Pre-Cut Appliqué Instructions

1. Print out the necessary pages from the PDF of the appliqué pattern(s).
2. Mark the right side of the pattern pieces so you'll know which direction to lay the pattern on the fabric.
3. Lightly spray the wrong side of the pattern pieces with temporary adhesive spray and allow it to set for a few minutes.
4. Place the pattern pieces on the right side of the fabric and carefully cut them out. **PHOTO 1**
5. Sew the placement stitch on your hooped fabric. **PHOTO 2**
6. With the paper still stuck to the right side of the appliqué fabric, spray the wrong side of the fabric with temporary spray adhesive.
7. Place the fabric inside the placement stitch, so that it completely covers the placement stitch and then remove the paper pattern. **PHOTO 3**
8. Sew the tackdown. **PHOTO 4**
9. Sew the remainder of the design and repeat for any remaining pieces. **PHOTO 5**

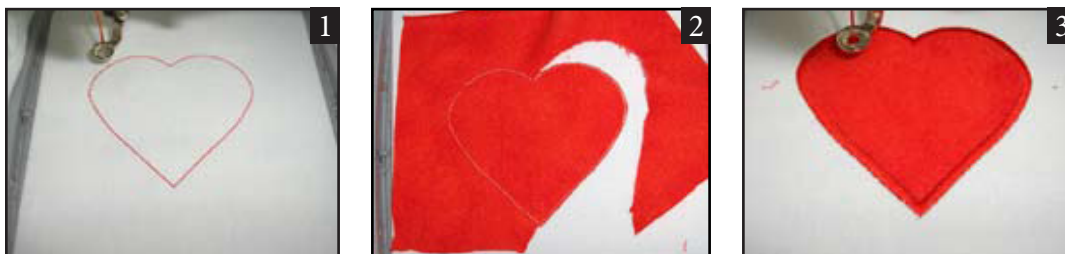

NOTE: The patterns are sized for the designs as they were made. If you resize the design, you will need to resize the pattern the same amount. You can print out the pattern at the normal size then copy it on a copy machine at the changed size. For example, resize the designs to 80%, resize the printed pattern to 80%.

TIP: When Printing the patterns, make sure that the “Fit to page” option is **UNCHECKED** in the Print Dialog Box. If this option is checked the printed patterns will not be actual size.

