Deck The Halls Appliqués
Instructions

General Freestanding Appliqué Guidelines

Supplies:

Embroidery Thread:
- Use the same embroidery thread in the bobbin as the needle.

Needles:
- Use an Organ 80/12 Titanium needle for extended needle life.

Stabilizer:
- Use water-soluble stabilizer or film water-soluble stabilizer.

General Appliqué Instructions

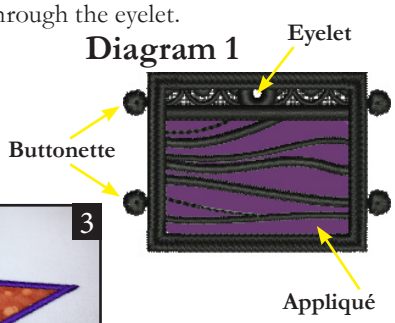

1. Hoop two layers of OESD AquaMesh Stabilizer.
2. Attach the hoop to the machine and select the design of your choice.
3. Stitch the Placement Stitch. **Photo 1**
4. Place a piece of appliqué fabric over the Placement Stitch so that it is completely covered.
5. Stitch the Cut Line & Tackdown stitch.
6. Carefully cut away the excess appliqué fabric. **Photo 2**
7. Stitch the remainder of the design and repeat for any remaining pieces. **Photo 3**
8. Remove the hoop from the machine and the design from the hoop.
9. Trim excess stabilizer from the design.
10. Rinse away remaining stabilizer and allow it to dry face down to prevernt curling.

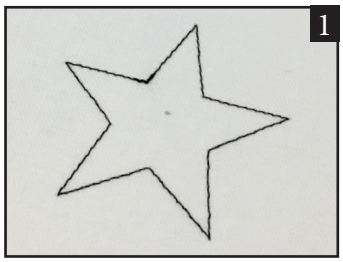

Handy Hints

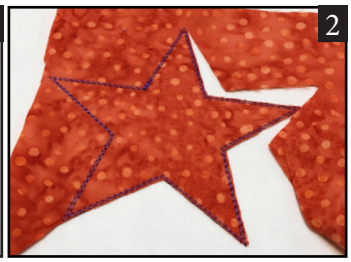

Drying:
- Freestanding pieces look best when left to dry with right side down. This will minimize the tendency for a piece to curl. Be sure to flatten the piece out entirely and allow ample time to dry.

For 3D Appliqué Projects:
- Adhere 1 layer of OESD StabilStick TearAway to the back of appliqué fabrics with temporary adhesive spray **BEFORE** hooping or placing down for tackdown and cut in place. This gives fabric a more rigid structure.
- A pair of tweezers, hemostats, stiletto or a tiny crochet hook can be extremely helpful when inserting the buttonettes into the eyelets. (See **Diagram 1** for explanation of "buttonette" and "eyelet".)
- Insert the tip of the tweezers, hemostats or crochet hook into the eyelet, grasp the buttonette and pull through the eyelet. Or a stiletto could be used to push the buttonette through the eyelet.

Pot Holder Instructions

Supplies

- OESD embroidery collection Deck the Halls Applique
- Fabrics
  - ¾ yard red fabric
  - ¾ yard green fabric
- 2 - 10" x 14" pieces of cotton batting⅜ yard fabric for binding or 3 yards of pre-made binding
- 2 – 10" x 14" pieces of Insul-Brite
- Temporary spray adhesive
- Red and green cotton thread
- Embroidery machine

Cut

- Cut from each fabric 2 pieces 10" x 14".
- Cut 1 ¾" wide strips of bias from each fabric to make at least 40 inches of bias from each fabric.

Embroider & Prepare Blocks

- For each fabric color, stack fabrics and batting as follows: fabric piece, Insul-Brite, cotton batting, 2nd fabric piece to make quilt sandwiches of each color. **Photo 1**
- Hoop the green quilt sandwich. Thread the bobbin with the red cotton thread to match the top thread. If your machine uses a different bobbin case or threading for embroidery, thread instead for regular stitching. Open design #38 in the machine and stitch the design.
- Repeat the process for the red quilt sandwich using green cotton thread and design #30.

Pot Holder Construction

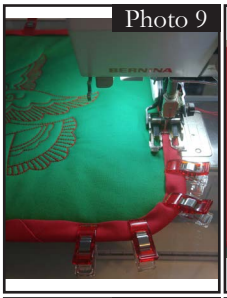

- Centering the design, trim the green quilt sandwich into a 9 ¼" square. **Photo 2**
- Round the corners using a corner rounding template or a drinking glass. **Photo 3**
- Using a walking foot, stitch around the quilt sandwich 1/8" inside the cut edge.
- Cut 5" of the red bias strip, fold in half and then fold the edges to the center. **Photo 4**
- Fold the folded edges together and stitch along the two edges to form a strip for the pot holder loop.
- Place one end of the strip over the other to form a loop and place the raw edges of the loop at the corner of the pot holder on the back side over the dove's wings. Pin or clip in place. **Photo 5**
- Place the raw edge of the bias on the raw edge of the pot holder. Fold up a small hem at the beginning of the strip (the raw edge of the hem will be facing up). Begin stitching bias to the back side of the pot holder, starting at the folded edge of the hem. Use a 3/8" seam. Ease extra fabric into the corners of the pot holder to keep the corners from curling in when the pot holder is completed. **Photos 6 & 7**
- Finish the stitching with the bias overlapping the beginning stitching about 3/8". Trim the bias off where the stitching ends.
- Press the bias toward the edge of the pot holder. When the pot holder is turned

over it should look like **Photo 8**

- Fold the bias over the edge of the pot holder and fold in the raw edges to cover the stitching line. Clips are helpful for holding the bias in place to stitch. Edge stitch the bias in place to complete the pot holder. **Photo 9**
- Draw around a round object 9" in diameter on transparent paper or stabilizer to create a circle template for the red quilt sandwich. Center the template on the design and draw around the template for the outer edge of the circular potholder. **Photos 10 & 11**
- Before trimming around the circle, stitch 1/8" inside the circle with a walking foot. Now trim the marked circle.
- Use the same method as described above for adding the bias binding to the circle potholder. Note that with the circle potholder, the bias will need to be eased in around the entire circle. **Photo 12**

Pre-Cut Appliqué Instructions

1. Print out the necessary pages from the PDF of the appliquè pattern(s).
2. Mark the right side of the pattern pieces so you'll know which direction to lay the pattern on the fabric.
3. Lightly spray the wrong side of the pattern pieces with temporary adhesive spray and allow it to set for a few minutes.
4. Place the pattern pieces on the right side of the fabric and carefully cut them out. **PHOTO 1**
5. Sew the placement stitch on your hooped fabric. **PHOTO 2**
6. With the paper still stuck to the right side of the appliqué fabric, spray the wrong side of the fabric with temporary spray adhesive.
7. Place the fabric inside the sewing placement stitch so that it matches the stitching line, and then remove the paper pattern. **PHOTO 3**
8. Sew the tackdown. **PHOTO 4**
9. Sew the remainder of the design and repeat for any remaining pieces. **PHOTO 5**

NOTE: The patterns are sized for the designs as they were made. If you resize the design, you will need to resize the pattern the same amount. You can print out the pattern at the normal size then copy it on a copy machine at the changed size. For example, resize the designs to 80%, resize the printed pattern to 80%.

TIP: When Printing the patterns, make sure that the "Fit to page" option is UNCHECKED in the Print Dialog Box. If this option is checked the printed patterns will not be actual size.
