Stabilizers

- Heavy Weight TearAway 15" 2 rolls
- Fusible Woven 15" 1 roll

Fabrics/Textiles

- 3 ½ yd light blue cotton fabric
- Note - These yardages assume that stabilizer and fabrics will be cut 10" x 15" for hooping. More or less fabric and/or stabilizer may be needed depending on the size hoop used or if more than one tile is stitched per hooping.
- Batting 30" x 38"
- Backing 1 yard
- Binding 1/3 yard, cut 4 strips width of fabric x 2 ½", stitch together at 45° angle to create one long strip

Notions & Tools

- 505 Temporary Spray Adhesive
- OESD Perfect Point and Press Tool
- OESD Perfect Embroidery Press Cloth
- Ruler, rotary cutter, mat
- OESD bobbin thread
- Water soluble thread or invisible thread (optional)
- Contrasting bobbin thread (seam stitch only, may be different colors)
- Fabric marking pen or pencil
- Organ Needle Embroidery sharp 80/12
- Open toe sewing foot (recommended)
- Edge stitch sewing foot (recommended)

Isacord Thread Colors

- As per thread chart

DIAGRAM

COMPLETED TILING
SCENE IS 26" X 34"

It is a violation of Copyright law to make and distribute copies of electronic designs or artwork.

STEP 1

- Embroider one of each design files 80327-01 through 80327-32.
- For each hooping, cut the following 10" x 15", or large enough to hoop:
 - 1 layer of Fusible Woven
 - 2 layers of Heavy Weight TearAway
 - 1 layer of light blue fabric
- Note: To economize on fabric, cut the fabric 15" wide (or the height of the hoop + 2") x width of the fabric. Apply the stabilizers. Move the hoop down the length of the fabric as each block is stitched.

STEP 2

- Apply Fusible Woven to the back of the background fabric, per the product directions.
- Apply two layers of Heavy Weight TearAway to the back of the background fabric with temporary spray adhesive.
- Hoop fabric and stabilizer

STEP 3

- For each tile, stitch the colors per the thread chart.
- The last color change in each block is called "Seam". This line is the guide when trimming and stitching the tiles together and needs to be highly visible on the back side of the tile. Stitch the top color in a thread that blends with the fabric, invisible thread, or water-soluble thread. For the bobbin, use a color which contrasts sharply with the back of the tile.
- Note: Since the bobbin color doesn't have to be the same on each tile, this is a great time to use up those partially wound bobbins.

ASSEMBLY

STEP 1

- After embroidery is complete, press each block face down on a Perfect Embroidery Press Cloth.
- Write the number of the block on the back so it is easily identified during construction! Use a pen or pencil that will not bleed through to the front side.

STEP 2

- At the cutting mat, place the block right side down. Identify the “seam” stitch line. Trim 1/2” inch out from the seam stitch line, on all four sides, to create the seam allowance. Accuracy here will greatly facilitate the construction of the scene.

ASSEMBLY

STEP 3

- Arrange the tiles in the layout for the scene.

STEP 4

- Stitch two adjacent tiles, right sides together; the bottom of one tile to the top of the one below it. Align the matching edges and stitch just inside of the seam line.
- Repeat until all the blocks have been paired.

ASSEMBLY

STEP 5

- Press each seam open. If the seams do not come apart easily, press both seam allowances to one side using steam and a cotton or linen setting. While warm, open the seam allowance with the large ball of the Expert Point and Press Tool. Press again and allow to cool. Do not remove excess stabilizer from inside the seam line.

STEP 6

- Layout the pressed tiles.
- Pair the connected tiles with the connected tiles to the adjacent pair.

STEP 7

- Align the center seams.
- Stitch just inside the seam line connecting all four blocks. Press seams open. If the seams or major points of matching do not match up, try stitching that part first. Check for accuracy. Then stitch across the tiles.

STEP 8

- Finish connecting the block of tiles to the ones below. Press and remove stabilizer from the seam allowances. Then continue the stitching and pressing process until the scene is complete.

ASSEMBLY

STEP 9

- Cut batting and backing at least 2" larger than the tiling scene.
- Layer the backing (right side down), batting, and center the tiling scene (right side up).
- Spray baste all 3 layers with temporary spray adhesive.

STEP 10

- Load the sewing machine with a thread color that blends with the scene or invisible thread.
- Stitch in the ditch where the tiles connect to attach the batting and backing to the top. For best results use a walking foot or a dual feed foot.

STEP 11

- Trim 1/4" from the edge of the top through all three layers to square up the finished scene.
- Zigzag over the raw edges to join the edges together.
- Bind as desired.
