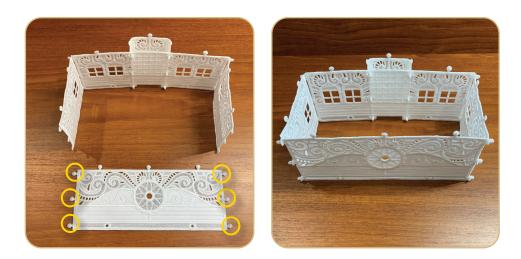

• Attach Front Door FSA (12686-02) to the front wall by pulling the six buttonettes of the front door into the six eyelets on the front wall.

## STEP 5

• Attach Back Wall FSA (12686-05) to the side walls 1 and 2 by pulling the three buttonettes on each side of the back wall into the three eyelets each of the side wall 1 and side wall 2.

## STEP 6

 Attach Roof Arch Front FSA (12686-08) to Roof Top Snow FSA (12686-10) OR Roof Top FSA (12686-11) by pulling the six buttonettes on the roof into the six eyelets on the roof arch front.

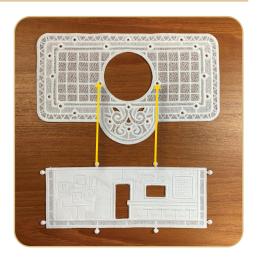

## **STEP 7**

• Attach Roof Arch Back FSA (12686-09) to the roof top by pulling the five buttonettes of the roof top along the back of roof top into the five eyelets of the roof arch back.

## **STEP 8**

• Attach Inner Wall FSA (12686-06) to Roof FSL (12686-07) by pulling two buttonettes of inner wall into two eyelets of roof located around circle on roof.

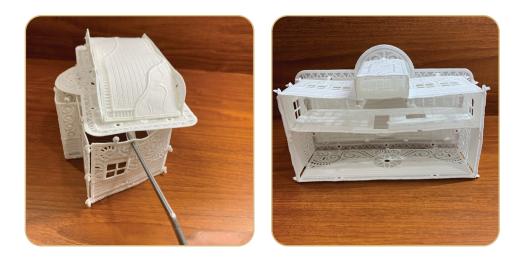

## STEP 9

• Attach the arch roof assembly to the roof by pulling the nine buttonettes of the arch assembly into the nine eyelets located in towards the center of the roof.

## **STEP 10**

• Attach the two buttonettes on each side of the inner wall to the two eyelets on each of the side wall 1 and side wall 2.

## **STEP 11**

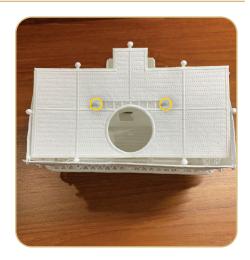

• Attach arch roof assembly to side walls by pulling the twelve buttonettes on walls into the twelve eyelets on roof.

## **STEP 12**

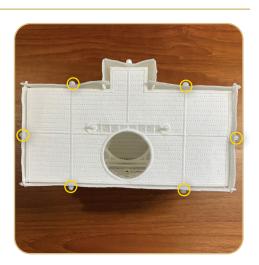

•

Attach Foundation FSA (12686-12) to the structure by pulling two buttonettes of inner wall into the two eyelets of foundation located in center.

• Attach remaining six buttonettes of foundation into the six remaining eyelets of walls.

## **FINISHING TOUCHES**

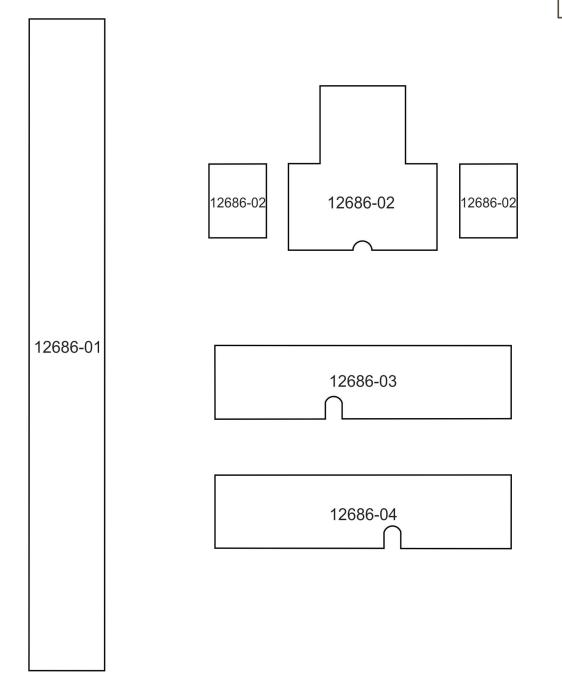

- The Diner is complete. Enjoy.
- Add tea lights or pixie lights to create a glow.

## Isacord Thread Colors

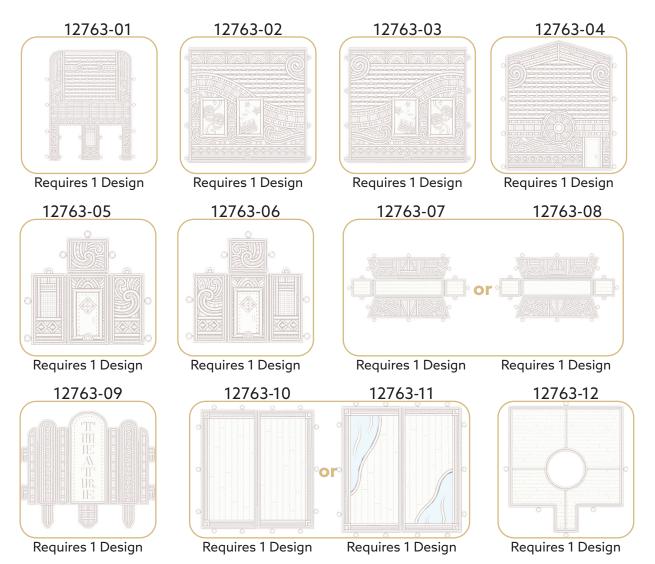

- Per thread chart
- Match bobbin thread to top thread
- 0015 White (2 spools)
- 1252 Dark Tan (2 spools color version)

## SUMMARY

Completed Size: 7.5" H x 7" D x 5" W

It is a violation of Copyright law to make and distribute copies of electronic designs or artwork. Electronic designs are licensed to the original purchaser for use at one location. ©2023 OESD, LLC. All rights reserved.

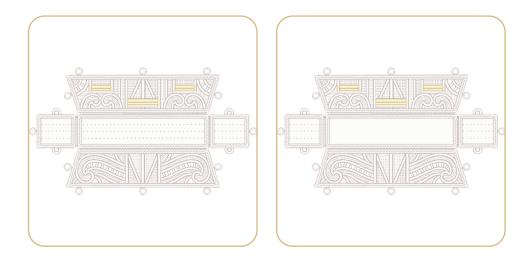

### **STEP 1**

- When design is complete, remove the project from the hoop and trim the stabilizer 1/4"- 1/2" outside the design.
- Rinse each piece in warm running water until the design is only slightly sticky.
- Lay face down on a non-stick surface to dry. Parchment paper or a cooling rack work well. This prevents the piece from curling.
- Press each piece, right side down, on a Perfect Embroidery Press Cloth.

### STEP 2

• Before assembly, take a utility knife and cut through all the layers of the tab entry on chosen marquee piece (12763-07 OR 12763-08.) Take care to not cut the satin stitching.

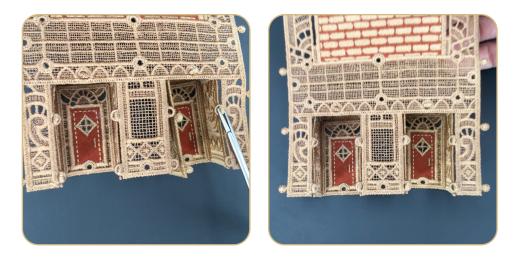

## STEP 3

 Assemble Right Door FSA (12763-05) and Left Door FSA (12763-06) by pulling the three flaps forward and attaching the two ceiling buttonettes into the corresponding eyelets on the side walls.

## **STEP 4**

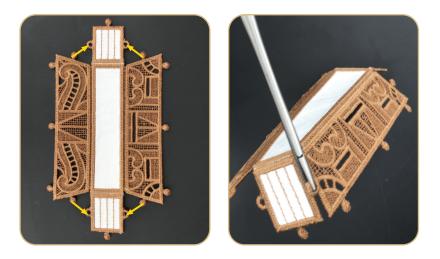

• Using alligator clamps attach Right Door FSA (12763-05) and Left Door FSA (12763-06) to the Front Wall FSA (12763-01) by pulling the ten buttonettes on the entryways to the front side of the Front Wall.

## STEP 5

• Attach the corresponding buttonettes on either Marquee FSA (12763-07) or Blank Marquee FSA (12763-08).

## STEP 6

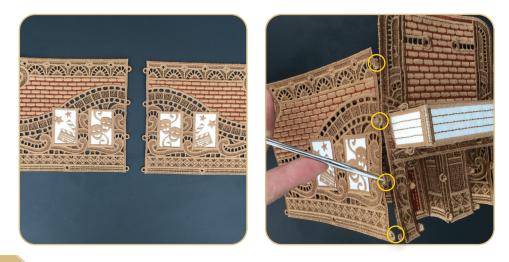

- Attach the marquee (12763-07 or 12763-08) eight buttonettes to the front wall (12763-01) eyelets.
- Note: Marquee should be placed with the tab entries facing up. The tab entries are used in attaching the theatre sign.

