Notes

The freestanding applique instructions, included in the collection, are general instructions. For demonstration purposes, a sample design that best demonstrates the technique is shown. Fabric and thread requirements will vary by design, but the general technique is the same.

All designs are stitched with matching thread, top and bobbin.

For other designs in the collection, use the applique templates as a guide to the dimensions of the various applique pieces.

Note: Some thread colors in instructions have been changed or digitally enhanced for better visibility.

STEP 1

- Hoop one layer of AquaMesh and one layer of BadgeMaster for all designs.

STEP 2

- Adhere two layers of StabilStick CutAway to the wrong side of all applique fabrics to provide stiffness to the finished structure.
- Cut the prepared applique fabrics 1/4"-1/2" larger than the templates.

STEP 3

- Load selected design into the machine.
- Example design is OC03801.
- Thread the machine per the thread chart.
- Place hoop on the machine.
- Stitch Machine Step 1, Placement Stitch.

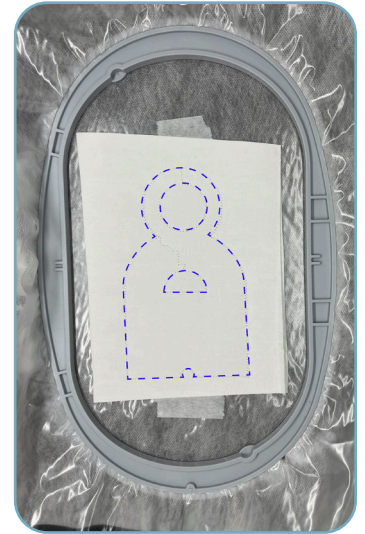

STEP 4

- Remove the hoop from the machine, but NOT the project from the hoop.
- Place the hoop on a flat surface.
- Place the prepared applique fabric, right side up, completely covering the placement stitch.
- Tape in place to secure.

STEP 5

- Return the hoop to the machine.
- Stitch Machine Step 2, Cut Line and Tackdown.

STEP 6

- Remove the hoop from the machine, but NOT the project from the hoop.
- Trim the excess fabric as close to the cut line as possible.
- Return the hoop to the machine.
- Note: If the outermost row of stitching (cut line) is accidentally cut, the inner stitches (tackdown) will hold the applique in place.
- Tip: If the OESD AquaMesh is cut or a hole is created while trimming the fabric, use OESD Expert Embroidery Tape WashAway as a patch.

STEP 7

- Return the hoop to the machine.
- Stitch Machine Step 3, Lace.
- When design is complete, remove the project from the hoop and trim the stabilizer 1/4" - 1/2" outside the design.

STEP 8

- Rinse each piece in warm running water until the design is only slightly sticky.
- Place right side down on a non-stick surface to dry. Parchment paper or a cooling rack work well to prevent curling. Dry completely.
- Once dry, press right side down on a Perfect Embroidery Press Cloth.

ASSEMBLY

STEP 9

- Using alligator clamps, attach the Front FSA (0C03801) to Side FSA (0C03802) together in a row by pulling the buttonettes through the corresponding eyelets. Use button clips to temporarily hold them in place.

STEP 10

- Attach sections Rear FSA (0C03803) to Side FSA (0C03802) together in a row by pulling the buttonettes through the corresponding eyelets.

ASSEMBLY

STEP 11

- Attach the right side of the Front FSA (0C03801) and the Side FSA (0C03802) to the Rear FSA (0C03803) and the Side FSA (0C03802).

STEP 12

- Stand joined pieces up and the right side of the Rear FSA (0C03803) and Side FSA (0C03802) to the left side of Front FSA (0C03801) and Side FSA (0C03802) making basic church structure. Set aside.

ASSEMBLY

STEP 13

- Using alligator clamps, attach sections Roof Left Side FSA (0C03804) to the Roof Right Side FSA (0C03805) together. Set aside.

STEP 14

- Fold the steeple into a box or square shape. Attach the two buttonettes to create the box.

STEP 15

- Using alligator clamps, attach the two buttonettes into the loops at the base of the cross. This will fold the roof into an angle.
- Attach the two corresponding buttonettes on the tip of the roof and to the back of the steeple.

STEP 16

- Attach the steeple to the roof by attaching the four buttonettes into the roof unit.

ASSEMBLY

STEP 17

- Attach the roof/steeple to the building using the buttonettes as shown.

STEP 18

- Attach structure to the Bottom Base FSA (0C03807).
- Use alligator clamps to connect the bottom buttonettes to the side walls.

FINISHING TOUCHES

- The church is complete. Enjoy.
- Add tea lights or pixie lights to create a glow.

ATTENTION

When printing this document, any page scaling or page fitting options in your print dialog box must be turned OFF or set to NONE so that your files will print out at their actual size. Images not printed at actual size will not function as intended.

TO SAVE PAPER

Only print the desired image by navigating to the image's page, go to File > Print and select "Current page" in the print dialog box. Repeat for each desired image.
