GENERAL CUT IN PLACE APPLIQUE INSTRUCTIONS

The applique instructions, included in the collection, are general instructions. For demonstration purposes, a sample design that best demonstrates the technique is shown.

Fabric and thread requirements will vary by design, but the general technique is the same.

Example design is Sweeter Than Pumpkin Pie Applique 51303-03, from the collection Adorable Autumn 51303.

Note: Some thread colors in instructions have been changed or digitally enhanced for better visibility.

Step 1

- Apply one layer of SoftWeb to the wrong side of the applique fabric.

GENERAL PRE-CUT APPLIQUE INSTRUCTIONS

The applique instructions, included in the collection, are general instructions. For demonstration purposes, a sample design that best demonstrates the technique is shown.

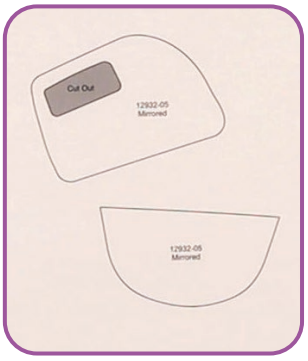

Fabric and thread requirements will vary by design, but the general technique is the same.

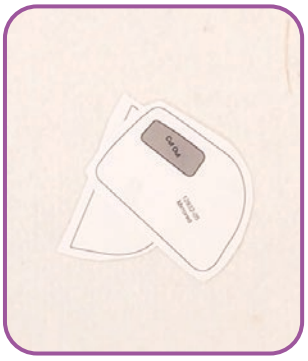

Example design is Cake Mixing 12932-05 from the collection Live Love Bake 13932.

Note: Some thread colors in instructions have been changed or digitally enhanced for better visibility.

Step 1

- Print the mirrored version of the required patterns (at 100% or 1:1 ratio) onto the paper side of Applique Fuse and Fix.
- Cut approximately 1/2" – 1/4" outside the printed applique pattern.

APPLIQUE INSTRUCTIONS

HOW TO USE THE APPLIQUE PATTERN PIECES IN THIS INSTRUCTION SET

Collection Numbers

Each pattern piece is marked with a collection number and the design number, so you can see exactly where it belongs in the finished design.

Choosing the Right Set: Non-Mirrored or Mirrored

You'll notice two versions of each piece: non-mirrored and mirrored. Which one you need depends on your method.

Tracing Method:

- Trace the mirrored pattern piece onto the paper side of your SoftWeb or Applique Fuse & Fix. Fuse it to the wrong side of your fabric, then cut out the shape on the outer edge of the traced line. Because you're tracing and fusing from the back of the fabric, the mirrored piece is what keeps your finished shape facing the correct direction once the fabric is right-side up.
- If you are tracing onto the right side of your fabric, use the non-mirrored pattern piece. This is usually done with the use of a light box for better visibility.

Printing Method:

- Instead of hand-tracing, print the mirrored pattern piece directly onto your SoftWeb or Applique Fuse & Fix, following the package instructions for your printer. Fuse it to your fabric and cut the shape out on the outer edge of the black line.

SVG Files:

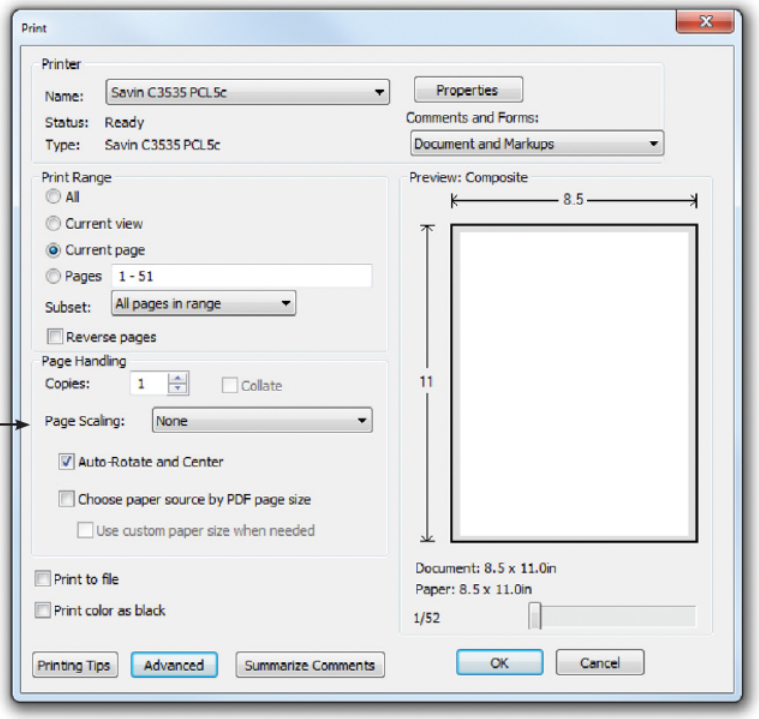

If you're cutting with a cutting machine, use the SVG with the fabric facing up (right sides up).