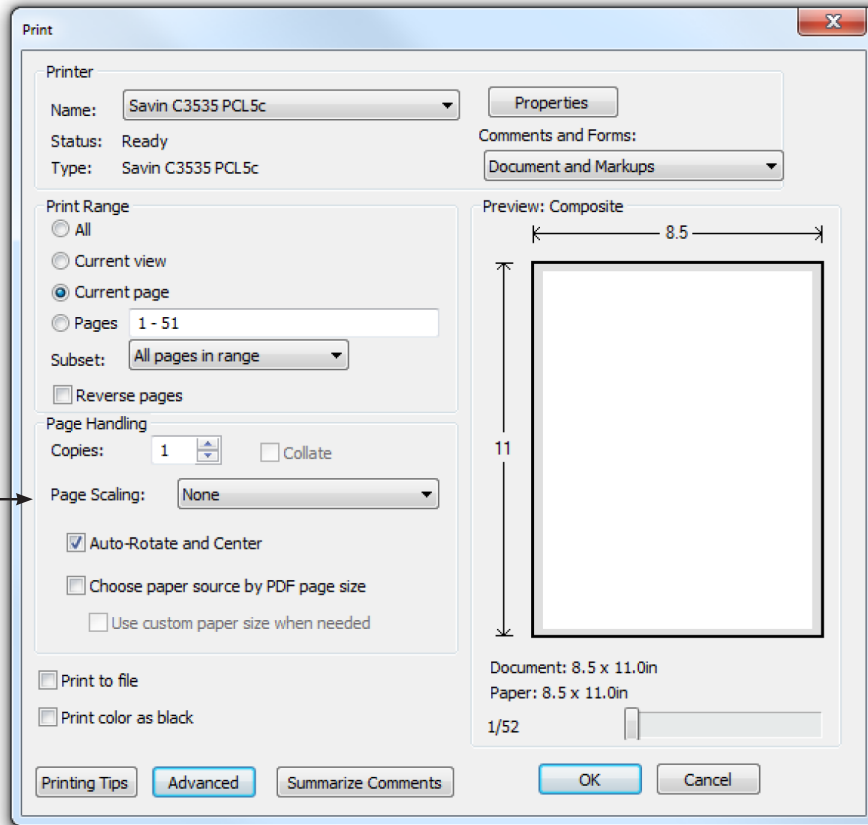

Cut-in-Place Appliqué Instructions

1. Hoop your fabric and backing.
2. Sew the placement stitch. **PHOTO 1**
3. Place a piece of appliqué fabric over the placement stitch so that it is completely covered.
4. Sew the cut line & tackdown.
5. Carefully cut away the excess appliqué fabric. **PHOTO 2**
6. Sew the remainder of the design and repeat for any remaining pieces. **PHOTO 3**