### STEP 7

- Note: Movie posters should be placed toward the front wall.
- Attach the 4 buttonettes on the Front Wall FSA (12763-01) to the eyelets on the Side Wall 2 FSA (12763-03).
- Repeat this process for attaching the Front Wall FSA (12763-01) to the eyelets on the Side Wall 1 (12763-02).

### STEP 8

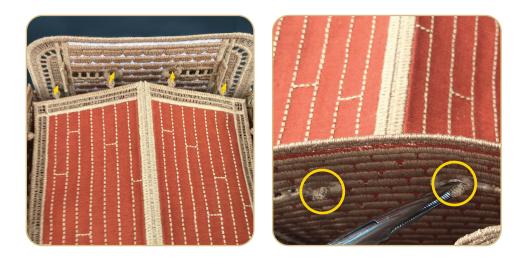

• Attach the Foundation FSA (12763-12) with the fabric side face down by pulling the five buttonettes from the foundation to the corresponding eyelets on the front wall, doorways, and side walls.

### STEP 9

• Attach the Roof FSA (12763-10 or 12763-11) to the Front Wall FSA (12763-01) by pulling the four buttonettes from the roof through the four corresponding eyelets on the front wall.

## **STEP 10**

• Attach the Roof FSA (12763-10 or 12763-11) to the side walls (12763-02 & 12763-03) by pulling the six buttonettes on the roof through the six corresponding eyelets on the side walls.

## **STEP 11**

- Attach Roof FSA (12763-10 or 12763-11) to Back Wall FSA (12763-04) by pulling the four buttonettes of the roof through the four corresponding eyelets on the back wall.
- Attach the Back Wall FSA (12763-04) to both side walls by pulling the eight buttonettes on the back wall to their corresponding eyelets on the side walls.
- Attach the Back Wall FSA (12763-04) to the Foundation FSA (12763-12) by pulling the remaining buttonette on the foundation to its corresponding eyelet.

## **STEP 12**

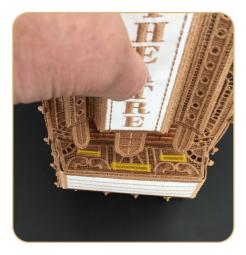

• Shape the Theatre Sign FSA (12763-09) as pictured.

## **STEP 13**

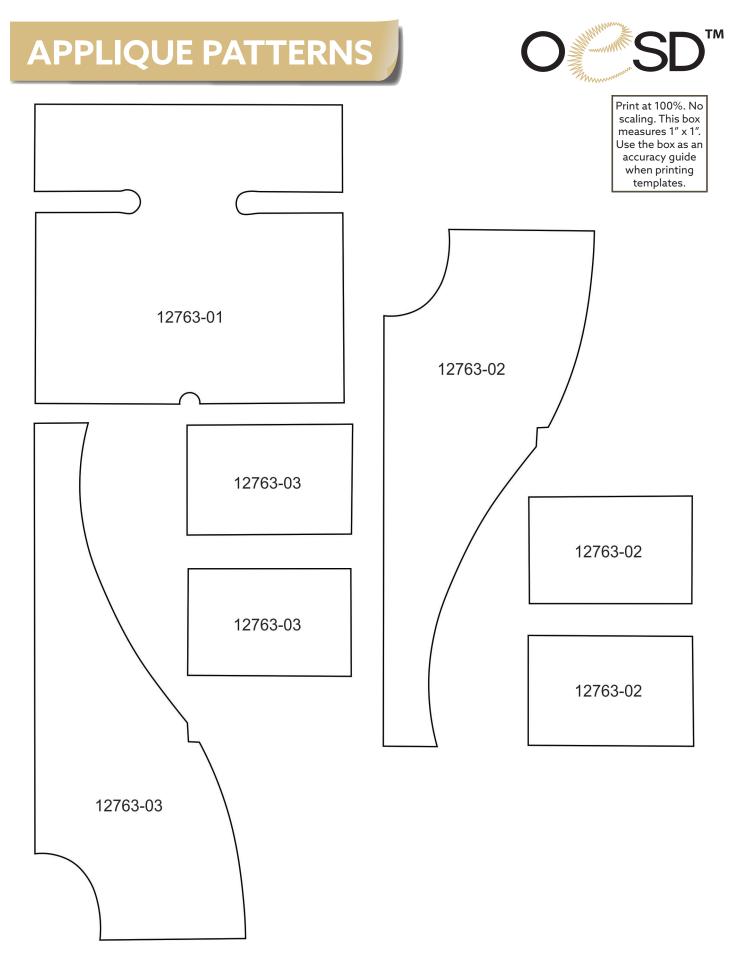

- Align the tabs at the base of the Theatre Sign FSA (12763-09) into the tab entries in the marquee while aligning the tabs in the front wall.
- Gently push down to secure.

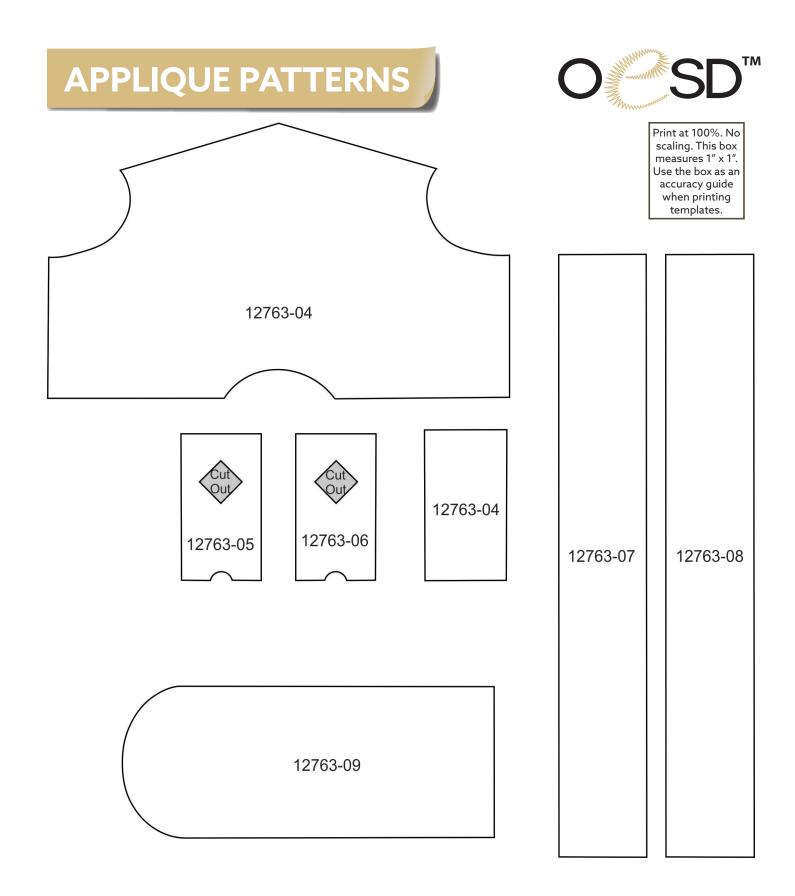

## **FINISHING TOUCHES**

- The theatre is complete. Enjoy.
- Add tea lights or pixie lights to create a glow.

## SUMMARY

Completed Size: 6.5" H x 5" W x 5" D

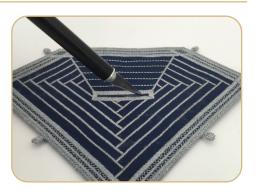

It is a violation of Copyright law to make and distribute copies of electronic designs or artwork. Electronic designs are licensed to the original purchaser for use at one location. ©2023 OESD, LLC. All rights reserved.

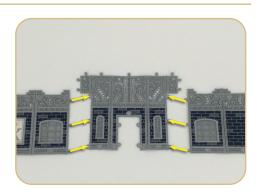

### **STEP 1**

- Before assembly, use a utility knife and cut through all layers of the tab entry Roof FSA (12799-10) or Roof with Snow FSA (12799-11).
- Tip: Take care to not cut the satin stitching.
- Note: Two roof styles are available to choose from, only one roof is needed.

### STEP 2

- Attach Left Walls FSA (12799-04) to Front Wall FSA (12799-01) by pulling the buttonettes into the eyelets to the Left of the Left Walls FSA.
- Attach the Right Walls FSA (12799-05) to Front Wall FSA (12799-01) by pulling the buttonettes into the eyelets to the right of the Right Walls FSA.

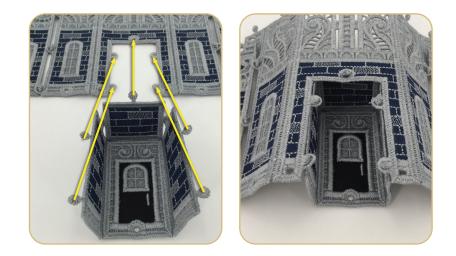

### STEP 3

• Use Alligator Clamps to assemble the Door FSA (12799-02) by folding the top forward and pulling the buttonettes into the corresponding eyelets along the top and sides.

### STEP 4

• Attach the Door FSA (12799-02) to the Front Wall FSA (12799-01) by pulling the five buttonettes of the Door FSA into the five eyelets in the Front Wall FSA.

### STEP 5

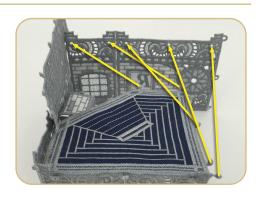

•

Align the straight edge of the Roof FSA (12799-10) or Roof with Snow FSA (12799-11) and attach the five buttonettes into the eyelets of the Right Walls FSA (12799-05) and Front Walls FSA (12799-01).

### STEP 6

 Repeat this process to attach the roof to the Front Walls FSA (12799-01) and Left Walls FSA (12799-04) by pulling the five buttonettes along the roof into the corresponding eyelets.

