PROJECT SUPPLIES

Stabilizer

- OESD Ultra Clean and Tear Plus
- 1 Roll of 20" Fusible Woven

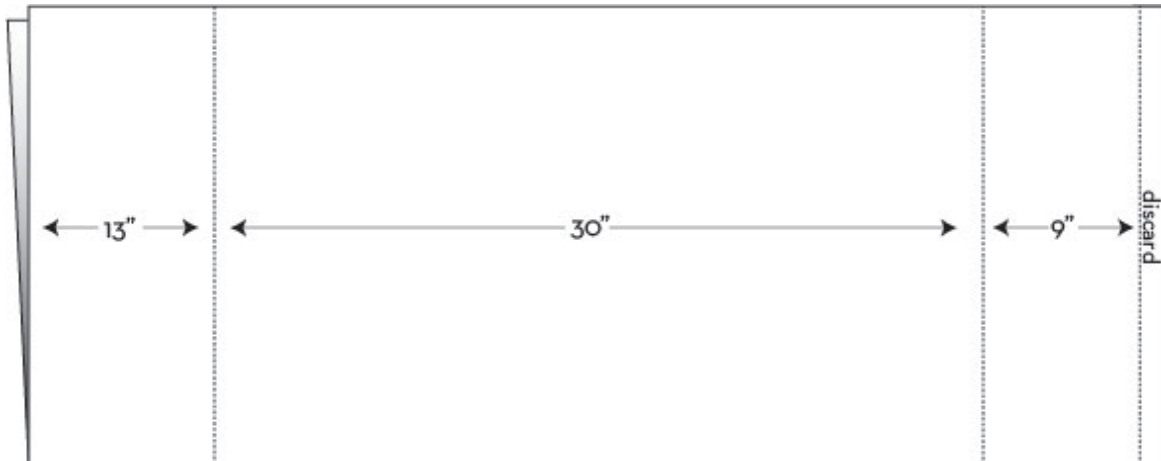

Supplies

- OESD Perfect Embroidery Press Cloth
- 30" Zipper. Ours was made from Zippers by the Yard from ByAnnie, we also love Sallie Tomato's faux metallic versions.
- 1/8 yard of accent fabric for flange strips and loop
- 1.5 yards white fabric (We used Essex Linen by Robert Kaufman)
- Removable fabric marker
- Recommended hoop sizes: Midi, Maxi and Jumbo