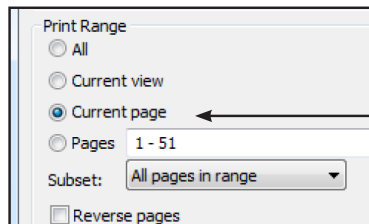

ATTENTION

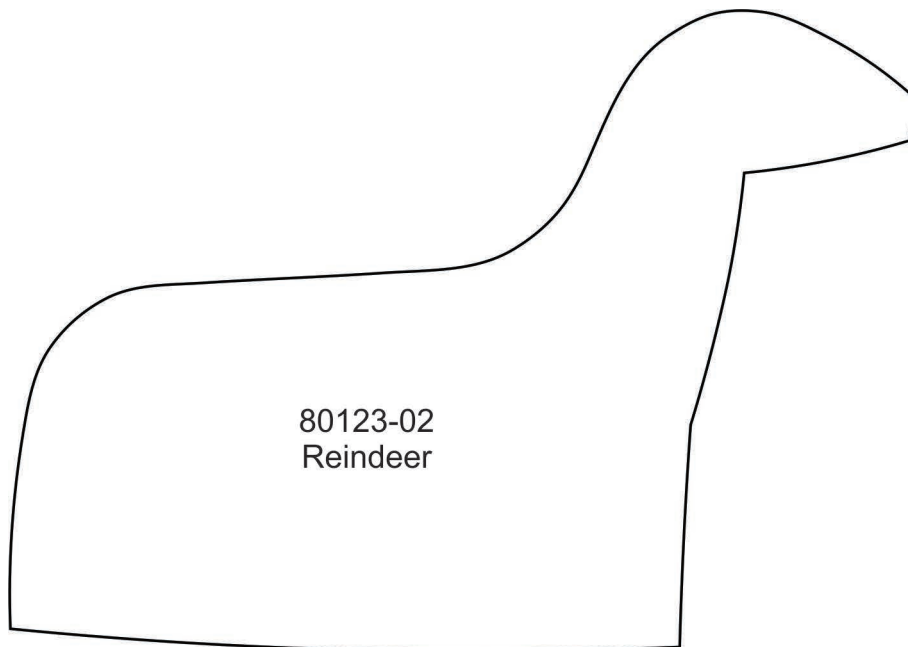

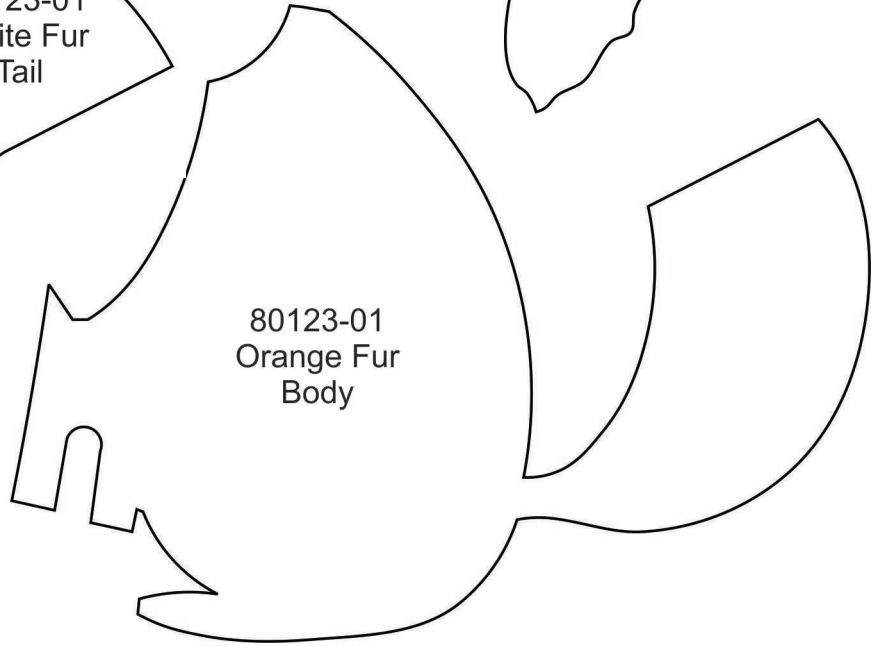

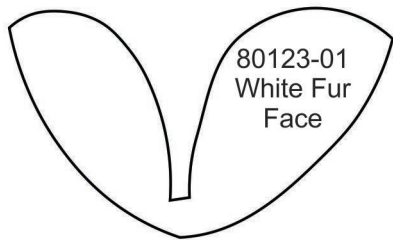

When printing this document, any page scaling or page fitting options in your print dialog box must be turned OFF or set to NONE so that your files will print out at their actual size. Images not printed at actual size will not function as intended.