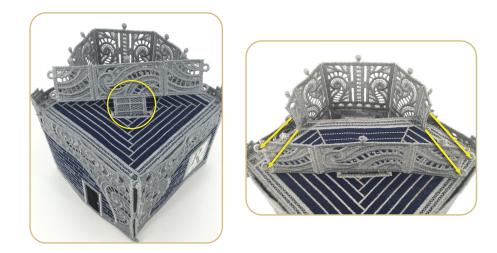

### STEP 7

Attach the Right Walls FSA (12799-05) to the Left Walls FSA (12799-04)) by pulling the three buttonettes on right wall into the three eyelets of the left wall, using button clips to temporarily hold buttonettes in place as needed.

### STEP 8

- Insert the tab of the Back Wall to Cupola FSL (12799-06) into the corresponding roof tab entry point.
- Attach the four buttonettes from the Front Walls FSA (12799-01) to the four remaining Cupola FSL (12799-06) eyelets.

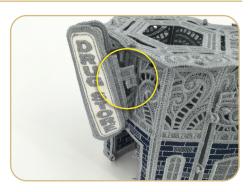

### STEP 9

• Attach the Cupola Top FLS (12799-07) to the Cupola FSL (12799-06) and Front Walls FSA (12799-01) by pulling the eight buttonettes to the corresponding eyeletts.

### STEP 10

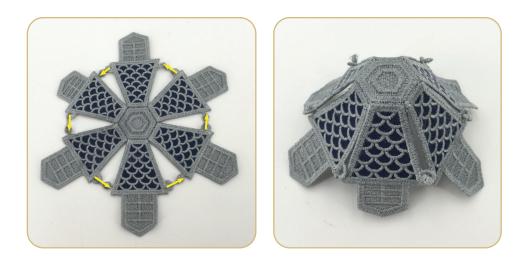

- Insert the Sign FSA (12799-03) tab into the Front Walls FSA (12799-01) tab entry point on each side of the sign.
- Gently push down on the Sign FSA (12799-03) to secure.

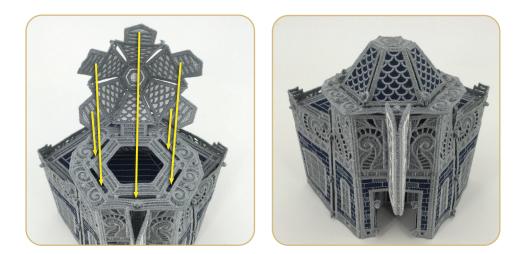

### **STEP 11**

• Assemble the Cupola Roof FSA (12799-08) or Cupola Roof with Snow FSA (12799-09) by pulling the eight buttonettes into the corresponding eyelets to make a circle.

### STEP 12

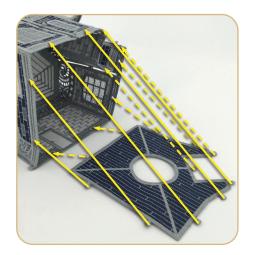

• Attach the chosen cupola roof by inserting the cupola tab into the entry point in the Cupola FSL (12799-06).

### **STEP 13**

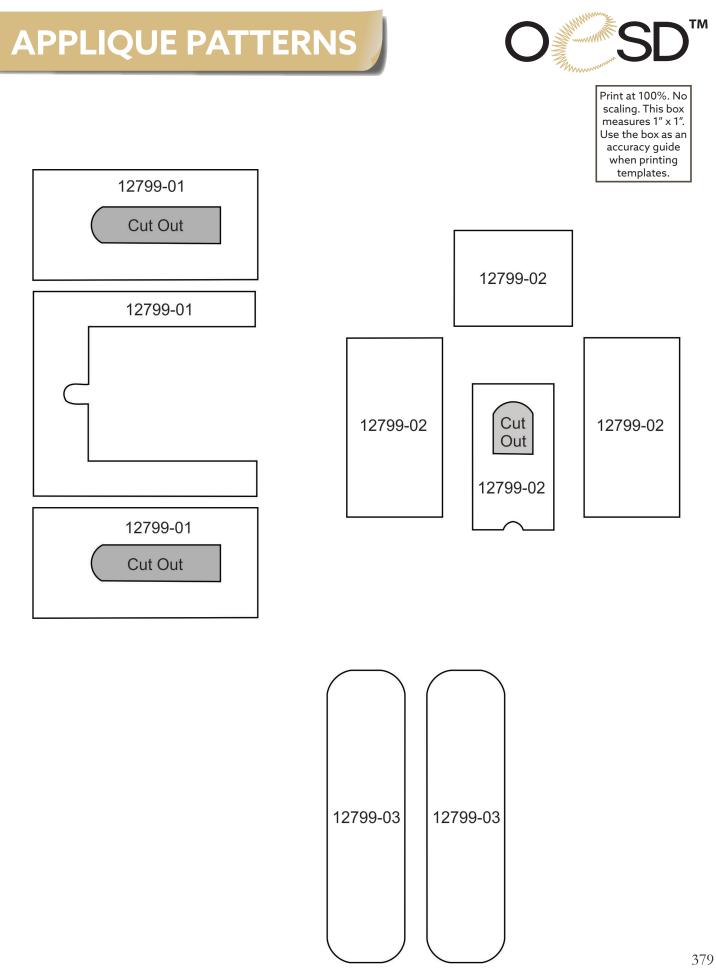

• Attach the Foundation FSA (12799-12) to the bottom of the structure by pulling the buttonettes of the foundation into the eyelets of the structure.

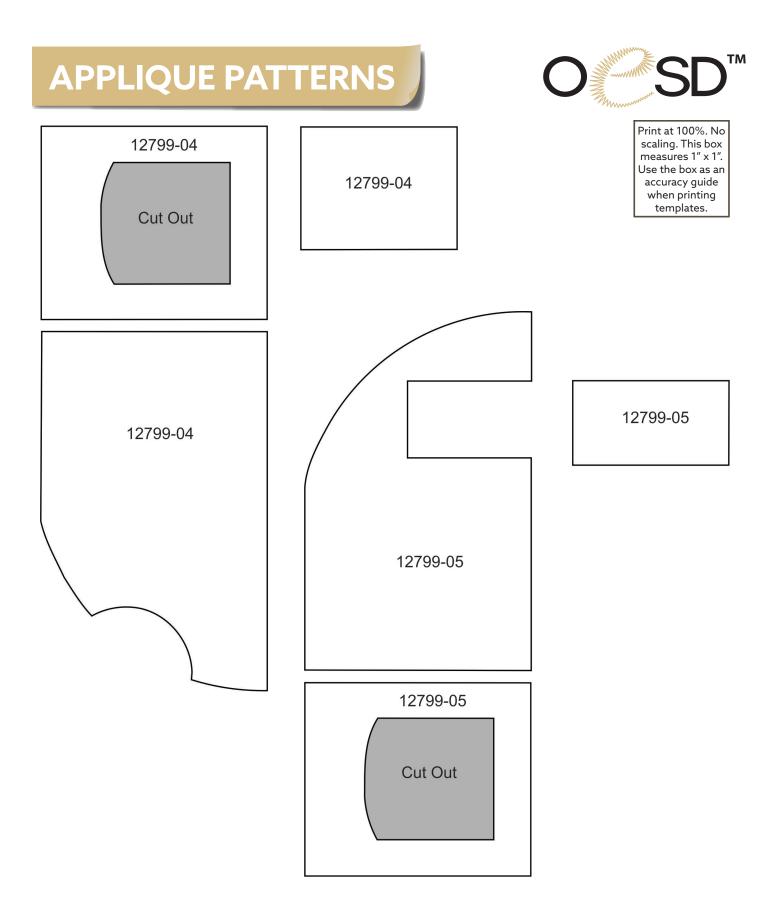

## **FINISHING TOUCHES**

- The drug store is complete. Enjoy.
- Add tea lights or pixie lights to create a glow.

0015 White (3 spools)

Color Version

• 0105 Ash Mist (3 spools)

# SUMMARY

Requires 1 Design

**Requires 2 Designs** 

Requires 1 Design

404

# STEP 1

- Rinse each piece in warm running water until the design is only slightly tacky.
- Place right side down on a non-stick surface to dry. Parchment paper or a cooling rack work well to prevent curling. Dry completely.
- Press each piece, right side down, on a Perfect Embroidery Press Cloth.

# STEP 2

• Bend the Front Steps FSL (12845-02) as shown. With an iron, press the creases in the steps.

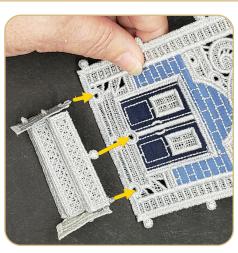

# STEP 3

• Match the eyelets and buttonettes. Attach the two side stair pieces (12845-02) to the side of the steps by pulling each buttonette through the corresponding eyelet.

# **STEP 4**

 Attach Front Stair unit (12845-02) to Front Wall FSA (12845-01) as indicated.

# STEP 5

• Bend the brace section of the Front Lamps FSL (12845-03) toward the center.

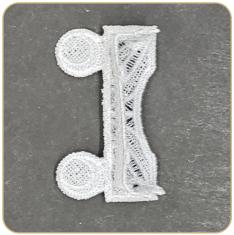

It is a violation of Copyright law to make and distribute copies of electronic designs or artwork. Electronic designs are licensed to the original purchaser for use at one location. ©2021 OESD, LLC. All rights reserved.

# STEP 6

• Attach the lamps to the brace as shown.

# STEP 7

 Attach the Front Lamps (12845-03) unit to the Front Wall (12845-01).

 Attach the two Inner Side Walls FSA (12845-04) to the Front Wall FSA (12845-01) by pulling the buttonettes through the corresponding eyelets as shown.

