# MATERIALS

## Stabilizer

- Fusible Woven
- Fusible PolyMesh CutAway
- StabilStick Template Sheets
- StitcH2O WashAway

## Fabric/Notions

- Gentle Touch Backing
- Expert Point and Press Tool
- Expert Embroidery Press Cloth
- Large Pockets - (2) 6" x 6" fabric
- Small Pockets - (2) 5" x 5" fabric
- Child's T-shirt
- Expert Embroidery Tape TearAway

# INSTRUCTIONS

## Step 1

- **Note:** Designs used for this project are 51240-09 and 51240-10. The other designs are stitched in the same manner. Always stitch the pocket design first.
- Fuse a piece of Fusible Woven to the wrong side of the front pocket piece. This gives the pocket fabric more body to help keep it from puckering during embroidery.

## Step 2

- Cut 1 piece of Fusible PolyMesh larger than the hoop. Hoop the stabilizer with the fusible side down. Load pocket design 51240-09 onto your machine.
- **Note:** When the pocket is turned and pressed, the fusible will adhere to the pocket lining.

## Step 3

- Stitch Color 1, Fabric Placement Stitch.

# INSTRUCTIONS

## Step 4

- Place prepped fabric right side up, over the placement stitch, covering entirely.
- Tape in place.

## Step 5

- Stitch Color 2, Fabric Tackdown.

## Step 6

- Follow thread chart, stop before stitching the final Color 5, the Seam stitch, matching your thread to the pocket fabric.

# INSTRUCTIONS

## Step 7

- Place the pocket lining, right side down, over the stitched pocket, covering entirely.
- Tape in place.

## Step 8

- Stitch Color 5, the Seam stitch, matching your thread to the pocket fabric.

## Step 9

- Remove pocket from the hoop and trim to a 1/4" seam allowance. Clip corners.

# INSTRUCTIONS

## Step 10

- Turn pocket right side out, using the Point and Press Tool to push out the corners.

## Step 11

- Press face down into a Perfect Embroidery Press Cloth. Set pocket aside.

## Step 12

- Print centerpoint template onto a StabilStick Template sheet of 51240-10 (found on page 50) to use for placement on the t-shirt.
- **Note:** to ensure proper placement, print the design template at 100% scale.
- Trim around template.

# INSTRUCTIONS

## Step 13

- Mark a vertical line on the shirt where the design will be centered.

## Step 14

- Turn the shirt inside out. Iron one piece of Fusible PolyMesh to the wrong side of the front-shirt where the pocket will be placed.

## Step 15

- Peel the paper from the back of the template and place the template on the shirt, lining up the vertical line on the template with the vertical line on the shirt.

# INSTRUCTIONS

## Step 16

- Hoop the t-shirt. Use tape or hair clips to hold the excess fabric out of the design area.

## Step 17

- Move the hoop where the center of the design is under the needle. Rotate if necessary.
- **Tip!** Use available machine functions with the template to assure perfect placement of the design.

## Step 18

- Peel the template off the T-shirt.
- **Note:** The template is reusable, so you can put it back on the shiny side of the paper to keep it.

# INSTRUCTIONS

## Step 19

- Place a piece of StitchH2O topper over the design area. Tape in place.
- **Note:** The topper keeps the stitches from sinking into the fabric.

## Step 20

- Stitch the remaining colors for the design above the pocket, the rocket ship.
- Stitch the Pocket Placement Stitch Match Fabric.
- **Note:** The top thread for the placement stitch should match the fabric.

## Step 21

- Center the pocket within the placement stitch and tape in place.

# INSTRUCTIONS

## Step 22

- Stitch final Color, the Pocket Tackdown Match Fabric.

## Step 23

- Remove the shirt from the hoop. Remove tape and tear away excess topper. The rest will wash out. Turn the shirt inside out. Press the stabilizer with a warm iron. This will heat up the adhesive and make it easier to pull the stabilizer away from the fabric.

## Step 24

- Trim excess stabilizer to about a 1/4" away from the design.
- Be careful not to cut the T-shirt.

BACK OF PROJECT

# INSTRUCTIONS

## Step 25

- Cut a piece of Gentle Touch about an inch larger than the design. Round the edges and lay over the design with the fusible side against the fabric. Press with a warm iron.
- **Note:** The Gentle Touch covers the back of the embroidery to keep from irritating the skin.