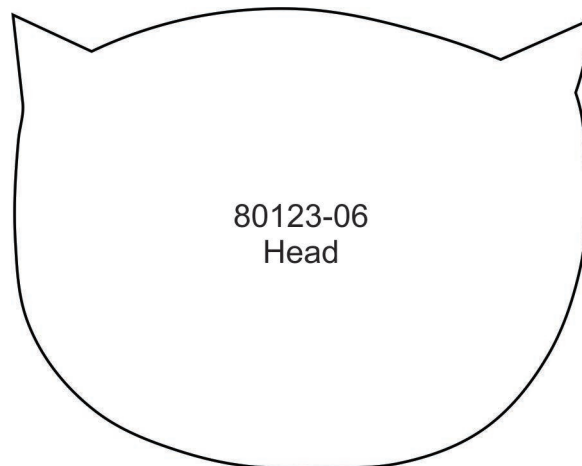

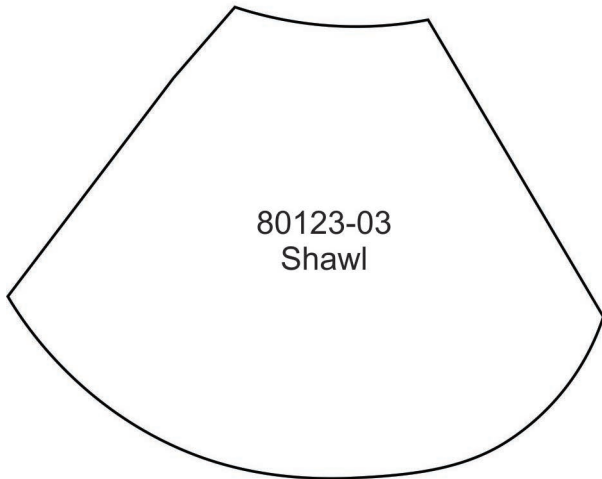

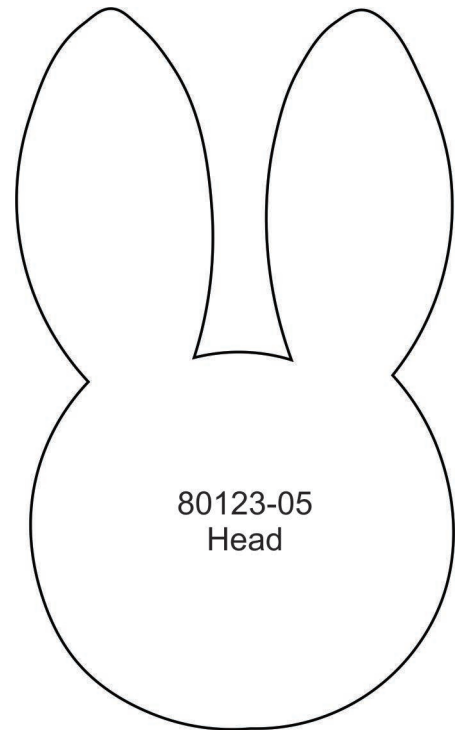

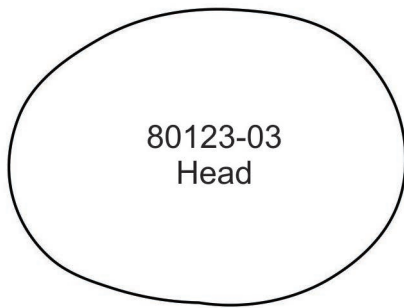

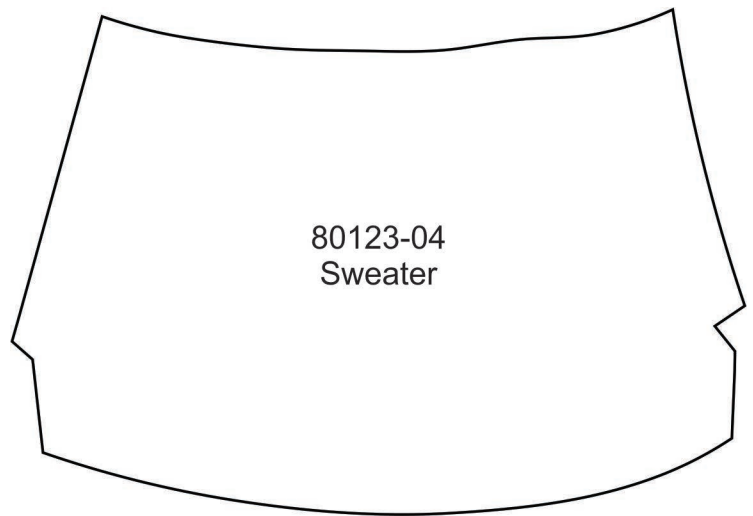

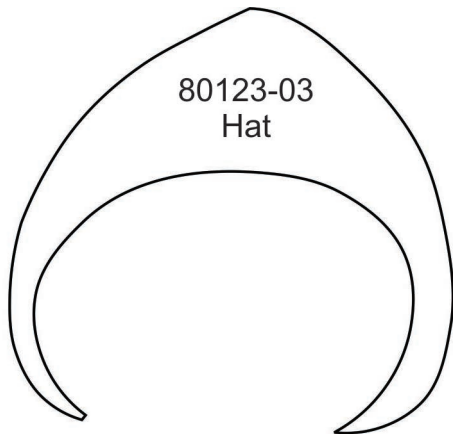

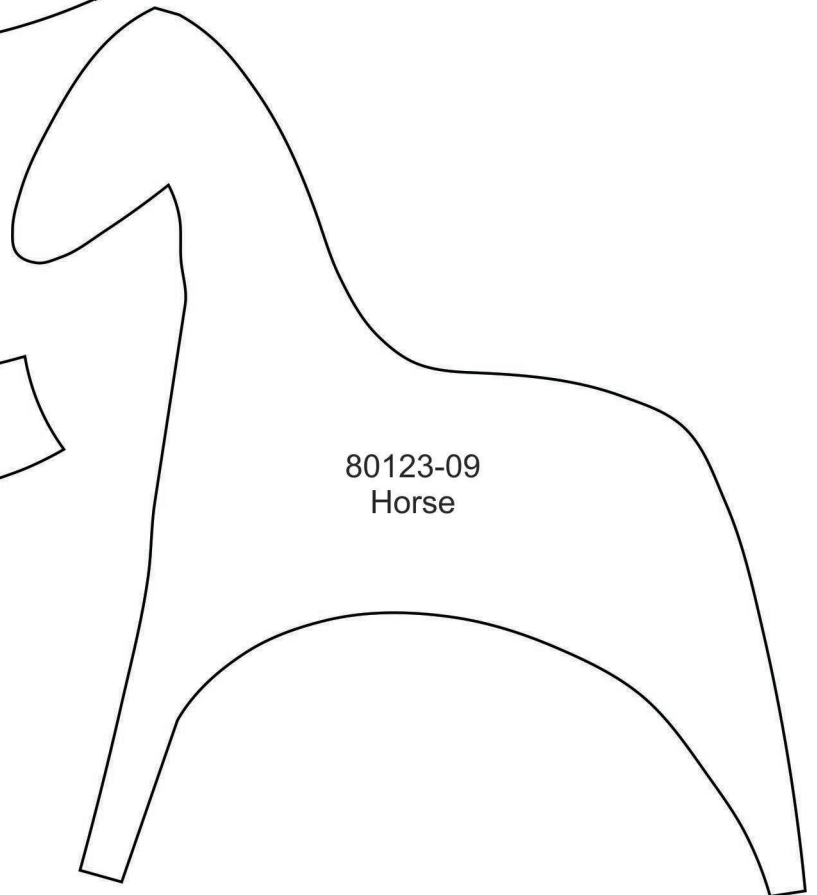

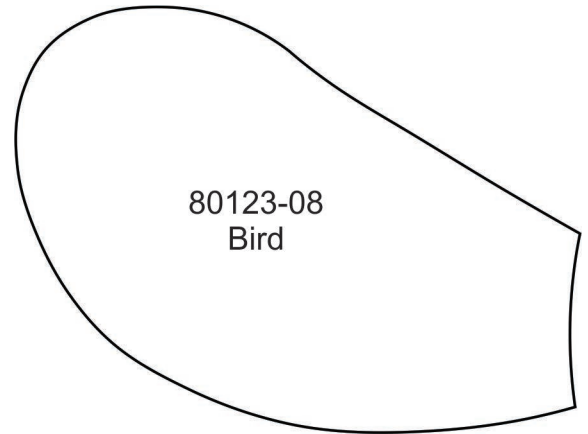

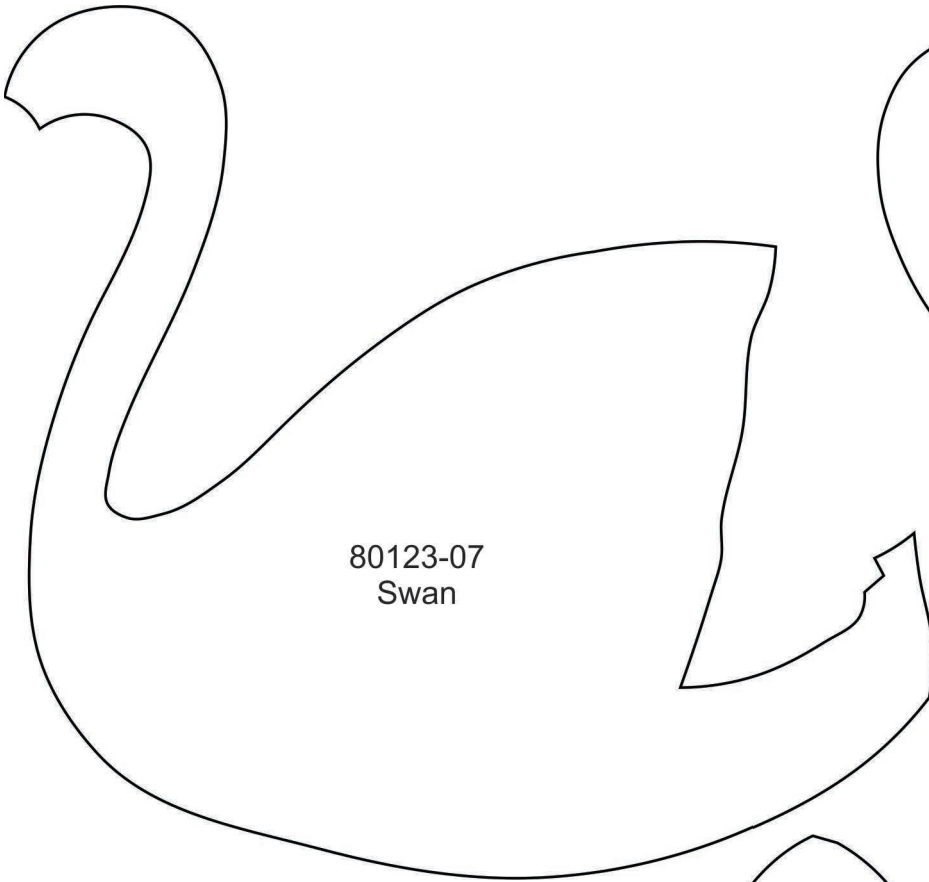

TO SAVE PAPER

Only print the desired image by navigating to the image's page, go to File > Print and select "Current page" in the print dialog box. Repeat for each desired image.

Embroidery

- Hoop one 10" x 14" cotton fabric with 1 layer OESD Heavy Weight TearAway stabilizer and 1 layer of Ultra Clean and Tear. Marry all layers with 505 Temporary Spray Adhesive.
- Stitch design #80123-09 Rocking Horse using the suggested Isacord thread colors.

Construction

- Mark 1 piece of the 10" x 10" cotton fabric using a quilting ruler and FriXion Pen to draw a 45 degree angle line. Space each line 1" apart. Mark opposing lines, again at a 45 degree angle and 1" apart.
- Layer 1 piece of cotton fabric 10" x 10" print side down. Top with 2 layers of InsulBright metallic shiny sides facing outwards. Place 1 piece of 10" x 10" cotton fabric right side up on top to make a quilt sandwich.