# STEP 9

 Attach the Back Wall FSA (12845-05) to the two Center Walls FSA (12845-04).

# STEP 10

- Attach the Center Roof FSA (12845-06 or 12845-07 with snow) to the center structure.
- Attach a button clip to hold the eyelet in place temporarily when needed.

# **STEP 11**

- With the Right Side Wall FSA (12845-08) in the center, line up the Right Front Wall FSA (12845-09) and the Right Back Wall FSA (12845-10) on either side with buttonettes next to the eyelets as shown.
- Attach the front and back pieces to the side by pulling the buttonettes through the corresponding eyelets. Set aside.

# **STEP 12**

- With the Left Side Wall FSA (12845-11) in the center, line up the Left Front Wall FSA (12845-12) and the Left Back Wall FSA (12845-13) on either side with buttonettes next to the eyelets as shown.
- Attach the front and back pieces to the side by pulling the buttonettes through the corresponding eyelets. Set aside.

# **STEP 13**

 Attach a Side Roof FSA (12845-15 or 12845-16 with snow) to each side structure by pulling the buttonettes on the front, side and back through the corresponding eyelets in the roof as shown.

 Attach a Side Foundation FSA (12845-17) to each side structure by pulling the three floor buttonettes through the corresponding eyelets on the front, side and back of each side.

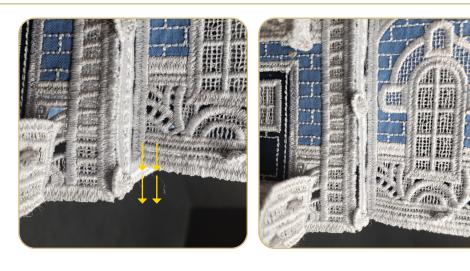

# STEP 15

 Insert the tabs on the front and back walls of the side structures into the corresponding slots on the sides of the center structure. Alligator Clamps may be inserted through the tab entry from the inside of the center section to assist in pulling the tabs through.

# **STEP 16**

- Once the tabs are pulled through, slide the sides down to be even with the bottom of the center section.
- Note: After putting the tabs into the tab entries, twist them slightly to help them stay in place, or use Button Clips to temporarily hold them.

# **STEP 17**

 Attach the Center Foundation FSA (12845-16) to the center section by inserting the tab on each side through the corresponding eyelet on each side.

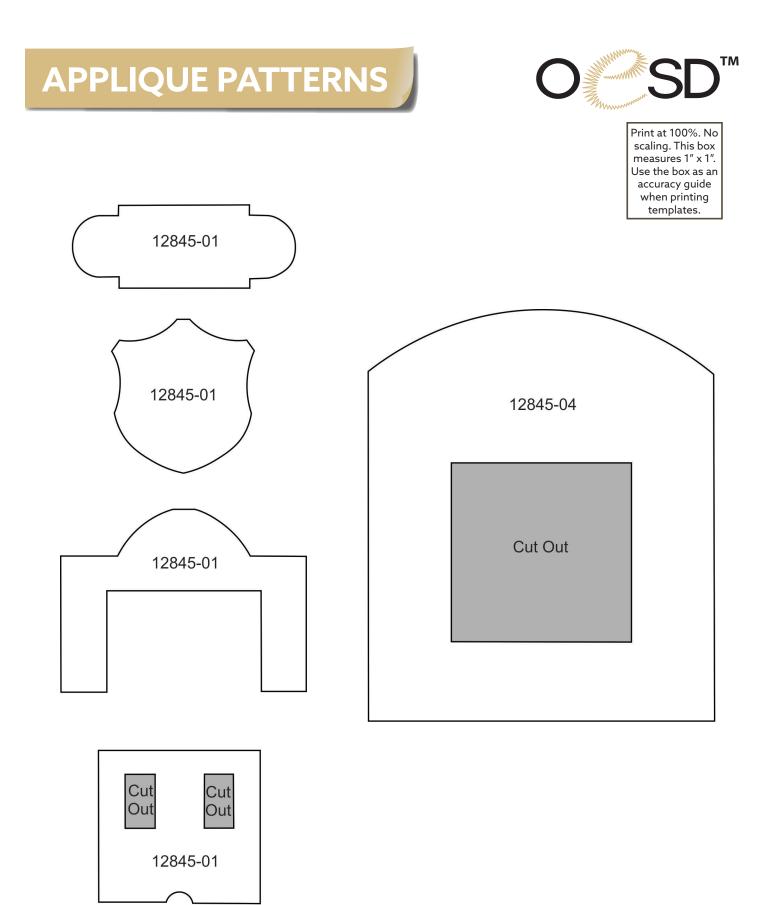

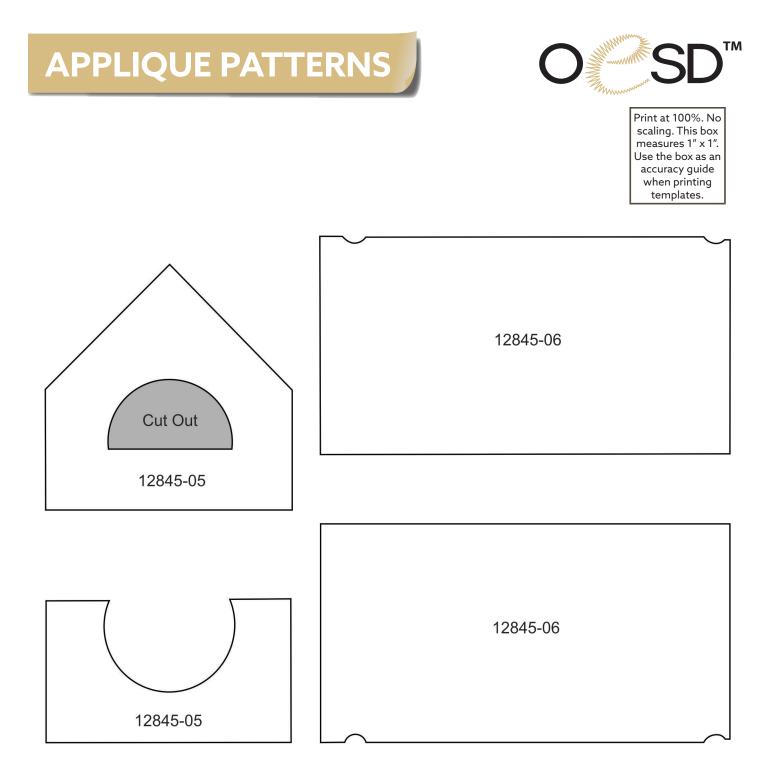

# **FINISHING TOUCHES**

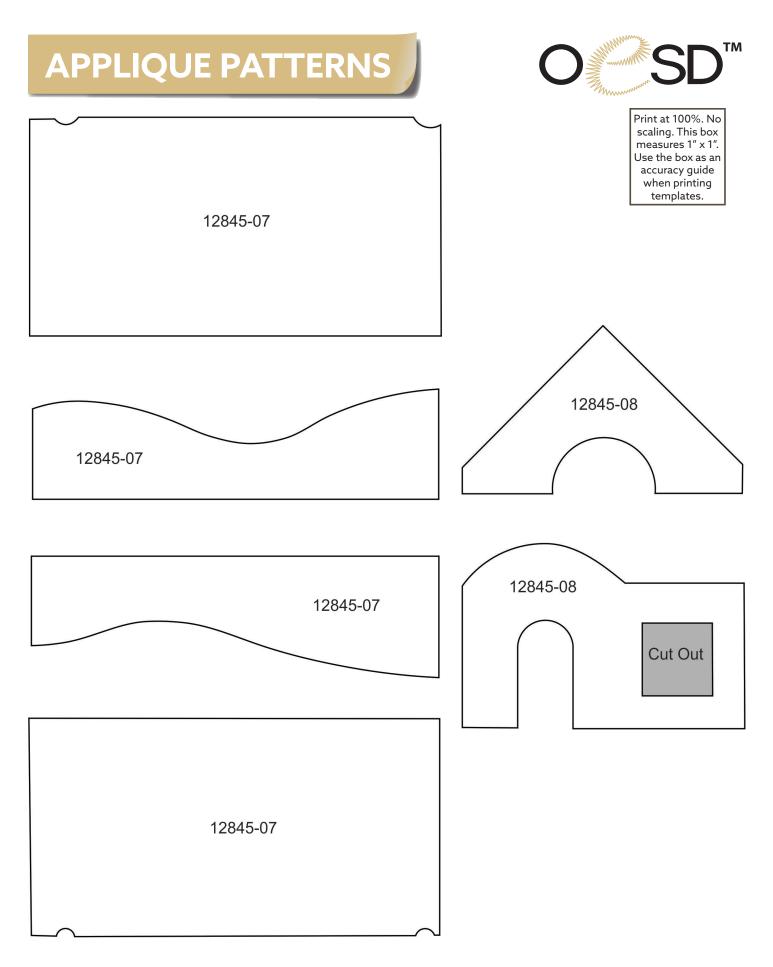

- •
- The police station is complete. Enjoy. Add tea lights or pixie lights to create a glow.

# **COLLECTION SUPPLIES**

## Stabilizers

- OESD WashAway AquaMesh
- OESD WashAway BadgeMaster
- OESD StabilStick CutAway

## Fabrics/Textiles

- White cotton fabric 1/2 yard
- Note: Fabric sizes are estimates and may result in overage.