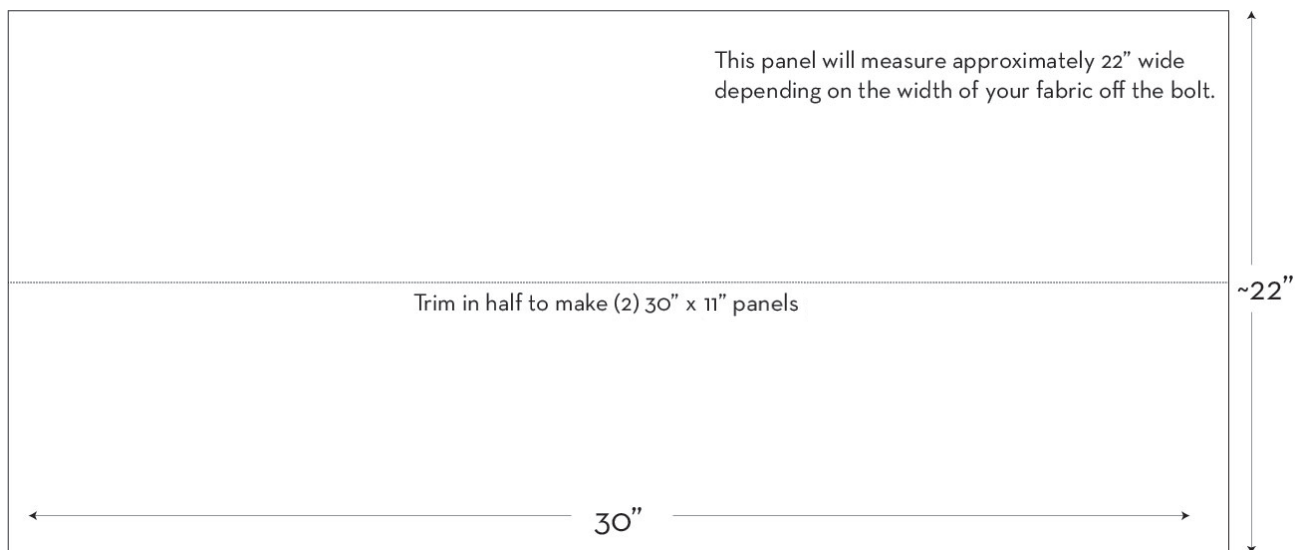

CUTTING INFORMATION

White Fabric Cut

- (1) 13" x WOF strip; Cut this strip in half on the fold. Trim each half to 20.5" in width. These are the top panels.
- (1) 9" x WOF strip; Cut this strip in half on the fold. Trim each half to 20.5" in width. These are the bottom panels.
- (1) 30" x WOF strip; Cut this strip in half on the fold.
- **Trim only 1 to 20.5" This is the back panel.**
- Cut the remaining 30" piece in half as shown below. You will now have (2) ~11" x 30" pieces. These are the zipper panel.

CUTTING INFORMATION

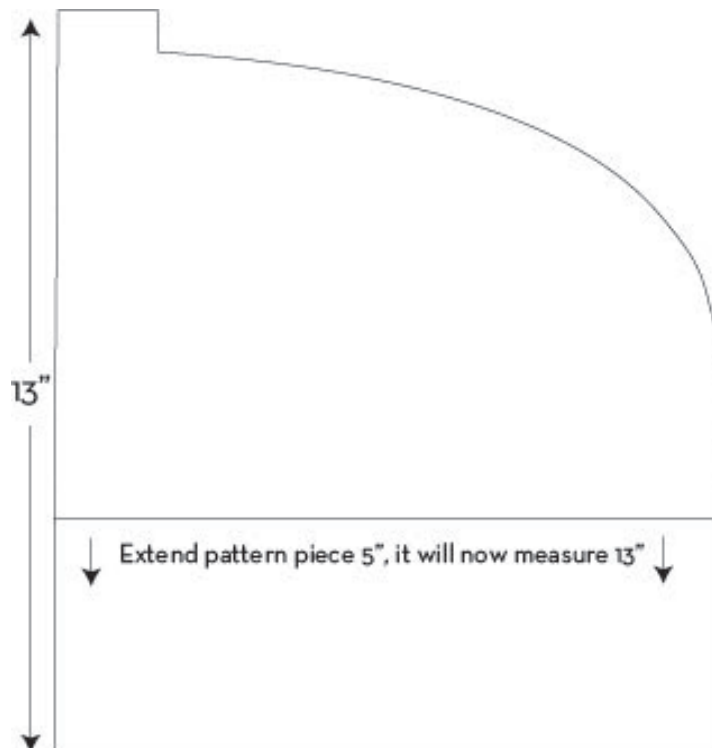

Accent Fabric Cut

- 3 – 1" x WOF Strips
- Cut these strips in half on the fold. You will now have (6) 1" x ~22" strips

