COLLECTION SUPPLIES

Stabilizers

- OESD Applique Fuse and Fix
- OESD Medium Weight TearAway
- OESD Heat2Go or OESD StitchH2O

Fabrics/Textiles

- Fabrics Used in the Example
 - Cupcake Fabric: 4" x 3" cotton
 - Icing Fabric: 4" x 4" cotton
 - Fabrics and sizes vary per design
- Note: Fabric sizes are estimates and may result in overage.

Notions & Tools

- OESD Expert Embroidery Tape TearAway
- OESD Perfect Embroidery Press Cloth
- Embroidery Needle Sharp 75/11

Isacord Thread Colors

- Isacord Thread Colors
- Per thread chart

General Instructions

The applique instructions, included in the collection, are general instructions for pre-cut applique. For demonstration purposes, a sample design that best demonstrates the the general pre-cut applique technique is shown.

Fabric and thread requirements will vary by design, but the general technique is the same. Consult the templates at the end of the instructions for specific size requirements.

Note: Some thread colors in instructions have been changed or digitally enhanced for better visibility.

Prep

- Print the mirrored version of the required templates (100% or 1:1 ratio) onto the paper side of Applique Fuse and Fix.
- Roughly cut out each template about a 1/4" outside of the line.

STEP 1

- Fuse the trimmed templates to the back of the appropriate applique fabric with the paper side of the printed template up.
- For a secure fuse, hold the iron on the template for 10-15 seconds.

STEP 2

- Trim the prepared appliques precisely on the outer edge of the black outline. Set aside.

STEP 3

- Hoop the desired stabilizer and fabric for the project, the example used OESD TearAway Medium stabilizer and cotton fabric. Spray baste base fabric to medium tearaway stabilizer and hoop.
- Note: Follow specific project instructions, when available.

STEP 4

- Load the selected design into the machine.
- Design in the example is 12611-08 from design collection #12611 Retro Mod Appliques.
- Thread the machine per the thread chart.
- Stitch Machine Step 1, The Placement Stitch.

STEP 5

- Remove the hoop from the machine, but NOT the project from the hoop.
- Lay on a flat surface.
- Remove the paper from the back of the prepared applique to expose the sticky surface.
- Position the applique, fabric side up, within the placement stitch, matching the cut edges with the stitching line.
- Finger press to secure.

STEP 6

- Stitch Machine Step 2, The Cut Line and Tackdown.
- Note: It is acceptable for the outer line of stitching to barely catch or be right next to the edge of the applique fabric since that is the same size as the template. The second row of stitching will catch it.

STEP 7

- Stitch Machine Step 3, Icing Placement Stitch.

STEP 8

- If necessary, remove the hoop from the machine, but NOT the project from the hoop.
- Lay the hoop on a flat surface.
- Remove the paper from the back of the prepared applique to expose the sticky surface.
- Position the applique, fabric side up, within the placement stitch, matching the cut edges with the stitching line.
- Finger press to secure.

STEP 9

- Stitch Machine Step 4, Icing Cut Line & Tackdown.

STEP 10

- Stitch Machine Step 5, Cupcake Cover Stitch.
- Tip: For a better quality cover stitch, apply StitchH2O or Heat2Go, before the cover stitch to prevent the stitches from sinking into the fabric. Tape in place to secure.

STEP 11

- Stitch Machine Step 6, Icing Cover Stitch.

STEP 12

- Continue stitching through the design following the thread chart.

STEP 13

- Remove the project from the hoop and any excess stabilizer from the project.

EMBROIDERY

STEP 14

- Press face down on a Perfect Embroidery Press Cloth.