## Notions & Tools

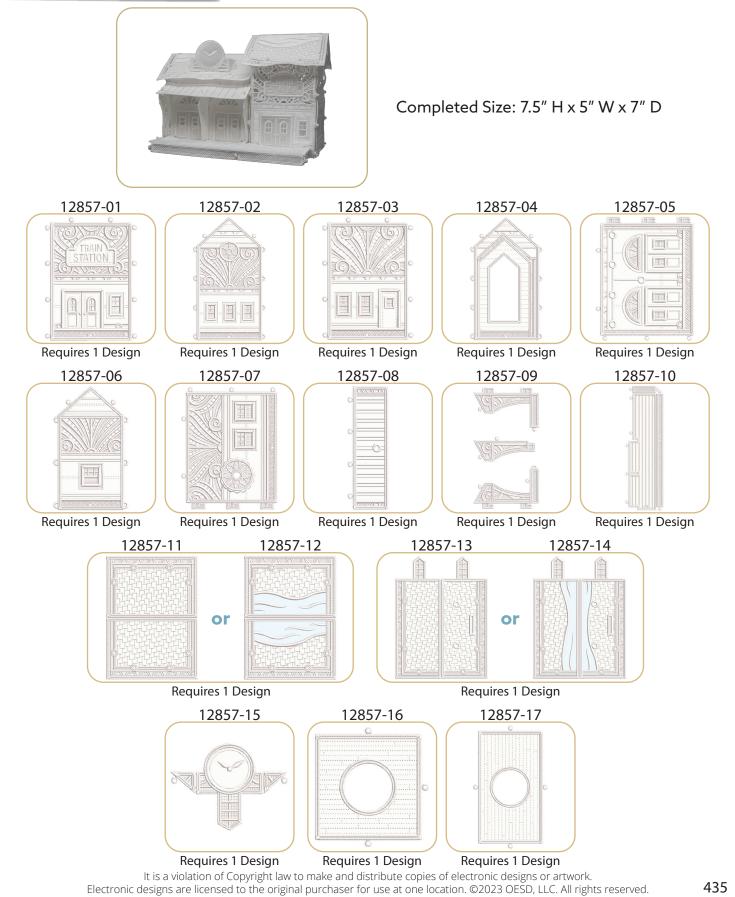

- OESD Alligator Clamps
- OESD Button Clips
- OESD Expert Embroidery Tape WashAway
- OESD Perfect Embroidery Press Cloth
- Utility knife
- Embroidery Needle Sharp 75/11

## Isacord Thread Colors

- Per thread chart
- Match bobbin thread to top thread
- 0015 White (3 spools)

# SUMMARY

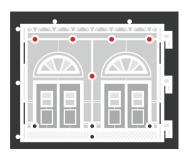

## PREP

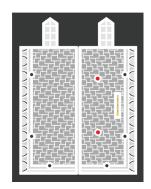

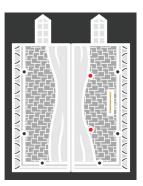

## STEP 1

- Use the punch tool, with the 3mm attachment, to punch holes in the eyelets indicated by red circles.
- Use a razor knife or scissors to cut a slit in the roof indicated by the dotted yellow line.
- Punch tool guide is located after instructions.

### STEP 2

• Using alligator clamps, attach Front Door FSA (12857-01), Right Wall FSA (12857-02), Back Door FSA (12857-03) and Inner Wall FSA (12857-04) by pulling the buttonettes through the corresponding eyelets on the adjacent piece as shown.

## STEP 3

Attach Front Door FSA (12857-01) to Inner Wall FSA (12857-04) to create the structure.

Attach the Back Wall FSA (12857-07) to Left Wall FSA (12857-06).
 Attach the Left Wall FSA to the Boarding Doors Wall FSA (12857-05) by pulling buttonettes through the corresponding eyelets.

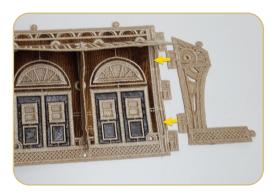

## STEP 5

• Attach the 4 buttonettes on Overhang Roof FSA (12857-08) to the eyelets on the Boarding Doors Wall FSA (12857-05).

## STEP 6

- Attach one of the Overhang Pillars FSL (12857-09) to both Boarding Doors Wall FSA (12857-05) and Overhang Roof (12857-08) by sliding the tab through the tab entry.
- Attach the remaining Overhang Pillar supports to Boarding Doors Wall FSA by sliding the side tabs into the tab entry. Pull the top buttonettes of the Overhang Pillars FSL through the eyelets in Overhang Roof FSA.

## STEP 7

- Attach the overhang to the main building by sliding the tab into the entry tabs to the left of the main building.
- Gently pull down to secure.

### STEP 8

• Creating the Platform. Fold at the hinge of the front and right side of Front Platform FSA (12857-10) and attach at the corner by inserting the buttonette into the corresponding eyelet.

## STEP 9

Attach the Front Platform FSA (12857-10) to the front of the building. Slide the Overhang Pillars FSL (12857-09) into the platform and pull the remaining buttonettes through the corresponding eyelets.

## **STEP 10**

- Attach the Clock FSA (12857-15) by pulling the tab through the Left Roof FSA (12857-13) or Left Roof with Snow FSA (12857-14).
- Attach the Clock and Roof to the overhang section of the station.
- Note: The train station comes with a choice of two roof options, one with snow and one without.

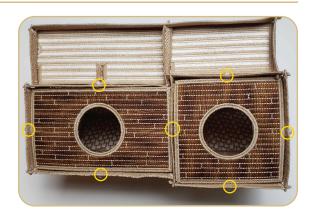

## **STEP 11**

• Attach the Right Roof FSA (12857-11) or Right Roof with Snow FSA (12857-12) to the main station building by pulling the buttonettes through the corresponding eyelets.

## **STEP 12**

• Attach the Right Foundation FSA (12857-16) and Left Foundation FSA (12857-17) to the base of the station by pulling the buttonettes into the corresponding eyelets.

## **FINISHING TOUCHES**

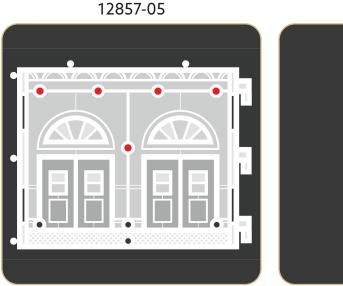

- The train station is complete. Enjoy.
- Add tea lights or pixie lights to create a glow.

- 1/8 yd Red quilter's cotton
- Note: Fabric sizes are estimates and may result in overage.

## Notions & Tools

- OESD Alligator Clamps
- OESD Button Clips
- OESD Expert Embroidery Tape WashAway
- OESD Expert Embroidery Tape TearAway
- OESD Perfect Punch Tool
- OESD Perfect Embroidery Press Cloth
- Embroidery Needle Sharp 75/11

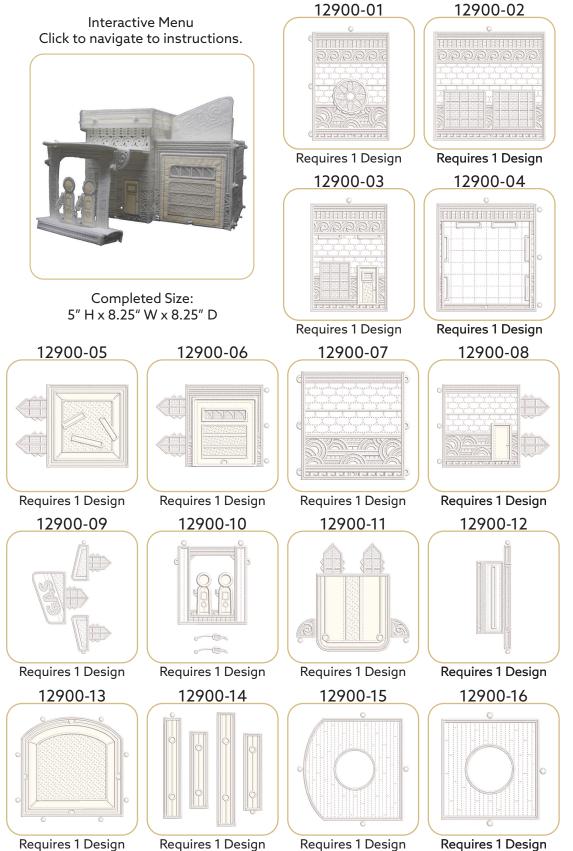

## Isacord Thread Colors

- Per thread chart
- Match the bobbin thread to the upper thread.

Interactive Menu Click to navigate to instructions.

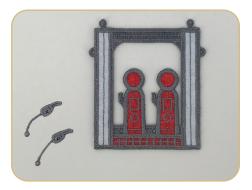

It is a violation of Copyright law to make and distribute copies of electronic designs or artwork. Electronic designs are licensed to the original purchaser for use at one location. ©2023 OESD, LLC. All rights reserved.

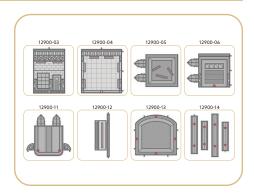

## STEP 1

- Rinse each piece in warm running water until the design is only slightly tacky.
- Lay right side down on a non-stick surface to dry. Parchment paper or a cooling rack work well to prevent curling. Dry completely.
- Once dry, press right side down on a Perfect Embroidery Press Cloth.

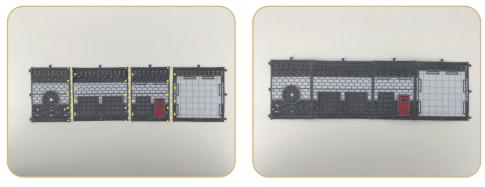

# STEP 2

- Before assembly, use a utility knife to cut through all the layers of the tab entries. Take care to not cut the satin stitching.
- Using the OESD Perfect Punch Tool fitted with the 3mm tip, punch out the designated eyelets. Punch tool guides are located on page 29 of the instructions.

