PREP

Step 1

- Embroider one of each design file 90029-01 through 90029-32.
- For each hooping, cut the following 10″ x 15″, or large enough to hoop:
  - 1 layer of Fusible Woven
  - 2 layers of Medium Weight TearAway
  - 1 layer of background fabric
- **Note:** To economize on fabric, cut the fabric 15″ wide (or the height of the hoop + 2″) x width of the fabric. Apply the stabilizers. Move the hoop down the length of the fabric as each block is stitched. Leave a minimum of 1.5″ between the blocks.

Step 2

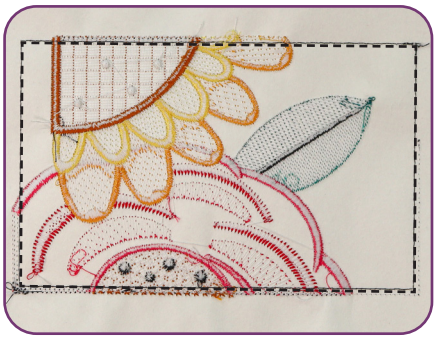
Step 12

- Before stitching the last machine step change the bobbin thread to a high contrast thread. **Match the top thread to the background fabric.**
- **Note:** The last color change in each block is called "Seam". This line is the guide when trimming and stitching the tiles together and needs to be highly visible on the back side of the tile. Stitch the top color in a thread that blends with the fabric or invisible thread.
- Use a color in the bobbin that contrasts sharply with the wrong side of the tile.
- **Tip:** Since the bobbin color does not have to be the same on each tile, this is a great time to use up partially wound bobbins.



Step 13

- After the embroidery is complete, press each block right side down on a Perfect Embroidery Press Cloth.
- Write the number of the block on the back so it is easily identified during construction.
- Tip: Use a pen or pencil that will not bleed through to the front side.

- While warm, open the seam allowance with the large ball of the Expert Point & Press Tool.
- Press again and allow to cool.
- Once cool, remove the excess stabilizer in the seam allowance.