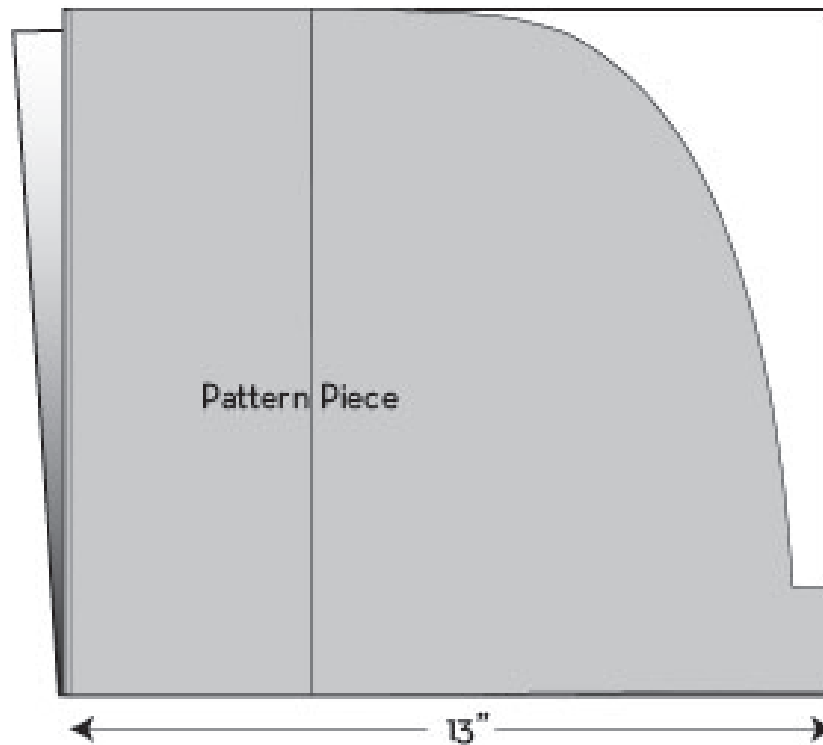

20" Roll of Fusible Woven Cut

- 2) 13" x 20" pieces (for top panel)
- 2) 11" x 30" pieces (for zipper panels)
- 2) 9" x 20" pieces (for bottom panels)
- 1) 30" x 20" piece (for pack panel)
- Press the Fusible Woven to the back of the corresponding white fabric. (The Fusible Woven pieces will be slightly smaller than the 20.5" white fabric pieces. In these cases, center the Fusible Woven on the fabric and fuse into place.)
- Print the included pattern piece (located on last page), be sure to select "do not scale" in the printer options. (Measure the 1" square on the pattern to ensure proper print size.)
- Extend the pattern piece down 5" as shown.

20" Roll of Fusible Woven Cut Continued

- Fold the (2) 13" x 20.5" Pieces of fabric in half, place the pattern on the fold as shown, trace and cut the pattern pieces. These are the top panels.

EMBROIDERY

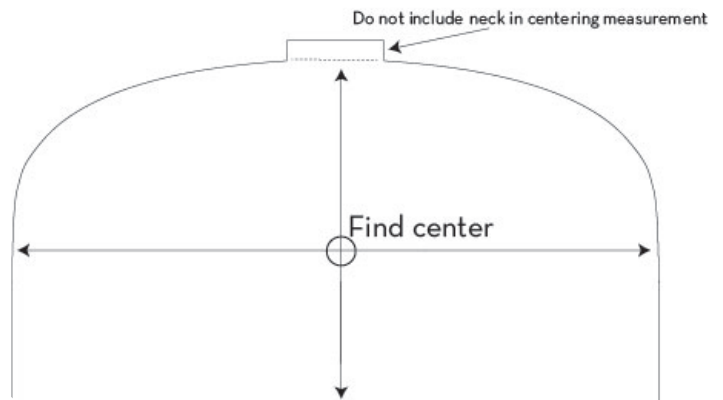

- The Flower Garden collection offers so many beautiful possibilities, so feel free to customize as desired. These are the designs chosen for the sample:
- Top Flower (Peony Single) Design #82029-27
- Tulips on Zipper Panel (Tulips Large) Design #82029-6
- Bottom Border (Pansies) Design #82029-19 (design is used twice to create the border)

STEP 1 Top Panel

- Mark the center of one top panel body as shown using a removable marking utensil, do not include the "neck" in the measurements.

