

Product Usage Instructions

StabilStick

CutAway Stabilizer

- Cut a piece of StabilStick approximately 2" larger than the hoop to be used.
- Hoop the piece of StabilStick with the paper side up.
- Use a pin to score ONLY the protective paper.
- Remove the paper to expose the sticky surface.
- Position the item on the hooped StabilStick without stretching the fabric.
- Finger press the item to the adhesive without stretching or distorting the fabric.
- NOTE: For freestanding applique (FSA) refer to the individual project instructions for application.

REMOVAL INSTRUCTIONS:

- Remove the embroidered item from the hoop.
- To remove the stabilizer from the back of the embroidery, gently pull stabilizer from the project and carefully trim away the excess stabilizer.
