- Ruler
- Removable fabric marker
- Bobbin with white thread
- Walking or dual feed foot

Isacord Thread Colors

Per thread chart

EMBROIDERY

Notes

- The instructions included in the design pack are general instructions for the collection. For demonstration purposes, a sample design that best represents the entire collection is shown. Example design is 82031-30. Fabric and thread requirements will vary by design, but the general technique will be the same.
- **Note:** Some thread colors in instructions have been changed or digitally enhanced for better visibility.

Step 1

- In software or at the machine add a name to the center of the design.
- Note: The sample was done in software using the TrueType font Flashback.

Step 2

- Apply Fuse and Fleece to the back of the cuff fabric and fuse in place.
- Fold the fabric in quarters (as shown) to determine the bottom left quarter.
- Mark a parallel line 2" down from the top fold. Mark another parallel line to and 6" from the center fold.
- Mark an arrow indicating the top of the design as shown.
- Note: The crosshair indicates the center of the design, but it is not the center of the bottom quarter. Seam allowances of 1/4" on both raw edges have been taken into consideration for placement.

EMBROIDERY

Step 3

- Hoop one layer of StabilStick TearAway paper (shiny side up).
- Use a pin or needle to score the paper.
- Remove the paper to reveal the adhesive surface.

Step 4

- Position the marked quarter of the cuff onto the stabilizer with the remaining fabric to the back and left of the hoop. Use the hoop template for accuracy if machine positioning features are not available.
- Load selected design into the machine.
- If necessary, rotate the design so the top of the design is the same as the drawn arrow.

Step 5

- Use the positioning tools on the machine to align the design with the markings on the fabric.
- Place Heat2Go topping over the design area.
- Tape in place to secure.
- Place the hoop on the machine.

EMBROIDERY

Step 6

- Stitch the design per the thread chart.

Step 7

- When the design is complete, remove the project from the hoop.
- Tear away as much of the excess Heat2Go as possible.
- Touch with an iron or move iron back and forth to melt stabilizer.
- NOTE: Stabilizer may form small balls which are easily brushed away from most fabrics.
- Press right side down on a Perfect Embroidery Press Cloth.

Step 8

- Thread the sewing machine with matching thread in the top and bobbin.
- Fold the cuff in half lengthwise, right sides together as shown.
- Stitch together using a $\frac{1}{4}$ " seam allowance.
- Press the seam open.
- Fold in half wrong sides together, with the embroidery on the inside and matching side seams.
- Press the fold.

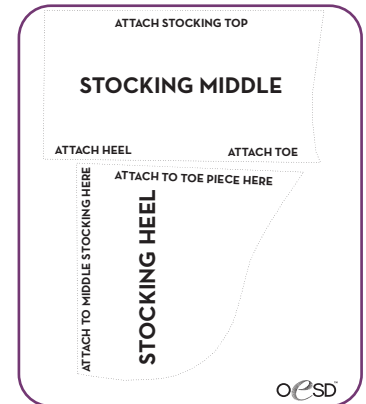

EMBROIDERY

Step 9

- Print the templates (at 100% scale or 1:1 ratio).
- Cut out the pieces and tape them together.

Step 10

- Apply Fusible Woven to the wrong side of the outer stocking fabric.
- Fold stocking and lining fabrics right sides together matching the selvedge edges.
- Note: If either fabric has a directional print or nap, cut across the fold line and then put right sides together with the print or nap in the same direction.
- Cut out both fabrics to create 2 outer stocking pieces and 2 lining pieces.

Step 11

- With right sides together, layer the four stocking pieces as shown with the two lining pieces on top of the two outer pieces.

EMBROIDERY

Step 12

- Using a walking foot or dual feed foot, stitch all four layers together with a $\frac{1}{4}$ " seam allowance.
- Clip curves as shown.

Step 13

- Turn the stocking right side out by putting a hand through the two outer fabric pieces and pulling the toe up through the top opening.
- Use the large end of the Expert Point and Press Tool to help push out the corners and sides.
- Press.

Step 14

- Fold ribbon in half, wrong sides together.
- At the top of the stocking (on the heel side), pin the folded ribbon to the inside of the stocking centering it over the seam.
- Pin the stocking lining to the outer fabric at the top edge and stitch together using a scant $\frac{1}{4}$ " seam allowance.

EMBROIDERY

Step 15

- Insert the prepared cuff inside the stocking as shown.
- Match the seam on the cuff to the toe side of the stocking seam to have the toe to the right when hung.
- Stitch the cuff to the stocking with 1/4" seam allowance.
- A walking or dual feed foot along with the free arm of the sewing machine is helpful.
- Note: Match the cuff seam to the heel side for a left toe hanging stocking.

Step 16

- Seams may be graded slightly to reduce bulk.
- Turn the cuff to the front and press.
- The stocking is complete. Enjoy.
