

## Product Usage Instructions

# Ultra Clean and Tear Plus

## TearAway Stabilizer

---

- Cut a piece of Ultra Clean and Tear Plus approximately 2" larger than the hoop to be used.
- Hoop the piece of Ultra Clean and Tear Plus with the paper side up.
- Use a pin or the Loop and Tail Wand to score ONLY the protective paper.
- Remove the paper to expose the sticky adhesive.
- Gently smooth the item to the adhesive without stretching or distorting the fabric.
- Embroider the item.

### **REMOVAL INSTRUCTIONS:**

- Remove your embroidered item from the hoop.
- Place a damp cloth on the back of the embroidery for several seconds to allow the washaway, tearaway base to disintegrate.
- Peel the remaining stabilizer from the back of the project and it will not distort even the finest of stitches.
- Peeling the stabilizer away at a 45° angle from the grain line of a towel will prevent the adhesive from pulling out any loops.
