General Instructions for Cut in Place Applique

- The applique instructions included in the design pack are general instructions for cut in place applique. For demonstration purposes, a sample applique design is used that best demonstrates general applique technique. Fabric and thread requirements will vary by design, consult the templates at the end of the instructions for specific size requirements.

Step 1

- Following the package instructions, press OESD Fusible Woven to the wrong side of the applique fabric. Cover the applique fabric completely.
- Note: Fusible Woven is pressed to the wrong side of the applique fabric to prevent fabric puckering and background fabric show through.

Step 2

- Hoop the desired stabilizer and fabric for the project, the example used OESD Medium Weight TearAway stabilizer and cotton fabric.
- Note: Follow specific project instructions, when available.
- Otherwise, spray baste base fabric to medium tearaway stabilizer and hoop.