# **STEP 3**

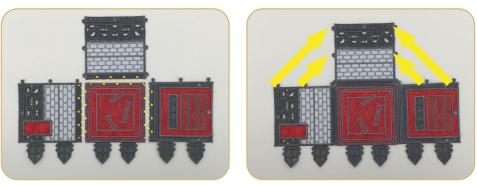

- To connect, line up pieces Store Back Wall FSA (12900-01), Store Wall FSA (12900-02), Store Front Wall FSA (12900-03), and Inner Wall FSA (12900-04), right sides up.
- Thread the sewing machine with matching thread in the top and bobbin.
- Stitch together using a multi-step zigzag stitch (also known as a serpentine stitch). Back stitch at the beginning and end to secure. Trim thread tails.
- TIP: An open toe or edge stitch foot is helpful.

## STEP 4

- To connect, line up pieces Garage Roof FSA (12900-05), Garage Door FSA (12900-06), Garage Wall FSA (12900-07), Garage Back Wall FSA (12900-08), right sides up.
- Stitch together.

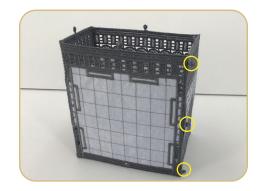

### STEP 5

- To connect, line up Overhang FSA pieces (12900-11), right sides up.
- Thread the sewing machine with matching thread in the top and bobbin.
- Stitch together using a multi-step zigzag stitch (also known as a serpentine stitch). Back stitch at the beginning and end to secure. Trim thread tails.

## STEP 6

 Match the eyelets on Store Back Wall FSA (12900-01) to the buttonettes on Inner Wall FSA (12900-04). Pull each buttonette through the corresponding eyelet. Attach a button clip to hold the buttonette in place temporarily when needed.

## STEP 7

- Stitch together using a multi-step zigzag stitch.
- Match the eyelet on Gas Sign FSA (12900-09) to the buttonette. Pull buttonette through the corresponding eyelet.

## STEP 8

• Insert the tabs on Gas Sign FSA (12900-09) into the corresponding garage slots.

STEP 9

Insert the tabs on assembled garage into the corresponding store slots.

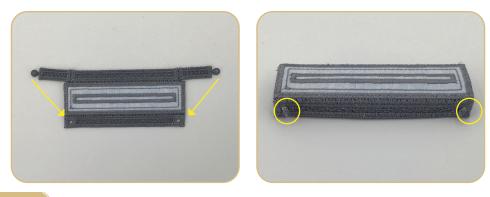

It is a violation of Copyright law to make and distribute copies of electronic designs or artwork. Electronic designs are licensed to the original purchaser for use at one location. ©2023 OESD, LLC. All rights reserved.

## **STEP 10**

• Match the eyelets on Gas Pumps FSA (12900-12) to the buttonettes. Pull each buttonette through the corresponding eyelet.

## **STEP 11**

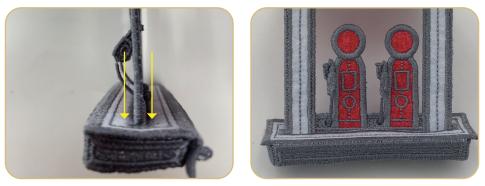

• Match the eyelets and buttonettes on Gas Pumps FSA (12900-10) to the eyelets and buttonettes on Overhang FSA (12900-11). Pull each buttonette through the corresponding eyelet.

## **STEP 12**

•

Insert the assembled gas pumps into the corresponding slot on Gas Pumps Foundation FSA (12900-12).

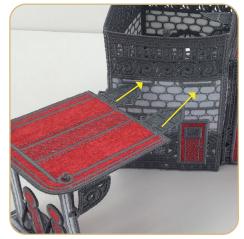

It is a violation of Copyright law to make and distribute copies of electronic designs or artwork. Electronic designs are licensed to the original purchaser for use at one location. ©2023 OESD, LLC. All rights reserved.

# **STEP 13**

 Insert the tabs on gas pump assembly into the corresponding store slots.

## **STEP 14**

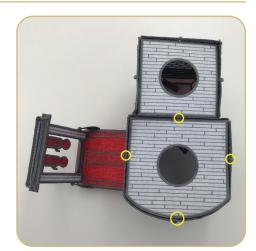

•

Match the eyelets on garage assembly to the buttonettes on Garage Foundation FSA (12900-16). Pull each buttonette through the corresponding eyelet.

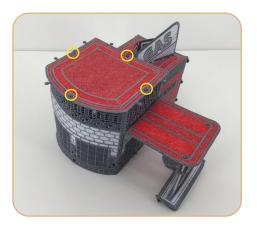

Match the eyelets on store assembly to the buttonettes on Store Foundation FSA (12900-15). Pull each buttonette through the corresponding eyelet.

# **STEP 16**

• Match the eyelets on Store Roof FSA (12900-13) to the buttonettes on store assembly. Pull each buttonette through the corresponding eyelet.

 Match the eyelet to the buttonette of Store Roof Framing FSA (12900-14). Pull the buttonette through the corresponding eyelet.

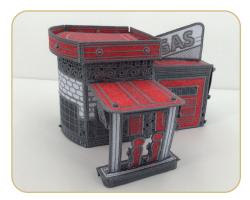

## **STEP 18**

Match the eyelets on Store Roof Framing FSA (12900-14) to the buttonettes on store assembly. Pull each buttonette through the corresponding eyelet.

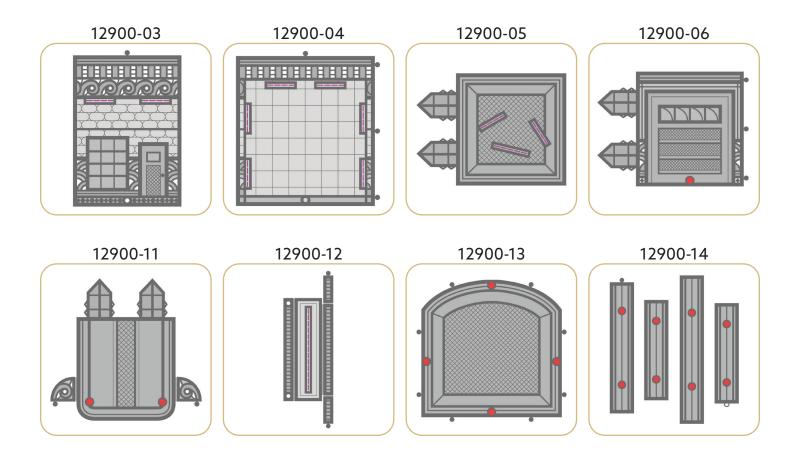

• Add tea lights or pixie lights to create a glow.

# **COLLECTION SUPPLIES**

## Stabilizers

- OESD AquaMesh WashAway
- OESD BadgeMaster WashAway
- OESD StabilStick CutAway
- OESD Fiber Form
- OESD Applique Fuse and Fix

## Fabrics/Textiles

White version

- 1/4 yd White quilter's cotton
- 1/8 yd Cream quilter's cotton
- 1/8 yd White sparkle organza
- OESD Clear Vinyl

Color version

- 1/4 yd Tan quilter's cotton
- 1/8 yd Gray quilter's cotton
- Note: Fabric sizes are estimates and may result in overage.

## Notions & Tools

- OESD Alligator Clamps
- OESD Button Clips
- OESD Expert Embroidery Tape TearAway
- OESD Expert Embroidery Tape WashAway
- OESD Perfect Punch Tool
- OESD MiniMAT
- OESD Perfect Embroidery Press Cloth
- OESD Grippy GRID
- Embroidery Needle Sharp 75/11 (FSA)
- Embroidery Needle Ballpoint 80/12 (FSL)

# Isacord Thread Colors

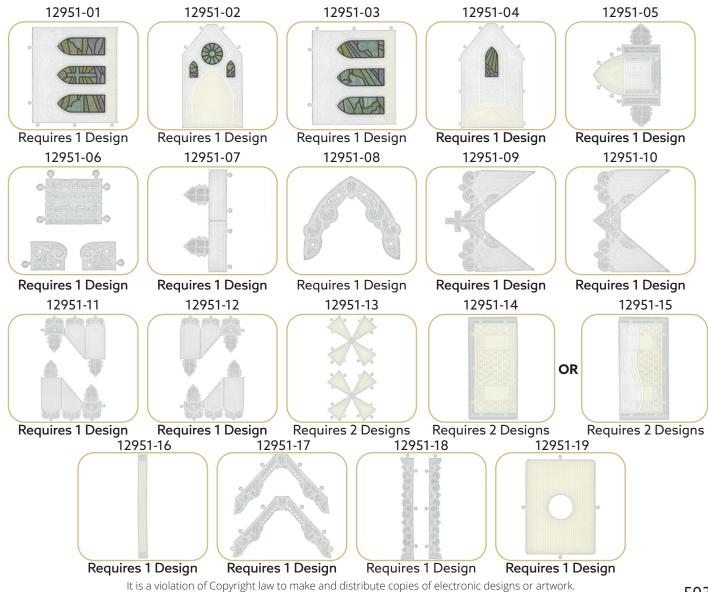

- Per the thread chart
- Match bobbin thread to top thread

# SUMMARY

Completed Size: 10" H x 5" W x 8  $\frac{1}{2}$ " D

Electronic designs are licensed to the original purchaser for use at one location. ©2023 OESD, LLC. All rights reserved.

# EMBROIDERY

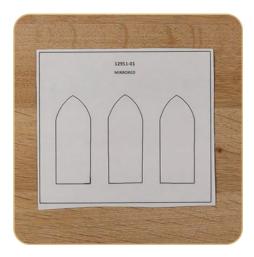

# **SINGLE SIDED APPLIQUE**

The freestanding applique instructions, included in the collection, are general instructions. For demonstration purposes, a sample design that best demonstrates the technique is shown. Fabric and thread requirements will vary by design, but the general technique is the same.

