MATERIALS

Stabilizer

- OESD Polymesh CutAway Black Stabilizer
- OESD StitchH2O (depending on your fabric)
- OESD StabilStick TearAway (cut into 8.5"x11" sheets)

Fabric/Notions

- Basic embroidery supplies (including thread)
- OESD Perfect Embroidery Press Cloth (optional)

Isacord Thread Colors

0020 Black
0310 Yellow
0800 Golden Rod
1030 Passion Fruit
1102 Pumpkin

1335 Dark Rust
1701 Red Berry
1704 Candy Apple
1753 Strawberries N' Cream
1805 Strawberry

1913 Cherry
2101 Country Red
5740 Mint
5832 Celery
5934 Moss Green

INSTRUCTIONS

STEP 1

Prepare garment. Iron skirt and pick an embroidery design. Print design on rough side of prepared StabilStick sheets, be sure to mirror your motif if doing a symmetrical design. Fuse or baste stabilizer into place. Rough-cut designs from StabilStick and stick it on the desired area for embroidering.

STEP 2

Embroider garment. Hoop skirt with stabilizer, position the hoop so that the needle aligns with the center of the crosshair on the printed design template, rotate if necessary. REMOVE STABILSTICK TEMPLATE before stitching, add StitchH2O to the top of hoop/fabric to prevent snags/pulling of fabric threads (you can use tape to adhere topper to fabric). Be sure to move any loose pieces of skirt out of the way of embroidery module/unit so it doesn't get caught in the stitching. Embroider design(s). Tear away the topper, it is water-soluble, so remaining bits can be removed with water. Remove stabilizer. Don't forget to use OESD's Perfect Embroidery Press Cloth to enhance your design!

TIPS

Stabilstick is tacky and can be used several times without losing adhesive qualities, feel free to move designs around until you are satisfied with the placement.

If you are embroidering a delicate fabric and are concerned that Stabilstick will pull threads/distort your garment, make it less sticky by adhering it to strong fabric like denim/canvas, carpet, etc. before placing it on your garment.

Always remove StabilStick before beginning embroidery.
