

Product Usage Instructions

Appliqué Fuse & Fix

- For applique with a template:
- Print a mirror image of the template at 100% scale on the paper side of Applique Fuse and Fix using an inkjet printer. Multiple templates may be combined on one sheet.
 - Roughly trim around the printed template.
 - Place the non-paper side (fusible) on the wrong side of the fabric and press by placing the iron in one place for 10 seconds, lift, and move to another area of the applique. Repeat until the Applique Fuse and Fix is completely bonded to your fabric. (PHOTO 1)
 - Precisely trim the applique on the black outline. (PHOTO 2)
 - Carefully remove the release paper from the back of your cut out applique to expose the adhesive surface. (PHOTO 3)
 - After stitching the placement line of the applique, position the prepared fabric, adhesive side down within the placement line. (PHOTO 4)
 - Continue stitching the remainder of the design as per the instructions. (PHOTO 5)
