

# Product Usage Instructions

## Top Cover

---

### **EMBROIDERY INSTRUCTIONS:**

- Cut a piece of Top Cover approximately 2" larger than the design area.
- Place Top Cover over the center of the design area after the item is hooped.
- Embroider the design.
- Note: Top Cover may be applied immediately before and/or removed immediately after the portion of the design requiring it is stitched.

### **REMOVAL INSTRUCTIONS:**

- Remove the embroidery from the hoop.
- Gently tear away excess Top Cover while supporting the stitches.

### **APPLIQUÉ INSTRUCTIONS:**

- Top Cover will prevent shadow through of base fabric under an applique fabric.
- After stitching the placement stitch, cover the area with Top Cover and the applique fabric.
- Trim away the Top Cover with the applique fabric after the tackdown stitch. The tackdown stitch will keep the Top Cover from shifting during the remaining embroidery steps.