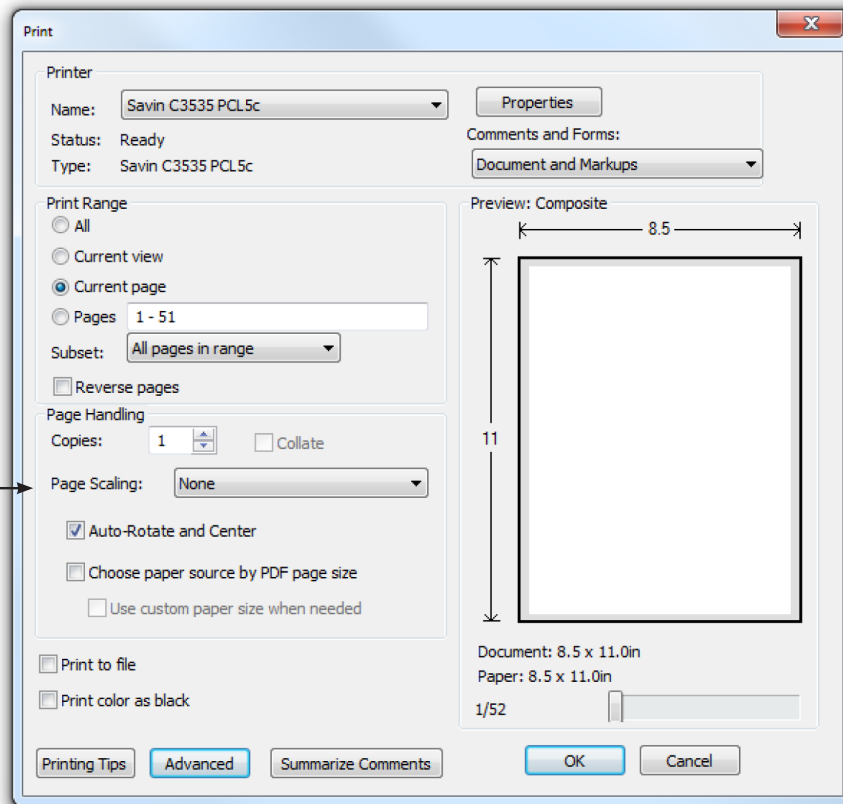

STEP 15

- The applique is completed. Enjoy.

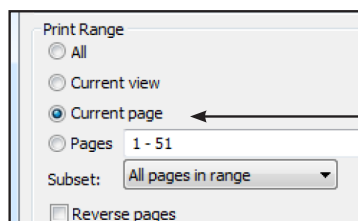

ATTENTION

When printing this document, any page scaling or page fitting options in your print dialog box must be turned OFF or set to NONE so that your files will print out at their actual size. Images not printed at actual size will not function as intended.