STEP 2

- Hoop a piece of Ultra Clean and Tear Plus with the shiny (paper) side up. Using a pin, score lightly around the inside of the hoop and across the center. Remove the paper covering to expose the sticky surface of the stabilizer.

EMBROIDERY

STEP 3

- Place the marked top panel over the stabilizer and smooth into place. Take care to center the panel in the hoop.

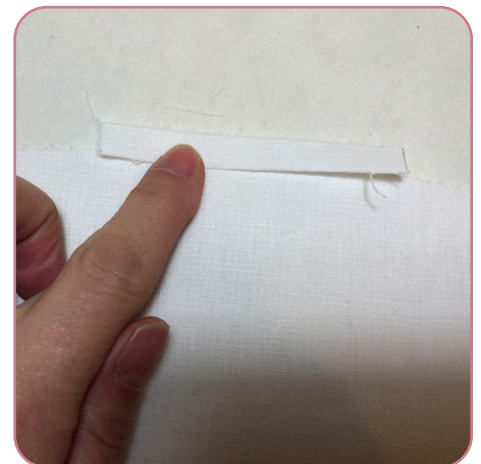

STEP 4

- Load file 82029-27 into the machine. Use available positioning tools to center the design on the marked fabric panel. Rotate the design as needed to ensure the flower is stitched facing the correct direction.
- Embroider the design. Add a monogram using the machine lettering. This step is optional, but adds a custom touch.
- Once embroidery is complete, remove from hoop, then spritz the back of the stabilizer with water and gently tear away the excess stabilizer. Ultra Clean and Tear Plus tears easily away when dampened. Any remaining fibers will break down with washing.
- Place the embroidery facedown onto a OESD Perfect Embroidery Press Cloth, and press to remove any puckers or wrinkles.

STEP 5

- Fold the "neck" of the top panel down as shown ¼".

STEP 6

- Then fold again.

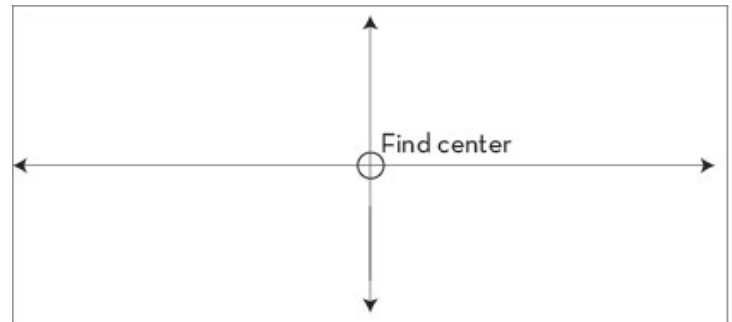

STEP 7

- The neck should now be level with the top of the panel.
- Topstitch in place.
- Repeat with the second top panel.
- Set both panels aside.

STEP 8 Bottom Panel

- Find the center of one of the 20.5" x 9" panels and mark with a removable fabric marker.

STEP 9

- Hoop a piece of Ultra Clean and Tear Plus with the shiny (paper) side up. Using a pin, score lightly around the inside of the hoop and across the center. Remove the paper covering to expose the sticky surface of the stabilizer.

STEP 10

- Place the marked bottom panel over the stabilizer and smooth into place. Take care to center the panel in the hoop.
- Load design #82029-19. This design is stitched twice, side by side, to create a border. If the hoop isn't large enough to stitch both in one hooping, stitch in two separate hoopings.
- Use the positioning tools to center the design center over the marked panel. Take care to rotate the design as needed based on the position of the panel in the hoop.
- Embroider the design.

STEP 11

- Once embroidery is complete, remove from hoop, then spritz the back of the stabilizer with water and gently tear away the excess stabilizer. Ultra Clean and Tear Plus tears easily away when dampened. Any remaining fibers will break down with washing.
- Place the embroidery facedown onto a OESD Perfect Embroidery Press Cloth, and press to remove any puckers or wrinkles.
- Set the bottom panel aside.

