EMBROIDERY

General Instructions

The project includes freestanding applique designs. All applique designs are stitched the same as shown in the instructions.

For demonstration purposes, a sample design that best represents the entire collection is shown. Fabric and thread requirements will vary by design, but the general technique will be the same.

All designs are stitched with matching thread in the top and bobbin.

Step 1

- Cut the prepared applique fabrics 1/4" - 1/2" larger than the templates.
- Adhere one layer of StabilStick CutAway to the wrong side of all applique fabrics to provide stiffness to the finished structure.

Note: Since this is double-sided applique only 1 layer per fabric is needed to provide stiffness to the structure.

Step 2

- Print the templates (at 100% or 1:1 ratio).
- Cut approximately 1/4" - 1/2" outside the printed applique templates.
- Lightly spray the back of the templates with 505 Temporary Spray Adhesive.

EMBROIDERY

□ Step 3

- Place templates, right side up, onto the Fiber Form.
- Cut the Fiber Form out on the edge of the black outline.
- Remove the templates and set aside.

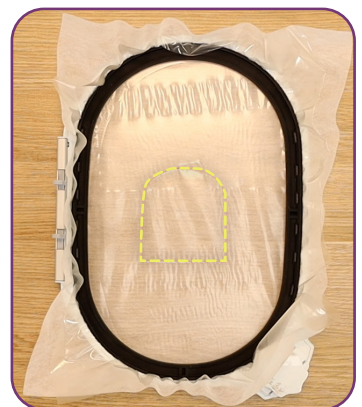

□ Step 4

- Hoop one layer of AquaMesh and one layer of BadgeMaster for all designs.
- Load selected design into the machine.
- Example design is 51314-O5.
- Thread the machine per the thread chart.
- Match the bobbin thread to the upper thread.
- Place the hoop on the machine.

□ Step 5

- Stitch Machine Step 1, Fiber Form/Blue Front Fabric Placement Stitch.

EMBROIDERY

□ Step 6

- Remove the hoop from the machine, but NOT the project from the hoop.
- Place the hoop on a flat surface.
- Place the pre-cut Fiber Form within the placement stitch.

□ Step 7

- Place the prepared applique fabric, right side up, completely covering the placement stitch.
- Tape in place to secure.

□ Step 8

- Return the hoop to the machine.
- Stitch Machine Step 2, Cut Line and Tackdown.

EMBROIDERY

□ Step 9

- Remove the hoop from the machine, but NOT the project from the hoop.
- Place the hoop on a flat surface.
- Trim the excess fabric as close to the cut line stitching as possible.

Note: If the outermost stitches (cut line) are cut, the inner stitches (tackdown) will hold the applique in place.

Tip: If the stabilizer is cut or a hole is created while trimming the fabric, use OESD Expert Embroidery Tape WashAway as a patch.

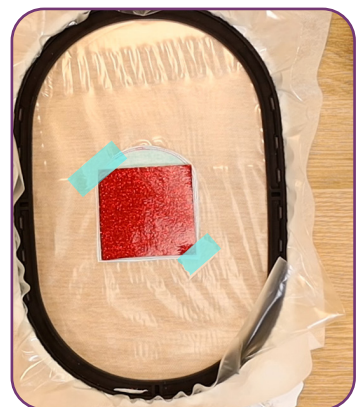

□ Step 10

- Return the hoop to the machine.
- Stitch Machine Step 3, Red Vinyl Placement Stitch.

□ Step 11

- Remove the hoop from the machine, but NOT the project from the hoop.
- Place the hoop on a flat surface.
- Place the Luxe Sparkle Vinyl right side up, completely covering the placement stitch.
- Tape in place to secure.

EMBROIDERY

□ Step 12

- Return the hoop to the machine.
- Stitch Machine Step 4, Cut Line and Tackdown.

□ Step 13

- Remove the hoop from the machine, but NOT the project from the hoop.
- Place the hoop on a flat surface.
- Trim the excess vinyl as close to the cut line stitching as possible.

□ Step 14

- Return the hoop to the machine.
- Stitch Machine Steps 5 and 6, Medium Pink Cover Stitch and White Detail.

EMBROIDERY

□ Step 15

- Stitch Machine Step 7, Pink Back Fabric Placement Stitch.

□ Step 16

- Remove the hoop from the machine, but NOT the project from the hoop.
- Turn the hoop over and place the pink fabric right side up, completely covering the placement stitch.
- Tape all four corners.
- Avoid pushing too hard on the stabilizer to prevent it from dislodging from the hoop.

□ Step 17

- Return the hoop to the machine.
- Stitch Machine Step 8, Cut Line and Tackdown.

EMBROIDERY

□ Step 18

- Remove the hoop from the machine, but NOT the project from the hoop.
- Turn hoop over.
- Place the hoop on a flat surface.
- Trim the excess fabric as close to the cut line stitching as possible.

□ Step 19

- Return the hoop to the machine.
- Stitch Machine Step 9, Light Pink Detail.
- Stitch Machine Step 10, Dark Pink Cover Stitch and Detail.
- Remember to match the bobbin to the top thread.

□ Step 20

- When the design is complete, remove the project from the hoop and trim the stabilizer 1/4" - 1/2" outside the design.

EMBROIDERY

Step 21

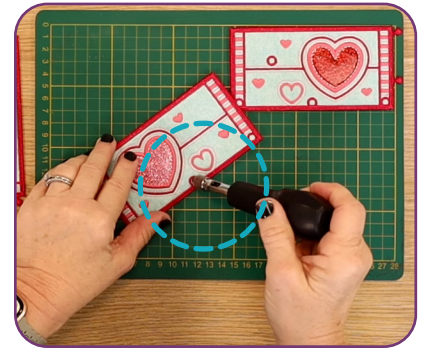

- Rinse each piece in warm, running water until the design is only slightly tacky.
- Place right side down on a non-stick surface to dry. Parchment paper or a cooling rack will prevent curling.
- Dry completely.
- Press each piece, right side down, on a Perfect Embroidery Press Cloth.