TO SAVE PAPER

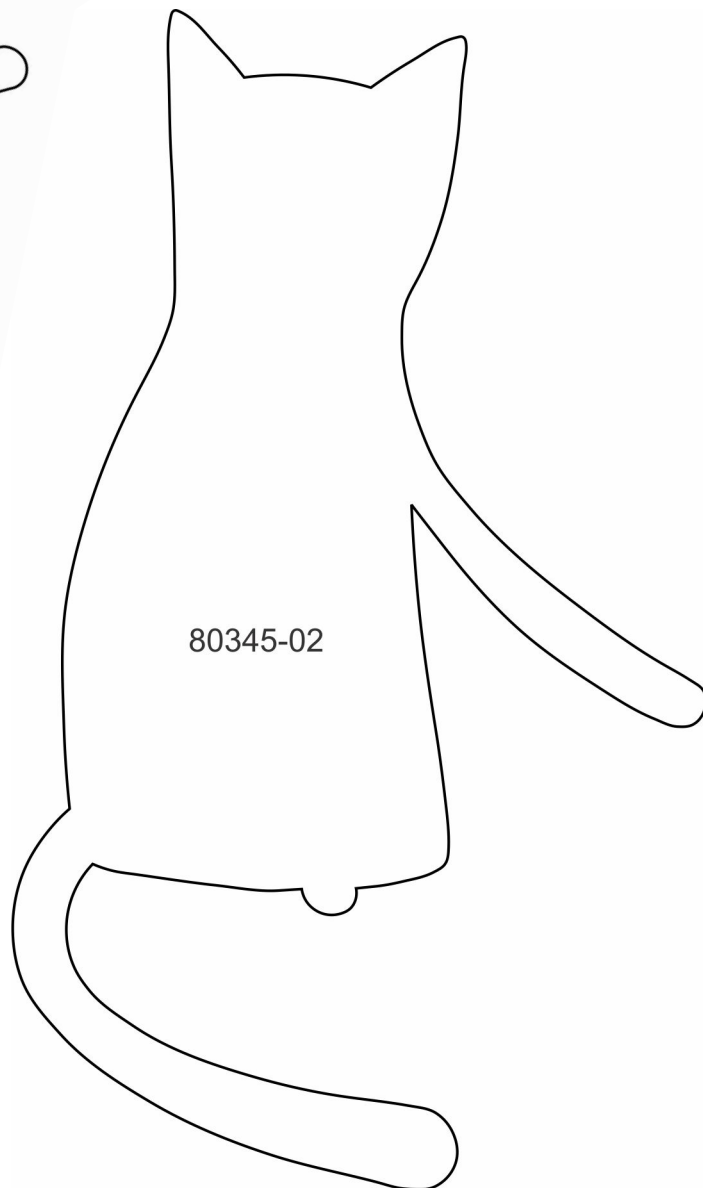

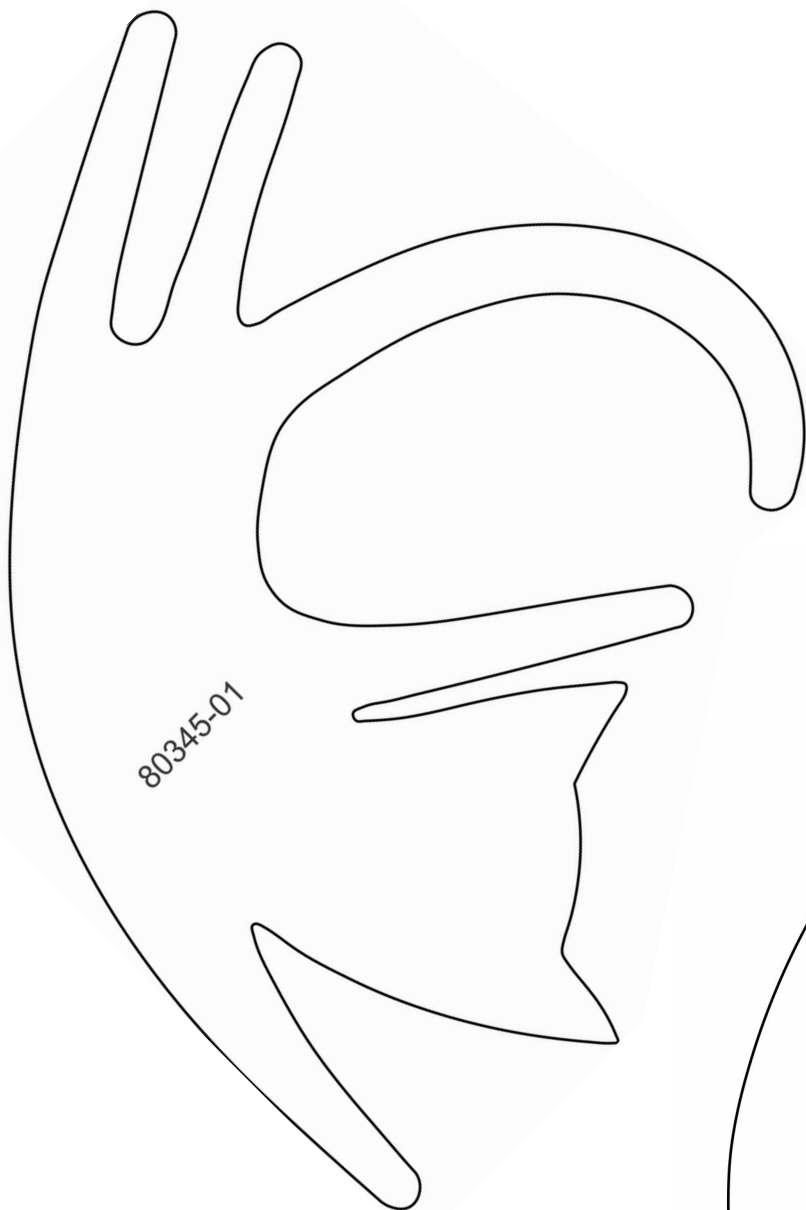

Only print the desired image by navigating to the image's page, go to File > Print and select "Current page" in the print dialog box. Repeat for each desired image.
