MATERIALS

Stabilizers

- OESD AquaMesh WashAway
- OESD BadgeMaster WashAway
- OESD StabilStick CutAway

Notions & Tools

- OESD Alligator Clamps
- OESD Button Clips
- Expert Embroidery Tape TearAway
- OESD Perfect Punch Tool
- OESD Perfect Embroidery Press Cloth
- Embroidery Needle Sharp 75/11

Isacord Thread Colors

- Per thread chart
- Match bobbin thread to top thread

Fabric/Textiles

Prep

- The instructions included in the collection, are general instructions. For demonstration purposes, a sample design that best demonstrates the technique is shown. Example design is 51265-01. Fabric and thread requirements will vary by design, but the general technique will be the same.
- All designs are stitched with matching thread in the top and bobbin.
- Note: Some thread colors in instructions have been changed or digitally enhanced for better visibility.

Step 1

- Hoop one layer of AquaMesh and one layer of BadgeMaster for all designs.

Step 2

- Adhere one layer of StabilStick CutAway to the wrong side of all applique fabrics, to provide stiffness to the finished structure.
- Note: The structure interior is finished with white interior lining fabric. Since this is a double-sided applique only 1 layer per fabric is needed to provide stiffness to the structure.

Step 3

- Load selected design into the machine.
- Design in the example is 51265-01.
- Thread the machine per the thread chart.
- Stitch Machine Step 1, Green Front/White Back Fabric Placement Stitch.

Step 4

- Remove the hoop from the machine, but NOT the project from the hoop.
- Lay the hoop on a flat surface.
- Cover the placement line completely with the prepared fabric.
- Tape in place to secure.
Step 5

- Turn the hoop over and place the back applique fabric right side up covering the placement stitch.
- Carefully tape to secure. Avoid pushing too hard on the stabilizer to prevent dislodging the project from the hoop.

BACK OF HOOP

Step 6

- Return the hoop to the machine.
- Stitch Machine Step 2, Cut Line and Tackdown.

Step 7

- Remove the hoop from the machine, but NOT the project from the hoop.
- Trim the excess fabric as close to the cut line stitching as possible. If the outermost stitches are cut, the inner stitches will still hold the applique in place.
- Tip: If the AquaMesh is cut or a hole is created while trimming the fabric, use Expert Embroidery Tape WashAway or AquaMesh Plus as a patch.

Step 8

- Turn the hoop over.
- Trim the excess fabric as close to the cut line stitching as possible.

BACK OF HOOP

Step 9

- Return the hoop to the machine.
- Stitch Machine Step 4, Cover Stitch.
- Match the bobbin thread to the upper thread colors.

Step 10

- When design is complete, remove the project from the hoop and trim the stabilizer 1/4"- 1/2" outside the design.

Step 1

- Rinse each piece in warm running water until the design is only slightly sticky.
- Lay face down on a non-stick surface to dry.
- Tip: Parchment paper or a cooling rack work well. This prevents the piece from curling.

Step 2

- Press each piece, right side down, on a Perfect Embroidery Press Cloth.
Step 3

- Insert the 3mm attachment into the Perfect Punch Tool, punch holes in the eyelets indicated in the Punch Tool Guide.
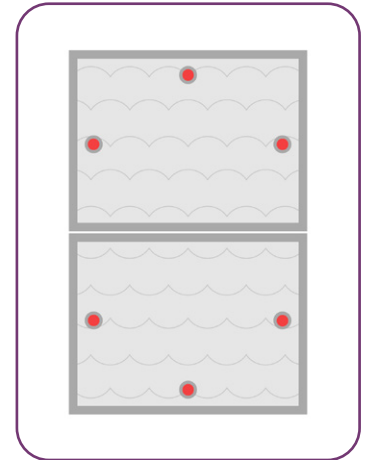

Step 4

- Place as shown.
- Load the sewing machine with matching thread in the top and bobbin.
- Use an open toe or edge stitch foot, stitch together using a multi-step zigzag, stitch the front (51265-01) back (51265-02) and side walls (51265-03 and 51265-04) to the floor (51265-06).
- Back stitch at the beginning and end to secure.
- Trim thread tails.
ASSEMBLY

Step 5

- Match the eyelets and buttonettes on the front (51265-01) back (51265-02) and wall sides 51265-03 and 51265-04). Pull each buttonette through the corresponding eyelet, using button clips to temporarily hold them in place, as needed.
Step 6

- Match the eyelets and buttonettes on the house structure and roof (51265-05). Pull each buttonette through the corresponding eyelet.
Step 7

- Add tea lights or pixie lights to create a glow.

PRINTING INSTRUCTIONS

Scissortail STITCHES

ATTENTION
When printing this document, any page scaling or page fitting options in your print dialog box must be turned OFF or set to NONE so that your files will print out at their actual size. Images not printed at actual size will not function as intended.
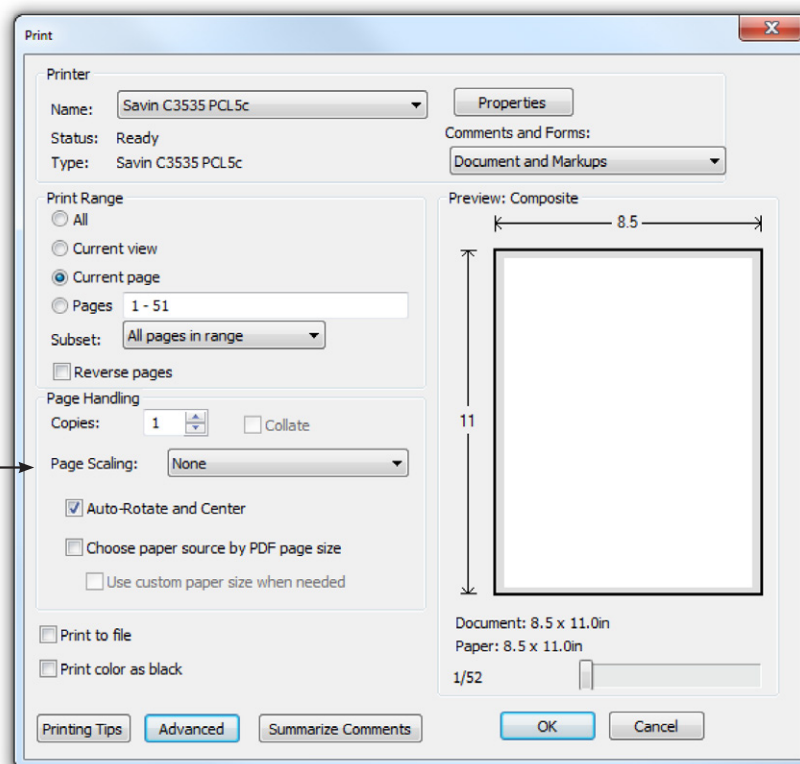

TO SAVE PAPER
Only print the desired image by navigating to the image's page, go to File > Print and select "Current page" in the print dialog box. Repeat for each desired image.
