OESD™ DESIGN PACK

Isacord Thread Colors

7012 (S4) 14 kt. Gold Yenmet Thread
9912 Tulip Isacord Variegated Thread
9973 Summer Peonies Isacord Variegated Thread

Note: One spool of 1000 meter thread is adequate for the project unless otherwise noted.

MATERIALS

OeSD™ DESIGN **PACK**

Stabilizers

- OESD AquaMesh WashAway
- OESD BadgeMaster WashAway
- OESD StabilStick CutAway
- OESD Fiber Form
- OESD Applique Fuse and Fix

Fabrics/Textiles

- Indigo Quilter's Cotton (2) 9" x 10.5"
- Lilac Quilter's Cotton (2) 7.5" x 8.5"

Notion & Tools

- OESD Grippy GRID
- OESD Perfect Scoring Tool
- OESD Expert Embroidery Tape TearAway
- OESD Expert Embroidery Tape WashAway
- OESD Perfect Punch Tool
- OESD Mini MAT
- OESD Perfect Embroidery Press Cloth
- Embroidery Needle Sharp 75/11
- (6) Size 20 (T5) plastic snaps

## Isacord Thread Colors

- Per the thread chart

Requires 1 Design
EMBROIDERY

OeSD™ DESIGN **PACK**

General Instructions

The instructions included in the collection are general instructions. For demonstration purposes, a sample design that best demonstrates the technique is shown. Fabric and thread requirements will vary by design, but the general technique is the same.

Note: Some thread colors in the instructions have been changed or digitally enhanced for better visibility.

☐ Step 1

- Print the mirrored version of the templates (at 100% scale or 1:1 ratio) onto the paper side of Applique Fuse and Fix.
- Cut approximately 1/4" – 1/2" outside the printed applique templates.

☐ Step 2

- Cut the Fiber Form 1/4"-1/2" larger than the applique templates.
- Fuse the trimmed template to the back of the Fiber Form with the paper side of the printed template up. Hold the iron on the template for 10-15 seconds for a secure fuse.
☐ Step 3

- Trim the Fiber Form on the edge of the black outline.
  Note: Fiber form is only used in base of project.
- Set aside.

☐ Step 4

- Adhere one layer of StabilStick CutAway to the wrong side of all fabrics to provide stiffness to the finished tray.
  Note: StabilStick CutAway is sufficient reinforcement for sides of project. No fiber form is required in these pieces.

☐ Step 5

- Hoop one layer of AquaMesh and one layer of BadgeMaster.

OESD™ DESIGN PACK

☐ Step 6

- Load selected design into the machine.
- Example design is PK10063-01.
- Thread the machine per the thread chart.
- Place the hoop on the machine.
- Stitch Machine Step 1, Fiber Form Placement Stitch.

☐ Step 7

- Remove the hoop from the machine, but NOT the project from the hoop.
- Place the hoop on a flat surface.
- On the back of the Fiber Form, use the OESD Perfect Scoring Tool to score and remove the paper backing to reveal the adhesive surface.
- Place the Fiber Form within the placement stitching.
- Finger press to secure.

OESD™ DESIGN PACK
Step 8

- Return the hoop to the machine.
- Stitch Machine Step 2, Cut Line and Tackdown.

Step 9

- Stitch Machine Step 3, Front Fabric Placement Stitch.

Step 10

- Remove the hoop from the machine, but NOT the project from the hoop.
- Place the hoop on a flat surface.
- Completely cover the placement stitch with the prepared fabric.
- Tape in place to secure.

OESD™ DESIGN **PACK**

Step 11

- Return the hoop to the machine.
- Stitch Machine Step 4, Cut Line and Tackdown.

Step 12

- Remove the hoop from the machine, but NOT the project from the hoop.
- Trim the excess fabric as close to the cut line as possible. If the outermost stitches (cut line) are cut, the inner stitches (tackdown) will hold the applique in place.
- Tip: If the stabilizer is cut or a hole is created while trimming the fabric, use OESD Expert Embroidery Tape WashAway as a patch.

Step 13

- Return the hoop to the machine.
- Stitch Machine Step 5, Tray Detail.
- Stitch Machine Step 6, Tray Detail.

OESD™ DESIGN PACK

Step 14

- Remove the hoop from the machine, but NOT the project from the hoop.
- Turn the hoop over and place the prepared fabric, right side up, completely covering the placement stitch.
- Carefully tape to secure.
- Tip: Avoid pushing too hard on the stabilizer to prevent it from dislodging from the hoop.

BACK OF HOOP

Step 15

- Return the hoop to the machine.
- Match the bobbin thread to the top thread.
- Stitch Machine Step 7, Back Fabric Cut Line and Tackdown.

BACK OF HOOP

Step 16

- Remove the hoop from the machine, but NOT the project from the hoop.
- Turn the hoop over and trim the excess fabric as close to the cut line as possible.

BACK OF HOOP

OeSD™ DESIGN PACK

☐ Step 17

- Return the hoop to the machine.
- Stitch remaining machine steps, changing threads per the thread chart.

☐ Step 18

- When the design is complete, remove the project from the hoop and trim the stabilizer 1/4"- 1/2" outside the design.
☐ Step 19

- Rinse the tray in warm running water until the design is only slightly tacky. To prevent curling, place right side down on a non-stick surface to dry. Parchment paper or a cooling rack work well. Dry completely.
- Once dry, press right side down on a Perfect Embroidery Press Cloth.

☐ Step 20

- Press the sides into the center along the center fold lines using steam. While the tray is warm, pinch the side fold lines to give shape to the tray.

☐ Step 21

- Use OESD MiniMAT and Punch Tool with the 2mm attachment to create the eyelets indicated in the diagram.
- Reference Punch Tool Guide on page 15.
☐ Step 22

- Attach plastic snaps according to the manufacturer's instructions in the eyelet holes.
☐ Step 23

- Close the snaps to form the tray.

☐ Step 24

- The project is complete. Enjoy!