All designs are stitched with matching thread, top and bobbin. Note: Some thread colors in instructions have been changed or digitally enhanced for better visibility.

## STEP 1

- Print the mirrored version of the templates (at 100% scale or 1:1 ratio) onto the paper side of Applique Fuse and Fix.
- Cut approximately ¼" ½" outside the printed applique templates.

## STEP 2

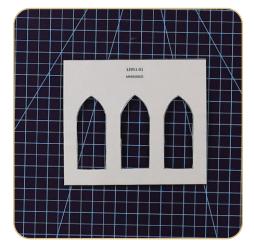

- Cut the Fiber Form 1⁄4"-1⁄2" larger than the applique templates.
- Fuse the trimmed templates to the back of the Fiber Form with the paper side of the printed template up. Hold the iron on the template for 10-15 seconds for a secure fuse.

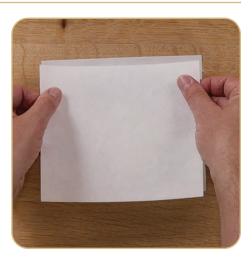

#### STEP 3

- Trim the Fiber Form on the edge of the black outline.
- Set aside.

#### STEP 4

- Adhere one layer of StabilStick CutAway to the wrong side of all applique fabric, to provide stiffness to the finished structure.
- Cut the prepared applique fabric 1⁄4"-1⁄2" larger than the templates that are included at the end of the instructions.

### STEP 5

 Hoop one layer of AquaMesh and one layer of BadgeMaster for all designs.

#### STEP 6

- Load selected design into the machine.
- Example design is 12951-01.
- Thread the machine per the thread chart.
- Place the hoop on the machine.
- Stitch Machine Step 1, Fiber Form Placement Stitch.

## STEP 7

- Remove the hoop from the machine, but NOT the project from the hoop.
- Place the hoop on a flat surface.
- On the back of the Fiber Form, score and remove the paper backing to reveal the adhesive surface.
- Place the Fiber Form within the placement stitching.
- Finger press to secure.

- Return the hoop to the machine.
- Stitch Machine Step 2, Cut Line and Tackdown.

It is a violation of Copyright law to make and distribute copies of electronic designs or artwork. Electronic designs are licensed to the original purchaser for use at one location. ©2023 OESD, LLC. All rights reserved.

#### STEP 9

 Stitch Machine Step 3, Cream Fabric Placement Stitch.

#### STEP 10

- Remove the hoop from the machine, but NOT the project from the hoop.
- Place the hoop on a flat surface.
- Completely cover the Fiber Form and the placement stitch with the prepared fabric.
- Tape in place to secure.

- Return the hoop to the machine.
- Stitch Machine Step 4, Cut Line and Tackdown.

### **STEP 12**

- Remove the hoop from the machine, but NOT the project from the hoop.
- Place the hoop on a flat surface.
- Trim the excess fabric as close to the cut line stitching as possible.
- Note: If the outermost stitches (cut line) are cut, the inner stitches (tackdown) will hold the applique in place.
- Tip: If the stabilizer is cut or a hole is created while trimming the fabric, use OESD Expert Embroidery Tape WashAway as a patch.

- Return the hoop to the machine.
- Stitch Machine Step 5, White Fabric Placement Stitch.

- Remove the hoop from the machine, but NOT the project from the hoop.
- Place the hoop on a flat surface.
- Completely cover the Fiber Form and the placement stitch with the prepared fabric.
- Tape in place to secure.

#### STEP 15

- Return the hoop to the machine.
- Stitch Machine Step 6, Cut Line and Tackdown.

- Remove the hoop from the machine, but NOT the project from the hoop.
- Place the hoop on a flat surface.
- Trim the excess fabric as close to the cut line stitching as possible.

- Return the hoop to the machine.
- Stitch Machine Step 7, Clear Vinyl Placement Stitch.

#### **STEP 18**

- Remove the hoop from the machine, but NOT the project from the hoop.
- Place the hoop on a flat surface.
- Completely cover the placement stitch with the clear vinyl.
- Tape in place to secure.

- Completely cover the placement stitch with the white sparkle organza.
- Tape in place to secure.

#### **STEP 20**

- Return the hoop to the machine.
- Stitch Machine Step 8, Cut Line and Tackdown.

- Remove the hoop from the machine, but NOT the project from the hoop.
- Place the hoop on a flat surface.
- Trim the excess organza as close to the cut line stitching as possible.
- Trim the excess vinyl as close to the cut line stitching as possible.

#### **STEP 22**

- Return the hoop to the machine and stitch the remaining steps per the thread chart.
- Match the bobbin thread to the upper thread.

## STEP 23

 When the design is complete, remove the project from the hoop and trim the stabilizer 1/4" -1/2" outside the design.

## **GENERAL FREESTANDING LACE GUIDE**

#### Designs

- 12951-0612951-08
- 12951-17 12951-18

#### Stabilizer

- OESD AquaMesh
- OESD BadgeMaster

#### Instructions

#### Step 1 - Hoop

For FSL structures, hoop one layer of OESD AquaMesh and one layer of OESD BadgeMaster. BadgeMaster contains more starch so, combined with the AquaMesh, the lace is more rigid. For other FSL, where a softer lace is desired, hoop two layers of AquaMesh.

#### Step 2 - Embroider

Stitch the design per the thread chart with matching thread in the bobbin at each color change.

When complete, remove from the hoop and trim away excess stabilizer about 1/4"-1/2" from the stitching.

#### Notions/Tools

- 80/12 Embroidery Ballpoint Titanium needle for extended needle life
- OESD Alligator Clamps
- OESD Button Clips
- OESD Perfect Point and Press Tool

#### Step 3 - Rinse

Rinse remaining stabilizer out in warm running water.

For stiffer lace and FSL structures, DO NOT rinse away all of the stabilizer. The lace should be just slightly tacky. For softer lace, rinse until all traces of the stabilizer are removed.

#### Step 4 - Dry

Lay right side down flat on a nonstick surface, such as a cooling rack, parchment paper or Teflon sheet. This minimizes the tendency for the lace to curl.

Let the pieces dry completely before proceeding with any assembly.

#### **Isacord Thread Colors**

- All OESD designs are digitized with Isacord 40 wt. polyester thread as the top thread and in the bobbin.
- Refer to the thread chart for color specifications.
- Match bobbin thread color to the top thread.

#### Step 5 - Press

Once completely dry, press right side down on a OESD Perfect Embroidery Press Cloth.

#### Step 6 – Assemble Structure

Note: Specific assembly instructions for a design/collection may be found in the thread chart pdf following the individual design color charts.

Lace must be COMPLETELY DRY before assembly. Wetting the buttonettes or eyelets to assemble is not recommended and may result in them stretching and coming "unbuttoned" when dry.

Use a pair of OESD Alligator Clamps to insert the buttonettes into the eyelets. Insert the tip of the OESD Alligator Clamps into the eyelet, grasp the buttonette and pull through the eyelet. Alternatively, use a stiletto or tweezers to push the buttonette through the eyelet.

#### Helpful Tips

#### Limp Lace

If the design is not stiff enough, press the lace pieces on the wrong side while applying spray starch. After ironing, spray again with starch and allow to dry completely. This will stiffen the lace pieces nicely and aid in construction. Or easily restiffen by diluting some stabilizer scraps in water (or use liquid starch) and dipping the item in the solution. Lay flat to dry.

#### **Eyelets Too Small**

If any of the eyelets appear closed or too small to penetrate with Alligator Clamps, they may be stretched by inserting the small end of the OESD Perfect Point and Press Tool into the eyelet opening and stretching it open wide enough to accommodate the OESD Alligator Clamps.

#### **Button Clips**

During the assembly process, some structures pull on buttonettes that have already been inserted and could pull them out altogether. Putting a Button Clip on the assembled buttonette will keep it in position during the assembly process. Remove the Button Clips when the assembly is complete.

#### **Alternative Construction Option**

In some cases, the buttonettes may be pulled to the inside of a project, instead of being visible on the outside. Insert the OESD Alligator Clamps through the eyelet from the wrong, or inside, of the lace and grasp the corresponding buttonette. Pull the buttonette to the wrong side of the lace.

Pulling the buttonettes to the inside may cause stress on the ones already done. Button clips may be placed on the completed buttonette(s) to prevent them from pulling out of the eyelet during construction.

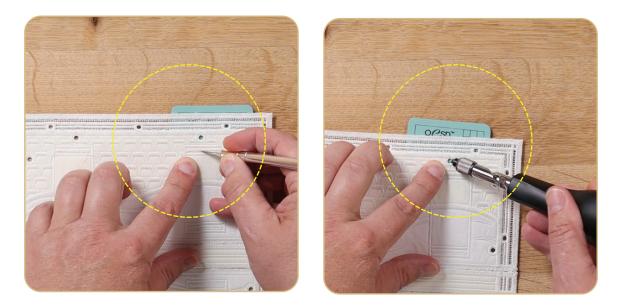

#### **STEP 24**

- Rinse in warm running water until the design is only slightly tacky.
- Place right side down on a non-stick surface to dry. Parchment paper or a cooling rack will prevent curling. Dry completely.
- Once dry, press right side down on a Perfect Embroidery Press Cloth.

- Before assembly, use a craft knife to cut through all the layers of the tab entries.
- Use the OESD MiniMAT and Punch Tool with the 3mm attachment to create the eyelets indicated in the diagram.
- Tip: Take care to not cut the satin stitching.
- Reference the Punch Tool Guide on page 527.

