Notes

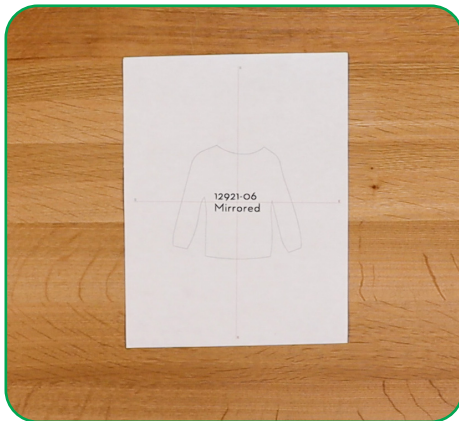

The applique instructions, included in the collection, are general instructions. For demonstration purposes, a sample design that best demonstrates the technique is shown.

Fabric and thread requirements will vary by design, but the general technique is the same.

The design used in the example is 82037-06.

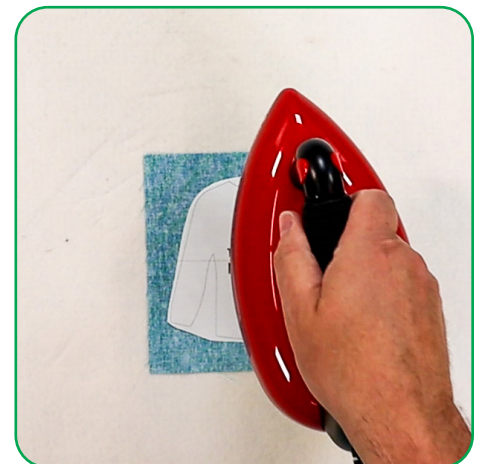

STEP 1

- Print the mirrored version of the required template (at 100% or 1:1 ratio) onto the paper side of Applique Fuse and Fix.
- Cut approximately $\frac{1}{4}$ " - $\frac{1}{2}$ " outside the printed applique template.

STEP 2

- Fuse the trimmed template to the wrong side of the applique fabric with the paper side of the printed template up.
- For a secure fuse, hold the iron on the template for 10-15 seconds.

STEP 3

- Trim the prepared applique precisely on the outer edge of the black outline.
- Set aside.

STEP 4

- Hoop the desired stabilizer and fabric for the project.
- In the example, we used Medium Weight TearAway stabilizer and white quilter's cotton fabric.

STEP 5

- Load selected design into the machine.
- Example design is 82037-06.
- Thread the machine per the thread chart.
- Place the hoop on the machine.
- Stitch Machine Step 1, Teal Fabric Placement Stitch.

STEP 6

- Remove the hoop from the machine, but NOT the project from the hoop.
- Place the hoop on a flat surface.
- Remove the paper from the back of the prepared applique to reveal the adhesive surface.
- Position the prepared applique, right side up, within the placement stitch, matching the cut edges with the stitching line.
- Finger press to secure.
- Return the hoop to the machine.
- Tip: Applique Fuse and Fix is repositionable.

STEP 7

- Stitch Machine Step 2, Blanket Stitch Tackdown.

STEP 8

- Stitch the remaining machine steps, per thread chart.

STEP 9

- When the design is complete, remove the hoop from the machine.
- Remove the project from the hoop and gently tear away any excess stabilizer from the project.
- Press right side down on a Perfect Embroidery Press Cloth.

