- Stitch the remaining colors, following the thread chart.

STEP 6

- Remove the card and stabilizer from the hoop. Place the card face down and fold the stabilizer towards the card. Carefully cut the stabilizer away, close to the stitching.
- **Note:** Even though the stabilizer is a tear away, it is better to cut the stabilizer away from the card to prevent bending or creasing the cardstock.
- **See page 21 for info on finishing the inside of your card.**

- Print or trace the mirror image applique patterns on to the paper side of Applique Fuse and Fix.
- Make sure any scaling or 'fit to page' option is turned off on the print screen.

STEP 2

- Roughly cut around the applique design and place on the wrong side of the applique fabric.
- Following the Applique Fuse and Fix instructions, fuse to the fabric.

STEP 8

- Stitch the remaining colors, following the thread chart.
- Remove the card and stabilizer from the hoop. Place the card face down and fold the stabilizer towards the card. Carefully cut the stabilizer away, close to the stitching.
- **Note:** Even though the stabilizer is a tear away, it is better to cut the stabilizer away from the card to prevent bending or creasing the cardstock.

FINISHING THE CARDS

STEP 1 Variation 1

- Scrapbook paper or fabric can be used to cover the back of the embroidery.
- Cut coordinating fabric (or paper) slightly larger than the front of the card. Cut a piece of Fuse and Seal to fit. Following the package instructions, iron the Fuse and Seal to the wrong side of the fabric (paper). Trim the fabric (paper) about an 1/8" smaller than the front of the card. Peel the paper from the back of the fabric (paper) .

STEP 2

- Place the fabric (paper) right side up onto the wrong side of the stitching.

STEP 3

- Place the card front side down onto the Perfect Embroidery Press Cloth. Fuse to the card.
- **Note:** Fuse and Seal is permanent. It will prevent the fabric from raveling.

FINISHING THE CARDS

STEP 4

- The card is now complete!

FINISHING THE CARDS

STEP 1 Variation 2

- 2 cards folded to 5" x 7"
- Cut one card in half on the fold.

STEP 2

- Hoop 1 piece of stabilizer and stitch Machine Step 1, the Placement Line.
- Place 5" x 7" piece of cardstock within the Placement Line.
- Tape in place.
- Follow the instructions above for stitching the card.

STEP 3

- Once the design is finished, carefully remove the card from the stabilizer.
- Cut 1 piece of Fuse and Seal slightly smaller than the size of your card.

FINISHING THE CARDS

STEP 4

- With a medium warm iron, fuse to the back of the embroidered card.

STEP 5

- Once cool, remove the paper backing.

STEP 6

- Place the embroidered half of the card over the front of the second card and fuse with a medium warm iron.
- The back of the embroidery is now hidden.

EMBELLISHING ENVELOPES

STEP 1

- Hoop a piece of HeavyWeight TearAway.

STEP 2

- Mark the center of the envelope flap, using either a pencil or removable ink.
- Place the envelope flap on the stabilizer and tape in place.

STEP 3

- Using the placement tools on your machine, center the design over the marked center. Be sure the rotation of the design is correct. Design in photo was rotated.

EMBELLISHING ENVELOPES

STEP 4

- Stitch the design.

STEP 5

- Remove the card and stabilizer from the hoop. Place the card face down and fold the stabilizer towards the card. Carefully cut the stabilizer away, close to the stitching.
- **Note:** Even though the stabilizer is a tear away, it is better to cut the stabilizer away from the card to prevent bending or creasing the cardstock.

- There are many ways to make cards by creating your own, with different colors of cardstock.

- The smaller cards are great to make on a piece of cardstock and then glued to the front of a 5" x 7" card.
- **Note:** Cut a piece of cardstock 4 $\frac{5}{8}$ " x 6 $\frac{1}{4}$ ". Choose any designs 12834-11 through 12834-15. Follow the instructions for the cards, use the 4 $\frac{5}{8}$ " x 6 $\frac{1}{4}$ " cardstock instead of using a card. Once finished embroidering, glue the 4 $\frac{5}{8}$ " x 6 $\frac{1}{4}$ " to the front of the 5" x 7" card.

9. Sew the remainder of the design and repeat for any remaining pieces. **PHOTO 5**

NOTE: The patterns are sized for the designs as they were made. If you resize the design, you will need to resize the pattern the same amount. You can print out the pattern at the normal size then copy it on a copy machine at the changed size. For example, resize the designs to 80%, resize the printed pattern to 80%.

TIP: When Printing the patterns, make sure that the “Fit to page” option is **UNCHECKED** in the Print Dialog Box. If this option is checked the printed patterns will not be actual size.

General Freestanding Lace Guidelines

Supplies:

Embroidery Thread:

- Use the same embroidery thread in the bobbin as the needle.

Needles:

- Use an Organ 80/12 Titanium needle for extended needle life.

Stabilizer:

- Use OESD AquaMesh stabilizer.

Handy Hints:

For Stiffer Lace:

- DO NOT rinse away all of the stabilizer for a “stiffer” lace. Note that the thread may appear a shade darker if stabilizer is not removed completely.
- If you happen to wash too much out, easily re-stiffen by diluting some stabilizer scraps in water and dipping the item in the solution.

For Very Soft Lace:

- Cut away excess stabilizer. Remove remaining stabilizer by rinsing under warm running water until all traces of the stabilizer are gone. **NOTE:** If lace should become too limp to work with, dissolve stabilizer scraps in warm water and apply to the lace.

Drying Lace:

- The lace looks best when left to dry completely. Lay lace piece with right side down to dry. This will minimize the tendency for the lace to curl. Be sure to flatten the piece out entirely and allow ample time to dry.

General Instructions

1. Hoop two layers of OESD AquaMesh Stabilizer.
2. Attach the hoop to the machine and select the design of your choice.
3. Stitch the design.
4. Remove the hoop from the machine and the design from the hoop. Trim excess stabilizer from the design.
5. Rinse away remaining stabilizer and allow it to dry.

Pre-Cut Applique Instructions

1. Print out the necessary pages from the PDF of the applique pattern(s).
2. Mark the right side of the pattern pieces so you'll know which direction to lay the pattern on the fabric.
3. Lightly spray the wrong side of the pattern pieces with temporary adhesive spray and allow it to set for a few minutes.
4. Place the pattern pieces on the right side of the fabric and carefully cut them out. **PHOTO 1**
5. Sew the placement stitch on your hooped fabric. **PHOTO 2**
6. With the paper still stuck to the right side of the applique fabric, spray the wrong side of the fabric with temporary spray adhesive.
7. Place the fabric inside the placement stitch, so that it completely covers the placement stitch and then remove the paper pattern.

8. Sew the tackdown. **PHOTO 4**
9. Sew the remainder of the design and repeat for any remaining pieces. **PHOTO 5**

NOTE: The patterns are sized for the designs as they were made. If you resize the design, you will need to resize the pattern the same amount. You can print out the pattern at the normal size then copy it on a copy machine at the changed size. For example, resize the designs to 80%, resize the printed pattern to 80%.

TIP: When Printing the patterns, make sure that the “Fit to page” option is **UNCHECKED** in the Print Dialog Box. If this option is checked the printed patterns will not be actual size.
