General Instructions

The applique instructions, included in the collection, are general instructions. For demonstration purposes, a sample design that best demonstrates the technique is shown. Design PK10092-01 is shown here. Fabric and thread requirements will vary by design, but the general technique is the same. Applique technique shown is cut in place. Pre-cut applique patterns are included at the end of the instructions. The instructions show embroidering the design on a tea towel. The stabilizer selected is partially dependent on base fabric and might change when embroidering the design on a different fabric type.

Note: Some thread colors in instructions have been changed or digitally enhanced for better visibility.

Step 1

- Cut the novelty applique fabric 1/4" - 1/2" larger than the applique patterns.
- Fuse one layer of SoftWeb to the wrong side of the applique fabric.