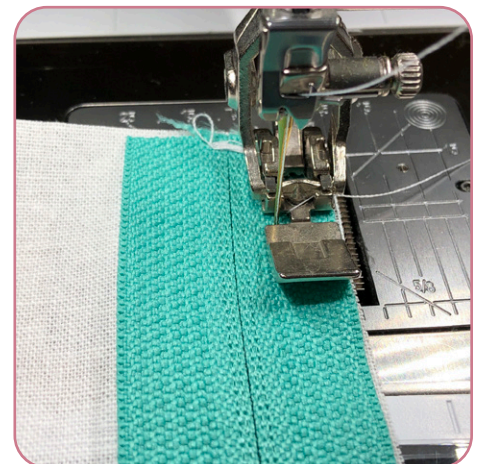

STEP 12 Zipper Panel

- It is easier to place the designs after the zipper is inserted. To insert the 30" zipper, place it face down onto the right side of one of the 30" zipper panels, lining up the raw edges. Pin as shown down the entire length of the zipper.

STEP 13

- Using a zipper foot, stitch down the length of the panel along the edge of the zipper.

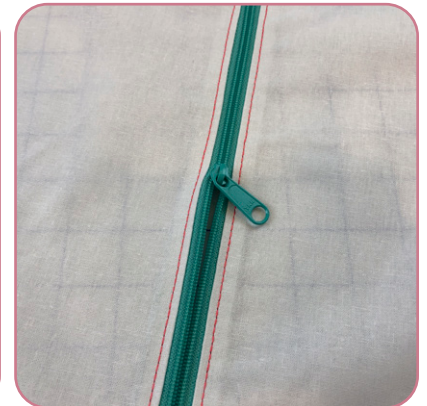

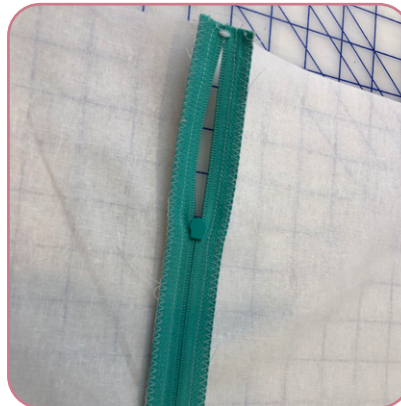

STEP 14

- Repeat for second panel, on the opposite side of zipper.
- Once the zipper is inserted, use a zig-zag stitch to encase the raw edges of the fabric and zipper as shown.

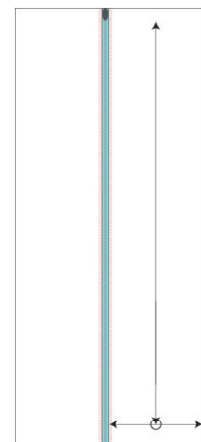

STEP 15

- Press the zipper panels away from the zipper and topstitch in place.

STEP 16

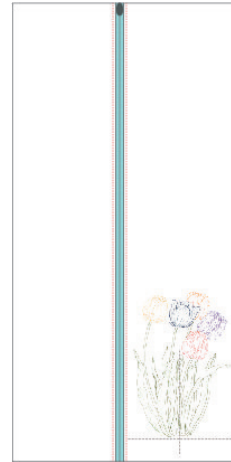

- Trim this panel to measure 20.5" x 30" if needed.
- Mark one side of the assembled zipper panel as shown for embroidery.

Mark center and 2" up from bottom

STEP 17

- Hoop a piece of Ultra Clean and Tear Plus with the shiny (paper) side up. Using a pin, score lightly around the inside of the hoop and across the center. Remove the paper covering to expose the sticky surface of the stabilizer.
- Place the marked panel in the hoop with the marked crosshair at the base of the design as shown.

