General Instructions

The applique instructions, included in the collection, are general instructions. For demonstration purposes, a sample design that best demonstrates the technique is shown. Design PK10084-12 is shown here. Fabric and thread requirements will vary by design, but the general technique is the same.

Note: Some thread colors in instructions have been changed or digitally enhanced for better visibility.

Step 1

- Print the mirrored version of the templates (at 100% scale or 1:1 ratio) onto the paper side of Applique Fuse and Fix.
- Cut approximately 1/4" - 1/2" outside the printed applique templates.

Step 2

- Cut the Fiber Form 1/4" - 1/2" larger than the applique templates.
- Fuse the trimmed templates to the back of the Fiber Form with the paper side of the printed templates up. Hold the iron on the template for 10-15 seconds for a secure fuse.

Step 3

- Trim the Fiber Form on the outer edges of the black outline.
- Set aside.

Step 4

- Cut the prepared applique fabrics 1/4" - 1/2" larger than the templates that are included at the end of the instructions.
- Adhere one layer of StabilStick CutAway to the wrong side of all applique felts and fabrics to provide stiffness to the finished puzzle.

Step 7

- Remove the hoop from the machine, but NOT the project from the hoop.
 - Place the hoop on a flat surface.
 - On the back of the Fiber Form, use the OESD Perfect Scoring Tool to score and remove the paper backing to reveal the adhesive surface.
 - Place the Fiber Form within the placement stitching.
 - Finger press to secure.
- Tip: Applique Fuse and Fix is repositionable.

Step 8

- Return the hoop to the machine.
- Stitch Machine Step 2, Cut Line and Tackdown.

Step 9

- Stitch Machine Step 3, Gray Felt Placement Stitch.

Step 10

- Remove the hoop from the machine, but NOT the project from the hoop.
- Place the hoop on a flat surface.
- Completely cover the placement stitch with the prepared grey felt.
- Tape in place with OESD Expert Embroidery Tape TearAway to secure.

Step 11

- Return the hoop to the machine.
- Stitch Machine Step 4, Cut Line and Tackdown.

Step 12

- Remove the hoop from the machine, but NOT the project from the hoop.
- Trim the excess felt as close to the cut line as possible. If the outermost stitches (cut line) are cut, the inner stitches (tackdown) will hold the applique in place. Tip: If the stabilizer is cut or a hole is created while trimming the fabric, use OESD Expert Embroidery Tape WashAway as a patch.

Step 13

- Return the hoop to the machine.
- Stitch Machine Step 5, White Felt Placement Stitch.

Step 14

- Remove the hoop from the machine, but NOT the project from the hoop.
- Place the hoop on a flat surface.
- Completely cover the placement stitch with the prepared white felt.
- Tape in place.

Step 15

- Return the hoop to the machine.
- Stitch Machine Step 4, Cut Line and Tackdown.

Step 16

- Remove the hoop from the machine, but NOT the project from the hoop.
- Trim the excess fabric as close to the cut line as possible.

Step 17

- Completely cover the design with black OESD Top Cover Permanent Topping.
- Tape in place.
- Note: Top Cover helps prevent the felt from showing through the black stitching.

Step 18

- Return the hoop to the machine.
- Stitch Machine Step 7, Face.

Step 19

- Remove the hoop from the machine, but NOT the project from the hoop.
- Tear away the excess Top Cover from the black stitching.

Step 20

- Return the hoop to the machine.
- Stitch Machine Step 8, Cheek.
- Stitch Machine Step 9, Eye Detail.

Step 21

- Remove the hoop from the machine, but NOT the project from the hoop.
- Turn the hoop over and place the prepared grey applique felt, right side up, completely covering the design.
- Carefully tape to secure.
Tip: Avoid pushing too hard on the stabilizer to prevent it from dislodging from the hoop.

Step 22

- Return the hoop to the machine.
- Stitch Machine Step 10, Back Fabric Cut Line and Tackdown.

Step 23

- Remove the hoop from the machine, but NOT the project from the hoop.
- Turn the hoop over. Trim the excess felt as close to the cut line as possible.

Step 24

- Return the hoop to the machine.
- Stitch the remaining machine steps per the thread cart with matching bobbin thread.

Step 25

- When the design is complete, remove the project from the hoop.
- Trim the stabilizer 1/4" - 1/2" outside the design.
- Stitch the remaining puzzle pieces.

ASSEMBLY

□ Step 26

- Rinse each piece in warm running water until the puzzle pieces are only slightly tacky.
- Place right side down on a non-stick surface to dry. Parchment paper or a cooling rack work well. Dry completely.
- Once dry, press right side down on an OESD Perfect Embroidery Press Cloth.

□ Step 27

- The project is complete. Enjoy!

ATTENTION

When printing this document, any page scaling or page fitting options in your print dialog box must be turned OFF or set to NONE so that your files will print out at their actual size. Images not printed at actual size will not function as intended.

TO SAVE PAPER

Only print the desired image by navigating to the image's page, go to File > Print and select "Current page" in the print dialog box. Repeat for each desired image.
