INSTRUCTIONS

OeSD™

STEP 1

Gather supplies. Remove all stickers from folder or notebook.
Wind bobbin with matching thread.

STEP 2

Select design. Choose one of the word designs or one without a lot of fill stitches. Once you have chosen your design print it onto a StabilStick Template Sheet.

STEP 3

Position template onto folder in desired position.

INSTRUCTIONS

STEP 4

Hoop AquaMesh Plus stabilizer with paper side up. Use straight pin to score and peel back paper lining. Place folder onto stabilizer and finger press to secure.

STEP 5

Load design onto machine and center needle over template or markings to ensure accurate placement. **Remove template** before stitching!

STEP 6

Using warm water rinse the stabilizer off the back of folder. If you used a poly notebook containing paper, wrap with Glad Press'n Seal first to prevent the paper from getting wet when removing the stabilizer.