STEP 18

- Once embroidery is complete, remove from hoop, then spritz the back of the stabilizer with water and gently tear away the excess stabilizer. Ultra Clean and Tear Plus tears easily away when dampened. Any remaining fibers will break down with washing.
- Place the embroidery facedown onto a OESD Perfect Embroidery Press Cloth, and press to remove any puckers or wrinkles.

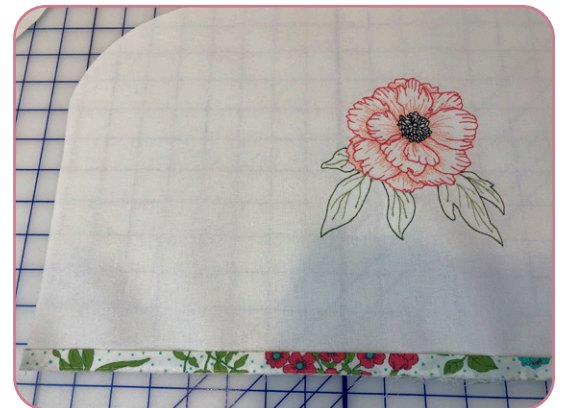

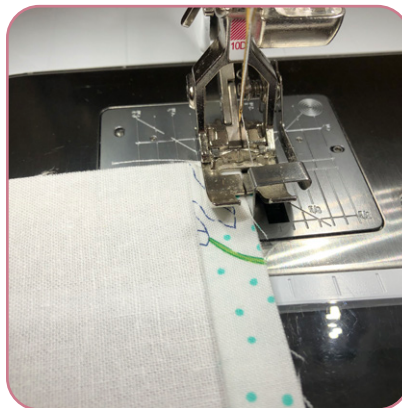

STEP 19 Accent Flanges

- Sub cut the (6) 1" x ~22" strips into:
 - (4) 1" x 20.5" strips
 - (1) 1" x 6" strip
- Fold the 20.5" strips in half to create (4) ½" x 20.5" pieces.

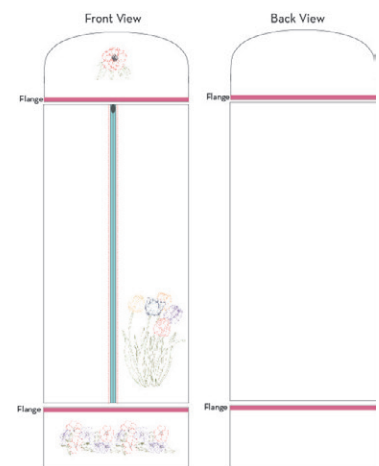

STEP 20

- Use a 1/8" seam, to attach the flange to the bottom edge of both top panels as shown.

STEP 21

- Repeat on the top edge of both bottom panels.
- The completed pieces are:
 - (1) Embroidered top panel with flange attached
 - (1) Non embroidered back top panel with flange attached
 - (1) Embroidered zipper panel
 - (1) Solid back panel (20.5" x 30")
 - (1) Embroidered bottom panel with flange attached

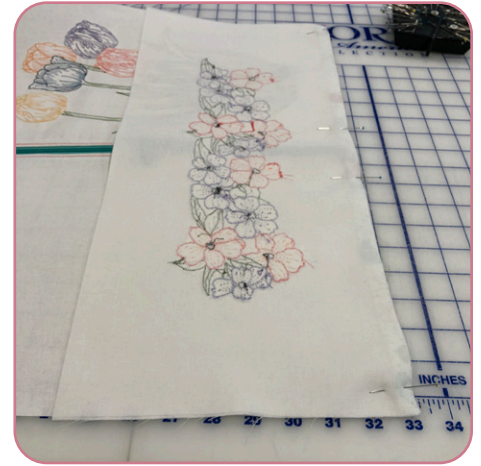

EMBROIDERY

STEP 22

- Place one bottom panel right sides together with the zipper panel and sew together using a $\frac{1}{4}$ " seam allowance. Use a zig zag stitch to encase the raw edges. Repeat for top panel.