#### **STEP 26**

- Line up the Front and Side wall pieces 12951-01, 12951-02, 12951-03 to connect.
- Thread the sewing machine with matching thread in the top and bobbin.
- Stitch together using a multi-step zigzag stitch.
- Back stitch at the beginning and end to secure.
- Trim thread tails.
- Fold and press into shape.

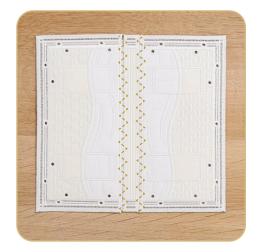

### **STEP 27**

Line up the Roof pieces, either:
2 Roof FSA (12951-14), or

- 2 Roof With Snow FSA (12951-15) and Roof Top FSA (12951-16) to connect.

- Stitch together using a multi-step zigzag stitch.
- Back stitch at the beginning and end to secure.

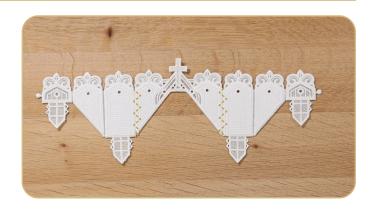

#### **STEP 28**

- Trim thread tails.
- Fold and press into shape.
- Line up the Front and Side Roof Eaves pieces 12951-17 and 12951-18 to connect.
- Stitch together using a multi-step zigzag stitch.
- Back stitch at the beginning and end to secure.

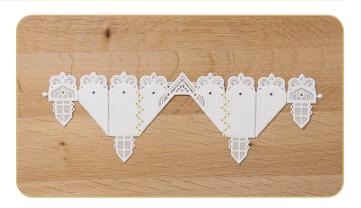

- Trim thread tails.
- Fold and press into shape.
- Line up the Front Towers FSA (12951-09) with one of the Tower Walls 1 FSA (12951-11) and one of the Tower Walls 2 FSA (12951-12) to connect.
- Stitch together using a multi-step zigzag stitch.
- Back stitch at the beginning and end to secure.

### STEP 30

- Trim thread tails.
- Fold and press into shape.
- Line up the Back Towers FSA (12951-10) with one of the Tower Walls 1 FSA (12951-11) and one of the Tower Walls 2 FSA (12951-12) to connect.
- Stitch together using a multi-step zigzag stitch.
- Back stitch at the beginning and end to secure.

- Trim thread tails.
- Fold and press into shape.
- Bend the Front Doors Steps FSL (12951-06) as shown. With an iron, press the creases in the steps.

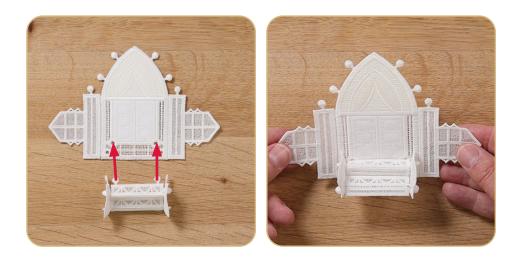

#### **STEP 32**

- Match the buttonettes of the Front Doors Steps to the eyelets of the two side stair pieces.
- Use Alligator Clamps to pull each buttonette through the corresponding eyelet, using button clips to temporarily hold them in place, as needed.

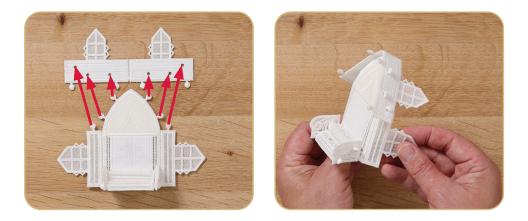

- Match the buttonettes of the assembled Front Doors Steps to the eyelets of the Front Doors Walls FSA (12951-05).
- Pull each buttonette through the corresponding eyelet.

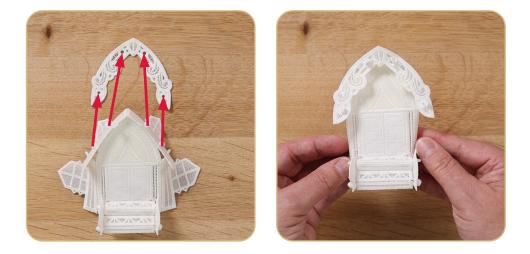

#### **STEP 34**

- Match the buttonettes of the Front Doors Walls FSA (12951-05) to the eyelets of the Front Doors Roof FSA (12951-07).
- Pull each buttonette through the corresponding eyelet.

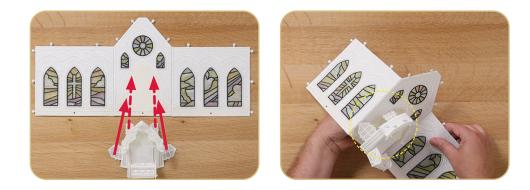

- Match the buttonettes of the Front Doors Roof FSA (12951-07) to the eyelets of the Front Doors Eave FSL (12951-08).
- Pull each buttonette through the corresponding eyelet.

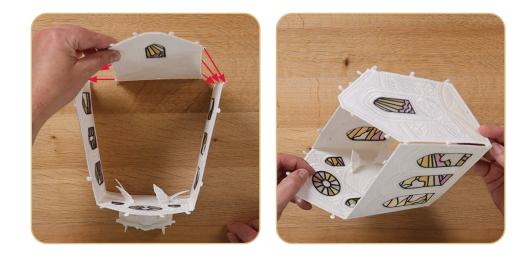

#### STEP 36

 Insert the locking tabs of the Front Door assembly into the tab entries of the Front Wall FSA (12951-02).

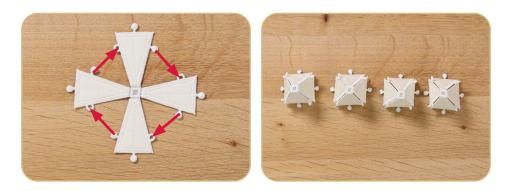

- Match the buttonettes of the wall assembly to the eyelets of the Back Wall FSA (12951-04).
- Pull each buttonette through the corresponding eyelet.

#### STEP 38

- Match the buttonettes to the eyelets of the Spires FSA (12951-13).
- Pull each buttonette through the corresponding eyelet.

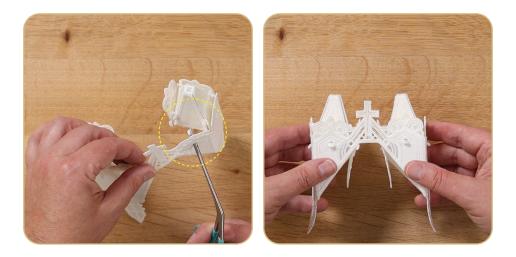

• Bend the Tower Walls as shown.

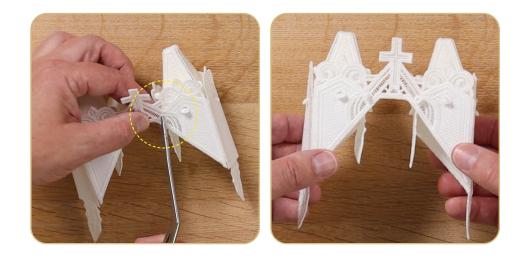

#### STEP 40

- Match the buttonettes of the Spires FSA (12951-13) to the eyelets of the Tower Walls.
- Pull each buttonette through the corresponding eyelet.

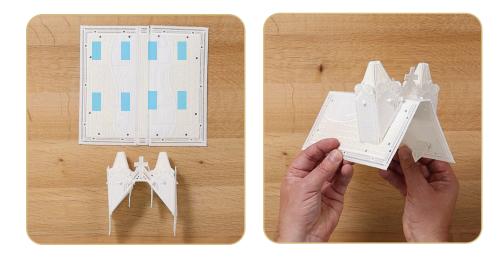

- Match the buttonettes of the Tower Walls to the eyelets of the Front Towers FSA (12951-09) and Back Towers FSA (12951-10).
- Pull each buttonette through the corresponding eyelet.

#### **STEP 42**

• Insert the locking tabs of the Front Towers assembly into the tab entries of the Roof assembly.

### **STEP 43**

• Insert the locking tabs of the Back Towers assembly into the tab entries of the roof assembly.

#### **STEP 44**

- Match the buttonettes of the wall assembly to the eyelets of the roof assembly.
- Pull each buttonette through the corresponding eyelet.

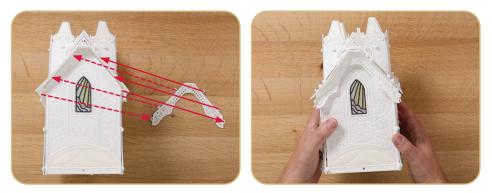

- Match the buttonettes of the Front and Side Roof Eaves pieces to the eyelets of the roof assembly.
- Pull each buttonette through the corresponding eyelet.

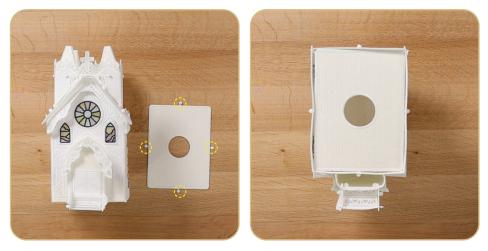

#### **STEP 46**

- Match the buttonettes of the Back Roof Eave to the eyelets of the roof assembly and Front and Side Roof Eaves pieces.
- Pull each buttonette through the corresponding eyelet.

- Match the eyelets of the wall assembly to the buttonettes of the Foundation FSA (12951-19).
- Pull each buttonette through the corresponding eyelet.

## **Finishing Touches**

- Add tea lights or pixie lights to create a glow.
- The project is complete. Enjoy!