- Spray baste all the layers together. Quilt on the marked lines. Trim potholder bottom to 9" x 7 ½". **PHOTO 1**
- Quilt the potholder front in the same manner as the potholder bottom. Trim your embroidered 10" x 14" piece down to 8" x 8" (piece the top layer of the front to achieve the look of this potholder). Do not quilt through the embroidery.
- Trim potholder front to 7 ½" x 7 ½". **PHOTO 2**
- Fold your 1" x 14" cotton ruffle strip in half, lengthwise, and press.
- Set your sewing machine to its longest stitch length and sew a straight line ¼" from the long raw edge and leave at least 4" tails on each end. Knot the tails at one end. At the other end, gently tug on the top thread to create the ruffle.

- Pin the raw edge of the ruffle to the top edge of your quilted potholder front. Leave $\frac{1}{2}$ " of the ruffle *unruffled* at each end. **PHOTO 3**
- Sew the ruffle on $\frac{1}{4}$ " in from the edge.
- Pin your $1\frac{1}{2}$ " x $7\frac{1}{2}$ " binding strip atop the ruffle, print side facing down. Sew it on $\frac{1}{4}$ " from edge. **PHOTO 4**
Now press the binding up and over the raw edge to the backside.
- On the backside, fold the binding under a $\frac{1}{4}$ " and use Wonder Clips to secure. **PHOTO 5**
Topstitch from the front close to the edge catching the binding on the back.
- Place the potholder front on the potholder bottom, so that the bottom edges are aligned. Sew across the bottom and up the sides of the potholder front to prevent shifting.
- Mark a curve on all four corners using a curved object. Trim along the traced lines.

PHOTO 6

- Overcast or zigzag stitch the entire potholder outside edges. **PHOTO 7**
- On the backside of the potholder, at the top find the center. Pin the 4" cotton bias binding on each side of the center point to form a hanging loop, making sure the raw edges are aligned with the top edge. Sew the hanging loop ends about $\frac{1}{4}$ " from the edge of the top of the potholder to secure. **PHOTO 8**
- Press your bias cut binding in half lengthwise. Sew the binding on to the front of the potholder using a $\frac{1}{4}$ " seam allowance. Ease the binding around the curves. **PHOTO 9**
- Press the binding towards the back and secure with Wonder Clips. Hand stitch the binding to the back or top-stitching from the front. **PHOTO 10**

You now have the prettiest potholder ready for all your Christmas baking!

Enjoy!