ASSEMBLY

□ Step 22

- Use the OESD Punch Tool fitted with the 3mm tip to create the eyelets indicated in the diagram. See Punch Tool Guide on page 20.

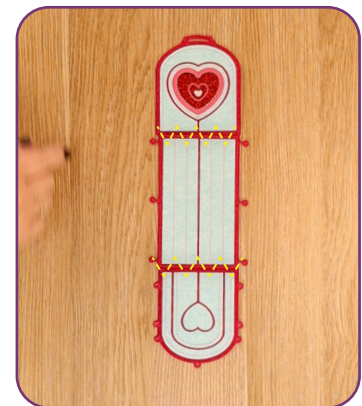

□ Step 23

- Align 51314-O1 with 51314-O2 and 51314-O3.
- Place pieces with buttonettes facing the same direction.
Note: The blue outer fabric will be facing up.
- Load the sewing machine with matching thread in the top and bobbin. An open toe or edge stitch foot is helpful.
- Stitch together using a multi-step zigzag stitch (also known as a serpentine stitch). Backstitch at the beginning and end to secure.
- Trim thread tails.
- Fold and press to shape.

□ Step 24

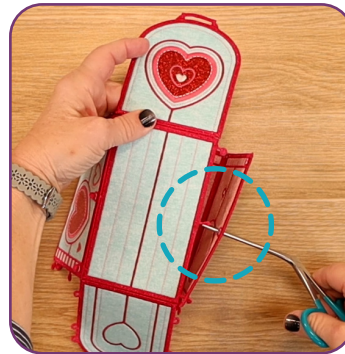

- With the blue outer fabric facing up, align the short edges of 51314-O5, 51314-O4, and 51314-O6.
- Stitch together using a multi-step zigzag stitch.
- Backstitch at the beginning and end to secure.
- Trim thread tails.

ASSEMBLY

Step 25

- Match the eyelets of the combined pieces of 51314-05, 51314-04, and 51314-06 with the buttonettes of the combined pieces of 51314-01, 51314-02, and 51314-03 and wrap around as shown.

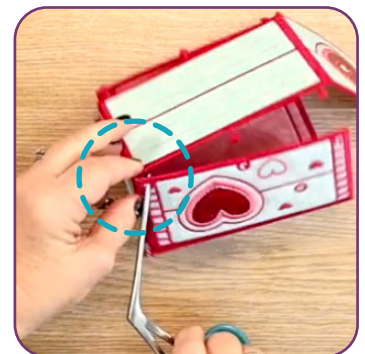

Step 26

- Match the eyelets on the curved edge of 51314-06 with the buttonettes on the combined pieces of 51314-01, 51314-02, and 51314-03. Pull each buttonette through the corresponding eyelet, using button clips to temporarily hold them in place, as needed.

Step 27

- Pull each buttonette on the mailbox bottom (51314-04) through the corresponding eyelets on each end of the combined pieces 51314-01, 51314-02, and 51314-03, using button clips to temporarily hold them in place, as needed.

ASSEMBLY

□ Step 28

- Place the brad through the hole in the bottom of the flag and insert it through the hole in the side piece 51314-01.
- Open brad and secure in place.

□ Step 29

- Place the envelope in the mailbox.
- Close the door by inserting the tab at the top into the slot on the door.
- Place the flag in the up position.

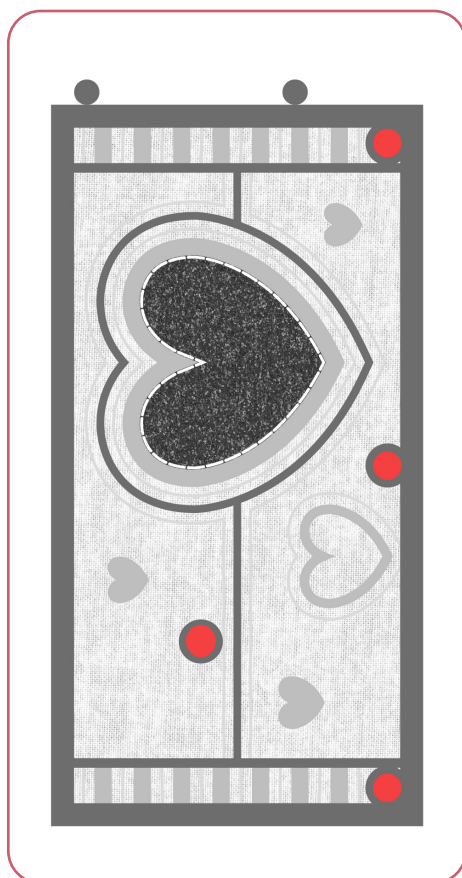

□ Step 30

- The mailbox is complete. Enjoy!

PRINTING INSTRUCTIONS

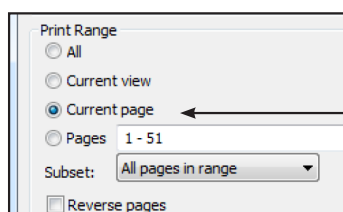

ATTENTION

When printing this document, any page scaling or page fitting options in your print dialog box must be turned OFF or set to NONE so that your files will print out at their actual size. Images not printed at actual size will not function as intended.

TO SAVE PAPER

Only print the desired image by navigating to the image's page, go to File > Print and select "Current page" in the print dialog box. Repeat for each desired image.

APPLIQUE PATTERNS

Print at 100%. No scaling. This box measures 1"x 1". Use the box as an accuracy guide when printing templates.