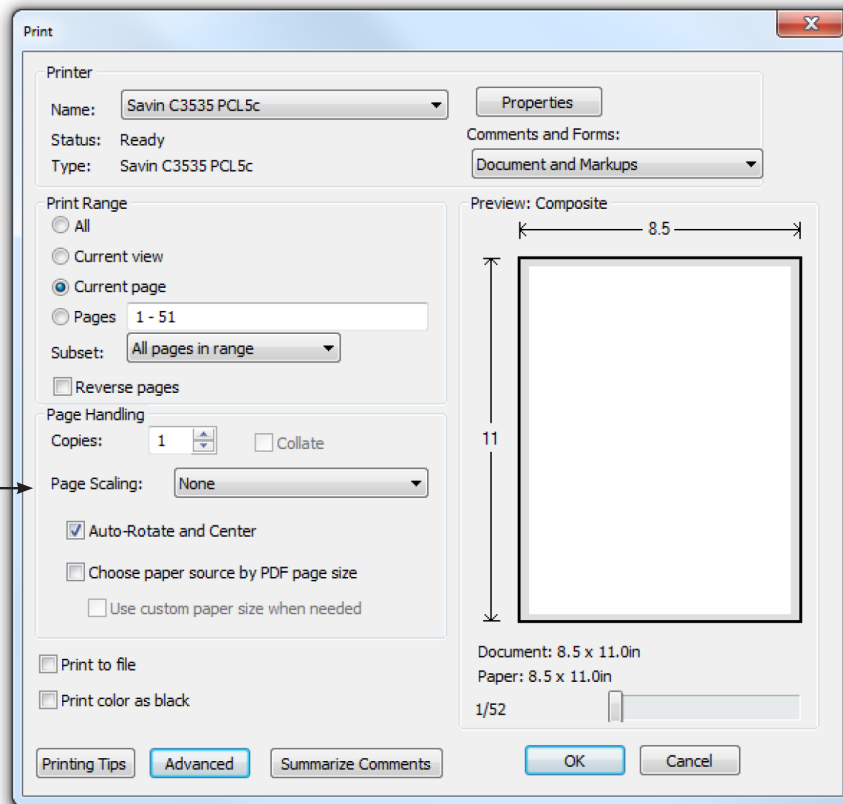

STEP 10

- The project is complete. Enjoy!

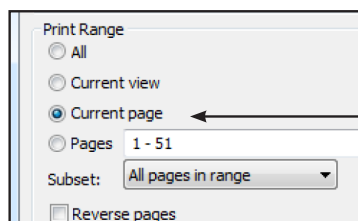

ATTENTION

When printing this document, any page scaling or page fitting options in your print dialog box must be turned OFF or set to NONE so that your files will print out at their actual size. Images not printed at actual size will not function as intended.

TO SAVE PAPER

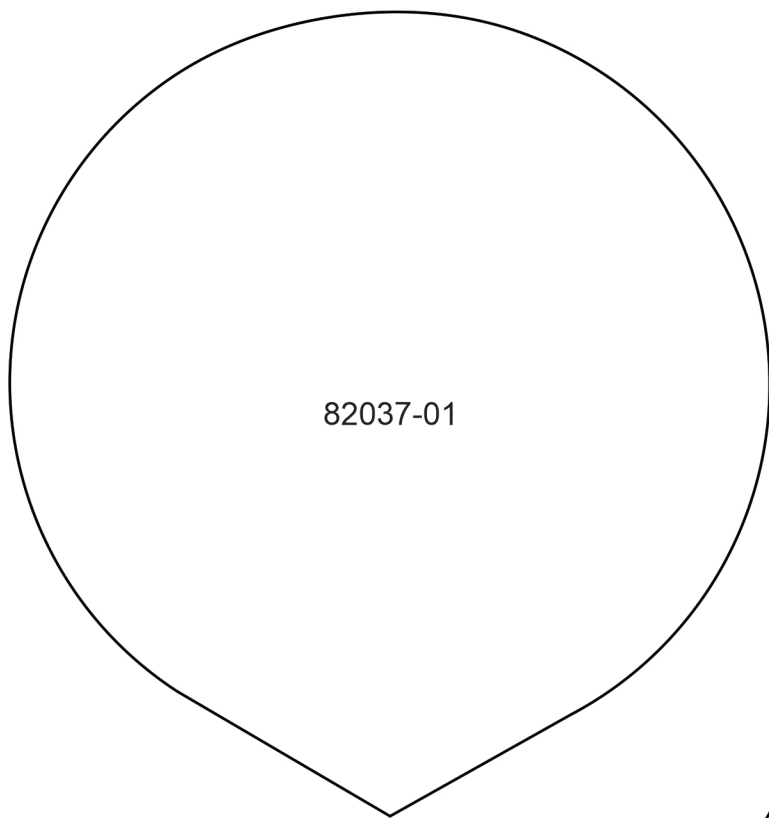

Only print the desired image by navigating to the image's page, go to File > Print and select "Current page" in the print dialog box. Repeat for each desired image.
