MATERIALS

Stabilizers

- OESD Heavy Weight TearAway 15" 1 roll
- OESD Ultra Clean and Tear 15" 1 roll
- OESD Fusible Woven Black 1 Roll

Fabrics/Textiles

- 2 yards black quilter's cotton
- Note - These yardages assume that stabilizer and fabrics will be cut 10" x 15" for hooping. More or less fabric and/or stabilizer may be needed depending on the size hoop used or if more than one tile is stitched per hooping.
- Batting 28" x 28"
- Backing 1 yard
- Binding 1/3 yard, cut 3 strips width of fabric x 2 1/2", stitch together at 45° angle to create one long piece.

Notion & Tools

- 505 Temporary Spray Adhesive
- Expert Point and Press Tool
- Perfect Embroidery Press Cloth
- Ruler, rotary cutter, mat
- OESD Bobbin Thread Black
- Water soluble thread or invisible thread (optional)
- Contrasting bobbin thread (seam stitch only, may be different colors)
- Fabric marking pen or pencil
- Needle: 75/11 Embroidery Sharp
- Open toe sewing foot (recommended)
- Edge stitch sewing foot (recommended)

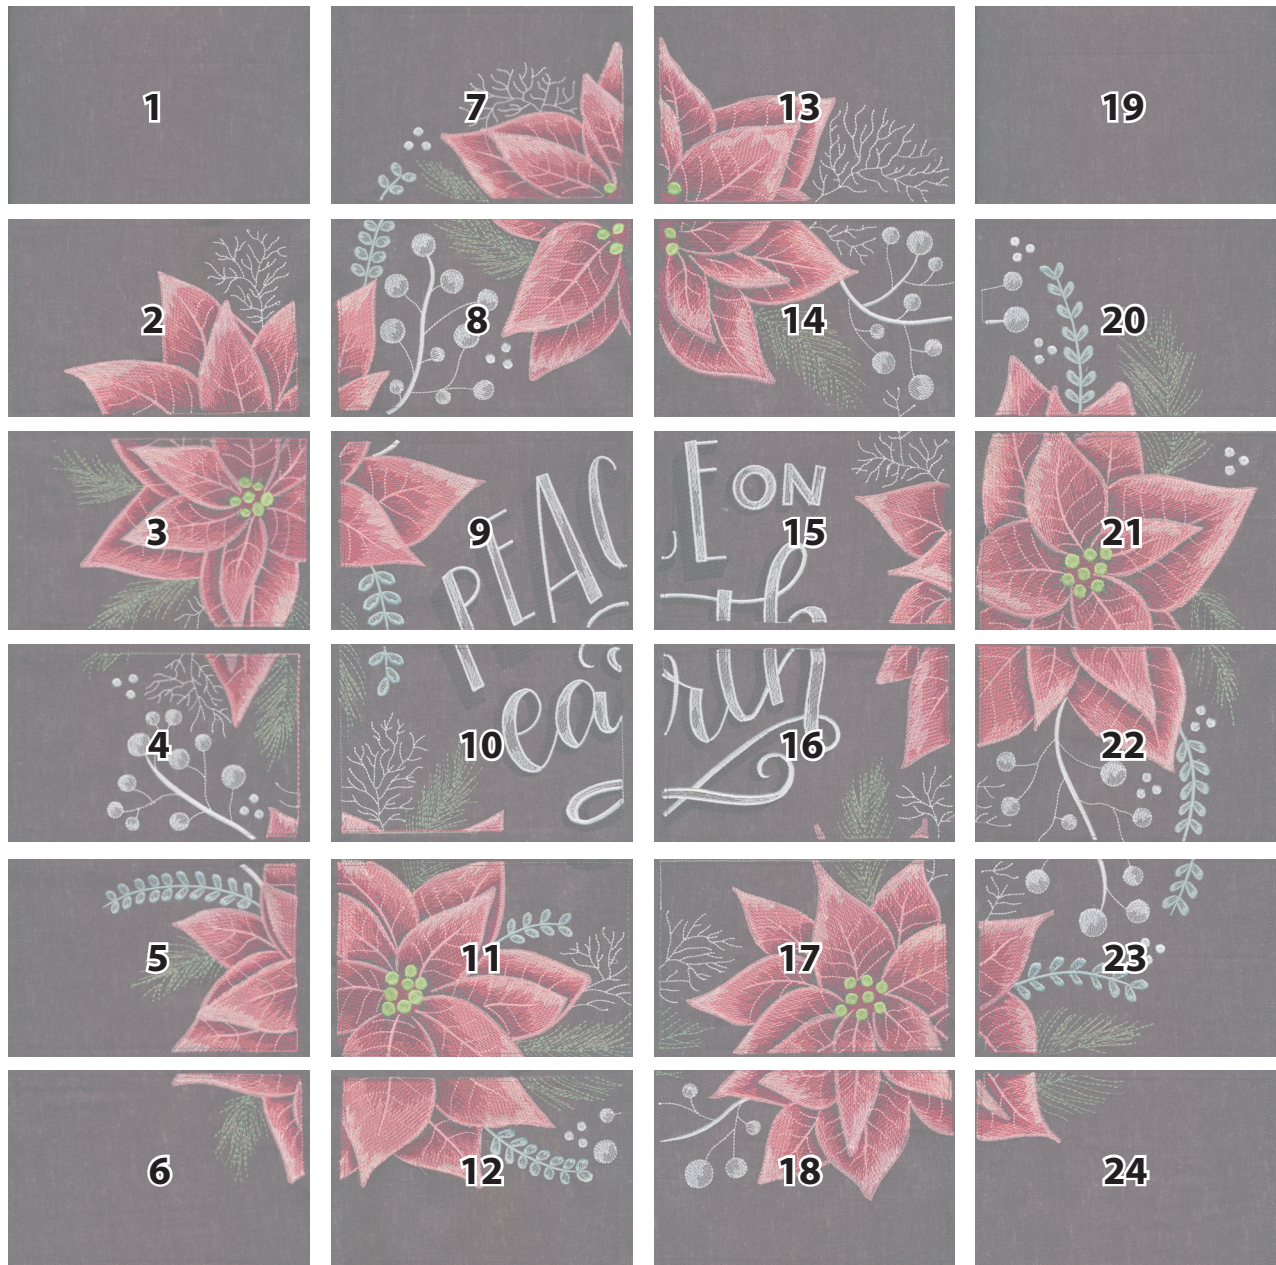

Isacord Thread Colors

- Per thread chart

DIAGRAM

COMPLETED TILING SCENE IS 25.5" X 26.5"

EMBROIDERY

Step 1

- Cut fabric into a 10" x 15" piece for each of the designs.
- Note: To economize on fabric, cut the fabric 15" wide (or the height of the hoop + 2") x width of the fabric. Apply the stabilizers. Move the hoop down the length of the fabric as each block is stitched. Be sure to leave about 2" between the tiles.

Step 2

- Apply Fusible Woven to the back of the background fabric following package instructions.
- Apply one layer of Ultra Clean and Tear and one layer of Heavy Weight TearAway to the back of the background fabric with temporary spray adhesive.

EMBROIDERY

Step 3

- For each tile, stitch the colors per the thread chart.
- *Note: There are two tiles (90019-01 and 90019-19) that are blank except for the seam stitch. These tiles should be stabilized the same as the rest of the blocks, to keep all the blocks the same weight and to keep the blank tiles from distorting. *
- The last color change in each block is called "Seam". This line is the guide when trimming and stitching the tiles together and needs to be highly visible on the back side of the tile. Stitch the top color in a thread that blends with the fabric, invisible thread, or water-soluble thread. For the bobbin, use a color which contrasts sharply with the back of the tile.
- Note: Since the bobbin color doesn't have to be the same on each tile, this is a great time to use up partially wound bobbins.

