SUMMARY

Completed Tiling Scene Size: 33 1/2" H x 26" W

Largest Tile Size: 7.12in x 4.79in

General Instructions

Embroider one of each design file 80394-01 through 80394-32.

Design 80394-01 is shown in the instructions.

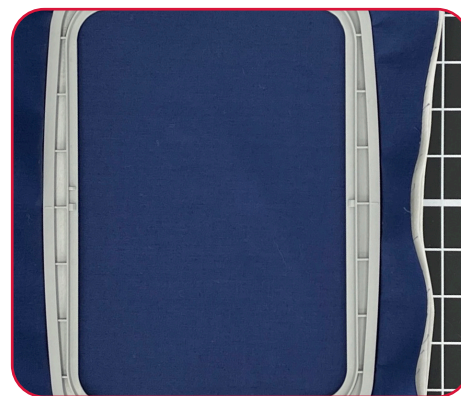

For each hooping, cut the following 10" x 15", or large enough to hoop:

- 1 layer of background fabric
- 1 layer of OESD Fusible Woven, black
- 2 layers of OESD Heavy Weight TearAway

Note: To economize on fabric, cut the fabric 15" wide (or the height of the hoop + 2") x the width of the fabric. Apply the stabilizers. Move the hoop down the length of the fabric as each tile is stitched. Leave a minimum of 1 1/2" between the tiles. This is called chain hooping.

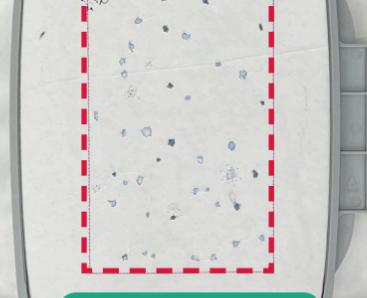

Step 1

- Apply black OESD Fusible Woven to the back of the background fabric, per the product directions.
- Apply two layer of OESD Heavy Weight TearAway to the wrong side of the background fabric with 505 Temporary Spray Adhesive.
- Using the OESD Grippy Grid, hoop fabric and stabilizer.

ASSEMBLY

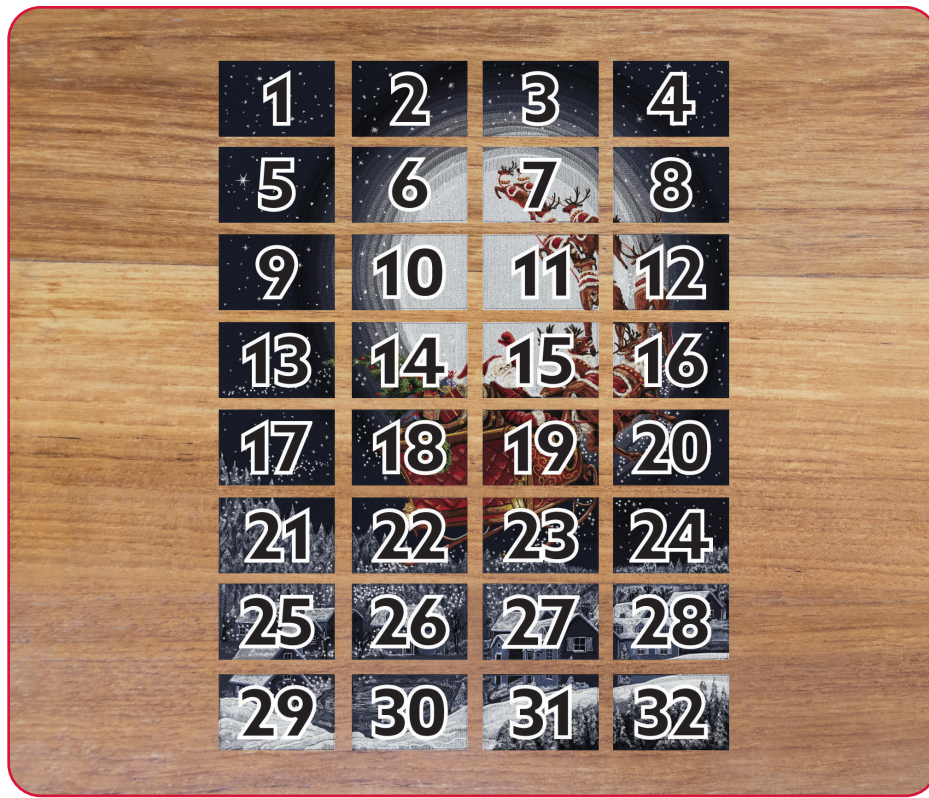

□ Step 4

- At the cutting mat, place the tile right side down.
- Identify the "seam" stitch line. Trim 1/2" out from the seam stitch line, on all four sides, to create the seam allowance.
- **Note: Accuracy here will significantly facilitate the construction of the scene.**

□ Step 5

- Arrange the tiles in the layout for the scene.

The image shows two 4x4 grids of numbers. The top grid contains numbers 1 through 16, and the bottom grid contains numbers 17 through 32. A yellow arrow points from the number 15 in the top grid to the number 18 in the bottom grid. The background of the numbers is a dark, starry space with a large, bright, circular nebula or galaxy in the center. The numbers are white with black outlines. The entire image is set against a light brown wooden background.

A quilt panel depicting Santa Claus in his sleigh, pulled by reindeer, flying over a snowy village at night under a full moon. The panel is framed by a dark blue border and a white inner border.

ASSEMBLY

□ Step 12

- Bind as desired.