STEP 23

- Continue sewing together the panels on the back half of the garment bag.
- Press the seams in one direction making sure the flanges are all pointing down. Top stitch in place.

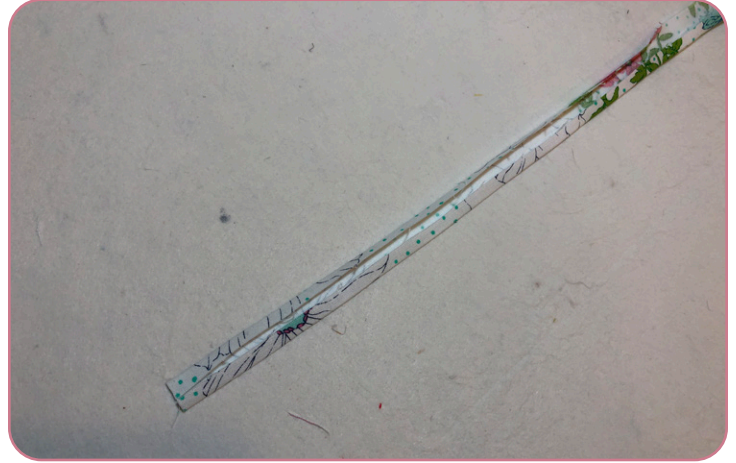

STEP 24

- Fold the remaining 1" x 6" accent fabric strip in half, lengthwise.

STEP 25

- Then open up and press each side towards center as shown.

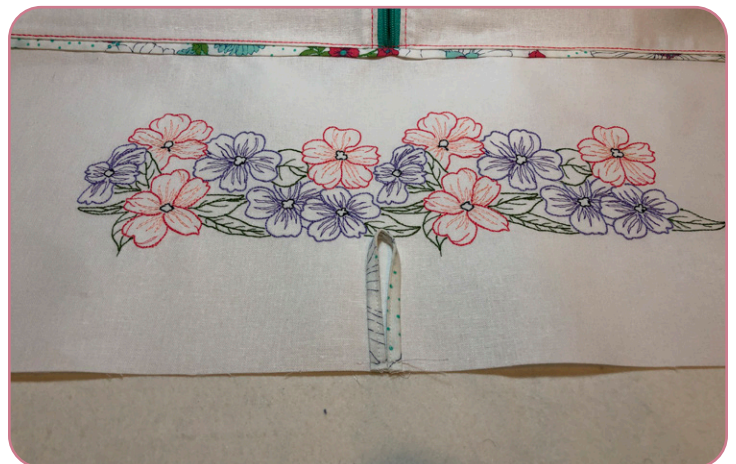

STEP 26

- Then fold in half again. To make the hang loop.

STEP 27

- Top stitch the edge to close.
- Pin the loop to the center of the bottom panel as shown. Baste in place.

ASSEMBLY

STEP 28

- Open the zipper on the front panel to allow for turning after the bag is assembled.
- Place the assembled front and back panels right sides together and pin in place. Be careful to line up the flanges on the sides of the bag.
- Sew with a 1/4" seam, leaving the top stitched neck open.

STEP 29

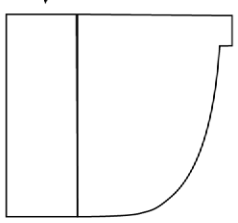

- Encase the raw edges using a zig zag stitch.
- Turn the bag through the open front zipper. Press the edge seams flat, insert a hanger and admire!

When printing check scale by measuring this square. It should measure 1"x1"

After tracing this pattern piece out onto tracing paper, add 5" to bottom as shown. —————>
Then trace your pattern piece onto your fabric and cut 2 on the fold.

↑ Place on fold↑

↓ Extend pattern piece 5", then cut 2 on fold
