1753 Strawberries N' Cream	3901 Tropical Blue	6011 Tamarack

Floral Flourishes

Design stitch-outs are a great way to dress up just about everything! They are especially useful on ready-to-wear garments when hooping is difficult, or placement is tricky. Grab your stitch-outs, or stitch some up from Florals II by Laurel Burch (#80191). See how simple embellishing can be!

Stabilizer

- OESD Fuse and Seal CutAway
- OESD Expert Embroidery Tape TearAway (*optional*)

Fabric/Notions

- Assorted stitch-outs
- Scissors for close trimming
- OESD Perfect Embroidery Press Cloth
- Standard press cloth, or piece of cotton fabric
- Permanent fabric markers (*optional*)

INSTRUCTIONS

STEP 1

Select designs

Examine the stitch-outs for filled designs with no open places. Design 1 would work well. Design 2 would not well unless the flower stamens were trimmed away.

Design 1

Design 2

STEP 2

Trim designs

Use a good pair of detail scissors to trim away the excess fabric close to, but not catching, the outline stitching of the design. If the fabric is a different color than the edge of the design, or the fabric it will be attached to, use a permanent marker or permanent fabric marker (those won't run) to color the exposed fabric on the edge of the embroidery.

INSTRUCTIONS

STEP 3

Fuse and Seal

Fuse and Seal is a double-sided fusible that has a paper backing. The fuse is permanent and may be laundered without detaching from the fabric. Follow the instructions on the back of the label for perfect results!

STEP 4

Prep designs for placement

Once the Fuse and Seal has been applied to the back of the embroidery, remove the paper to expose a shiny fusible surface.

STEP 5

Select garment

Choose a garment (hat, onesie, bag, etc.), that would benefit from embellishment, such as this tired denim jacket.

INSTRUCTIONS

STEP 6

Audition designs

With your garment on a flat, ironing surface, audition the designs and their placement until satisfied with the look.

Note: It doesn't matter if the placement is on a seam or the tip of a corner since it doesn't require hooping!

STEP 7

Attach to garment

Cover the designs with a traditional press cloth or piece of cotton fabric to protect the threads. Press with a medium iron until the embroidery sticks to the fabric. It just needs to be held in place, not completely fused.

Note: This step may be eliminated if using Expert Embroidery TearAway Tape. Before taping, test tape on an inside seam of the fabric to make sure no residue is left when heated by the iron.

STEP 8

Final fusing

Turn garment to wrong side and fuse the embroidery patch from the back. This way the heat of the iron can reach the glue to fuse it permanently in place. Let cool and check to make sure all parts of the design are completely adhered to the fabric.

INSTRUCTIONS

STEP 9

Ta-da! A fresh, new look for a tired, old jacket!
No sewing required!

If you can iron it, you can embellish it with beautiful embroidery designs.