ASSEMBLY

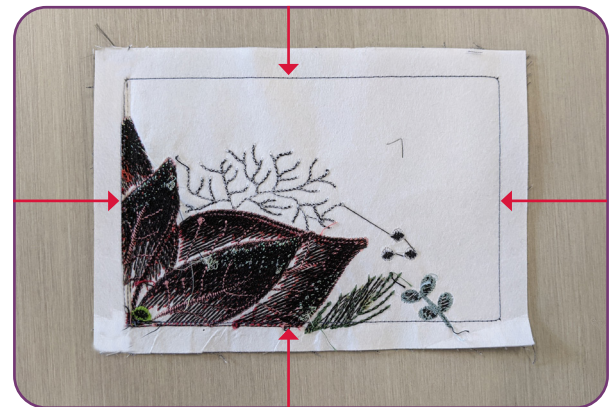

Step 1

- After embroidery is complete, press each block face down on a Perfect Embroidery Press Cloth.
- Write the number of the block on the back so it is easily identified during construction! Use a pen or pencil that will not bleed through to the front side.

Step 2

- At the cutting mat, place the block right side down. Identify the “seam” stitch line. Trim 1/2” inch out from the seam stitch line, on all four sides, to create the seam allowance. Accuracy here will greatly facilitate the construction of the scene.

ASSEMBLY

Step 3

- Arrange two adjacent tiles in the layout for the scene.

Step 4

- Stitch two adjacent tiles, right sides together; the bottom of one tile to the top of the one below it. Align the matching edges and stitch just inside of the seam line.
- Repeat until all the blocks have been paired.

ASSEMBLY

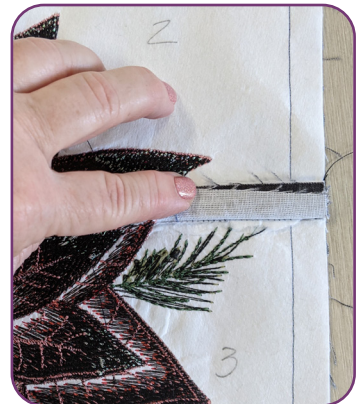

Step 5

- Press each seam open. If the seams do not come apart easily, press both seam allowances to one side using steam and a cotton or linen setting. While warm, open the seam allowance with the large ball of the Expert Point and Press Tool. Press again and allow to cool.

Step 6

- Once cool, remove the excess stabilizer in the seam allowance. Do not remove excess stabilizer from inside the seam line.

ASSEMBLY

Step 7

- Lay out the pressed tiles.
- Pair the connected tiles with the connected tiles to the right.

Step 8

- Align the center seams.
- Stitch just inside the seam line connecting all four blocks. Press seams open. Remove stabilizer from the seam allowance. If the seams or major points of matching do not match up, try stitching that part first. Check for accuracy. Then stitch across the tiles.

ASSEMBLY

Step 9

- Finish connecting the block of tiles to the ones below. Press and remove stabilizer. Then continue the stitching and pressing process until it is one complete scene.

Step 10

- Cut batting and backing at least 2" larger than the tiling scene.
- Layer the backing (right side down), batting, and center the tiling scene (right side up).
- Spray baste all 3 layers with temporary spray adhesive.

ASSEMBLY

Step 11

- Thread the sewing machine with a thread color that blends with the scene or invisible thread.
- Where the tiles connect, stitch in the ditch to attach the batting and backing to the top. For best results use a walking foot.
- Trim 1/4" from the edge of the top through all three layers to square up the finished scene.
- Bind as desired.
